VOLUME 9

MARCH 9, 2018

Campbell's Hoot & Holler

Sunday is the HSO BINGO fundraiser. A lot of work has gone into this event. I would like to give a shout out to our HSO officers and the BINGO committee. The organizing has been great! Thanks to all the donations, selling of raffle tickets, and then attending Sunday. This is a huge fundraiser for our school and the students and teachers appreciate the generosity! I'm looking forward to being able to say, "BINGO!"

I can hardly believe that we are in our last nine weeks of school. It's not just March madness for college

basketball, but also here at school. State assessments are right around the corner and our students and teachers have been working hard to prepare for them. Tips and ideas for being successful on these tests will go home when we come back from Spring Break. Grades 3-8 will take math and language arts assessments. Our 8th grade students are hit hard this year with having to take language arts, math, science and social studies. 6th grade also takes social studies and 5th grade also takes science.

Enrollment for kindergarten and preschool has been underway for a while. The screening process for kindergarten has changed, so if you have a student going

into kindergarten next year, we ask you to attend Kindergarten Round-Up on March 27th at 6:30 in the cafeteria. What an exciting time for our little ones (and parents too)!

Spring fever is actually a thing! We've had to have several reminders to students on following expectations and being kind. Thanks for the continued support at home stressing the importance of treating each other with respect and kindness. Extra reminders never hurt and it is always wonderful when they hear the same speech at home.

Hope to see you all at BINGO Sunday!

Jenny Campbell, Principal

The smell of sunscreen, the wind in our hair, and the warmth of the sun...hmmm, must be track season! Good Luck this season to all our middle school track students and also to those participating in track club. Run like the wind!

8th Graders trip to Topeka as pages. They had a great experience!
