

Gives best laundry results when used as directed for indicated water conditions.

LAUNDRY COMPOUND

Each scoop equals approximately one ounce.

Top Loading Agitator

Quantity to Use	Type of Water	Hardness in Parts per Million*
2 Scoops	Soft Water	0-50
2 to 3 Scoops	Moderately Hard Water	50-100
3 to 4 Scoops**	Hard Water	100-200
4 Scoops with N-C-B**	Extra Hard Water	Over 200

Front Loading Tumbler

Quantity to Use	Type of Water	Hardness in Parts per Million*
1 Scoop	Soft Water	0-50
1 to 2 Scoops	Moderately Hard Water	50-100
2 to 3 Scoops**	Hard Water	100-200
3 Scoops with N-C-B**	Extra Hard Water	Over 200

*Calculated as Calcium Carbonate

**Add 1/2 to 1 oz. N-C-B (Natural Cleaning Booster) in hard and extra hard water areas or for extremely stained or soiled items.

PHOSPHORUS CONTENT: This G-One formula averages 6.1% phosphorus in the form of phosphates, which is equivalent to 2.8 grams per 2 scoop use level.

CAUTION: Contains sodium silicate and nonylphenol ethoxylate. Avoid contact with eyes, mucous membranes or prolonged skin contact. For eye contact flush with water for 15 minutes. Rinse off skin immediately. If irritation persists or product is swallowed, consult a physician.

The Surfactants (sudsing/cleaning agents) in G-One Phosphate Free are biodegradable. This means that these ingredients are broken down into simpler compounds by natural biological action. This capability helps to eliminate suds and foaming problems in our lakes and streams.

CAUTION: Contains sodium carbonate, sodium silicate and nonylphenol ethoxylate. Avoid contact with eyes, mucous membranes or prolonged skin contact. For eye contact flush with water for 15 minutes. Rinse off skin immediately. If irritation persists or product is swallowed, consult a physician.
