

VIKING

PROFESSIONAL SERIES FREESTANDING RANGES

Professional Performance for the Home™

The first Viking range introduced professional performance to the home in 1987. And a culinary revolution began. Mere foodies were transformed into veritable chefs – outfitted with the power and features previously reserved for restaurant kitchens. Of course, imitators soon followed. But the Viking range continued to reset the benchmark for ultra-premium kitchens with each new model and refined feature.

Today the full line of Viking ranges offers unrivaled power and performance. The largest oven capacity. The largest convection fan. Commercial-strength infrared broiler. And of course, precision control of the most powerful gas burners on the market. Or, if you prefer, induction or infrared electric elements.

Only a Viking kitchen offers the features, sizes, and options to cook anything you like, any way you like.

Viking freestanding ranges

These are the icons – the style and power that introduced professional performance to the home.

We've made quite a few upgrades over the years. But these are still the ranges people see when they dream of a professional kitchen. It's just a question of how big you dream.

VGIC Classic Gas Range

- 24" width; 24" depth
- Gas oven
- Gas open surface burners

VGIC Custom Gas Ranges*

- 30" and 36" widths; 24" depth
- Gas oven
- Gas open surface burners

VGCC Custom Gas Ranges*

- 30", 36", 48", and 60" widths; 24" depth
- Gas oven(s)
- Gas sealed surface burners

VGSC Custom Gas Ranges*

- 30", 36", and 48" widths; 24" depth
- Gas self-cleaning oven(s)
- Gas sealed surface burners

*Shown with optional backguard accessory

Viking freestanding ranges

Gas or electric? Both? Neither? Custom Series ranges deliver unrivaled performance for every cooking style and fuel type.

VDSC Custom Dual Fuel Ranges*

- 30", 36", 48", and 60" widths; 24" depth
- Electric self-cleaning oven(s)
- Gas sealed surface burners

VDSC Custom Dual Fuel Electronic Control Ranges*

- 30", 36", and 48" widths; 24" depth
- Electric self-cleaning oven(s)
- Gas sealed surface burners

VESC Custom Electric Range*

- 30" width; 24" depth
- Electric self-cleaning oven
- Electric surface elements

VISC Custom Electric Induction Range*

- 30" width; 24" depth
- Electric self-cleaning oven
- Induction surface elements

*Shown with optional backguard accessory

Classic gas open burner range

VGIC model

Even when space is at a premium, you can still have an ultra-premium kitchen. The Classic range offers the perfect culinary solution for high-rise apartments, condominiums, or vacation homes. Outstanding features including VariSimmer™ precision burner control, ProFlow™ convection cooking, and Gourmet-Glo™ infrared broiler pack professional power into every single square inch.

Commercial-type cooking power

- **Exclusive** – VariSimmer setting for all burners
- Automatic electric spark ignition/re-ignition; surface burners light at any position on the knob and re-light if extinguished, even on lowest setting
- Large-capacity oven with six rack positions (see specifications for oven interior dimensions)
- Natural airflow baking with 30,000 BTU U-shaped burner – more power for quicker heatup and even heat distribution
- 1,500 degree F, closed-door, Gourmet-Glo infrared broiling with 15,000 BTU burner
- Four functions – two-element baking with fan-forced air, infrared broiling, convection dehydrating, and convection defrost
- All convection modes utilize the ProFlow convection air baffle, which is specifically designed to ensure balanced airflow for even heat distribution
- Heavy-duty, porcelain broiler pan/grid
- One oven light for excellent visibility throughout the oven cavity
- Convection fan switch conveniently located on control panel
- Oven "on" indicator light
- Commercial-style bezels around control panel knobs

Easy operation and cleanup

- Large, easy-to-read knobs with childproof, push-to-turn safety feature
- Heavy-duty oven door handle
- Exclusive SureSpark™ ignition system – no standing pilot to re-light, waste energy, or add extra heat to the kitchen
- Heavy-duty, porcelainized, cast-iron, removable surface burner grates provide continuous front-to-rear, left-to-right surface for easy movement of large pots
- Stainless steel landing ledge with solid, welded, seamless finish
- High-density insulation contains heat within the oven cavity for energy savings and performance
- Easy-to-clean porcelain oven interior
- Porcelainized, cast-iron burner caps
- Removable porcelain grate supports with separately removable, dishwasher-safe porcelain burner bowls
- Removable pull-out drip tray with roller-bearing glides for smooth operation

VGIC245
Gas 24" Wide Range

VGIC245 – Gas 24" wide range

Convection baking circulates the air around the golden bread loaves as the precise heat steadily bakes them.

Custom gas open burner ranges

VGIC models

These models combine the features of the re-engineered and refined Custom Series with the performance of a commercial-style open burner system. VariSimmer provides precise and reliable control of even the most delicate settings. And the large capacity oven delivers even more professional performance with the powerful Gourmet-Glo infrared broiler and ProFlow convection cooking.

Commercial-type cooking power

- 15,000 BTU stainless steel burners with porcelain/cast iron caps
- **Exclusive** – VariSimmer setting for all burners
- **Exclusive** – all burners equipped with SureSpark ignition system for consistent and reliable ignition
 - Automatic re-ignition; surface burners light at any position on the knob and re-light if extinguished, even on lowest setting
- Heavy-duty metal knobs with stainless steel finish shipped standard
- **Exclusive** – combination of single 30,000 BTU U-shaped burner and infrared broiler with SureSpark ignition system

- Gourmet-Glo infrared broiler provides intense searing heat for broiling applications
- Large-capacity oven with six rack positions
- Six functions – natural airflow bake, convection bake, infrared broil, convection infrared broil, convection dehydrate, and convection defrost
- All convection functions utilize the ProFlow convection air baffle, which is specifically designed to ensure balanced airflow for even heat distribution
- Convection fan switch conveniently located on control panel
- Heavy-duty broiler pan/grid
- Two halogen oven lights for excellent visibility throughout the oven cavity

Easy operation and cleanup

- Removable pull-out drip tray with roller-bearing glides for smooth operation
- Removable grate supports with separately removable, dishwasher-safe porcelain burner bowls
- Burner caps are easily removable for quick cleaning
- Heavy-duty, porcelainized, cast-iron removable surface grates provide continuous front-to-rear, left-to-right surface for easy movement of large pots
- One-piece control panel assembly easily removes for convenient front access

The 18,000 BTU Gourmet-Glo infrared broiler provides professional broiling power in a residential range.

VGIC530
Gas 30" Wide Range

VGIC536
Gas 36" Wide Range

VGIC530 – Gas 30" wide range

Automatic re-ignition surface burners re-light if inadvertently extinguished at even the lowest setting, guaranteeing a flawlessly prepared meal every time.

Custom gas sealed burner ranges

VGCC models

The Custom Series sealed burner ranges up the ante on performance with a roaring 18,500 BTU surface burner available on certain models and a powerful 30,000 BTU U-shaped burner in the large-capacity oven. And seemingly subtle design cues like beveled landing ledge and full-width door make an impressive difference in the kitchen.

Commercial-type cooking power

■ **Exclusive** – VSH™ (VariSimmer-to-high) Pro sealed burner system

- TruPowerPlus™ 18,500 BTU front right burner (select 36" and 48" wide models only)
- All other burners are 15,000 BTUs

■ **Exclusive** – VariSimmer setting for all burners

■ **Exclusive** – all burners equipped with SureSpark ignition system for consistent and reliable ignition

- Automatic re-ignition; surface burners light at any position on the knob and re-light if extinguished, even on lowest setting

■ Heavy-duty metal knobs with stainless steel finish shipped standard

■ **Exclusive** – combination of single 30,000 BTU U-shaped burner and infrared broiler with SureSpark ignition system; left oven in 48" wide model has one 15,000 BTU burner

■ Gourmet-Glo infrared broiler provides intense searing heat for broiling applications (right oven only in 48" wide model)

■ Large-capacity oven with six rack positions (see specifications for oven interior dimensions)

■ Six functions – natural airflow bake, convection bake, infrared broil, convection infrared broil, convection dehydrate, and convection defrost (right oven only in 48" wide model)

■ All convection modes utilize the ProFlow™ convection air baffle, which is specifically designed to ensure balanced airflow for even heat distribution

■ Convection fan switch conveniently located on control panel

■ Heavy-duty broiler pan/grid

■ Two halogen oven lights for excellent visibility throughout the oven cavity

Easy operation and cleanup

■ **Exclusive** – one-piece tooled and porcelainized cooking surface for easy cleanup

■ Burner caps are easily removable for quick cleaning

■ Heavy-duty, porcelainized, cast-iron removable surface grates provide continuous front-to-rear, left-to-right surface for easy movement of large pots

Gas 30" Wide Range

VGCC536*
Gas 36" Wide Range

VGCC548*
Gas 48" Wide Range

VGCC560*
Gas 60" Wide Range

VGCC548-6G – Gas 48" wide
sealed burner range

ProFlow convection air baffle circulates air for
balanced heat distribution.

Blanchard finish on steel griddle/simmer plate retains cooking oils for stick-resistant cooking.

Open your own breakfast counter with the sizzling steel of the optional griddle.

Optional features available on
36", 48", and 60" wide models

Griddle/Simmer Plate – 12" or 24" wide

- Commercial-grade, machined steel construction with blanchard finish to retain cooking oils for stick-resistant cooking
- Thermostatically controlled for precise temperatures
- Cast grease trough can be easily removed from front of griddle for cleaning

Char-Grill

- Automatic electric spark ignition/re-ignition
- **New!** – porcelainized, cast-iron one-piece grate
- Porcelainized flavor-generator plates catch drippings and circulate smoke around food for outdoor-grilled flavor
- **Exclusive** – two-piece porcelainized drip pan holds up to three quarts of liquid
- Drip tray located beneath the burner catches any possible drippings not caught in drip pan

Custom gas sealed burner self-cleaning ranges

VGSC models

A self-cleaning gas range is a rare commodity to begin with. But the Custom models offer a truly unique combination of features with powerful burners, a single 30,000 BTU U-shaped oven burner, and interior halogen lighting – so you can admire your gleaming large-capacity oven.

Commercial-type cooking power

- **Exclusive** – VSH (VariSimmer-to-high) Pro sealed burner system
 - TruPowerPlus 18,500 BTU front right burner (select 36" and 48" wide models only)
 - All other burners are 15,000 BTUs
- **Exclusive** – VariSimmer setting for all burners
- **Exclusive** – all burners equipped with SureSpark ignition system for consistent and reliable ignition
 - Automatic re-ignition; surface burners light at any position on the knob and re-light if extinguished, even on lowest setting
- Heavy-duty metal knobs with stainless steel finish shipped standard
- **Exclusive** – combination of single 30,000 BTU U-shaped burner and infrared broiler with SureSpark ignition system; left oven in 48" wide model has 15,000 BTU burner
- Gourmet-Glo infrared broiler provides intense searing heat for broiling applications (right oven only in 48" wide model)

- Large-capacity oven(s) with six rack positions (see specifications for oven interior dimensions)
- Six functions – natural airflow bake, convection bake, infrared broil, convection infrared broil, convection dehydrate, and convection defrost (right oven only in 48" wide model)
- All convection modes utilize the ProFlow™ convection air baffle, which is specifically designed to ensure balanced airflow for even heat distribution
- Heavy-duty broiler pan/grid
- Four halogen oven lights for excellent visibility throughout the oven cavity

Easy operation and cleanup

- Self-cleaning porcelain oven
- **Exclusive** – one-piece tooled and porcelainized cooking surface for easy cleanup
- Burner caps are easily removable for quick cleaning
- Heavy-duty, porcelainized, cast-iron removable surface grates provide continuous front-to-rear, left-to-right surface for easy movement of large pots

The large capacity oven coupled with ProFlow convection heat ensures even the biggest bird browns perfectly.

- Drip tray located beneath the burner catches any possible drippings not caught in drip pan

The Char-Grill's flavor generator plates catch
and smoke drippings for genuine grilled taste.

Custom dual fuel sealed burner self-cleaning ranges

VDSC models

As every cook knows, perfection is a never-ending process. And the new Custom dual fuel sealed burner range is proof of that. With a spectrum of settings from delicate VariSimmer to a searing 18,500 BTUs, this is the most precise and reliable sealed burner system available. The range also offers the largest oven capacity and one of the fastest preheat times on the market. And a host of ultra-premium features will help you perfect even your most challenging recipes.

Commercial-type cooking power

- **Exclusive** – VSH (VariSimmer-to-high) Pro sealed burner system
 - TruPowerPlus 18,500 BTU front right burner (select 36", 48", and 60" wide models only)
 - All other burners are 15,000 BTUs
- **Exclusive** – VariSimmer setting for all burners
- **Exclusive** – all burners equipped with SureSpark ignition system for consistent and reliable ignition every time
 - Automatic re-ignition; surface burners light at any position on the knob and re-light if extinguished, even on lowest setting
- Heavy-duty metal knobs with stainless steel finish shipped standard
- **Exclusive** – largest oven cavity in the industry
- **Exclusive** – patented Vari-Speed Dual Flow™ convection system has the largest convection fan in the industry; the 8 1/2" fan works bi-directionally for maximum airflow and excellent cooking results
- Concealed 10-pass dual bake element provides precise temperature control (4-pass bake element in left oven of 48" wide model)
- Extra-large Gourmet-Glo glass-enclosed infrared broiler provides superior broiling performance
- Rapid Ready™ preheat provides one of the fastest preheat times, so your oven is ready to begin cooking when you are

- Oven(s) have six porcelain-coated rack supports and come standard with one TruGlide™ full extension oven rack and two standard oven racks in each large oven
- Three strategically located oven lights provide maximum visibility; one light in left oven of 48" wide model
- Heavy-duty broiler pan and tray with rack provide more roasting and broiling options
- High-performance cooking modes include bake, convection bake, TruConvec™ convection cooking, convection roast, broil, convection broil, convection dehydrate, and convection defrost; left oven in 48" wide model includes proofing mode

Easy operation and cleanup

- **Exclusive** – one-piece tooled and porcelainized cooking surface for easy cleanup
- Burner caps are easily removable for quick cleaning
- Heavy-duty, porcelainized, cast-iron removable surface grates provide continuous front-to-rear, left-to-right surface for easy movement of large pots
- Self-cleaning porcelain ovens
- Concealed bake element(s) make for easy cleanup of oven cavity

- **Exclusive** – two-piece porcelainized drip pan holds up to three quarts of liquid
- Drip tray located beneath the burner catches any possible drippings not caught in drip pan

Extra-large Gourmet-Glo glass-enclosed infrared broiler delivers enough power to perfectly sear the thickest porterhouse you can find.

Custom dual fuel electronic control ranges

VDSC models

Convenience and performance seldom walk hand in hand. But the remarkably easy-to-use electronic controls of this custom dual fuel range actually make even better use of its heavy-duty power and tremendous capacity. Knobs and push buttons offer both tactile control and advanced features. Mirrored displays reveal cooking and timer information, and then disappear when not in use. Very cool. But the 18,500 BTU TruPowerPlus burner instantly silences any question of style over substance.

Commercial-type cooking power

- Custom-designed electronic controller and display combine professional cooking features with the sleek styling and design of electronic controls
- Additional features and functions of the new custom-designed electronic controls:
 - Digital Clock – can be displayed or set to disappear when range is not in use
 - AutoRoast – automatically sears the outside of meats and then returns to the pre-set temperature in the standard Convection Roast mode
 - Meat Probe – offers perfect baking/roasting of fine meats
 - Timed Bake – set the oven to begin cooking up to 24 hours later and then drop into a 150° F HOLD mode when cooking time is complete
 - Timer – independent timer function can be used for timing items independent of the range oven
 - Oven Lock – this child protection function prevents the oven controls from being activated when the oven is not in use
- Custom Settings
 - Clock Format – choose between 12-hour or 24-hour clock display format
 - Degree Format – choose between Fahrenheit or Celsius temperature setting
- Brightness – increase or decrease the brightness of the electronic display
- Sabbath Mode – allows users belonging to religions with "no work" restrictions to program their oven to comply with the Sabbath requirement
- Showroom Mode – allows the range to be hooked up to a 120-volt electrical supply for showroom or display purposes
- **Exclusive** – VSH (VariSimmer-to-high) Pro sealed burner system
 - TruPowerPlus 18,500 BTU front right burner (select 30", 36", and 48" wide models)
 - All other burners are 15,000 BTUs
- **Exclusive** – VariSimmer setting for all burners
- **Exclusive** – all burners equipped with SureSpark ignition system for consistent and reliable ignition
 - Automatic re-ignition; surface burners light at any position on the knob and re-light if extinguished, even on lowest setting
- Heavy-duty metal knobs with stainless steel finish shipped standard
- **Exclusive** – largest oven cavity in the industry
- **Exclusive** – patented Vari-Speed Dual Flow convection system has the largest convection fan in the industry; the 8 1/2" fan works bi-directionally for maximum airflow and excellent cooking results
- Concealed 10-pass dual bake element provides precise temperature control

The front right TruPowerPlus burner delivers a roaring 18,500 BTUs.

- Drip tray located beneath the burner catches any possible drippings not caught in drip pan

The largest convection oven on the market circulates heat for racks upon racks of perfection.

Custom electric range

VESC model

Redefine your kitchen with the Custom Series electric range. Soufflés, racks of lamb, pan-seared scallops – suddenly, any menu is possible.

This incredibly powerful electric range provides both the largest oven capacity available and the largest convection fan on the market.

TruGlide full-extension rack and three halogen lights add a world of convenience. And new chrome-plated bezeled knobs offer precise control for the QuickCook™ surface elements – which reach full power in nearly three seconds.

Commercial-type cooking power

- QuickCook surface elements utilize ribbon technology – elements reach full power in about three seconds
- Wide range of surface elements and wattages
 - Right front – 7" 1,800-watt element
 - Right rear – 7" 1,800-watt element
 - 800-watt "bridge" element between right front and right rear elements; excellent for use in conjunction with both right elements for griddling with optional accessory
 - Left front – 6 1/2" 1,500-watt element
 - Left rear (dual element) – 9" New 2,500-watt element/6" 1,000-watt element
- High infrared transmission for fast surface cooking, regardless of type of cookware used
- **Exclusive** – largest oven cavity in the industry
- **Exclusive** – patented Vari-Speed Dual Flow convection system has the largest convection fan in the industry; the 8 1/2" fan works bi-directionally for maximum airflow and excellent cooking results
- Concealed 10-pass dual bake element provides precise temperature control

- Extra-large Gourmet-Glo glass-enclosed infrared broiler provides superior broiling performance
- Rapid Ready preheat provides one of the fastest preheat times, so your oven is ready to begin cooking when you are
- Oven has six porcelain-coated rack supports and comes standard with one TruGlide full extension oven rack and two standard oven racks
- Three halogen oven lights for excellent visibility throughout the oven cavity
- Heavy-duty broiler pan and tray with rack provide more roasting and broiling options
- High-performance cooking modes include bake, convection bake, TruConvec convection cooking, convection roast, broil, convection broil, convection dehydrate, and convection defrost

Easy operation and cleanup

- Strong, wear-resistant glass ceramic surface for excellent cleanability
- Self-cleaning porcelain oven
- Concealed 10-pass dual bake element makes for easy cleanup of the oven cavity

The TruConvec setting uses heat from a rear element only to turn out several racks of evenly baked cookies.

Custom induction range

VISC model

The Custom induction range marries professional performance with exceptional efficiency. MagneQuick™ surface elements utilize magnetic power to actually transform your cookware into its own heat source — and an amazingly powerful one, at that. The heat transfer is nearly instantaneous, incredibly precise, and 90% efficient. And if you need anything else to feel good about, there's the tremendous self-cleaning convection oven below.

Commercial-type cooking power

- Only 30" wide commercial-type induction self-cleaning range in the industry
- MagneQuick induction power generators utilize magnetic energy for superior power, responsiveness, and efficiency
- Power management induction system provides a boost of superior power on select elements for faster boil times
- Wide range of surface elements and wattages
 - Right front – 7" 1,850-watt element
 - Right rear – 7" 1,850-watt element
 - Left front – 8" 3,700-watt boost/2,300-watt element
 - Left rear – 6" 1,400-watt element
- **Exclusive** – Largest oven cavity in the industry
- **Exclusive** – patented Vari-Speed Dual Flow convection system has the largest convection fan in the industry; the 8 1/2" fan works bi-directionally for maximum airflow and excellent cooking results

- VESC and VISC ranges may be ordered with Brass Accent option (BR) for nameplate, door handle endcaps, and knob bezels
- All brass components have a durable, protective coating for maintenance-free normal use

Design Integrity

Consistency in both performance and design should be a major consideration when building or remodeling a home. With the complete Viking indoor or outdoor kitchen, every single product works together in form and function with the same level of excellence. It's something Viking calls Design Integrity™.

Viking offers complete ultra-premium kitchens and truly consistent design, while delivering the quality and performance that makes Viking the true market leader. Across all product categories, the knobs, handles, bezels, curves, angles, and lines all follow the same design cues – even the grain of stainless is the same from product to product. This enables the designer to create a perfectly harmonious kitchen in one of three Viking product offerings – Professional Indoor, D3 Indoor, or Professional Outdoor.

You wouldn't install mismatched cabinets and drawers or countertops. Yet design differences are even more dramatic between multiple appliance manufacturers. Traditional or contemporary. Stainless steel or color finishes. No matter the look you're going for, no one can match the Viking kitchen and Viking Design Integrity.

Cooking accessories

- Wok grate
 - For use on Classic/Custom open burner ranges (WGT)

Electrical Requirements	240-208VAC, 60 Hz electrical connection box on product, connect with locally supplied 3-wire, flexible cord or "pigtail" rated 40 amp 125-250VAC minimum. Cord must be agency approved for use with household electric ranges.	
Maximum Amp Usage	240V – 59.0 amps 208V – 51.3 amps	240V – 54.9 amps 208V – 51.7 amps
Surface Burner/Element Rating	Right Front/Right Rear: 1,800 watts Bridge: 800 watts Left Front: 1,500 watts Left Rear (dual element): 2,500 watts/1,000 watts	Left Front: 3,700-watt boost/2,300 watts Left Rear: 1,400 watt Right Front: 1,850 watts Right Rear: 1,850 watts
Oven Interior Dimensions	Convection Bake/Broil Overall Width – 25 5/16" (64.6 cm); Height – 16 1/2" (41.9 cm) Depth – 19 1/2" (49.5 cm); Overall Size – 4.7 cu. ft. AHAM Standard* – 4.1 cu. ft. 3 racks, 6 rack positions	
Approximate Shipping Weight	424 lb. (190.8 kg)	426 lb. (191.7 kg)

* The AHAM standard for measuring oven capacity subtracts the door plug and convection baffle dimension from the total oven volume.

Note: Canada models C VDSC and C VESC have factory-installed, agency-approved 4 ft. power cord – 3-wire with ground, 4-prong plug – included.

208V ratings – Time required for some functions may be extended due to less wattage.

Please do not prepare installation from brochure data only. See installation instructions for important clearance/installation information.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
