

ALOE VERA PLUS™

Used worldwide in natural beverages and traditional remedies, the soothing aloe vera plant has been employed — both topically and internally — for about 4,000 years to support health, stamina, and vitality. Research is beginning to validate many traditional uses of this succulent plant, including its internal use to support gastrointestinal health, a strong immune system, normal blood sugar levels, and normal inflammatory response from day-to-day activities. A refreshing break from daily stress, NeoLife's Aloe Vera Plus features pure aloe vera juice, our special 3x Herbal Tea Blend (ginseng, "nature's energizer," plus chamomile and passion flower to calm and relax), important electrolytes, and vitamin C. A "glycemic edge" beverage, Aloe Vera Plus is a delicious, natural way to revitalize so you can best meet the mental and physical challenges of your day.*
