

Superintendent Report  
October 26, 2015

At the last inservices, all staff were engaged in trainings that will help with student achievement. I am very proud to see all the staff actively engaged in the in-service. Our staff have embraced the changes very well. Eventually we will see student achievement continue to move forward. It all takes time.

The political season is beginning to start rolling. There have been no new rulings with the courts as of right now. The Supreme Court will hear arguments in the schools vs state case in early November. As this continues to move along I will keep you up to date with the happenings. There are already some conversations happening about budget cuts if the revenues continue to fall. Once again, only time will tell.

Middle school girls basketball has begun. First game will be October 22nd. All other high school sports are in the final stages. Playoffs will happen quickly and the win or go home attitude will be setting in. Our athletics have once again performed at a high level. Very proud of what our young athletes have accomplished. The real world challenge team is nearing their competition. If you remember, the group that usually allows them to travel to Washington DC did not come up with the funds to send our student there. Although they were disappointed, our students have persevered and are coming up with their plan. More on this later.
