(seed)⁺ Grape seed enriched Healthy Hand Cream is featured on youbeauty.com in their Gluten-Free Body Care gallery!

Dr. Mehmet Oz and Dr. Michael Roizen created YouBeauty.com as the first website to explore the link between beauty and health.

“ This new brand takes its name from the concept of using 100 percent natural, seed-based ingredients. The hand creams contains oils of grape seed, sunflower seed and jojoba seed, as well as emollient shea butter to moisturize and repel dehydrating water as you wash your hands through the day. Look for the line to roll out to Duane Reade and Safeway stores this season.

Seed Healthy Hand Cream in Invigorating Citrus, Relaxing Lavender of Fragrance Free, \$7.99 each.
