## PRODUCT EXCELLENCE, INNOVATION AND TESTING

Performance is everything...

At Coleman the outdoors is our passion and we love to inspire people to get outside. Our inspiration for innovation is driven by the diversity of what the outdoors has to offer. Therefore, each year we create a wealth of innovative products, introducing new categories that will inspire you to explore your outdoors. Whether you enjoy relaxing with friends and family outdoors or your personal passion is exploring the unknown, our product range will have the correct tools to support your individual adventure.

A brand you can trust, it's a trust that's been earned over the last 111 years, and it's a virtue that has stayed with Coleman through generations thanks to our commitment to delivering the highest quality products.

Each product is backed by an extensive, exhaustive and unparalleled testing programme to ensure that regardless of the conditions you face, you will have a product you can rely on time and time again. Our laboratory and real world testing ensures that you can have confidence in every single component – whether it's a roll test, a wind tunnel test or even 100% inflation test, we'll go to unimaginable lengths to ensure that every element exceeds your expectations because when it comes to the outdoors, performance is everything...

## TENT BUYING TIPS

### One)

Buy cheap, buy twice! A tent is the centrepiece of any camping trip - your home away from home so make sure you buy one that lasts. The longer the guarantee, the better the quality of the tent is likely to be.

### Two)

You don't want to spend your whole trip putting up the tent so make sure the tent is simple to erect and to pull back down.

### Three)

Unfortunately you can never guarantee the weather, so you want to make sure your tent is weather proof. You can check water resistance by looking for a waterhead rating (which is measured in mm). For tent flies, 1000mm is considered low, while 3000mm is considered fairly high. In addition to the waterhead rating of the fabric, fly design and taped seams will add to the weather resistance of a tent.

### Four)

Of course it certainly can get hot during those long summer days, so you want to make sure there is plenty of ventilation and shade from awnings.

### Five)

Make sure your tent has good, strong, flexible poles and plenty of guy ropes to ensure the best possible chance against strong wind conditions.

### Six)

The weight of the tent material, which in polyester tents is measured in denier, and in canvas tents is measured in grams per m2 is a guide to the strength of the material. For the most rugged and durable product, choose the heaviest weight available.

### Seven)

The weight of the floor material is also very important as this is the area that arguably receives the most wear and tear during use, and the last thing you want is a hole in the floor that allows moisture and mud in if the campsite ground is wet. Again, the heavier the floor material the better. Coleman® tents use heavy duty, waterproof flooring materials so you can be sure you are getting as durable a design as possible.

## WHY ARE COLEMAN® TENTS THE BEST?

- ✓ Easy to set up
- ✓ The best materials
- ✓ Guaranteed not to leak
- ✓ Tested to the limit
- ✓ Up to five year guarantees

# CANVAS TENTS

## What is Canvas?

Canvas is a generic term for fabric made from cotton fibres. In Coleman® tents, polyester has been added to cotton to form polycotton canvas. Unlike 100% cotton fabrics which will shrink, fade and mildew more quickly, polycotton fabrics are also stronger and lighter.

## Why Choose Canvas?

Canvas performs differently to polyester when wet. Polycotton breathes which mostly eliminates the moisture build-up (condensation) experienced with nylons and polyesters. Additionally, when polycotton gets wet the cotton fibres swell and in doing so close any holes in the fabric, hence keeping water out.

- Canvas fabric is very breathable
- Quiet due to heavier fabric walls
- Resists heating up or cooling down quickly due to the thickness of the fabric
- Sturdy in windy conditions due to their greater weight and strong steel frame
- A solid tent for longer-term holiday camping

For added versatility, Coleman® canvas tents can also be fitted with removable walls and floor to the main front awning area to create a fully-enclosed sunroom/secure extra room, or a windbreak for more comfortable outdoor-living.

### Powercord Management System

Manage your power cords easily with two access points and power cord fasteners/hooks that will run the power cord up high enough to hang a light from your tent ceiling.

### No-See-Um Mesh

Open and close windows and doors from inside, for increased privacy, insect free living and ventilation control.

### Wall Organisers

Multiple pockets in the form of a ladder. Keep your tent tidy with a place to put your bits and pieces.

### Built-in Divider Walls

Separating sleeping and living areas.

### Gold Passivate Poles

As a prevention against rust, all frames are coated with gold passivate and colour coded for easy assembly.

### Extra Strength Peg Tabs

Allows you to get extra tautness when pitching your tent.

### Waterproof Pole System

Prevents rain from entering tent through pole access points.

## Canvas Tent Features

### Cool-Air™ port

Developed for use in conjunction with the Coleman Cool Zephyr fan to assist airflow into or out from the tent improving the level of comfort (fan sold separately).

### Circle Ventilation™

A new system of ventilation to allow more efficient airflow into and around tents. Improves comfort as well as reducing the build-up of condensation.

### 5 Year Quality Guarantee

All canvas tents come with a 5 year limited warranty.

## Optional Extras

### Sunroom

All six of Coleman's canvas tents feature the ability to create a sunroom, increasing the liveable area of your tent. A removable floor creates a secure extra room.

### Windbreak

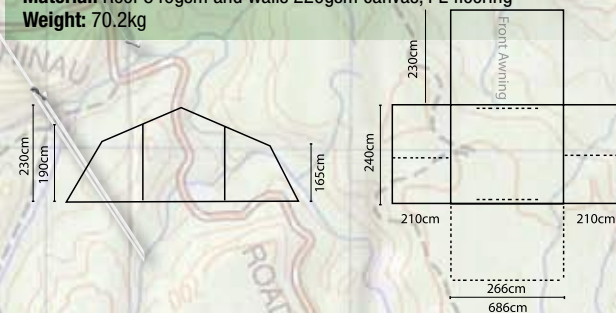

A great addition to create versatile space in varying conditions.

## Aspiring 3-Room Canvas Tent

- Three room tent with large bedrooms either side of a central living area
- Wall dividers in the two bedrooms for additional privacy
- Front awning can take optional sunroom / windbreak to increase the liveable area
- Rear awning has the ability to be rolled up out of the way for smaller campsites
- Circle Ventilation™ plus large windows for optimal ventilation
- Patented hinged door at rear for easier access

**Material:** Roof 340gsm and walls 220gsm canvas, PE flooring  
**Weight:** 70.2kg

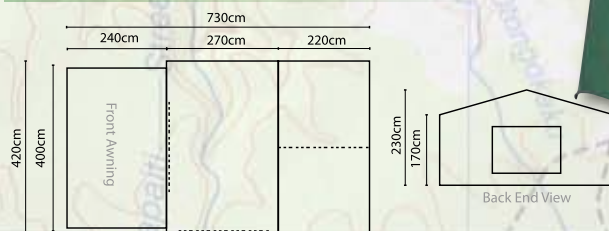

Patented hinged door

## Coromandel Canvas Tent

- Our largest canvas tent boasting plenty of head room and interior space
- Excellent centre height of 2.30m
- A two room design with the option of dividing the back room into two bedrooms
- Two entry points with awnings for convenience and flexibility in varying weather conditions
- Rear, front and side windows and Circle Ventilation™ for excellent ventilation

**Material:** Roof 340gsm and walls 220gsm canvas, PE flooring  
**Weight:** 78.00kg

- Single room canvas tent
- Rear, front and side windows and Circle Ventilation™ for excellent ventilation
- Front and side awnings for additional shade

**Material:** Roof 340gsm and walls 220gsm canvas, PE flooring  
**Weight:** 46.00kg

# POLYESTER TENTS

## Polyester Tent Features Explained

### WeatherTec™ System

The WeatherTec™ System is a series of construction procedures/features that ensure optimum tent performance in all conditions • Taped rainfly pole system prevents water from seeping through • Water repellent thread, zippers and webbing improve weather performance • Polyurethane coated fabric repels water away and keeps you dry.

### Circle Ventilation

A new system of ventilation to allow more efficient airflow into and around tents. Improves comfort as well as reducing the build-up of condensation.

### Airport™

Developed for use in conjunction with the Coleman Cool Zephyr fan to assist airflow into or out from the tent improving the level of comfort. (Fan sold separately)

### Fire Retardant

Manufactured from flame resistant materials which meet CPAI-84 specifications. It is not fireproof! If left in continuous contact with flame the fabric will burn.

### No-See-Um Mesh

No-See-Um Mesh in windows and door to provide insect free living and dining with ample ventilation.

### Coleman Durawrap Poles

Durawrap poles are much stronger and flexible than conventional poles due to reinforced fibre running both the length and crisscrossing the sheath.

### Pre-tied Guy Rope

Pre-tied guy ropes with corner suspension loops to ensure correct set up every time.

### Wall Organisers

Multiple pockets in the form of a ladder. Keep your tent tidy with a place to put your bits and pieces.

### Powercord Management System

Manage your power cords more easily with access points and power cord fasteners/hooks that will run the power cord up high enough to hang a light from your tent ceiling.

### Repair Kit

Indicates that a Repair Kit is included with this tent or shelter.

### Ring & "Spring Pin" System

Coleman's exclusive Ring and "Spring Pin" attachment eliminates the age old problem of poles slipping off the locating pin, either when erecting the tent or under strong wind conditions.

### 7001-T6 Poles

Durable aluminium that is extremely light weight with high tensile strength. Used in our lightweight adventure tents.

## The Coleman® WeatherTec™ System

The WeatherTec™ System is a set of construction procedures and features that when combined in a Coleman® tent, ensures optimum performance in all conditions:

### LEAK-FREE SEAMS

In addition to fully taped rainfly seams, the rainfly covers the floors and windows and incorporates easy-to-use velcro frame attachments.

### PROTECTED SEAMS

Inverted floor seams dramatically increase weather resistance by hiding needle holes away from the elements.

### WEATHER-RESISTANT FABRIC

Coated polyester fabric combined with anti-wicking thread, webbing and zippers.

### WIND STRONG FRAME

Engineered to be a stronger, more wind-responsive frame by using redesigned poles and guy-out triangles to securely anchor tents.

## Montana™ 12 Deluxe CV

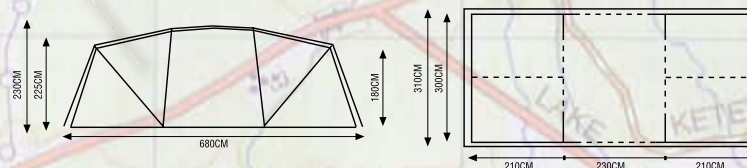

- A spacious three room family tent with bedrooms either side of a central living area
- Unique hybrid-style design tent giving increased internal tent volume and height
- Mesh and privacy screened doorways from both bedrooms into central room
- Main full length awning with zip back wind breaks
- Four entrances via large doors front and rear, plus on both sides.

**Material:** 75D/185T RipStop polyester / taped seams, 3,000mm proofed fly, heavy duty 150D PVC coated flooring

**Frame:** 16mm pre-bent steel poles & Coleman® Durawrap™ fibreglass poles, 4 x 16mm steel awning poles

**Sleeping Capacity:** Up to 12 adults **Weight:** 33.25kg

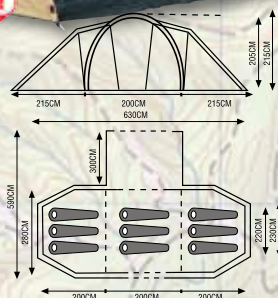

## POLYESTER TENTS

### Chalet™ 9XL CV

- Three room tent with large extended floored front vestibule for additional space
- Two entrances via large D-doors front and rear of the centre room
- Mesh roof panels and seam-sealed skylight over the centre room
- Bedroom doors have barn-style mesh windows to the centre room
- Geo design frame for strength and ease of set up

**Frame:** 11mm Coleman® Durawrap™ fibreglass poles, 2 x 16mm steel awning poles  
**Sleeping Capacity:** Up to 9 adults  
**Weight:** 23.81kg

### Timbertop Geo™ 6 CV

- Large single room tent with extended and fully sealed vestibule
- Main room has full standing height of 210cm + 195cm vestibule height
- Strong geodesic tent frame design and double pole vestibule frame system
- Large triangular side windows with internal zip close flaps and storage pouch
- Large front and rear D-doors with full privacy flaps

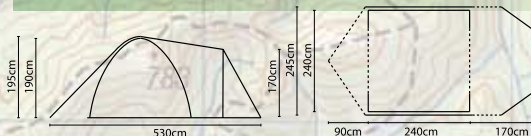

**Material:** 75D/185T RipStop polyester / taped seams, 3,000mm proofed fly, PE flooring  
**Frame:** 11mm Coleman® Durawrap™ fibreglass poles, 2 x 16mm steel awning poles  
**Sleeping Capacity:** Up to 6 adults  
**Weight:** 21.01kg

### Overlander™ 4 CV

- A large single room tent with side windows and extended vestibule
- Two pole dome design with floored vestibule area to keep the tent dry and clean
- Two entrances via large D-doors front and rear

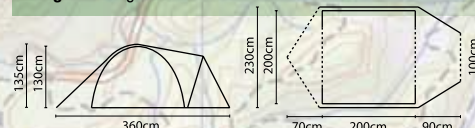

**Material:** 75D/185T RipStop polyester / taped seams, 3,000mm proofed fly, PE flooring  
**Frame:** 11mm Coleman® Durawrap™ fibreglass poles, 2 x 16mm steel awning poles  
**Sleeping Capacity:** Up to 4 adults  
**Weight:** 13.08kg

### Traveller™ 3 CV

- A single room tent with side windows and front vestibule
- Two entrances via large D-doors front and rear
- Floored front vestibule area to keep the tent dry and clean

**Material:** 75D/185T RipStop polyester / taped seams, 3,000mm proofed fly, PE flooring  
**Frame:** 9.5mm/8.5mm Coleman® Durawrap™ fibreglass poles  
**Sleeping Capacity:** Up to 3 adults  
**Weight:** 6.65kg

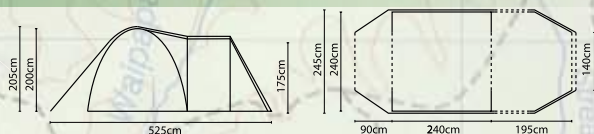

#### Lakeside 4 Extended

- Fully enclosed large front vestibule and extended rear vestibule
- 80% more sealed bedroom space than the standard Lakeside 4 model
- Twin side doorways into front vestibule, and large front and rear doorways

**Material:** 75D/185T polyester / taped seams, 2,000mm proofed fly, PE flooring

**Frame:** 9.5/8.5mm fibreglass poles, 2 x 16mm steel awning poles

**Sleeping Capacity:** Up to 4 adults **Weight:** 14.60kg

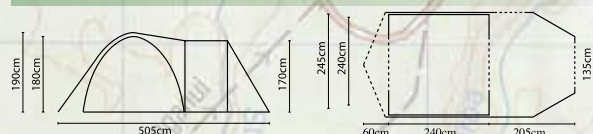

#### Lakeside 4

- Single room tent with extended floored vestibule with front and side entrances
- 2 pole dome and double pole vestibule with durable 210D pole sleeves to reduce pole tear
- Large windows and D-doors with mesh screens to provide ample ventilation
- Twin zip rear awning over doorway

**Material:** 75D/185T polyester / taped seams, 2,000mm proofed fly, PE flooring

**Frame:** 9.5/8.5mm fibreglass poles, 2 x 16mm steel awning poles

**Sleeping Capacity:** Up to 4 adults **Weight:** 11.20kg

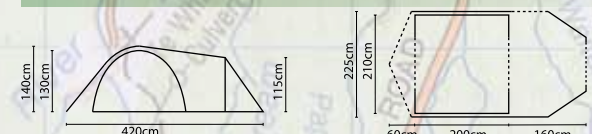

#### Lakeside 3

- Single room tent with extended vestibule and floor
- 2 pole dome and 1 pole vestibule with durable 210D pole sleeve to reduce pole tear
- Large windows and D-doors with mesh screens provide ample ventilation
- Twin zip rear awning over doorway

**Material:** 75D/185T polyester / taped seams, 2,000mm proofed fly, PE flooring

**Frame:** 8.5mm fibreglass poles, 2 x 16mm steel awning poles

**Sleeping Capacity:** Up to 3 adults **Weight:** 7.60kg

#### Connecta Tents

- Large single room tent with extended and floored front vestibule
- Straight wall design to provide more headroom
- Front vestibule has front and side entries
- Large windows plus Circle Ventilation™ for excellent ventilation
- Designed to connect with the Connecta Shelter for increased liveable space

**Material:** 75D/185T RipStop Polyester / taped seams, 3,000mm proofed fly, PE flooring

**Frame:** 9.5mm/8.5mm Coleman® Durawrap™ poles, 2 x 16mm steel awning poles

**Sleeping Capacity:** Available in 5 person or 7 person

**Weight:** 5P: 15.00kg / 7P: 17.00kg

**Dimensions:** 5P: 330L x 245W x 195H x 170V cm

7P: 360L x 310W x 215H x 200V cm

#### Coastline 3

- Three pole tunnel design tent featuring full mesh inner that can be pitched as a mosquito dome.
- Multi entrances via the front, rear and side with plenty of internal storage space
- Packs down to compact 60 x 20 x 20cm – great for touring

**Material:** 75D/185T RipStop polyester / taped seams, 3,000mm proofed fly, PE flooring

**Frame:** 9.5mm/8.5mm Coleman® Durawrap™ fibreglass poles

**Sleeping Capacity:** Up to 3 adults

**Weight:** 8.95kg

**Dimensions:** 430L x 190W x 150H cm

#### Seaview 5 & 7

- Compact single room tent with front vestibule for storage
- Two large windows and rear ventilation port to keep the tent cool
- Seam sealed, fire retardant fly

**Dimensions:** 5P: 2.6 x 2.4 x 1.9H m / 7P: 3.0 x 3.3 x 2.0H m

**Material:** 75D polyester taffeta 1,500mm proofed fly **Frame:** 8.5mm poles

**Sleeping Capacity:** Available in 5 or 7 person

**Weight:** 5P: 7.57kg / 7P: 10.15kg

## BACKPACKING TENTS

### Epsilon 3

- Ultra compact stable and lightweight 3 person tent ideal for tramping
- Multi pitch style allows the fly to be erected without the inner attached
- Breathable inner with large mesh roof panels
- Twin entrances offers the necessary flexibility for the extremes of nature
- Reflective seams and guy ropes to help locate the tent at night

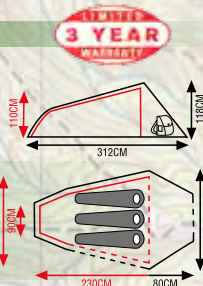

**Material:** Fly: RipStop polyester 4000mm PU coated with taped seams.

**Inner:** breathable polyester and no-see-um mesh.

**Groundsheet:** Nylon, PU coated 7,000mm **Frame:** Aluminium 7075-T9

**Sleeping Capacity:** Up to 3 adults

**Weight:** 3.10kg including compression carry bag

*Epsilon 2 also available*

### Seaview 3

- Compact single room tent with front vestibule for storage
- Two large windows and rear ventilation port to keep the tent cool
- Seam sealed, fire retardant fly

**Dimensions:** 3P: 2.1 x 2.1 x 1.3H m

**Material:** 75D polyester taffeta 1,500mm proofed fly **Frame:** 8.5mm poles

**Sleeping Capacity:** Up to 3 adults

**Weight:** 3P: 5.15kg

### Sundome 3

- Single room tent ideal for weekend getaways
- Features Coleman® WeatherTec™ System – guaranteed to keep you dry!
- Front D-door with barn style mesh window
- Mesh side windows and gear pocket on rear wall

**Material:** 75D/185T polyester, taped seams, 1000mm proofed fly, 12 x 12 PE flooring

**Frame:** 8.5mm fibreglass poles

**Sleeping Capacity:** Up to 3 adults

**Weight:** 5.70kg

### Spirit 2

- A single pole lightweight adventure tent perfect for overnight excursions
- Full mesh inner with mesh gear pockets
- Single entry to the inner and fly
- Front opening can be guyed out as an awning
- Simple to erect and pull down

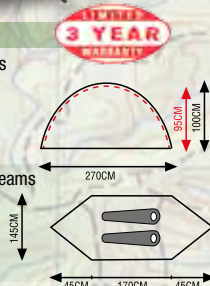

**Material:** Fly: 185T Ripstop polyester 4000mm PU coated with taped seams

**Groundsheet:** Nylon, PU coated 7,000mm

**Frame:** Aluminium 7001-T6

**Sleeping Capacity:** Up to 2 adults

**Weight:** 1.98kg including PVC waterproof carry bag

### Duo Deluxe 2XL

- A lightweight adventure tent perfect for overnight excursions
- Dual entrances via large D-doors mean easy access for each person
- Twin vestibules and internal gear loft provide storage space
- Closable mesh panels in ceiling provide ample ventilation

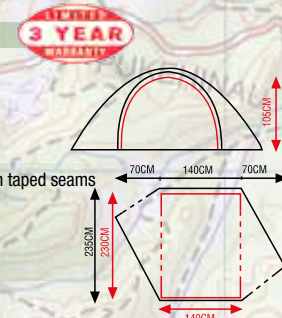

**Material:** Fly: 185T Ripstop polyester 4000mm proofed PU coated with taped seams

**Groundsheet:** Nylon, PU coated 7,000mm

**Frame:** Aluminium 7001-T6

**Sleeping Capacity:** Up to 2 adults

**Weight:** 3.28kg including PVC waterproof carry bag

**Coleman® Camping Tip**  
Make sure your tent is dry when packing away. If stored wet, mildew will form and quickly ruin your tent. Mildew will also form if a tent is stored on concrete. If you must pack a wet tent, set it up again as soon as you can to dry it out.

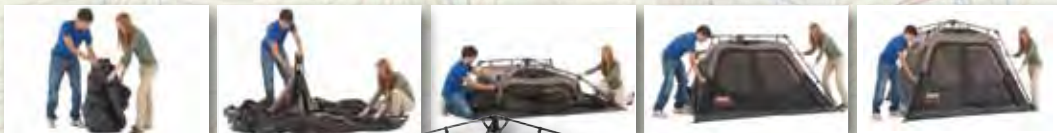

# EASY SET UP TENTS AND SHELTERS

## Instant Up Tent - Set up your whole tent in under 2 minutes!

\*Based on average set up time. Initial set up time may take longer.

### Instant Up 4 & 6 Person Tents

- Instant Up! This tent can be fully set up including fly in under two minutes!
- Ideal for road trips, 4WDs, overnight escapes and weekend getaways
- Fully seam sealed fly with large front awning
- Three large windows for ventilation

**Dimensions:** 4P: 2.4 x 2.4 x 1.9H m / 6P: 3.35 x 2.75 x 1.9H m

**Material:** Inner: 150D polyester PE floor / Outer: 75D polyester 1,500mm proofed fly

**Frame:** Steel poles **Sleeping Capacity:** Available in 4 person or 6 person

**Weight:** 4P: 10.60kg / 6P: 13.50kg

## Shelter Features

### Easy Setup

Indicates that this product is quick and easy to set up; uses simple, intuitive design. All shelters in our range are Easy Setup shelters

### UVGuard™ Protection Factor

Provides excellent protection (50+) against the sun's UV rays, with a lab-tested silver coating on all roof panel fabrics.

### Leak-Free Seams

Fully taped seams and easy-to-use velcro frame attachments to avoid leaks.

### Windstrong™ System

Wind-tested technology that combines vented canopies, shock-corded poles, uniquely designed frame hubs and guy lines to ensure your Coleman® shelter is strong, sturdy and secure in windy conditions.

### WATERPROOF

Indicates that the fabric is waterproof.

### Deluxe Event 14™ Shade with Sunwall

- Excellent shade design for short-term, large group gatherings or catered events
- 8 shock-corded poles strengthens shelter and makes set-up easier
- Air vent keeps shelter cool and helps reduce shelter lift forces
- CPAI-84 Fire Retardant compliant
- Single Sunwall included
- Additional Sunwalls available (sold separately)

**Dimensions:** 426 x 426 x 233H cm

**Material:** 150D/185T polyester, 450mm proofed, 50+UPF roof panels, CPAI-84 Fire Retardant

**Frame:** Steel Windstrong™ frame, hexagonal design

**Weight:** 17.30kg

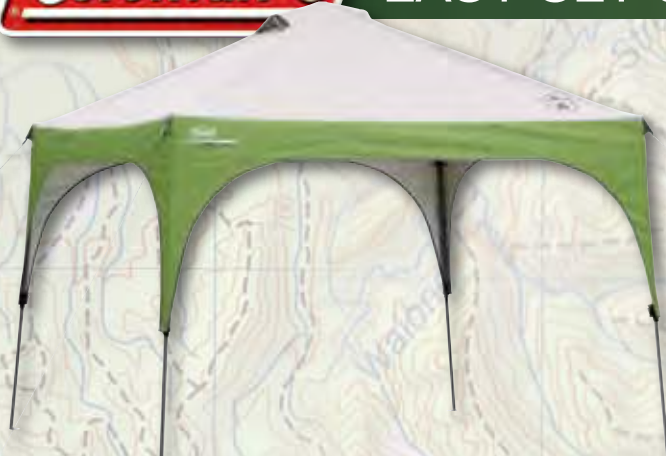

Also available: 75D standard Event 14 Shade

## EASY SET UP SHELTERS

### 3m x 3m 300D Instant Up Gazebo

- Straight leg style gazebo with three height settings
- Roof ventilation to release trapped heat
- Comes with wheeled trolley bag
- Sunwalls available (sold separately)

**Dimensions:** 305 x 305 x 248H cm **Material:** Poly Oxford 300D / 600mm Silver PU  
**Frame:** 28mm steel **Weight:** 19.07kg

**Size:** 152 x 152 x 212H cm

**Material:** 75D/185T polyester

**Weight:** 5.2kg

**Frame:** Steel and fibreglass

## SLEEPING BAGS

### COMFORTSMART™ TECHNOLOGY

Coleman's extensive range of quality sleeping bags is designed to suit a variety of New Zealand conditions, with features and certified temperature ratings that will suit the majority of consumers no matter where they are located or planning to travel. ComfortSmart™ Technology is a series of design features and manufacturing processes that combine to ensure every Coleman® sleeping bag performs exceptionally every time.

#### ZIPLOW™

Prevents zipper snags by plowing fabric away from zipper

#### FIBRELOCK™

Prevents insulation from shifting, increasing durability

#### THERMOLOCK™

Reduces heat loss through the zipper, keeping you warmer

#### ZIPPERGLIDE™ TAILORING

Allows smooth zipper operation around the corners

### TEMPERATURE RATINGS

#### COLEMAN'S LAB FORMULATED TEMPERATURE RATINGS

Coleman's entire range of sleeping bags has been tested in the independent laboratories of the School of Physics and Materials Engineering at Monash

University in Melbourne. Dr Don Hutton, an Honorary

Research Fellow and a keen bushwalker and camper, conducted the tests by inserting a centrally heated "mannequin" into the sleeping bag and maintaining a constant power input. The temperature changes are recorded by electronic heat probes and the information fed into a computer over an extended time period, providing the data to rate the bags scientifically. The swing tag attached to each bag shows the temperature rating in accordance with these tests.

#### Comfort Control C0 and C-5 Sleeping Bags

- Completely new and uniquely designed sleeping bag
- Cross-chest zip allowing sleeping bag to be opened in sections so you can control the temperature of the bag
- Internal modesty sheet for when you have the sleeping bag completely open
- Compression stuff sac included

**Dimensions:** 210 x 80cm

**Shape:** Rectangular shape with cross-chest zip

**Comfort Rating:** Available in -5°C and 0°C ratings

**Fill:** Polyester Microfibre

**Weight:** 0°C: 2.45kg

-5°C: 2.60kg

#### Global C5 Sleeping Bag

- Light, compact sleeping bag ideal for travellers
- ¾ length zip
- Internal pocket on chest for storing valuables
- Compression stuff sac included

**Dimensions:** (195 + 30) x 80-55W cm

**Shape:** Semi-rectangular hooded

**Comfort Rating:** 5°C

**Fill:** Polyester Microfibre

**Weight:** 0.94kg

#### ET Outlander C0 Sleeping Bag

- Warm and comfortable hooded design
- Hood pull cord to help keep in the warmth on cold nights
- Internal pocket for valuables
- Compression stuff sac included

**Dimensions:** (200 + 35) x 85-65W cm

**Shape:** Rectangular

**Comfort Rating:** 0°C

**Fill:** 2 x 150gm/m2 solid fibre

**Weight:** 2.0kg

#### Sloop Neck C0 and C5 Sleeping Bags

- Comfortable 'Sloop Neck' design
- Single full-length zip to join two bags together
- Velcro close inner pocket for valuables
- Compression stuff sac included

**Dimensions:** 210 x 90W cm

**Shape:** Rectangular

**Comfort Rating:** Available in 0°C and 5°C ratings

**Fill:** Synthetic fill

**Weight:** C0: 2.10kg

C5: 1.75kg

**Coleman® Camping Tip**  
When packing your sleeping bag, don't roll it; always stuff it into the carry bag. It's better for the loft of the fibres. Also if you're going to store your sleeping bag for a long period of time, try to take the sleeping bag out of the carry sack and store it hanging in your cupboard.

#### Stratus Fleece Sleeping Bags

- Use alone as a sleeping bag, or as a liner in another bag for additional warmth
- Zip two together to form one double sleeping bag
- Soft comfortable fleece
- Elastic band sewn into bag foot for easy roll up

**Dimensions:** 190 x 80W cm

**Shape:** Rectangular

**Comfort Rating:** 10°C or adds 12°C to any sleeping bag when used as a liner

**Material:** Fleece

**Weight:** 0.90kg

# AIRBEDS

## TECHNICAL INFORMATION

### The Coleman® Airtight™ System

All Coleman® inflatables use this system which incorporates the exclusive Double Lock™ Valve – an innovative valve technology that makes use easier and faster than traditional pinch-valves, and delivers a guaranteed airtight product.

### The Wrap 'N' Roll™ Storage System

The Wrap 'N' Roll™ System provides quick, hassle-free storage for your airbeds; simply roll airbed into the attached carrier, tie and store.

### CPX™ 6 Queen Quickbed™

- The comfort and quality of a Coleman® Quickbed™ with the innovation and convenience of CPX™ 6 technology
- Built in CPX™ 6 pump allows you to inflate airbed with 4D-cell batteries OR upgrade to CPX™ 6 rechargeable technology (sold separately)
- Heavy duty PVC construction with a soft suede top for luxurious comfort

**Dimensions:** 198 x 152 x 16H cm **Coils:** 48  
**Weight:** 5.70kg

### ComfortSmart Quickbed™

- Durable, heavy duty PVC construction
- Comes with Wrap 'N' Roll™ storage system
- Inflates/deflates rapidly with Coleman® Quickpump™ units

**Available in Queen, Double or Twin Dimensions:** **Queen:** 198 x 152 x 12H cm  
**Double:** 188 x 137 x 12H cm **Twin:** 188 x 99 x 12H cm

### 4 in 1 Quickbed™

- **Four bed options:** Double high twin bed (snap together for stability), King size (zipped together) or as two individual twin beds

**Dimensions:** 180 x 100 x 20H cm (per twin bed)  
**Weight:** 5.70kg

### Queen Double High Quickbed™

- A versatile bed that can be used for camping or as a spare at home
- Double height creates a mattress like experience
- Thick puncture resistant PVC with a soft suede like top for luxurious comfort

**Dimensions:** 198 x 152 x 45H cm **Coils:** 35  
**Weight:** 7.60kg

### Queen Double High Quickbed™ with built in pump

- Perfect choice for a spare bed at home
- Powerful built in 240V pump to inflate and deflate with a soft suede top for luxurious comfort
- Carry bag included

**Dimensions:** 198 x 152 x 45H cm  
**Coils:** 35 **Weight:** 8.40kg

#### Queen Airbed with frame

- Folding easy-up stretcher with polyester airbed cover attached
- Raises the height of sleeping and allows extra storage space under the bed
- Queen size Coleman® Quickbed™ airbed with double-lock valve

**Dimensions:** 198 x 150 x 56H cm **Weight:** 17.46kg

#### 13L Double Action Pump

- Easy double action, push/pull pump
- Multi size connectors
- Flexible 1.2m hose

#### 5L Bellows Pump

- Quick and easy to use
- Multi size connectors
- Flexible 1.2m hose

#### 240V Airpump

- High volume low pressure pump
- Inflates a Coleman® queen size airbed in 2 minutes
- Inflate and deflate functions
- Multi-purpose Coleman® patented adaptor fits most inflatable products

#### Inflate-All® Air-Pump Airport

- 12 volt air pump with 4m lead and plug
- On/Off switch on pump body
- Inflate and deflate functions
- High volume (fan type). Comes with 3 adaptors, so it fits almost all inflatables

#### CPX™ 6 Quickpump™

- High-Volume/Low-Pressure air pump
- Operates on 4D-cell batteries OR upgrade to CPX™ 6 rechargeable technology (sold separately)
- Coleman® Double-Lock Valve™ and Boston valve adaptor included

#### Rechargeable Quickpump™

- Recharge off 240V & 12V adaptors (included)
- Versatile inflate and deflate option
- Inflates 5 times faster than conventional hand and foot pumps
- Multi-purpose Coleman® patented adaptor fits most inflatable products

#### 12V Quickpump™

- High-volume/low-pressure air pump
- 2.7m power cord with 12 volt plug
- Versatile inflate and deflate option
- Multi-purpose Coleman patented adaptor fits most inflatable products

**Coleman® Camping Tip**  
Did you know: every Coleman airbed is inflated for 24 hours before leaving the factory floor?

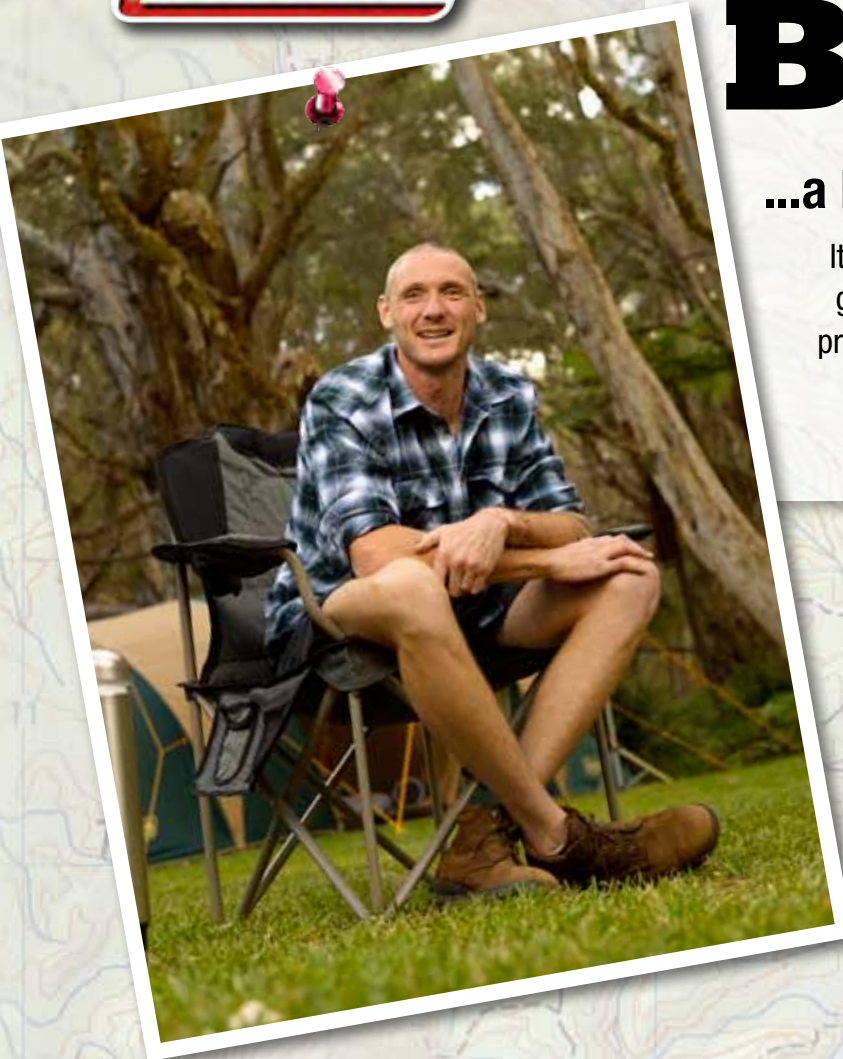

# BIGFOOT

## ...a BIG range for the BIG outdoors

It's pretty straight forward really; bigger, taller, heavier guys need wider, longer, stronger gear! BigFoot™ products are designed with the larger proportioned in mind, giving maximum comfort and stability.

Finally, someone is listening...

### BigFoot™ Sloop Neck Sleeping Bag

- A massive 200 x 100 cm to provide complete coverage to the bigger guys
- New 'Sloop Neck' design provides the comfort of a hood without the full enclosure
- Comfortable Perform X™ lining

- Deluxe, relaxing and fully adjustable reclining design with locking mechanism to lock at desired angle of recline
- Adjustable cushion for headrest or lumbar support
- Glassp™ included
- Super comfortable polyester cover with cord suspension
- Zippered storage pocket on rear of chair
- Simple, flat-fold design with easy carry shoulder bag included

**Fabric:** 600D polyester **Weight Capacity:** 130kg  
**Frame:** 19mm steel frame **Weight:** 10.20kg

# Foxy Lady

## CAMP IN STYLE...

### THE BEGINNERS GUIDE TO GLAMPING

Glamping, or glamorous camping, is a trend towards creating upscale outdoor experiences. It takes everything about regular camping up a notch, outfitting the campsite with little unexpected luxuries and engaging others who may not enjoy the idea of 'roughing it' outdoors.

#### Introducing the Foxy Lady™ collection from Coleman®

A range of luxury camping and outdoor products designed specifically for women who want to enjoy the outdoors in superior comfort and style, because finally camping doesn't have to mean roughing it. Camp in style with Foxy Lady™.

#### The Glassp™ System

All chair models in the Foxy Lady™ collection come with the Glassp™, the world's first universal glass holder for outdoor furniture. This patented design means even wine glasses and champagne flutes, as well as normal drink cans and bottles can be conveniently stowed by your side while relaxing in the outdoors.

#### Foxy Lady™ Relaxer

- Cushioned headrest that can be folded back if not required
- Zippered storage pocket on rear of chair
- New soft padded neoprene armrests for additional comfort
- Fancy insulated side pocket for wine bottles, keys and mobile phones
- Glassp™ included
- Ultra slim and lightweight yet strong aluminium frame
- Simple quad-fold design with matching carry bag

**Fabric:** 600D polyester **Weight Capacity:** 113kg  
**Frame:** Aluminium **Weight:** 3.20kg

#### Foxy Lady™ Sleeping Bag

- Available in two temperature ratings 0°C and -5°C in either pink or blue
- Incorporates Coleman's exclusive Snuggle Cuff™ feature; extra length on the cuff area to roll around the neck and stay cosy
- Sculptured shape for females to help eliminate cold spots in the bag
- 3D Box Wall foot design to provide plenty of foot room
- Coleman's Zipplow™ to help avoid snags while zipping
- Full length zip draft excluder prevents hot air from escaping through the zip
- Perform X™ lining provides a comfortable, soft feel inside
- Unique, easy to carry shoulder bag included

**Dimensions:** (195 + 30) x 80cm (rectangular shape with 3D Box Wall foot and hood)

#### Foxy Lady™ C-5 Sleeping Bag

**Fill:** 300g/m2 Coletherm  
**Temperature Rating:** -5°C  
**Weight:** 2.30kg

#### Foxy Lady™ C0 Sleeping Bag

**Fill:** 250g/m2 Coletherm  
**Temperature Rating:** 0°C  
**Weight:** 2.05kg

**Weight:** 5.00kg

## Why are Coleman® Stoves the Best?

- ✓ Unique and unrivalled technology
- ✓ Easy to use
- ✓ The best materials
- ✓ A five year guarantee

## Coleman® Camping Tip

Look at the cooking power of a stove, measured in BTUs, to see how powerful the product is. 10,000 BTUs is a good average rating for a family camping stove.

## Procat™ Portable Catalytic Heater

- Flameless, whisper quiet heater utilising platinum catalytic technology
- Suitable for use inside tents, caravans or other enclosed areas (must be ventilated)
- Built-in fan provides heat circulation and operates on 2 D-cell batteries for up to 20 hours
- Electronic ignition for easy lighting

**Max Heat Output:** 3,000BTUs **Runtime:** Up to 7hrs on Coleman lightweight LPG bottle (not included)  
**Dimensions:** 40 x 30 x 27H cm **Weight:** 3.50kg

## EvenTemp™ InstaStart™ 3 Burner LPG Stove

- Unique EvenTemp™ centre 3rd burner provides even heat distribution
- Three independently controlled brass top burners totaling 28,000 BTUs
- Operates on Coleman®LPG bottle (sold separately), plus 5ft hose included for use with refillable cylinders

**Packed Dimensions:** 66 x 47 x 15.2H cm / **Weight:** 8.20kg  
**No. of Burners:** 3 / **Total Output:** 28,000 BTU  
**Run Time:** 4.5hrs low / 1.1hrs high

## 2 Burner Electronic Ignition LPG Grill Stove

- Fully adjustable cooking power up to 10,000 BTUs per burner
- Heavy-duty removable chrome cooking grate and non-stick cast-aluminium grill plate
- 5ft hose with 3/8" LH fitting included for use with refillable cylinders

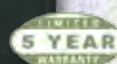

**Packed Dimensions:** 60 x 38.4 x 14.6H cm / **Weight:** 6.96kg  
**No. of Burners:** 2 / **Total Output:** 20,000 BTU  
**Run Time:** 4.5hrs low / 1.1hrs high

## 2 Burner InstaStart™ LPG Stove

- Fully adjustable cooking power up to 10,000 BTUs per burner
- Large 8.25cm diameter burners for even heat distribution
- 5ft hose with 3/8" LH fitting included for use with refillable cylinders

**Packed Dimensions:** 90 x 56 x 33H cm / **Weight:** 6.00kg  
**No. of Burners:** 2 / **Total Output:** 20,000 BTU  
**Run Time:** 4.5hrs low / 1.1hrs high

## 2 Burner Dual Fuel™ Powerhouse™ Deluxe Stove

- Fully adjustable cooking power
- Main burner boils a litre of water in 3.5 minutes
- Operates on Coleman® LPG™ or unleaded petrol

**Packed Dimensions:** 61 x 43 x 20H cm / **Weight:** 7.00kg  
**No. of Burners:** 2 (one 13,500 BTU, one 11,000 BTU)  
**Total Output:** 24,500 BTU  
**Fuel Capacity:** 1700ml / **Run Time:** Approx. 2.3hrs on high

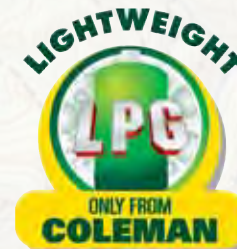

## LPG AND DUAL FUEL™ LANTERNS

### Lightweight LPG

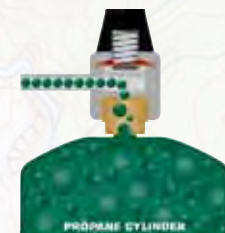

All our LPG lanterns, stoves and grills are compatible with Coleman® Lightweight LPG bottles.

Experience the portability and convenience of Coleman® Lightweight LPG bottles for fuelling a wide range of new and traditional camping appliances. Now you don't need to carry heavy, refillable cylinders; just take along a couple of these conveniently sized lightweight LPG bottles from Coleman®.

### Perfectflow™ Pressure Control System

All our LPG lanterns, stoves and grills are equipped with the Coleman® Perfectflow™ Pressure Control System. This system means you will get consistent performance from your product, regardless of cold temperatures, high altitudes or low fuel levels, by using a regulator to maintain a steady fuel stream.

PERFECTFLOW™

#### Dual Fuel™ Powerhouse Lantern

- Porcelainised ventilator is rust resistant
- Fully adjustable light output
- Lights easily with matches
- Fuel tank capacity of 2 pints
- 7 hours burn time on high, 14 hours on low

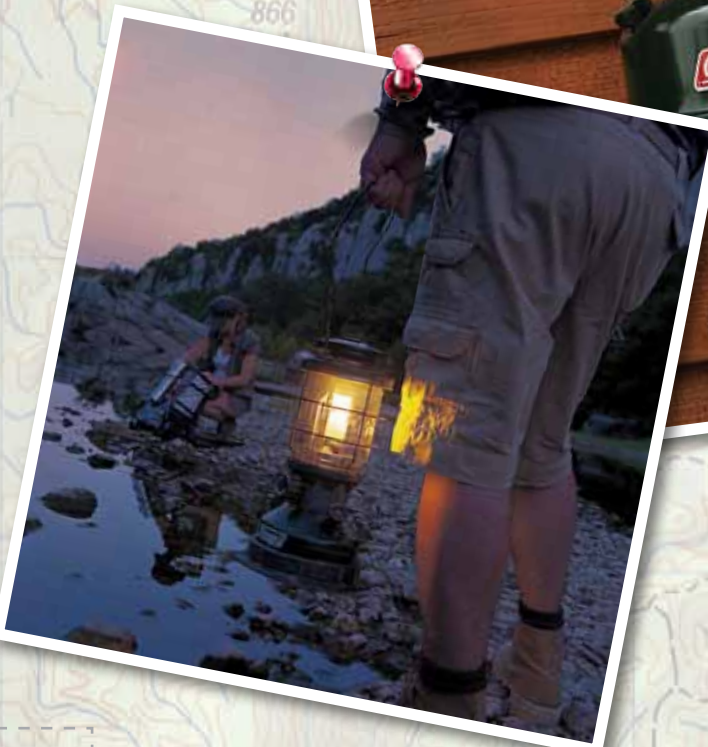

**Dimensions:** 20 x 18 x 40H cm **Weight:** 2.0kg  
**No. of Mantles:** 2 **Fuel Type:** Coleman® Fuel or unleaded fuel  
**Run Time:** Up to 14hrs

#### 2 Mantle Dual Fuel™ Lantern with Carry Case

- Durable case with tough, double-wall construction
- Uses two Coleman® #21 mantles (included)
- Lights easily with matches
- Filter tunnel included
- Rigid carry case protects lantern during transport and storage

**Dimensions:** 20 x 18 x 40H cm **Weight:** 2.0kg + carry case  
**No. of Mantles:** 2 **Fuel Type:** Coleman® Fuel or unleaded fuel  
**Run Time:** Up to 14hrs

## Dual Fuel™ Technology

All Coleman® Dual Fuel™ lanterns and stoves are compatible with Coleman® Fuel or with unleaded petrol, giving the convenience of a readily available alternative fuel.

Coleman® Fuel™ is the safe and easy option for fuelling your Dual Fuel™ appliances; totally portable and no gas poles or cylinders required. Running your Dual Fuel™ appliance on unleaded petrol will also deliver significant savings compared with running appliances on LPG.

## Coleman® Lightweight LPG Bottle

- A more convenient way to fuel a wide range of camping appliances
- Allows the user to run multiple LPG appliances without heavy cylinders
- Ideal emergency reserve when your standard cylinder runs empty
- Safe and self-sealing so you can remove whenever you choose
- Non-refillable

**Capacity:** 465g of LPG gas

## Coleman® Liquid Fuel

- Specifically formulated to extend the life of Coleman® Dual Fuel™ appliances
- Clean burning, resists gumming
- Easy lighting of stove or lantern in extreme weather conditions

**Capacity:** 1000ml

### Northstar El Dual Fuel™ Lantern

- Porcelainised ventilator is rust resistant
- Fully adjustable light output
- First liquid fuel lantern that includes electronic ignition
- Metal guard helps prevent globe breakage

**Dimensions:** 20 x 18 x 40H cm **Weight:** 2.40kg  
**No. of Mantles:** 1 **Fuel Type:** Coleman® Fuel or unleaded fuel **Run Time:** Up to 14hrs

### 1 Mantle Kerosene Lantern

- Porcelainised ventilator is rust resistant
- Fully adjustable light output
- Light output 193 watts
- Up to 7 hours burn time

**Dimensions:** 35 x 17 x 16H cm **Weight:** 1.8kg  
**No. of Mantles:** 1 **Fuel Type:** Kerosene  
**Fuel Capacity:** 740ml **Run Time:** Up to 7hrs

### Northstar™ Propane Combo Lantern

- Pressure regulator for constant light output regardless of weather conditions
- Porcelainised ventilator won't rust
- Fully adjustable light output
- Electronic ignition
- Metal guard to prevent globe breakage

**Dimensions:** 22.9 x 22.9 x 33H cm **Weight:** 2.69kg  
**No. of Mantles:** 1 **Fuel Type:** LPG  
**Run Time:** 11hrs low / 5.5hrs high, on one Coleman® LPG bottle

### Quickpack™ Lantern with Case

- Simple, easy to use lantern that packs down into conveniently sized case
- Two-mantle design uses Coleman #21 string-tie mantles (included)
- Porcelain two-tier ventilator resists corrosion and rust
- Bright lantern adjusts from low to high for perfect outdoor lighting
- Perfectflow™ LPG pressure control system for consistent performance

**Dimensions:** 20 x 16 x 30H cm **Weight:** 1.40kg  
**No. of Mantles:** 2 **Fuel Type:** LPG  
**Run Time:** 14hrs low / 7hrs high

## CPX™ LIGHTING

# CPX™ COLEMAN POWER

A world first, this technology not only allows you to use power packs across multiple products, it

### CPX™ 6 LED Duo Lantern

- 3 lights in 1 – full area lantern or 2 removable pods
  - Dock will charge the pods as well as illuminate for 360° area light
  - (12) 5mm white LEDs never need to be replaced
- Light Output:** 216 lumens **Run Time 4D:** 56hrs  
**CPX™ Rechargeable:** 8.5hrs **Weight:** 1.70kg  
**CPX™ 6 Rechargeable Cartridge included**

### CPX™ 6 X² Lantern

- Another first high performance lantern and flashlight in one
- Flashlight docks (and charges) in lantern and ejects for independent use
- Lantern has 3 modes of light – low (flashlight engaged) / medium (lantern only) / high (lantern and flash)

**Light Output:** 300 lumens  
**CPX Rechargeable:** 100 hours (low)  
**Weight:** 1.19kg  
**CPX™ 6 Rechargeable Cartridge sold separately**

### CPX™ 6 High Tech LED Lantern

- Dimmer control allows you to choose between 8 light settings
  - Choose from 5 lumens for a night light, up to 190 lumens for bright area light
  - Diffuser tube creates perfect beam pattern
- Light Output:** 190 lumens  
**Run Time 4D:** 25hrs high, 300hrs low  
**CPX™ Rechargeable:** 8hrs high, 140hrs low  
**Weight:** 1.15kg  
**CPX™ 6 Rechargeable Cartridge included**

## CPX™ 6 C O M P A T I B L E

CPX™ 6 units operate using the 6V rechargeable unit or 4 D-cell batteries.

### Spare CPX™ 6 Rechargeable Cartridge

- Instantly converts any Coleman® CPX™ 6 product to rechargeable
- Charge at home or in the car with 240V and 12V adaptors (included)
- No tools required – just plug in and go

**Compatible and interchangeable across all CPX™ 6 products**

### CPX™ 6 Reversible Retro Lantern

- Iconic retro style design with unique clear design
  - Clear top for reversible hanging (hook situated on base of lantern)
  - 'Warm LED' effect provides ambient glow
- Lumens:** 175 **Run time 4D:** 168 hours (low)  
**CPX Rechargeable:** 150 hours (low)  
**Weight:** 0.86kg  
**CPX™ 6 Rechargeable Cartridge sold separately**

### CPX™ 6 LED Easy Hang Lantern

- Full size lantern that can hang from almost anything!
- Hook-and-loop handle allows lantern to hang sideways for overhead lighting
- Ideal for workshops

**Light Output:** 200 lumens  
**Run Time 4D:** 65hrs high, 155hrs low  
**CPX™ Rechargeable:** 7hrs high, 14hrs low  
**Weight:** 1.40kg  
**CPX™ 6 Rechargeable Cartridge included**

### CPX™ 6 Rugged LED Lantern

- High powered Cree® XR-E LED with high/low function
  - Diffuser tube creates perfect beam pattern
- Light Output:** 190 lumens  
**Run Time 4D:** 25hrs high, 60hrs low  
**CPX™ Rechargeable:** 7hrs high, 14hrs low  
**Weight:** 1.03kg  
**CPX™ 6 Rechargeable Cartridge included**

# EXCHANGE CHOOSE YOUR POWER

also gives you the choice on how you wish to power your product – rechargeable or battery operated.

#### CPX™ 4.5 LED Mini Lantern

- Recessed wire bail and glow cap maximise light when hung upside down
- Colour changing LED battery meter
- Water and impact resistant

**Light Output:** 75 lumens

**Run Time:** 10hrs high, 25hrs low

**Weight:** 0.56kg

**CPX™ 4.5 Rechargeable Cartridge included**

## CPX™ 4.5 C O M P A T I B L E

CPX™ 4.5 units operate using the 4.5V rechargeable unit or 3 AAA batteries.

#### Spare CPX™ 4.5 Rechargeable Cartridge

- Instantly converts any Coleman® CPX™ 4.5 product to rechargeable
- Charge at home or in the car with 240V and 12V adaptors (included)
- No tools required – just plug in and go

**Compatible and interchangeable across all CPX™ 4.5 products**

#### CPX™ 4.5 LED Rechargeable Headlamp

- Small and lightweight high-power LED headlamp (headpiece weighs only 30g!)
- 89 metre beam distance and red LED setting for enhanced night vision
- Colour changing LED battery meter

**Light Output:** 85 lumens

**Run Time:** 5hrs high, 25hrs low

**Weight:** 0.35kg

**CPX™ 4.5 Rechargeable Cartridge included**

#### CPX™ 4.5 LED Tent Light

- Magnetically attaches to any tent or metal surface
- Multi-axis pivoting head and adjustable brightness
- 3 white LED's or 2 amber LED night lights
- Colour changing LED battery meter

**Light Output:** 60 lumens

**Run Time:** 15hrs high, 25hrs low

**Weight:** 0.30kg

**CPX™ 4.5 Rechargeable Cartridge sold separately**

#### CPX™ 4.5 Aluminium LED Flashlight

- High powered with 157 metre beam distance
- Aerospace grade aluminium construction with anti-roll design
- Water and impact resistant

**Light Output:** 126 lumens

**Run Time:** 7hrs

**Weight:** 0.40kg

**CPX™ 4.5 Rechargeable Cartridge included**

# BATTERY LIGHTING

## LED Quad Lantern

- Four lights in one - remove a Pod without having to take the whole lantern
- Each Pod contains NiMH rechargeable batteries with an individual run time of up to 1.5 hrs
- Main dock will charge the Pods as well as illuminate for 360° area light
- Lantern has an over-charge protection circuit
- The (24) 5mm LEDs never need to be replaced

**Light Output:** 190 lumens  
**Run Time:** Up to 75 hours  
**Weight:** 1.44kg  
**Battery Type:** 8 D-cell (not included)

## Retro Rechargeable Lantern

- Fluorescent spiral U-tube for a brighter, whiter light
- High/low/nightlight settings
- Rechargeable: charges from 240V adaptor for home use, or from 12V adaptor for portable use (both adaptors included)
- Easy bulb replacement with quick-release lever

**Light Output:** 280 lumens  
**Run Time:** 6hrs high / 9hrs low  
**Weight:** 3.40kg  
**Battery Type:** 61240A SLA

## 4D Personal Size Pack-Away™ LED Lantern

- CREE® XR-E LED – 140 lumens on high
- Pack-Away™ feature for storing in a backpack
- Cool to touch and weather resistant
- 3-position: off, high, low

**Light Output:** Up to 140 lumens  
**Run Time:** 18hrs high / 40hrs low  
**Weight:** 1.00kg  
**Battery Type:** 4D-cell (not included)

## LED Spotlight with Rechargeable Battery Pack

- 3 CREE® XR-E LEDs – 555 lumens
- Rechargeable spotlight with lightweight head unit – perfect for prolonged use
- Runs directly from 12V outlet or plugged into rechargeable belt pack (included)
- Tough shatter resistant polycarbonate lens

**Light Output:** 555 lumens  
**Beam Distance:** 346m  
**Run Time:** 3.5hrs  
**Weight:** 2.03kg  
**Battery Type:** 5438-500 (Sealed Lead Acid)

## Axis High Power LED Headlamp

- Patent pending direction system, rotate headlamp for focused light
- Light intensity adjustment dial with side loading battery cartridge
- Uses high powered CREE® XR-C LED
- Lightweight and water resistant
- Light Output: Up to 75 lumens

**Beam Distance:** Up to 43m  
**Run Time:** 11hrs high / 55hrs low  
**Weight:** 100g with batteries  
**Battery Type:** 3AAA batteries (included)

## LANTERN BUYING TIPS

There is currently no industry standard to qualify manufacturers' light output claims. However a number of brands, including Coleman®, are working together to agree on a set of measurements. There are two main areas to focus on when choosing a light; light output and run time.

**(One)** As a guide, a typical 60 watt soft white light bulb provides about 84 lumens. To light a space (campsite area etc.) you should look for at least 140 Lumens. For directional lighting such as flashlights and headlamps, 40 Lumens and up is sufficient for most activities.

**(Two)** Run Time is calculated based on the amount of time the lighting product will provide 'useful light' from full charge / full fuel capacity. Run time is generally measured in hours.

**(Three)** Consider where you will be using your lighting product and your access to different energy sources; different lighting products can be powered by different power sources such as 12V or 24 recharging leads (charge in wall socket before use or via car socket while enroute), alkaline batteries, gas or fuel.

**(Four)** The lighting source the product relies on to produce light may have some bearing on the run time and the colour of the light produced. Battery powered lights generally produce whiter light than fuelled lanterns. LED lights use the least energy so have a greater run time, and never need to be replaced. On the other hand, they can not light large areas as brightly as fluorescent lights - they have a lower Lumen output.

**(Five)** Finally if it really is a good light it should have a long guarantee. Coleman® lights generally come with at least a 3 year and most have 5 year guarantees.

## TECHNOLOGY

Coleman® use high powered Cree® LED's in their range of LED lights.

Cree® are a market leading manufacturer of LED's that lead the way in terms of light output, efficiency and quality. Look for this logo next to related products:

- ✓ Why are Coleman® lights the best?
- ✓ Unique and innovative design features
- ✓ Industry leading guarantee
- ✓ A lighting solution for your every need

## 4AA Camp Lantern

- Compact lantern ideal for kids camping / nightlights
- Weather resistant to withstand the elements

**Run Time:** 4hrs  
**Weight:** 0.25kg  
**Battery Type:** 4AA-cell (not included)

## Axis LED Headlamp

- Patent pending direction system, rotate headlamp for focused light
- Easy push button on/off with two light settings
- Side loading battery cartridge
- Lightweight and water resistant

**Light Output:** 33 lumens on high / 13 lumens on low  
**Beam Distance:** Up to 36m  
**Run Time:** 25hrs high / 66hrs low  
**Weight:** 100g with batteries  
**Battery Type:** 3AAA batteries (included)

## Mini LED Headlamp

- Extremely lightweight headlamp with 3 x 5mm white LEDs
- Push button switch on bottom of headlamp – off/on
- No tools required to change batteries
- Spring-loaded 'slack adjuster' mechanism to adjust fit

**Light Output:** 12 lumens  
**Beam Distance:** 10m  
**Run Time:** 4hrs  
**Weight:** 34g with batteries  
**Battery Type:** CR2032 Lithium Coin

## HOT WATER ON DEMAND

### 5 Things to know about your Hot Water on Demand™ Unit

- Charge the battery when new and every 3 months thereafter
- Always 'Push' the knob before turning
- Do not pump water directly from a river
- Always use the unit on a flat surface
- Do not force the knob past the 'HOT' area

# HOT WATER On Demand™

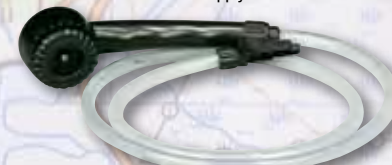

- Simply connect the hose from the heater to the 22L collapsible water container (included) and turn the dial to select the desired temperature
- In less than 5 seconds, hot water comes from the spout
- The powerful 30,000 BTU output heats water up to 71°C, suitable for hot beverages
- Heat up to 150 litres of water with one Coleman® Lightweight LPG Bottle
- Rechargeable 6 volt battery powers the pump and can be re-charged in the car or from a household 240V socket (all cords included)
- Smart internal micro-processor controls over temperature shut-off device, low voltage indicator and integrated circuitry
- Adaptable to refillable LPG bottles
- Suitable for outdoor use only

**Packed Dimensions:** 48 x 30 x 48H cm  
**Weight:** 10.20kg  
**Fuel:** LPG  
**Run Time:** 40min  
**Battery:** 2300-4061 6V Sealed Lead Acid  
**Adaptors:** 12V/240V  
**Max Output:** 30,000 BTUs  
**Max Water Temp:** 71°C

### Hot Water on Demand™ Hose Adaptor

- Connect a standard water hose to Hot Water on Demand™ unit for a continuous supply of hot water

### Hot Water on Demand™ Spray Adaptor

- Perfect for showering
- 8ft hose provides greater reach

### Hot Water on Demand™ Carry Case

- Specifically designed to carry and store the Hot Water on Demand™ unit
- Adjustable shoulder strap and carry handle
- Two organiser pockets sized to hold 2 Lightweight LPG Bottles or other accessories
- Mesh pocket on back for storing collapsible 22L water carrier
- Raincover included to protect unit from the elements

### Hot Water on Demand™ 240V Transformer

- Use with Hot Water on Demand for continuous use

### Coleman® Camping Tip

In the Coleman® tradition of making family camping more fun, the fully portable and self contained Hot Water on Demand™ unit delivers hot water in less than 5 seconds, anytime, anywhere at turn of a dial. Ideal for campsites; use it for washing, cooking, cleaning or showering (spray adaptor sold separately).

## BEACH

### Instant Up Beach Shelter

- Instant up! Light, compact shelter ideal for the beach or concert
- Fold out sand pockets – makes it easy to anchor and quick to pack away
- Fold out mat at front, hooks up to protect valuables
- Generous height with rear window provides great ventilation

**Fabric:** UV 50+ fly **Dimensions:** 230 x 100 x 120H cm  
**Frame:** Steel/fibreglass frame **Weight:** 7.04kg

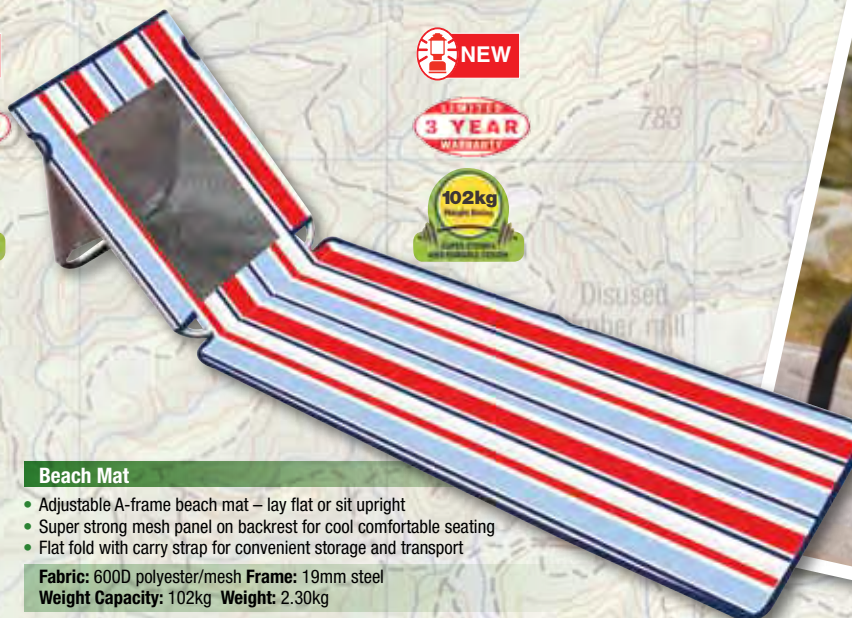

Sand pocket for shelter anchoring

### Compact Beach Chair

- Compact folding beach chair
- Lightweight aluminium frame with wooden arm rests
- Integrated carry handle and hoop leg design

**Fabric:** 600D polyester **Frame:** Aluminium  
**Weight Capacity:** 102kg **Weight:** 2.07kg

### Beach Mat

- Adjustable A-frame beach mat – lay flat or sit upright
- Super strong mesh panel on backrest for cool comfortable seating
- Flat fold with carry strap for convenient storage and transport

**Fabric:** 600D polyester/mesh **Frame:** 19mm steel  
**Weight Capacity:** 102kg **Weight:** 2.30kg

### Beach Umbrella

- Beach umbrella with fun and vibrant design
- 2 pole design with spiral foot to anchor in the sand
- Carry bag included

**Fabric:** Polyester fabric **Dimensions:** 160 x 160 x 113H cm  
**Frame:** Fibreglass/steel **Weight:** 5.40kg

**Coleman® Beach Tip**  
Remember to be sun smart and slip, slop, slap and wrap while you're outside enjoying the outdoors or playing sport.

# COOLERS

## COOLER BUYING TIPS

**One)** The ultimate aim of the cooler is to... well, keep your contents cold. Check how long different products state the cooler will keep your ice cold as a guide to the cold retention performance.

**Two)** You also want to look at the insulation; how thick are the sides? See if you can see an example of inside the cooler walls to see the quality of the insulation in use. But don't forget that the heat from outside can still get in through the lid of the cooler, not just the sides, so make sure the lid is insulated as well.

**Three)** Some manufacturers use insulation which is harmful to the planet when it is produced. You don't want your product contributing to the destruction of the outdoors you're trying to enjoy!

**Four)** Try and identify what your main use will be for the cooler. Are you just taking drinks to friends for a BBQ or are you going on a weekend fishing trip?

**Five)** Coolers come in all shapes and sizes, but the bigger they are the heavier they will be when filled full of food and ice. If you are going for a larger one that you will need to move around regularly, we recommend you save your back and choose one with wheels!

**Six)** As always, a good cooler should come with a guarantee. All Coleman® coolers come with a 1 year guarantee.

*"Other coolers may look the part, but the real proof is on the inside; our coolers are all substance as well as style and have been keeping their cool for more than 50 years"*

### Thermozone™

All Coleman® coolers contain Thermozone™ environmentally friendly foam with 0% ozone-depletion potential. There are no CFCs, HCFCs or HFCs in Thermozone™.

#### Auto-on LED Cooler Light

The convenience of your home fridge lighting – automatically turns on when the cooler lid is opened (when the switch is set to auto). Waterproof and easily mounted. Also ideal for cupboards, boats and more!

#### 37L PowerChill™ Thermoelectric Cooler

- Iceless electric cooler cools to 18°C below surrounding temperature
- Portable - plugs into cigarette lighter
- Use in two positions, upright or chest
- Patented, adjustable door opens on right or left side
- Holds up to 44 cans plus snacks

**Exterior dimensions:** 59 x 44.5 x 40cm  
**Weight:** 38.14kg

## THREE DAY POLYLITE COOLERS

Coleman® polylite coolers will keep ice cold for up to 3 days at 32°C!

#### 47L Cooler

- Holds up to 67 cans plus ice

**Dimensions:** 65 x 42 x 37H cm  
**Weight:** 5.40kg

#### 26L Ice Basket Cooler

- Holds up to 36 cans plus ice

**Dimensions:** 49 x 29 x 34H cm  
**Weight:** 2.70kg

#### 5L Take-6 Personal Cooler

- Flip-top lid that swivels over and doubles as a serving tray
- Holds 6 x 375ml cans

**Dimensions:** 27 x 21 x 18H cm  
**Weight:** 0.726kg

**5 DAY COOLER**

## THE XTREME® COOLER SERIES

This range of coolers is engineered to keep your food and drinks cold for longer through innovative design and a greatervolume of insulation in the case and lid. All Coleman® coolers in the Xtreme® and Ultimate™ Xtreme® range feature cup holders built into a hinged lid and no-tilt draining. Coleman® Xtreme® Coolers will keep ice cold for up to 5 days at 32°C!

**95L Xtreme® Wheeled Cooler**

- Holds up to 150 cans plus ice
- Dimensions:** 103 x 50 x 93H cm
- Weight:** 9.00kg

**66L Xtreme® Cooler**

- Holds up to 98 cans plus ice
- Dimensions:** 80 x 46 x 40H cm
- Weight:** 7.00kg

**58L Xtreme® Wheeled Cooler**

- Holds up to 80 cans plus ice
- Dimensions:** 80 x 39 x 43H cm
- Weight:** 7.20kg

**49L Xtreme® Cooler**

- Holds up to 60 cans plus ice
- Dimensions:** 70 x 37 x 44H cm
- Weight:** 5.40kg

**34L Xtreme® Cooler**

- Holds up to 43 cans plus ice
- Dimensions:** 71 x 38 x 38H cm
- Weight:** 4.90kg

### Maximise your coolers potential

- Pre-chill or freeze food and drinks
- Put food in first, then cover with ice
- Keep the cooler out of the sun
- Don't drain all the cold water
- Keep meats/perishables directly on ice

**6 DAY COOLER**

## THE ULTIMATE™ XTREME® COOLER SERIES

If you're heading bush and don't expect an ice top-up any time soon, these are the coolers you want! The Ultimate™ Xtreme® coolers are the best Coleman® have to offer and they won't disappoint. They have 5cm of injected insulation contained in the case and lid, making them the insulated wonders of the cooler world.

Coleman® Ultimate™ Xtreme® coolers are in it for the long haul, able to keep ice cold for up to 6 days at 32°C!

**55L Ultimate™ Xtreme® Cooler**

- Holds up to 75 cans plus ice
- Dimensions:** 80 x 41 x 46H cm
- Weight:** 7.00kg

**47L Ultimate™ Xtreme® Wheeled Cooler**

- Holds up to 68 cans plus ice
- Dimensions:** 80 x 41 x 46H cm
- Weight:** 7.50kg

**Coleman® Camping Tip**  
It's important to keep your cooler clean. To get the most out of it, clean it every now and then with mild soap and warm water. Use baking soda to remove tough stains and chlorine or bleach for strong odours. For stubborn odours wipe with vanilla essence or anti-bacterial wipes and leave cloth in over night. Always air dry with the lid open.

**5 DAY COOLER**

## THE XTREME® MARINE COOLER SERIES

Xtreme® Marine Coolers all feature a UV treated case to resist yellowing, and a textured exterior to resist scuffs and scratches. Coleman® Xtreme® Coolers will keep ice cold for up to 5 days at 32°C!

**65L UVX Xtreme® Marine Cooler**

- Holds up to 98 cans
- Dimensions:** 76 x 42 x 41H cm

**95L UVX Xtreme® Marine Cooler**

- Holds up to 130 cans
- Dimensions:** 94 x 45 x 42H cm

**142L Heritage Marine Cooler**

- Holds up to 233 cans.
- Dimensions:** 113 x 49 x 47H cm

### Clothes Line

- Ideal for use while camping or travelling
- Up to 6.4m of strong nylon cord

### Large Portable Flush Toilet

- 20.1 litre waste tank and chemical bottle storage area
- Hose connector for cleaning

### Melamine Dishware Set

- Virtually unbreakable and dishwasher safe
- Set of 12 (4 cups, 4 plates, 4 bowls)

### Non-Stick Aluminium Griddle

- Non-stick, heavy gauge 2.5mm aluminium for uniform heating/cooking
- Dimensions: 27.3 x 42cm

### Universal Nonstick Griddle

- Grease reservoir
- Fits all Coleman and Dual Fuel multiple burner stoves

### Utensil Set (Knife, Fork, Spoon)

- Stainless steel knife, fork and spoon set
- Compact and lightweight

### Nesting Chow Kit

- Constructed of durable stainless steel
- Nests together for convenient storage

### Camp Stove Toaster

- Toasts 4 slices at once
- Folds compactly for quick storage

### 22L Expandable Water Carrier

- Heavy duty polyethylene carrier resists dents and cracks
- Folds flat for easy storage

### Sleeping Bag Straps

- Strong polypropylene straps with slide buckle for secure fit
- Instant release

### Map Compass

- Liquid filled with two scales - inches and millimetres
- Distortion free, see-through base and rotating bezel

### Lensatic Compass

- Liquid filled for reliable readings
- Luminous letters

### Waterproof Pouches

- 3 piece set
- Watertight, strong vinyl with hook and loop enclosure

### Trekking Pole

- Telescoping aluminium pole extends from 68 to 135cm
- Contoured handle grip features adjustable nylon strap and compass

### Mosquito Coil

- Great to use while picnicking, barbecuing, camping and fishing
- Effective against mosquitoes and other flying insects

#### Folding Shovel/Pick

- Tempered forged steel components for long life
- Use as a pick, shovel or saw

#### Deluxe Backpackers Salt & Pepper

- Moisture and spill proof
- Ideal for camping, backpacking or office use

#### Can Opener

- Compact size
- Uses back and forth motion to open cans

#### Waterproof Matches

- Extra large, waterproof head
- Waterproof striking surface

#### 22L PVC Camp Shower

- Great for showers and dishwashing
- Strong handle for easy hanging and carrying

#### Dry Gear Bags

- Reinforced material keeps items dry and protected
- Available in small, medium and large

#### Biodegradable Soap

- All-purpose cleaner for camping and traveling
- Use on hands, face, hair, clothes and dishes

#### Egg Container

- Protects eggs during transport
- Great for use in a cooler

#### Water Repellent Aerosol

- Great for use on canvas, nylon, leather, suede and most other fabrics
- Restores factory-applied stain and water treatments

#### Camp Mirror

- 3 way standing, hanging or clamping camp mirror
- Slim, lightweight and easy to pack

#### Insect Head Net

- Fine mesh keeps flying insects out
- Comfortable fit over most head gear

#### 5-N-1 Survival Whistle

- Signal whistle with waterproof matchbox, fire starter flint, signal mirror and compass

#### Emergency Poncho

- One size fits all hooded poncho
- Great for outdoor spectator events

#### Emergency Bag

- Wind- and water-proof
- Compact and lightweight – only 85g

#### Emergency Blanket

- Aluminium polyethylene blanket that reflects heat back into the body
- Compact and lightweight – only 47g, and folds out to 1.3m x 2.05m

#### Coleman® Camping Tip

Spare roll of toilet paper anyone? You don't want to be caught without any, so always take a roll or two, just in case.
