BUSINESS MANAGER - PAT SEELY

LEFORS INDEPENDENT SCHOOL DISTRICT BELIEF STATEMENTS

As professionals, we will create an environment of safety, embracing their learning style within the classroom in order to motivate, challenge, nurture, and inspire our students to become independent thinkers and prepare them to aim high, reaching their full potential.

We believe, at all grade levels, that technology opens doors which cannot be reached in a regular classroom environment; therefore, we will stay on the cutting edge of technology for the present and future career paths.

We believe in working as a team and creating a relationship with our parents by involving them in every aspect of their student's learning with pride, purpose, and progress.

We believe we need to work as a community to not only determine where we are as a district, but where we must go to be successful. We can achieve this by doing what is right, practicing tolerance, fostering diversity, and leading by EXAMPLE!

We believe a learning community thrives in a supportive, safe, caring, disciplined, and structured environment where mutual respect exists; where students are able to learn from their mistakes while reaching their full potential!

We believe LISD communication will always be respectful, effective, and beneficial with our students, parents and staff!
