

MangoTasks Features

Get organized. With the world's first collaborative TO DO lists that lets teams share in real-time.

Good for individuals. Great for teams. Forget drafting emails and scheduling meetings to assign tasks or obtain status reports. With Mango, you'll see at a glance what your team's working on, get real-time status updates and easily see which tasks have priority. Get organized and more informed with MangoTasks.

10 Ways to use MangoTasks

Eliminate internal staff meetings. Real-time, open collaboration allows for faster decision making and helps prevent duplicated efforts.

Keep the team informed. Post updates and access real-time activity feeds to keep colleagues informed of task status.

Get organized, stay organized. Create, view, refine, edit, reassign, and establish urgency for tasks at any time.

Attach files and ideas to tasks. Assign documents to review, update files, approve files with ease.

Collaborate with the team instantly. One click launches private instant messaging or a group chat that is auto-archived so everyone has record of the discussion.

Access tasks and updates from anywhere. View and make status updates from mobile, web or desktop app.

Create transparency and accountability. Colleagues can clearly see who is responsible for what.

Create milestones and track milestone progress. Seamlessly integrate with other daily activities.

Part of the Suite. All Mango apps work great alone and are built to work even better together.

Assign multiple reviewers to a task. Get the feedback you need from all relevant stakeholders.
