NOTE:

Sand is not included. You can purchase it separately from most home improvement and hardware stores.

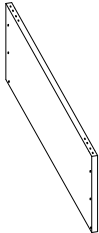

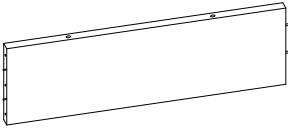

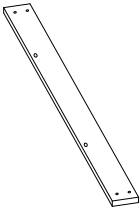

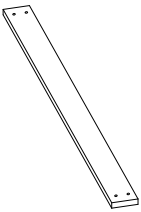

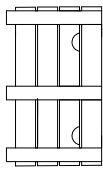

You will need approximately 750 pounds of sand to fill the sandbox 6" deep. If you want the sandbox to be deeper, assemble the sandbox and then mark the ground following the interior edges of the box.

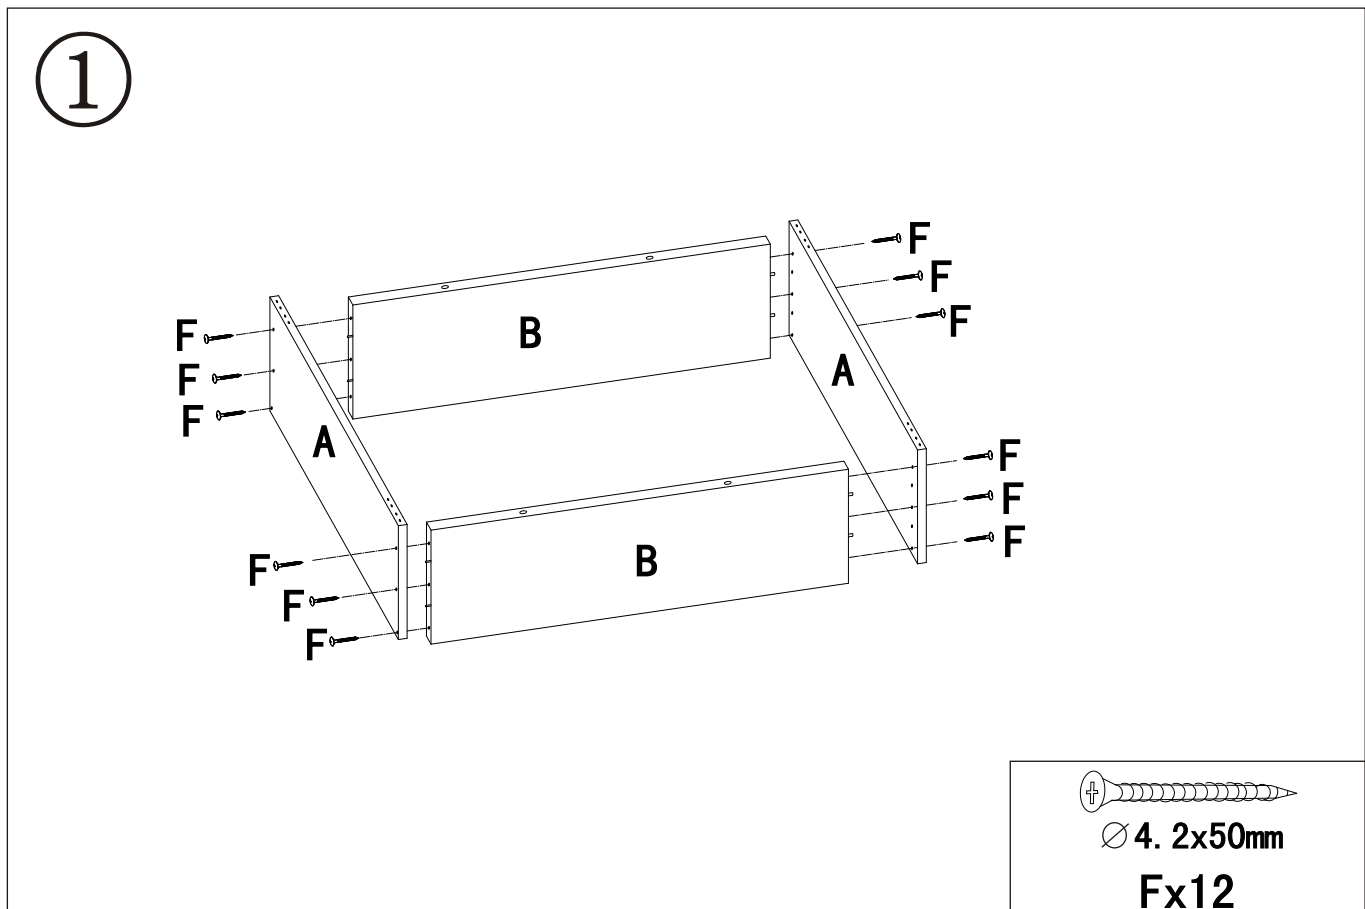

Move the sandbox aside and excavate within the marked area to the depth that you desire. Place the sandbox frame around the excavated area, and fill with the amount of sand desired.
