

Alpaca Health & Warranty Requirements

All Eligible Alpacas must meet the following requirements:

1. Certificate of Veterinary Inspection (CVI) dated within **25 days** of the first day of the Auction;
2. Negative TB test within 30 days for Eligible Alpacas over 6 months of age;
3. Negative Brucellosis blood test within 30 days for Eligible Alpacas over 6 months of age;
4. Alpaca Registry, Inc. (ARI) name and microchip number for each Eligible Alpaca must be on the CVI. Bring a copy of the CVI for Consignee to retain; and
5. A Negative PCR test for BVDV (Bovine Viral Diarrhea Virus) is required for each Eligible Alpaca entering the Auction grounds, in addition to other health requirements. Microchips will be checked and all health papers must include the Eligible Alpaca's ARI name, microchip number and the negative PCR test results for BVDV.

Note: Blue Tongue testing is optional, but may be required for transportation out of state.

Bred Females must have their pregnancies reconfirmed 25 days prior to the sale and pregnancy confirmation (i.e., progesterone or ultrasound) must be submitted to Consignee prior to the sale. All Males must have been examined by a certified veterinarian and declared to have anatomically normal reproductive organs.

Consignors are responsible to feed and water their alpacas at all times until delivery to the buyer after sale and are required to assist the buyer with transportation arrangements.

Consignor is required to offer the following warranties for each Eligible Alpaca:

1. **PROVEN PRODUCERS:** A proven producer is a female alpaca, which has already given birth to a cria. Proven producers will be considered to be fertile. There are no expressed or implied warranties for proven producers.
2. **CRIS OFFERED WITH DAMS:** There are no expressed or implied warranties for crias sold with their dams.
3. **BRED MAIDENS:** A Bred Maiden is a female alpaca, which has not yet had a cria and is determined to be pregnant. If the cria is not born alive, the buyer will receive a free breeding to a male alpaca owned by the Consignor. There are no other expressed or implied warranties for Bred Maidens.
4. **MAIDEN FEMALES:** Young female alpacas are guaranteed to have the ability to become pregnant by the time they reach 32 months of age and to give birth to a live cria.
5. **ALL FEMALE ALPACAS** sell with a live birth guarantee, which means that should the alpaca not have a live birth, the respective Consignor will rebreed for free. Such warranty ends after the first birth.
6. **PROVEN MALES:** A Proven Male alpaca is a male alpaca which has impregnated a female alpaca or which has been tested fertile. Proven Males will be considered to be fertile. There are no expressed or implied warranties for Proven Males.
7. **YOUNG MALES:** Young Males have been checked by a veterinarian and have been found to have anatomically normal reproductive organs. Young Males are warranted to have the ability to impregnate a female by the time the male is 36 months of age.
8. **YOUNG FEMALES & MALES:** If Consignor is notified in writing by the buyer's veterinarian of any claimed abnormality within one year of sale, Consignor will (1) replace the alpaca with an alpaca of equal quality; (2) give the buyer credit toward the purchase from Consignor of another alpaca in an amount equal to the total purchase price of the alpaca; or (3) give a refund of the purchase price paid at the auction. The foregoing is the full extent of the responsibility of the Consignor, and by way of illustration and not limitation, in no event shall the Consignor be liable for incidental or consequential damages, or for any changes or expenses of any nature incurred without Consignor's written consent.
