

IEEE SMART TECH METRO AREA WORKSHOP SERIES

Professional workshops in a learning environment

Coming to Coleman University in San Diego on December 8, 2017!

IEEE Smart Tech Workshops provide a unique learning experience with topics on the cutting edge of technical innovation today.

Focused on providing an opportunity for participants to learn first-hand from the field experts, each panel is a springboard to a deeper understanding of technology and its myriad applications and potential for innovation.

The one-day intensive workshop will cover the best in SoCal Tech. Do not miss it! Our panel speakers are the leading experts in their fields. See each panel's speakers online.

Workshop topics include:

- Big Data Science & Engineering
- Intellectual Property & Patents
- Latest Trends in Employment and Career Planning
- Autonomous and Connected Vehicles
- The Commercialization of 5G
- Smart Cities Panel
- Latest Trends in UAV
- IOT Technologies and Applications
- Blue Tech

Kicking off the day will be a **keynote address from John Black - SVP Engineering and General Manager Floor Care Business at Brain Corp, entitled "Integration of Robotic A.I. into Complex Human Environments."**

This will be followed by an **Executive Session on Technology Now & Next** and a vibrant panel on **Intellectual Property, Innovation & Patents**, before the panel sessions begin.

IEEE Members save on registration!

A full day of panel sessions, plus meals and evening reception is only **\$99 for IEEE members** (\$119 for non-members).

What past attendees say about Smart Tech events:

"This was one of the best investments that I have made in my professional life. Thank you for making this opportunity available for me."

"Events like this significantly increase the value of IEEE membership."

"I was very impressed with the instructors. They seemed to enjoy being there and really stressed that IEEE's goal is to serve its members. They were very approachable and seemed to be interested in speaking with you."
