31 lbs

IMPORTANT SAFEGUARDS

Owner's manual must be read prior to installation and operation of heater. This heater cannot be converted between natural gas and propane. Professional installation is recommended. Always check local codes for permitted uses. Not recommended for operation above 4,500 feet. Use adequate ventilation during operation. See owners manual regarding warranty information and disclaimers.

CAUTION:

This appliance is to be used as a supplemental heat source and should not be used as the primary heat source. This heater must be installed and serviced according to the manufacturer's instructions and state and local building codes. Select a model with the appropriate heat output using sizing guidelines provided by the manufacturer. Using a heater with greater heat output than recommended may be harmful to your health. As with other fuel burning appliances, local building codes may require installation of a carbon monoxide detector in the area where the heater is installed.

Product specifications subject to change without notice.

This heater obtained the indicated BTU ratings when tested per ANSI Z21.11.2-2002, addenda Z21.11.2a-2003 "Gas Fired Room Heaters", Volume II, "Unvented Room Heaters."

NOT FOR USE IN BATHROOMS, BEDROOMS OR RECREATIONAL VEHICLES
