Christian Life for Senior High

Throughout the night, youth are exposed to so many areas of the faith life.

We begin our evening with Worship. In worship, we have our announcements, share communion, and have a short devotion. Our emphasis is on the prayer life of our youth. They are free to bring up real concerns in their life and the life of their friends so that we can pray together as a community of faith.

Each week we share dinner together. This is an important fellowship and learning time. The food is served family style with real dishware.

Christian Life follows in which youth focus on their relationship with God through journaling and prayer. They study about how to live the Christian way of life. Youth explore topics that are relevant in their daily lives.

Church Life teaches our youth about participation in various forms of the life of the church. They may be in band or drama where they offer what they learn in our Sunday and Wednesday worship services. Prayers and squares teaches youth to pray for others through the art of quilt making. Creative arts covers many areas like making bread for communion. Outreach teaches our youth to reach beyond themselves and out into the community to help others. Our Worship team plans our worship services on Wednesday nights and Youth Sunday. They will be learning multimedia ministry this year.
