

Guiding Principles

Vision Statement

The Magnet Cove School District, in collaborative partnership with families and community, will provide a secure environment of educational excellence where all belong, all learn, and all succeed.

Purpose Statement

"Magnet Cove School District is committed to educating the whole child by creating leaders, one child at a time. As a community of students, families, teachers, administrators and business partners, we will intentionally work to: give students an opportunity to be leaders; build relationships between students, faculty, family, and community friends; complete academic requirements of the Magnet Cove School District and the Arkansas Department of Education; reinforce school values such as service to the community; and create lasting memories for students."
