2-1065

Price
\$4.45

Louvers

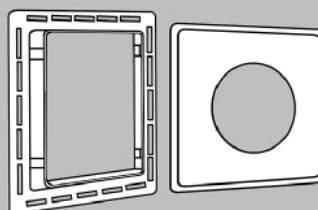

VENT HOOD & PIPE

4" Dia. x 11" long aluminum pipe and a white 6" x 6" x 5/8" high-impact, non-corrosive louvered hood. Louvers open with discharge air pressure from dryer. Has a white plastic finishing collar for inside wall.

Part Number
2-1066

Price
\$3.79

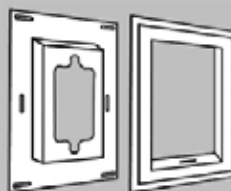

MOUNTING BLOCK J-Channel Outside Light Fixture

This is a 2-piece unit, inside piece mounts to the wall, then the 7" x 7" outside piece snaps into the inside piece with two stops, one at 3/4" depth and the other at 1-1/4" depth. The outside piece has a 4" diameter hole in which to access and fasten the electrical wiring and fixture mounting devices. Made of heavy PVC. **White.**

Part Number
2-3845

Price
\$6.39

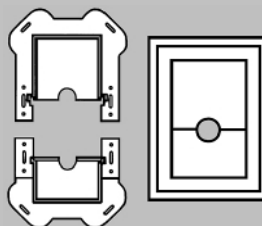

MOUNTING BLOCK J-Channel Duplex Receptacle

This 2-piece J-channel mounting block is designed to install a duplex receptacle where horizontal vinyl siding is being installed. The inside piece mounts to the wall and the 4-1/2" x 6-5/16" outside piece snaps into the inside piece with two locking positions. One locking position at 1/2" depth and the other at 13/16" depth. May be installed vertical or horizontal. Made of PVC. **White.**

Part Number
2-3847

Price
\$6.79

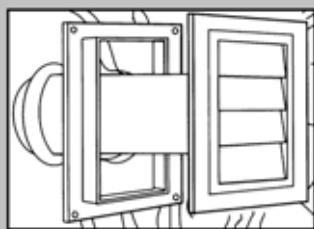

MOUNTING BLOCK J-Channel Sillcock

This split 2-piece J-channel mounting block is designed to use when installing horizontal siding on a structure that has a sillcock installed. The inside piece mounts onto the wall. The 5" wide x 6-3/4" high outside piece snaps into the inside piece with three stops; one at 3/4" depth, one at 1" depth and the third at 1-1/4" depth. Each piece is split into so that it easily fits around the sillcock. Made of PVC. **White.**

Part Number
2-3850

Price
\$6.98

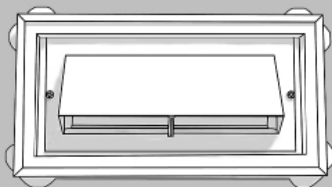

VENT ASSEMBLY Horizontal Siding

This vent assembly comes with a plate that mounts to the wall before installing horizontal siding. The vent hood attaches to the wall plate creating a pleasing finished look. Made of hi-impact non-corrosive white plastic. 4" dia. by 11" long aluminum pipe.

Part Number
2-1067

Price
\$12.49

HORIZONTAL RANGE HOOD VENT with J-Channel Ventline Brand

Made of UV stabilized polystyrene extruded plastic. Has lockable damper. Throat of damper assembly is 1-5/8" long and fits opening of 3-1/2" x 10-1/2". Overall outside dimensions of the two-piece j-channel assembly is 14-1/4" long x 7-3/8" high. J-channel has depth stops at 5/8" and 7/8" to accommodate different horizontal siding thickness. **We stock white only.**

Part Number
2-2057

Price
\$18.89

CLAMPS FOR DRYER HOSE

2-2051	REPLACEMENT SPRING CLIP (Not Shown), (Secures filter & lens to Ventline range hoods)	\$3.45

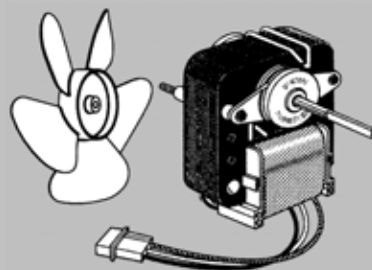

Replacement Motor & Blade

REPLACEMENT MOTOR & BLADE FOR BROAN & NUTONE BATH FANS

This replacement motor fits Broan and Nutone's 50 cfm bathroom ventilator fans. The 120 volt motor pulls only .90 amps and has a noise rating of only 2.0 sones. Motor has a male plug on one end of 6" long electrical wires. The 5/32" diameter motor shaft is 1-5/8" long with a splined (serrated) end. The 4-12" diameter plastic fan blade comes standard with the motor.

Part Number	Price
2-2205	\$32.95

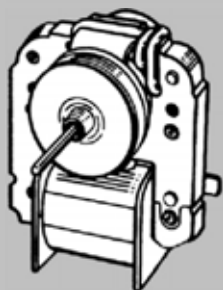

REPLACEMENT MOTOR & BLADE For BROAN & NUTONE RANGE HOODS 2-Speed Motor

This replacement motor and fan blade fits Broan and Nutone's range hoods with air flow ratings of up to 190 CFM (cubic feet per minute). Three-wire two speed motor pulls 1.1 amp on 120 volt ac. The five-blade 6-1/2" diameter plastic fan blade turns clockwise looking into shaft of motor. The electrical leads have a three-pin molded plug on one end.

Part Number	Price
2-2207	\$37.95

Range Hoods, Bathroom Fans, Sidewall Fans

REPLACEMENT MOTORS

Range Hoods, Bathroom Fans Sidewall Fans

Direction of rotation can be changed by placing shaft on opposite side of motor assembly. Requires removing two screws reversing the shaft and replacing the two screws, comes with electrical leads. Some motors have plugs on electrical wires. 120 volt ac.

Part Number	Description		Price
2-2068	SINGLE SPEED, 1.45 AMP, RPM	0000	\$25.19
2-2070	SINGLE SPEED, .77 AMP, RPM	3250	\$19.95

\$4.75

Flat Flange

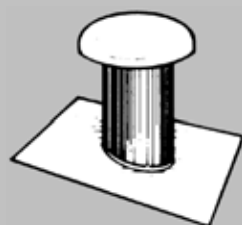

ROOF CAP ASSEMBLY Flat Flange

7-1/4" inside diameter pipe, 8-1/2" tall from flange to top of cap, 10" square flange/flashings for flat to slightly pitched roofs. Pipe protrudes approximately 1" below mounting flange. May be used with fan numbers 2-2077 & 2-2078. Made of galvanized steel.

Part Number
2-2079

Price
\$13.65

Slant Flange

ROOF VENT Slant Flange

5" inside diameter pipe extends 13/16" below roof flange. Roof flange is 12-1/4" square and is not pre-drilled for fasteners. Vent is 7-7/8" tall from roof-line to top of cap. Slant flashing is made for 3-in-1 to 4-in-1 roof pitch. Made of galvanized steel.

Part Number
2-2179

Price
\$12.59

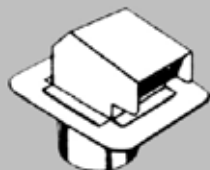

VINYL HOSE Vent Fan 3" Diameter

This 3" diameter white vinyl flexible hose is designed for use with bathroom vent fans or similar uses. This product is not for use in areas that requires an insulated cover to prevent condensation. Comes in 50 ft. lengths. Will cut to length. Priced per foot.

Part Number
2-2180

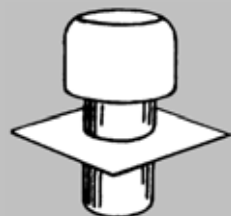

Price
\$0.29

VENT HOOD ASSEMBLY Aluminum

This all aluminum vent hood is designed for sloped roofs with or without shingles. Has a 4" or 6" diameter x 2" long tailpipe. Has screening to prevent insects from entering. Automatic aluminum damper closes when vent is not in use. Flashing is 10" wide x 11" long and is not pre-drilled for screw fasteners. May use reducer/increaser to change outlet pipe size where required.

Part Number	Description	Price
2-1099	4" DIA.	\$22.45
2-2184	6" DIA.	\$19.98

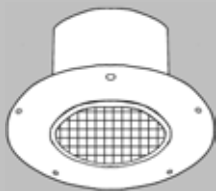

VENT CAP ASSEMBLY Galvanized Steel

Designed for flat to slightly pitched roofs. Has 2-7/8" diameter x 2-1/2" long tail pipe in which to fasten vent tubing. Height from top of cap to flashing is 3-1/2". Flashing is 8" square and is not pre-drilled for screw fasteners. Has a mesh screen to prevent insects from entering.

Part Number
2-2186

Price
\$11.98

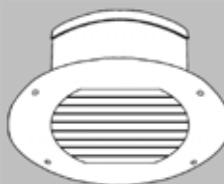

EAVE VENT Bathroom Fan Galvanized Steel

5-1/2 inch overall diameter mounting flange with five predrilled mounting holes. Has a 2-7/8" outside diameter x 2-5/8" long round collar for mounting 3" diameter flexible vent hose. A fine galvanized mesh screen prevents insects from entering the opening. Made of galvanized steel.

Part Number
2-2188

Price
\$4.98

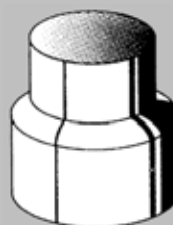

EAVE/SIDEWALL VENT Bathroom Fan Plastic

4-3/8" overall diameter round mounting flange with four predrilled mounting holes. Has a 3" diameter x 1-7/8" long collar for mounting 3" diameter flexible vent hose. Has a fine mesh aluminum screen behind louvers to keep insects out. Louvers are slanted to prevent water from entering if used in a horizontal (sidewall) configuration. Made of white plastic.

Part Number
2-2190

Price
\$7.35

INCREASER/REDUCER PVC Plastic

This 4" x 3" increaser/reducer is made of heavy duty plastic and is 3" inside diameter on one end and 3-3/4" inside diameter on the other end.

Part Number
2-2193

Price
\$1.98

REDUCER Aluminum

Made of light weight aluminum, this reducer is 4" diameter on one end (not crimped) and 3" diameter on the other end which is crimped.

Part Number
2-2198

Price
\$2.98

MOTOR MOUNTING BRACKET

This plastic motor mounting bracket fits Ventlines V2270 series bathroom ceiling fans. They make a 50 CFM (cubic feet per minute) and a 75 CFM fan. Each requires a different mounting bracket. The CFM rating can be found stamped into the mounting bracket.

Part Number	Description	Price
2-2195	50 CFM	\$5.64
2-2196	75 CFM	\$5.64
