Junior High and High School Parking Lot Changes: Effective Immediately

Due to construction near the Porter Junior and Senior High School, we need to make adjustments to our north teacher parking lot and east student parking lot area. Until construction is cleared, students who drive to campus will need to park across the street at the park. Students will be notified when they can begin parking in the east student parking lot. Please do not park in the north parking lot as this area is reserved to teacher parking. As a friendly reminder, please make sure your student has received a parking permit from the High School office if they are driving to campus.

To improve traffic flow and for student safety, all students must be dropped off before school and picked up after school in the car rider line located near the Superintendent's office on the south end of campus. All car riders will be directed to be dropped off and picked up through the car rider line area effective immediately.

We hope to make it safer for you to get your kids to and from school and also making it more convenient if possible to do so safely. We understand there will always be some issues that arise when doing something new, and hope to solve any issues that come up quickly. We ask for your help in getting this started as safely and efficiently as possible. Thank you so much for your help and support!

Drop-Off Line Directions (Before School)

Parents can turn on the road on the south side of the school and follow it down towards the end of the road and turn into the school parking lot by the superintendent's office. Parents will then pull forward toward the open walk through gate and let their child or children out. After letting your child out you can continue forward through the parking lot to the highway entrance. There will be a teacher or administrator at the walk through gate as you let your children out to be sure they make it to the cafeteria or class safely before school starts.

Pick-Up Line Directions (After School)

We will open the large gate on the south side of the school; cars will not be allowed to enter there but will pick up their children who will be waiting at the gate. To enter the pick-up line parents will turn onto the road on the south of the school near the First Baptist Church and they will follow that road to the end and pull in to the school parking lot. Parent will follow up to the gate where their children will be waiting. They will then follow the parking lot out to the highway.

We hope these changes will be beneficial to you and also help with safety for students and parents. Thank you so much for your support in helping our school in being the best possible place for our kids!

Mr. Walker

JH/HS Principal
