

P R O D U C T C A T A L O G

OUR STORY

In the sixties, C & H Welding was contracted to manufacture the very first aluminum portable batting cage based on a design from the hitting coach with the Pittsburgh Pirates in Bradenton, FL. For over four decades and two generations our family has provided professional baseball products to our industry.

C & H Baseball has adapted, modified, manufactured and distributed portable batting cages and aluminum field equipment throughout the world. Since our company began manufacturing sports equipment we have introduced five different styles of portable batting cages and multiple styles of fielding screens to meet the needs as well as budgets of professional, college, high school and junior programs as well as individuals.

In the nineties, C & H Welding became known as C & H Baseball. C & H Baseball began to offer professional design/build, engineering and installation services. We have provided our services and products to as many as 400 stadium projects since 1996. C & H Baseball installed the first Spectra/Dyneema backstop at Turner Field in Atlanta bringing the first spectra/Dyneema netting backstop to the baseball industry working through the night by the lights of our trucks so that the team could have their completed new stadium for the opening game the next day.

Today, C & H Baseball continues that commitment to excellence. Our company has become the industry leader in stadium projects from engineering, design/build, design consultation, manufacturing products to the final step installation. We supply professional quality products either manufactured by our team or as dealer's for other quality manufacturers. Our product line offerings include fielding screens, portable batting cages, netting, backstop netting systems, barrier netting systems, Batting tunnel structures, wall padding, equipment padding, and artificial turf.

For nearly fifty years our success has been based on the principle of providing unsurpassed customer service and quality products at reasonable prices. Our customer list speaks for our quality and we are grateful and thankful to all of our customers. C & H Baseball listens to you and we continue to research and develop new products, efficient installation methods and innovative designs. Our goal is 100% customer satisfaction. We look forward to working with you and your teams.

Sincerely,

Danielle Day Huff and Rob Huff

“ WE HAVE TEAMS FROM ALL OVER THE WORLD AT OUR COMPLEX EVERY DAY. WITH A WORLD CLASS FACILITY, THERE IS NO OTHER CHOICE THAN C&H BASEBALL’S CONSISTENT QUALITY AND GREAT LOOKING EQUIPMENT. ”

Rick Braun
 Disney's Wide World of Sports

Professional Cage Models: The Original Since 1968

2" schedule 40
aluminum pipe frame
2.375" O.D. - 2.067" I.D.

Close-up of wheel
system | MIS910

Features:

C & H Baseball cages are used throughout the major and minor leagues and have set the standard for PROFESSIONAL quality within the industry. 29 Major League teams have chosen C & H Baseball as their portable batting cage provider for their home stadiums. You'll also find C & H Baseball cages in 26 spring training sites, throughout minor league ball-parks, colleges and high schools. You will even find C & H Baseball cages in Australia, Italy, Puerto Rico, The Dominican Republic, Belgium, Canada, Panama, Czech Republic and Asia!

All of our Professional batting cages have the following quality features:

- Welded Construction with Stainless Steel Fasteners
- 2" schedule 40 aluminum pipe frame
- Netting is typically #36 knotted heavy duty nylon; 1 3/4" square mesh, UV resistant, with a poly roped border. Heavier nets are available upon request!
- Large wheel & automatic brake means:
 - Reduced turf damage
 - Mobility — One person can maneuver
 - 18" Golf cart tires

BATTING CAGES

a. NON-FOLDING PROFESSIONAL CAGE | ITEM #CAG100

- 18' wide x 14' 6" deep x 10' high • Use when storage is not a problem • #1 choice for spring training camps
- Accessories: CAG100P Full cage padding 9"; VBS100 Unpadded wrap around ballstop; VBS110 Padded wrap around ballstop

b. LARGE FOLDING PROFESSIONAL | ITEM #CAG200

- 18' wide x 22' deep x 12' 6" high • Folds for storage • #1 choice of major league stadiums
- Accessories: CAG200P Full cage padding 9"; VBS200 Unpadded wrap around ballstop; VBS210 Padded wrap around ballstop

c. SMALL FOLDING PROFESSIONAL | ITEM #CAG300

- 18' wide x 16' deep x 11' 6" high • Folds for storage • Ideal for areas with low overhead clearance
- Accessories: CAG300P Full cage padding 9"; VBS300 Unpadded wrap around ballstop; VBS310 Padded wrap around ballstop

Features:

The C & H Baseball CLASSIC line of portable batting cages are manufactured with the same high quality as the PROFESSIONAL line; only the pipe size is different. We use a 1 ½" Schedule 40 Aluminum Pipe, with the same #36 knotted nylon netting as the PROFESSIONAL line. These cages are designed for teams that don't have a major league budget – but still want to invest in a high quality portable batting cage.

“ WE ARE PLEASED TO ALIGN OURSELVES WITH A FINE COMPANY THAT UNDERSTANDS THE REASON WHY AMERICA'S PASTIME IS SO IMPORTANT TO THE YOUTH OF THIS GREAT NATION. ”

Darrell Miller
Sr. Director, Urban Youth Academy

#36 knotted nylon netting - UV Treated

1 ½" schedule 40 aluminum pipe 1.9" O.D.

CAGE PADDING

For more on Cage Padding, please see "Equipment Padding" on page 6.

#1 Added Feature!

BATTING CAGES / CAGE ACCESSORIES

d. NON-FOLDING CLASSIC CAGE | ITEM #CAG400

• 18' wide x 14' 6" deep x 10' high • Same size as "The Professional Cage" • 1.9" o.d. pipe frame
Accessories: CAG400P Full cage padding 8"; VBS400 Unpadded wrap around ballstop; VBS410 Padded wrap around ballstop

e. OBSERVATION PLATFORM | ITEM #MIS500 (ONE SIDE) | ITEM #MIS510 (BOTH SIDES OF CAGE)

Elevated platform attaches to the batting cage so coaches can observe batting techniques from a different angle. Folds into the cage for easy storage!

f. COACH'S OBSERVATION BENCH | ITEM #MIS300

Unique, portable unit that sits behind the batting cage and provides a whole new vantage point for coaches and trainers.

g. ALL SWIVEL WHEELS | ITEM #MIS600

Allows the cage to be moved in any direction. Useful for narrow gates.

h. LOOK & LEAN BARS | ITEM #MIS700

Coaches can lean on the cage while watching batting practice.

Vinyl Ballstops - Padded & Unpadded

“IT’S BEEN A PLEASURE WORKING WITH C & H BASEBALL THROUGH THE YEARS. THEIR CUSTOMER SERVICE, ATTENTION TO DETAIL, AND ON TIME DELIVERY OF PRODUCTS HAVE HELPED MAKE MY JOB EASIER. FOR OUR FIELD EQUIPMENT NEEDS AT TRADITION FIELD, C & H BASEBALL ARE THE PEOPLE I TURN TO FIRST BECAUSE THEY ARE THE ONES I TRUST.”

Tommy Bowes

Stadium Superintendent/Head Groundskeeper Tradition Field – Port St. Lucie, FL

Cage frame padding is made from 1" high density foam wrapped in an 18 oz. coated vinyl material with grommet strips on either side for attachment. Pads wrap securely around the cage and are laced or zip-tied together through the grommets. Many colors are available.

Padding for the batting cages can be purchased to pad the entire cage or sections of the cage. Please call for details.

THE ORIGINAL!!

AXLE Wheel
System available
for any screen.

Features:

C & H Baseball fielding screens are the highest quality fielding screens available on the market today. Rugged and lightweight, each screen is custom made and manufactured in our shop using 1 1/4" Schedule 40 6061 aluminum pipe. The welded corners and heavy duty knotted nylon netting make for a screen that will withstand the elements, batting practice and transporting on and off the field.

Don't see the Fielding Screen you need?

C & H custom builds all of our screens in-house. Call us today to discuss your fielding screen needs.

Flip Screen

Features:

C & H Baseball has designed a one of a kind soft toss screen! The curved pipe design allows the batter to hit in close proximity to the screen without fear of interference. The loose fitting net absorbs ball impact which virtually eliminates unwanted rebounds. There is nothing like it on the market.

FIELDING SCREENS

x. FLIP SCREEN | ITEM #SCR400 (Replacement Net | ITEM #SCR400N-36)

- 6' wide x 6' high – 1 1/4" schedule 40 aluminum pipe frame – all weld construction for durability • Heavy duty netting with #60 gauge knotted nylon net with deep pocket to catch balls • Unique lightweight design makes the screen easy to move • Perfect for taking soft toss from another person, a machine or hitting off a tee

y. NYLON TWINE | ITEM #MIS400 #30 gauge tar-treated lacing twine – 1 lb. roll (approx. 500 l.f.)

- Heavy Duty Twine for Net assembly, repair and installation • Use to attach padding to cages, screens and rails • Available in various strengths – most used is #36

Artificial Turf

Installation of turf available nationwide. C&H Baseball recommends Nordot Adhesive.

Stadium Padding

Plywood Backed Wall Padding:

Used for padding concrete walls such as those behind home plate, C & H Baseball plywood backed wall pads are constructed using APA BC grade plywood, 3" thick high density foam, wrapped in 18 oz coated vinyl. Different attachment methods are available. Pads are custom made to your specifications. Many colors are available. Please call for a custom quote.

Chain Link Fence Padding:

A 3" high density foam is wrapped completely in 18 oz coated vinyl, with hemmed and sewn grommet strips on the top and bottom of the pad for attachments. These pads are ideal for chain link fence or wooden wall applications. Please call for a custom quote.

Sewn Wall Padding:

Fence Post Pads, Fence Top Pads, I-Beam pads and many more are available. We custom make our padding to almost any size required. Different foam thicknesses are also available. Please call for a custom quote.

Custom Padding Graphics:

C&H Baseball offers affordable options for putting graphics on your wall pads. Whether the graphics are printed directly to the vinyl or an ad banner decal is produced. C&H Baseball has you covered! Please call or e-mail for a custom quote.

Design Build Backstops

Since 1996, C & H Baseball has been the industry leader in design, supply and installation of stadium backstop netting systems. C & H Baseball was the first to introduce the Spectra/Dyneema product to the baseball industry with our installation in 1996 at the Braves stadium. Since then our expertise has grown with over 400 stadiums to our credit. C & H Baseball has proven to provide top notch design, engineering, supply and installation of every type of system. We can assist in every facet of the stadium netting process, so call C & H Baseball today! Our staff engineer and project management team are ready to assist you with your next project!

Cable Supported Backstop

Netting

NETTING

“ C & H BASEBALL WORKED WELL WITH ME IN ALL ASPECTS OF OUR CONSTRUCTION PROCESS. WHETHER ITS SUPPLYING HIGH QUALITY BATTING PRACTICE CAGES AND SCREENS OR KEEPING FIELD DAMAGE TO A MINIMUM WHILE HANGING BACKSTOP NETTING. I LOOK FORWARD TO WORKING WITH C & H BASEBALL AGAIN IN THE FUTURE. ”

Ray Sayre

Former Greenville Baseball Head Groundskeeper

Netting-Spectra™/Dyneema

C & H Baseball is proud to be the exclusive provider of Stan Mar Sports Nets Spectra™/Dyneema Brand netting to the baseball industry. We have used Spectra™/Dyneema netting in major league and minor league stadiums, as well as new college stadiums since 1996. Spectra™/Dyneema is made from a high strength lightweight polyethylene fiber. These fibers have zero stretch, possess a high energy to break ratio, low ratio conductivity and are highly resistant to chemicals and UV rays. Please call for more information on Spectra™/Dyneema netting.

Netting-Nylon

C & H Baseball's netting is manufactured from UV stabilized nylon material. Optional gauge sizes are available. Nylon netting typically comes in 1 3/4" x 1 3/4" square mesh, hung on the square as opposed to the diamond, and bordered with a black poly rope. Nylon netting can be used for stadium backstops and barrier netting, dugout rail netting and batting tunnel nets. Please call for a custom quote.

Batting Tunnel Installation Kits

- 1/4" cable w/fittings, net is attached using Zinc plated snap rings
- Indoor or outdoor installation kits
- Outdoor cages are supported using 2" schedule 40 galvanized steel posts
- Each kit is unique to your tunnel

NETTING / BATTING TUNNELS

NETTING SIZES AND TENSILE BREAKING STRENGTH

Twine Dimensions:

| Size | Mesh Size | Strength in Pounds |
|-------------|-----------|--------------------|
| #24 | 1 3/4" | 248 |
| #30 | 1 3/4" | 290 |
| #36 | 1 3/4" | 332 |
| #60 | 1 3/4" | 546 |
| #84 | 1 3/4" | 647 |
| Dyneema #18 | 1 3/4" | 352 |

Other mesh sizes are available. Please contact us for a custom quote.

Batting Tunnel Netting

C & H Baseball's batting tunnel netting is manufactured from a UV stabilized heavy duty knotted nylon material manufactured in the USA. With a 1 3/4" x 1 3/4" square mesh size, we use a black poly roped border to frame the tunnel net. We custom make each batting tunnel to assure that you have the most precisely measured tunnel on the market. Call today for your custom quote.

Batting Tunnel Support Structure

Our support structure is a unique design using 2" schedule 40 galvanized steel poles and galvanized aircraft cable. The system is designed to minimize the number of support poles needed around the batting tunnel. This in turn reduces the opportunity for baseballs to ricochet off of the poles during batting practice, potentially injuring a player. These supports can be mounted onto a concrete slab, or installed in the ground. If the tunnel area is enclosed, such as inside a building, pavilion or underneath concrete bleachers, we offer a cable and bracket design for installation.

NETTING / BATTING TUNNELS

01. BATTING TUNNEL NETTING | ITEM #BTN100

- UV Treated Nylon Netting used: Typically #36 • Rope in borders and center line of roof • One door typically in each tunnel. More doors available

p1. BATTING TUNNEL SUPPORT STRUCTURE | ITEM #BTN200

- Each structure is designed to your unique needs • Ends of structure offer extra support • Welded tabs and base plates for easy assembly

C & H Baseball offers full installation services.

Please call to discuss your needs.

Full Field Tarps

C & H Baseball offers two types of infield tarps; a 6 oz Poly tarp and a 10 oz Vinyl tarp. All tarps are custom made and constructed with reinforced edges. Standard sizes are listed below or you can call us for your custom size needs.
