

DON'T LET STAPH GET UNDER YOUR SKIN

FOOT SPA PRECAUTIONS

- DO NOT** utilize foot spa if you have or suspect you have a skin infection.
- DO NOT** have any type of hair removal service on your legs 24 hours prior to pedicure.
- DO NOT** utilize foot spa if you have broken skin or lesions, such as cuts or nicks.
- DO NOT** utilize foot spa if there is standing water in foot spa. Ask to see cleaning log.

MANICURE AND PEDICURE PRECAUTIONS

- DO NOT** get a manicure or pedicure if you have or suspect you have a skin infection.
- DO NOT** have any type of hair removal service on your legs 24 hours prior to pedicure.
- DO NOT** get a manicure or pedicure if you have broken skin or lesions, such as cuts or nicks.

Manicure and pedicure implements should be cleaned and disinfected between customers.

All metal manicure and pedicure implements must be sterilized by autoclave, dry heat sterilizer or UV light. The sterilizer must be listed with the FDA.

A clean towel must be used on each customer.

A licensee must wash hands with soap and water between clients.

IF YOU HAVE ANY DOUBTS ABOUT THE CLEANLINESS OF THE SHOP/SALON OR THEIR ADHERENCE TO SANITATION REQUIREMENTS FOR MANICURES AND PEDICURES, LEAVE.
