Oxygen Bleach

Bleachable soils encountered in household and institutional laundry consist of a wide variety of substances.

So it is important that the bleaching agent is effective at removing stubborn spots while FIRST AID: being colour safe and even brightening whites and coloured fabrics.

Unlike chlorine based bleaches, Oxygen Bleach can be added directly to a laundry compound or to the cycle.

Use of dose variations dependent on the degree of soiling, will not damage fabrics or adversely affect textile dyes.

Available Exclusively From NeoLife Distributors

Ethoxylated Fatty Alcohols, Optical Brighteners, Sodium Carbonate, Sodium Perborate. KEEP OUT OF REACH OF CHILDREN.

Wash hands with soap and water after use. If swallowed, rinse mouth with water. Do NOT induce vomiting. Immediately seek medical attention. If in eyes, rinse cautiously with water for several minutes. If irritation persists, seek medical attention. Store in a cool dry place.

GOLDEN HOME CARE

Oxygen Bleach

Oxygen Bleach

Golden Oxygen Bleach is water soluble, economical and biodegradable. A colour safe bleaching agent to remove

severe spots and brighten fabrics. Directions for use:

Use up to 1/2 scoop per 5 kg wash load. Add to G1 Laundry Compound or directly to the wash cycle.

Do not apply directly to fabric. For optimal benefit, water temperature must be 60°C.
