(seed)⁺ Grape seed enriched Shaving Bar is featured in the Beauty Scoop section, January/February, 2012!

Raising the Bar

Aerosol shaving creams aren't the greenest products in your bathroom (they can release volatile organic compounds). For a more earth-friendly shave, try a soap-free shave bar instead. "They have a smooth lather that helps the razor glide easily over the skin, while oils help soften," says Meghan O'Brien, M.D., consulting dermatologist for Physicians Formula. Try Seed Grape Seed Enriched Shaving Bar (\$4, at drugstores).

(seed) High performance shaving bar, for men and women, features an all natural formula including grape seed oil, primrose seed oil, shea, and aloe. This proprietary blend offers rich, creamy lather and wonderful glide for a smooth, non-irritating shave. Skin is left feeling soft and moisturized. It is portable, easy to use, and long-lasting.
