

Highland Park ISD

School Health Advisory Council

SHAC is an advisory group of individuals who represent different segments of our community and school. The HPISD SHAC meets at least 4 times a year to discuss areas of health education curriculum. They make recommendation to the Board of Trustees on issues concerning school health. The committee approves of the coordinated school health program; consult with the Superintendent or designee concerning issues, concerns, reports, and recommendations to the Board of Trustees, and consult with the district in the development of a comprehensive health education curriculum.

HPISD SHAC Vision Statement

All HPISD students will grow academically, socially, and physically to their full potential.

HPISD SHAC Mission Statement

The mission of HPISD School Health Advisory Council (SHAC), in partnership with the staff, parents, and community, is to advise the HPISD Board of Trustees on coordinated and age appropriate school health programming. The SHAC shall raise the awareness and increase participation of positive health practices and activities, thus promoting "*Healthy Lifestyles*".

HPISD SHAC Philosophy Statement

The HPISD SHAC believes that students cannot achieve their full potential unless they learn the importance of being physically fit and make a lifelong commitment to apply what they learn to their lives. This committee is dedicated to working together with the school and community through recommendations to the Board of Trustees to help provide students every opportunity to become strong healthy adults.

Membership Recruitment

Community members and parents of HP are all invited to attend scheduled SHAC meetings. If you are interested in becoming a part of our SHAC please notify Michelle Walls RN at 322-3760. You can also ask any of our members about meeting times and dates. We would love your input.
