

GIVE STUDENTS THE  
BEST CHANCE TO SUCCEED

**TEACHERMATCH**<sup>®</sup>

BECAUSE TEACHERS MATTER MOST

# Transform the Way You Hire — Starting Today.

**TeacherMatch** was founded by a group of dedicated, passionate educators who understand that *teachers are the most critical factor in:*

- Fostering whole student development
- Increasing measurable student academic growth
- Advancing school performance and reputation

Our team includes a past superintendent of one of the largest and most challenging school districts in America — as well as nationally awarded teachers, principals, administrators, policy makers, and professional development experts in both public and private education.

## OUR RESEARCH PARTNERS

Northwest Evaluation Association

**TeacherMatch** is powered by the internationally respected leader in student performance research, analysis, and assessment.

High-caliber analytical and program design expertise provided by **The University of Chicago** — along with a wealth of profound academic insights.

Founded by researchers from the **Value-Added Research Center of the University of Wisconsin-Madison** — EA develops and implements measures of student growth.

# Introducing ... The 21st Century Tool for Predicting Your Next Great Teacher

**TeacherMatch** has created *a platform that predicts the impact of teacher candidates on student achievement*. Along with our research partners, our team of highly skilled psychometricians, predictive modeling specialists, and PhDs from various disciplines has created a first-of-its-kind, research-based hiring assessment tool called **EPI: Educators Professional Inventory**. EPI is designed to *identify the top candidates for any position you need to fill*.

When we join your team, a **TeacherMatch Partner** will work with you to:

- Integrate EPI with your existing HR platform
- Provide on-site or online training
- Make sure your EPI gets smarter and more efficient year after year

The revolutionary **TeacherMatch EPI** is built on evidence-based research utilizing hierarchical linear and sequential equation modeling — drawn from decades of education research and data from studies of diverse school districts across the country. Our research has identified four core performance factors or "success indicators" for predicting highly effective teachers who deliver student growth.

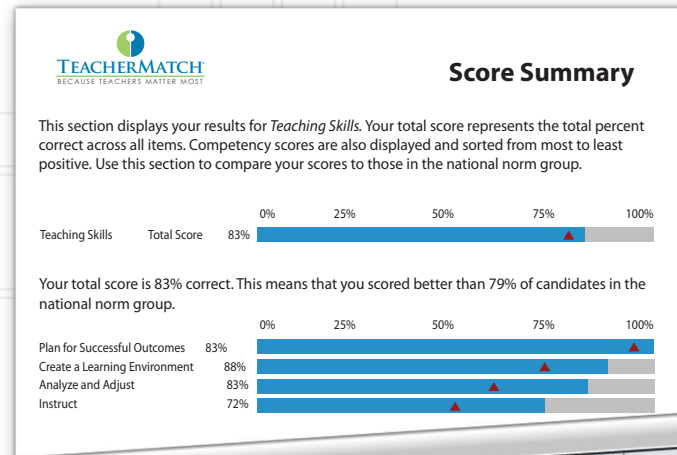

# EPI EDUCATORS PROFESSIONAL INVENTORY

## How It Works

- 1 All teacher candidates complete the intuitive, easy-to-navigate online portfolio and EPI.
- 2 Real-time portfolio data is added to the EPI, then sorted and ranked with other candidates.
- 3 You instantly view a listing of the top candidates *most likely to deliver student growth!*

What's more, candidates you offer positions to also receive a **Professional Development Profile (PDP)**. Based on their EPI results, it provides specific, actionable steps they can take to grow their teaching skills and set them up for success in the classroom. It also includes a template with guidelines for preparing a customized plan to enhance your existing PD programs.

Professional Development Profile

Candidate	Attitudinal	Cognitive Ability	Teaching Skills	Composite Score
Angela Lee	90%	88%	90%	90%
Robert Alexander	90%	88%	90%	84%
Mary Connors	66%	88%	86%	80%
Ray Wilson	90%	38%	81%	79%
Rosa Gomez	79%	75%	79%	79%
Jean Bradley	78%	50%	76%	74%
Anne Gordon	66%	75%	76%	73%
Stacey Baus	52%	38%	81%	67%
Gerry Cordova	59%	63%	48%	53%

The  
SCIENCE  ART  
of Hiring = A POWERFUL  
PARTNERSHIP

At **TeacherMatch**, we believe that we've taken a groundbreaking step forward in advancing the quantitative or scientific aspects of hiring. And we know that every school has established criteria, expectations, and interviewing processes that address the art of hiring — fine-tuned over years of experience and practice.

Our desire is to create a powerful partnership that enhances *what you do best with what we do best*. To that end, **TeacherMatch** adds two "success links" to the human capital chain that will help ensure you make the best hires — with teachers prepared to succeed.
