SUPER KIDS in the MAKING!

OMEGA-3 LIQUID IS O-FISH-ALLY HERE!

It's no secret that Omega-3s are critical for optimal health. The latest science boasts head-to-toe benefits from learning ability, concentration and brain development, to healthy eyes, skin, hair and nails. Sadly, most children ages 1 to 5 only eat fish once a month or less. This deficiency may be undermining your child's health and development.

We're sick and tired of seeing kids that are sick and tired, as well as product after product on store shelves that taste great but lose nutritional value in the process! Parents, we have great news for you — NeoLife has O-Fish-ALLY launched Omega-3 Liquid, a delicious bottle of omega-3 goodness. This is the first and only liquid omega-3 supplement on the market with standardized amounts of all 8 omega-3 found in human nutrition and created with a promise; ultrapure and potent fish oil screened for 200+ potential contaminants and no artificial anything. It is infused with a hint of natural lemon making it an easy way to add omega-3s to your children's diet.

Discover for yourself why kids love this stuff, straight from the bottle or paired with your favorite dishes. Invite your friends, family and loved ones to attend this seminar and learn how you can provide your children with superior nutrients to help them be their best!

When:

Where:

Who: Open to Everyone!

We look forward to seeing you!

Liquid Omega 3 - #3503
