A photograph of a boat on a lake at sunset. The water is dark with golden reflections from the setting sun. The boat is dark, and a motor is visible. The background shows trees with golden light filtering through them.

After years of listening to our consumers in developing the highest-quality, most innovative species-, region- and technique-specific rods available, Shimano® has become a leader in rod innovation and performance. Using only the highest quality graphites, composite materials and componentry, we are able to design and build incredibly strong and lightweight rods that feel like an extension of your reel—and casting experience. We will continue listening to your needs in developing rods that meet the highest Shimano quality standards, with the sole purpose of improving and maximizing your performance and enjoyment on the water.

# How To Use This Catalog

## What's New

We've made some changes to the Shimano® Rod Catalog this year, including new **Product Comparison Charts** beginning on page 124. Now it will be easy to compare different families of rods and quickly determine which rod is for you. Also, we have created a new **Glossary**, beginning on page 137, which includes *A Guide To Guides, Butts & Seats*, and much more. Hopefully we've made it easier for you to get the information you want about Shimano products. Enjoy!

## Product Specification Charts

Shimano manufactures thousands of rods, in so many configurations, it's hard to keep track of them all. We make so many configurations because we know that for every angler that wants a 6' 6" bass rod with lightning-quick tip, there's another that prefers a 7' rod for the same conditions. So in order to make sure that you get exactly what *you* want, we list all of our rods in this catalog.

The specification charts are a wealth of information—even the model numbers themselves tell you how a rod is set up. See below.

**Pieces**  
If you want to pack your rod in your suitcase or back seat, look for a two-piece model.

**Number of Guides**  
Some anglers prefer more guides, others save money by requiring fewer.

### Clarus® Spinning

Model	Power	Action	Line Rating (lb)	Lure Rating (oz)	Pieces	Handle Style	Foregrip Length	Reargrip Length	Number of Guides	MSRP	
<b>5'0"</b> CSS50UL	Ultra Light	Medium Fast	1-4	1/32-3/16	1	A	2.0"	5.0"	Tip+5	\$59.99	
<b>5'6"</b>	CSS56UL	Ultra Light	2-6	1/32-3/16	1	A	2.0"	5.0"	Tip+6	\$59.99	
	CSS56UL2	Ultra Light	2-6	1/32-3/16	2	A	2.0"	5.0"	Tip+6	\$59.99	
	CSS56L	Light	Fast	2-8	1/16-1/4	1	A	2.0"	5.0"	Tip+6	\$59.99
<b>6'0"</b>	CSS60UL	Ultra Light	2-6	1/32-3/16	1	B	2.5"	6.5"	Tip+6	\$59.99	
	CSS60L	Light	Fast	2-10	1/16-5/16	1	B	2.5"	6.5"	Tip+6	\$59.99
	CSS60M	Medium	Fast	6-12	1/8-1/2	1	B	2.5"	6.5"	Tip+6	\$59.99
	CSS60M2	Medium	Fast	6-12	1/8-1/2	2	B	2.5"	6.5"	Tip+6	\$59.99

**Model Number**  
**CSS60M2**

**CS** - This is the family abbreviation, in this case, Clarus

**S** - Follows the family, S stands for Spinning. C is for Casting and T is for Trolling

**60** - Is the rod's length in feet and inches, in this case, 6' 0"

**M** - The rod's power, in this case, Medium. Powers vary from UL (Ultra Light) to XH (Extra Heavy)

**2** - Indicates a two-piece rod

**Power and Action**  
See page 5

**Line Rating and Lure Rating**  
Make it easy on yourself. Look here to quickly determine the rod's specific purpose. Will it function for other tasks? Of course it will. But this is the *optimum* pound-test and lure weight for this particular rod.

**Reargrip Length**      **Foregrip Length**  
Measured in inches      Measured in inches

**Handle Style**  
Each different handle configuration is shown and labeled.

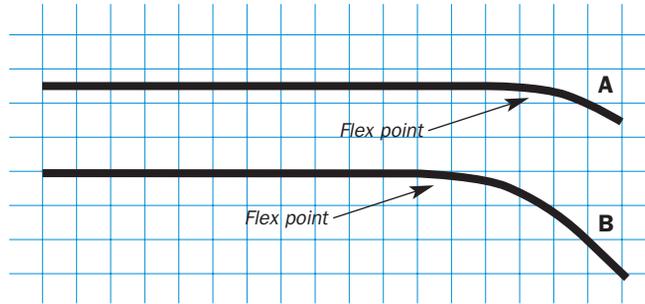

# About Power and Action

## Power

We define power as the strength required to move a fish. Each of our series of rods is created with various blends of materials and rated to describe its appropriate power. The power for each rod is determined by analyzing its application, environmental conditions and fighting style.

## Action

The action of a rod describes where it flexes both during the cast and on the retrieve. The action, in combination with materials and components, determines a rod's performance. A rod with an Extra Fast action flexes closest to the tip. As the action descends from Extra Fast to Slow, the flex descends through the rod blank towards the butt. The design of each action is customized to a particular fishing application. We take into consideration such variables as angler preferences, personal styles and the presentation and performance of lures on both the delivery and in the retrieve. These variables can be optimized when the proper action is combined with the proper lure selection.

Rods that begin bending out near the tip (figure A) are considered "Fast" rods. Rods that bend more in the middle of the length are considered "Slow" (figure B).

### ROD ACTIONS

<b>S</b>	<b>Slow</b>
<b>M</b>	<b>Medium</b>
<b>MF</b>	<b>Medium Fast</b>
<b>F</b>	<b>Fast</b>
<b>XF</b>	<b>Extra Fast</b>

### ROD POWERS

<b>UL</b>	<b>Ultra Light</b>
<b>L</b>	<b>Light</b>
<b>ML</b>	<b>Medium Light</b>
<b>M</b>	<b>Medium</b>
<b>MH</b>	<b>Medium Heavy</b>
<b>H</b>	<b>Heavy</b>
<b>XH</b>	<b>Extra Heavy</b>
<b>XXH</b>	<b>Extra Extra Heavy</b>

# Warranty Information

## Limited Lifetime Warranty Program

We offer this program for our Crucial®, Compre®, Clarus®, Convergence®, Talora®, Calcutta®, Teramar®, Trevala®, Tiralejo™, Talavera®, Tallus® IGFA®, Tallus® Trolling, Tallus® Stand Up, Tallus® Rail Rods, Tallus® Blue Water, Tallus® Ulua and Tallus® Kingfish series rods.

Have fun and enjoy the security of our Limited Lifetime Warranty program. We will replace the original retail purchaser's rod, at no charge, when the damage has occurred under normal fishing conditions. Rods damaged by accident or by misuse are not covered under this Limited Lifetime Warranty program but may be repaired or replaced at our discretion for a nominal fee. This program makes our warranty replacement simple.

We give you two choices to select from under our Limited Lifetime Warranty program:

### 1) OVER-THE-COUNTER REPLACEMENT

The first choice is our over-the-counter replacement program, offered at participating dealers. These participating dealers have the option of honoring valid warranty claims in their store or can refer any claim back to Shimano®. All you have to do is bring back the damaged rod to the dealer from where you purchased it, accompanied with your valid dated sales receipt.

### 2) SEND THE ROD BACK

The second choice under our Limited Lifetime Warranty program is to send the rod directly back to Shimano for evaluation. Our address is listed on the back cover. If you choose to send it back to us, send it postage prepaid and insured, accompanied by your valid and dated sales receipt with a brief note describing the difficulty you are experiencing. Rods that are repaired or replaced under this Limited Lifetime Warranty program will be shipped back to you with Shimano paying the returned shipping charges.

Our Carbomax®, Scimitar®, Sojourn®, Stimula®, FX®, Solara® and TDR® series rods are covered under our One Year Limited Warranty program. Under this program, we will replace the rod at no charge when the damage has occurred under normal fishing conditions. Just send the rod back to Shimano, as described above, within one year of purchase and we will send you a replacement. **For complete rod warranty details please visit [www.shimano.com](http://www.shimano.com).**

# FRESHWATER RODS

# CRUCIAL®

Graphite Rods

**Look no further for a top-quality, versatile and complete line of technique-specific freshwater rods—Shimano®'s Crucial® series**

## Feature Highlights

- High Modulus IM-9 Graphite Blank Construction
- Shimano® High Modulus TC<sub>4</sub> Construction® on Crankbait models
- New Concept Fuji® Alconite® guides
- Select casting models feature a Fuji® Exposed Blank reel seat
- Spinning models feature a clicking Fuji® reel seat
- Shaped Grade A cork handles
- Gudebrod™ thread wrapped guides
- Convenient hook keeper
- Etched Badge butt cap
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

## Recommended Uses

- **Freshwater:** Cranking, trolling and general purpose, with lures and live bait
- **Inshore:** Light tackle use
- **Species:** Trout, Bass, Muskie, Panfish, Walleye, Striper, Redfish
- **Regions:** All

## Spinning, casting, drop shot, crankbait and swim bait models—Crucial has you covered

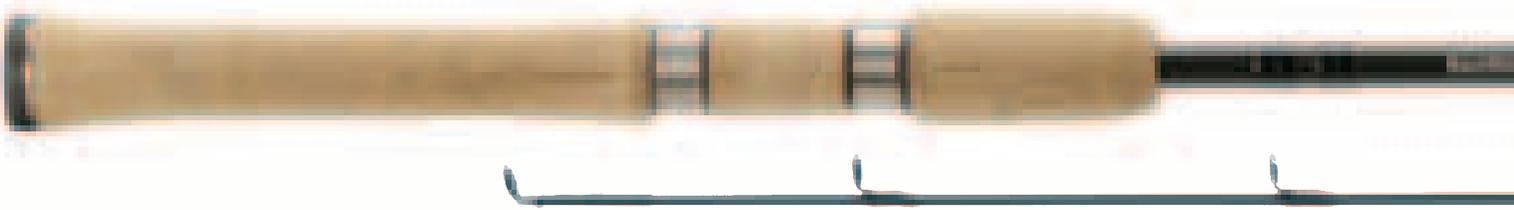

With the introduction of the Shimano Crucial® series last year, we turned the dreams of bass and walleye anglers into reality. Offered in both spinning and bait-casting models, these intensely designed rods are light and responsive yet powerful and they have been created to handle a diverse range of techniques, everything from drop shotting and shaking to fishing with crankbaits and swim baits. The crankbait rods are especially unique in that they were engineered using Shimano TC<sub>4</sub> Construction® material for a sturdy backbone and a light, soft tip, which makes it easy for the fish to inhale the bait—and for you to set the hook.

## Crucial® Spinning

### Recommended Uses

**CRS60ML** Light topwater baits and swimming jigs; walleye jigging; trout.

**CRS60M** Jigging plastics and light skipping.

**CRS60MH** Jigs, grubs and plastic worms; skipping with tubes and plastics.

**CRSX63M** An all-purpose smallmouth and walleye rod for vertical jigging and casting light topwater baits.

**CRS66ML** Darter® head, small crankbaits, weightless worms, Texas rigs, split-shot, poppers, inline spinners, hair jigs, small Senkos® and Westys® worms.

**CRS66M** Jigs, jerkbaits, light crankbaits, plastics and rigging.

**CRS66MH** Soft jerkbaits, plastic worms and grubs, Split shot, light Carolina rigs, tubes, Texas rigs and Senkos® and small jigs.

**CRSX68M** Jigs, worms and soft jerkbaits. Ideal for walleye.

**CRS70ML** Slip bobbers and Lindy® rigs; casting light crankbaits.

**CRS70M** Light Carolina rigs, Texas rigs, tubes, small crankbaits, Fluke® and small to medium jerkbaits.

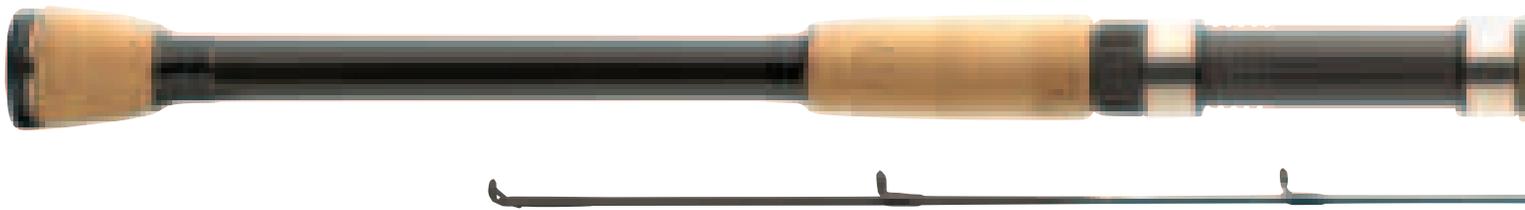

**CRS70MH** Power shotting and pitching; Carolina rigs, Texas rigs, medium to large crankbaits and jerkbaits.

### Tennessee Handle Spinning Rods

**CRSTX63M** An all-purpose smallmouth rod.

**CRST66MH** Soft jerkbaits, plastic worms and grubs.

**CRST610MH** Soft jerkbaits, plastic worms and grubs.

## Crucial® Drop Shot

**Exposed-Blank Foregrip**  
Crucial Spinning Drop Shot models feature an exposed blank foregrip. For more information, see page 137.

### Recommended Uses

#### Spinning Drop Shot Rods

**CRSD68ML** Shallow drop-shotting (water up to 30 feet deep).

**CRSDX68M** Deep drop-shotting (water up to 80 feet deep) with the same great tip action as the CRSD68ML.

**CRSDX68MH** Designed for drop-shotting in brush piles or other heavy cover, this rod features a light tip to work the bait and plenty of power to haul fish out of structure.

**CRSD72ML** Same action as the CRSD68ML but 6 inches longer for extra casting distance.

**CRSDX72M** Same action as the CRSDX68M but 6 inches longer.

**CRSDX72MH** Same action as the CRSDX68MH but 6 inches longer.

#### Casting Drop Shot Rods

**CRCD66M** Shaking small worms and drop-shotting; Senkos®, floating worms, small crankbaits, poppers, wacky rigs and small to medium jerkbaits.

**CRCD70M** Shaking small worms, drop-shotting; Senkos®, floating worms, small crankbaits, poppers, wacky rigs and small to medium jerkbaits.

## Crucial® Casting

### Recommended Uses

**CRC59MH** Topwater baits, walking baits, small spinnerbaits and soft jerkbaits; specific targets or tight quarters.

**CRC63M** A multi-purpose rod for small spinnerbaits, topwater baits and small jerkbaits.

**CRC66M** 1/4 oz. jigs, prop baits, Texas rigs, Fluke®, Senkos®, walking baits, tubes and spinnerbaits.

**CRCX66M** With its Extra Fast action, this is the worm-and-jig rod you've been waiting for— for everything from open water to shallow structure.

**CRC66MH** Senkos®, soft jerkbaits, worms and jigs.

**CRCX66MH** 1/2 oz. jigs, Carolina rigs, creature baits, spider jigs, and blade baits; power shotting and pitching Senkos®.

**CRCX68M** Spinnerbaits and worms.

**CRC610M** 1/4–3/8 oz. spinnerbaits, spoons,

small buzzbaits, Texas rigs and small jigs.

**CRCX610MH** 3/8–1/2 oz. spinnerbaits, buzzbaits, Texas rigs, jigs and flukes.

**CRCX610H** Pitching worms and jigs.

**CRC70ML** Poppers, small crankbaits and jerkbaits.

**CRCX70M** One-quarter oz. jigs, prop baits, Texas rigs, Fluke®, Senkos, walking baits, tubes and spinnerbaits.

**CRCX70MH** Carolina rigs, frogs, 1/2 oz. jigs, creature baits, and spider jigs; power shotting and pitching Senkos® and blade baits.

**CRCX70H** Worms, jigs and spinnerbaits.

**CRCX72H** When pitching worms and jigs through grass mats, you need a rod with a lot of power to pull them out. This rod will do just that. It's also the ideal for fishing frogs over thick vegetation.

## Crucial® Flippin' Sticks

### Recommended Uses

**CRCX76MH** Multi-purpose, heavy-cover flipping stick for small jigs.

**CRC76H** Multi-purpose, heavy-cover flipping stick for large jigs.

**CRCX711MH** Multi-purpose flipping stick for small jigs, worms and Senkos.

**CRCX711H** Multi-purpose, heavy-cover flipping stick for large jigs.

## Crucial® Crankbait

**TC<sub>4</sub> HM Construction™**  
 Lightweight yet strong,  
 TC<sub>4</sub> High Modulus is  
 Shimano's next-generation  
 composite rod material.  
 For more information,  
 see page 137.

### Recommended Uses

#### Crankbait Casting

**CRCC66M** Small crankbaits, 1/4 oz. traps and jerkbaits.

**CRCC70M** Small to medium crankbaits.

**CRCC70MH** Medium to medium-heavy crankbaits.

**CRCC72MH** It takes the right rod to fish a DD22 or other big crankbait. This rod loads and shoots the bait perfectly and also gives you the fish fighting action you need.

**CRCC711ML** Jerkbaits, small to medium crankbaits and poppers.

**CRCC711M** Spooks, big topwaters, medium to large crankbaits, spoons and spinnerbaits.

#### Crankbait Spinning

**CRSC68ML** #5 Shad Raps® baits are great, the problem is finding the right rod to fish them. Look no further, the CRSC68ML was designed to fish small, lightweight crankbaits.

**CRSC68M** Finally, a spinning rod that will fish small to medium crankbaits.

## Crucial® Swim Bait

### Recommended Uses

**CRCSX711MH** 3"-5" swim baits.

**CRCS711H** 5"-8" swim baits.

**CRCS711XH** 8"-16" swim baits.

COMPRE®  
Graphite Rods

**The lightweight, sensitive Compre series has been expanded and upgraded—good news for walleye, trout and bass anglers**

### Feature Highlights

- IM-8 Graphite Blank
- Shimano® High Modulus TC<sub>4</sub> Construction™ on Crankbait models
- New Concept Fuji® Hardloy® guides
- Select casting models feature a Fuji® Exposed Blank reel seat
- Select spinning models feature an Exposed Blank foregrip
- Shaped Grade A cork handles
- Gudebrod™ thread wrapped guides
- Convenient hook keeper
- Lightweight cork composite butt cap
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

### Recommended Uses

- **Freshwater:** Cranking, trolling and general purpose, with lures and live bait
- **Inshore:** Light tackle use
- **Species:** Trout, Bass, Muskie, Panfish, Walleye, Striper, Redfish
- **Regions:** All

### Sensitive and Durable

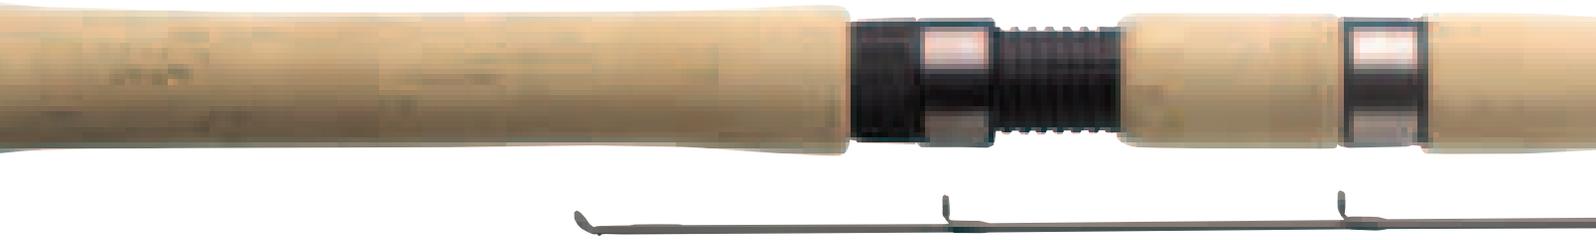

Shimano® redesigned the Compre® series of casting and spinning rods to create an all-around rod that claimed top-of-the-line feature highlights. Built with IM-8 graphite construction, New Concept Fuji® Hardloy® guides and powers and actions specifically aimed to please walleye, bass and trout anglers, the Compre series continues to offer some of the most sensitive, durable fish-catching tools on the market. These workhorse rods, many offered in two-piece models, can handle rugged use by anglers on excursions ranging from an afternoon on the local lake to a once-in-a-lifetime canoe trip.

## Compre® Spinning

### Recommended Uses

**CPS60MHB** A perfect walleye jigging rod for heavier jigs and for those anglers who fish river systems.

**CPSX63MB** Great for jigging, this rod can also be used for Lindy® rigs and light jerkbaits and for casting shallow to medium diving crankbaits.

**CPS66L2B** Light jigs, trout jigs and bait.

**CPS66MB** This rod will maximize your versatility when Lindy® rigging and jigging; it's also great for spinner baits and crankbaits.

**CPS68MLB** Light jigs, light Lindy® rigs and slip bobbers.

**CPSX68MB** An extremely versatile rod for medium jigs and Lindy® rigs, slip bobbers and hard jerkbaits; snap jigging.

**CPS70MB** The ultimate all-purpose Lindy® rig; light bottom bouncing, slip bobber and straight line crankbait trolling.

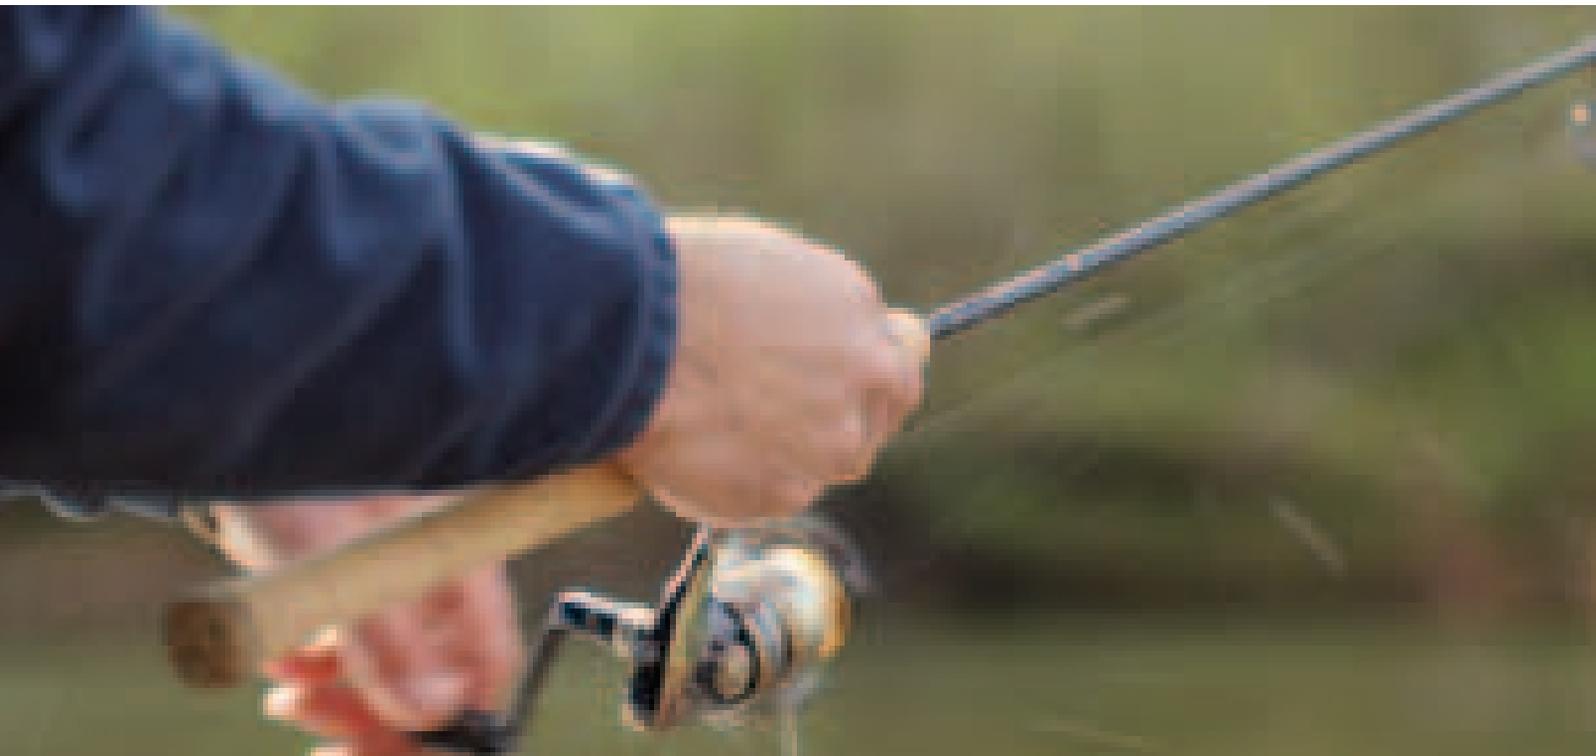

**CPS70M2B** Two-piece version of the CPS70MB; an excellent choice for the Boundary Waters Canoe Area Wilderness!

**CPS72MLB** The ultimate finesse rigging and slip bobber rod.

**CPS76MLB** Jig tossing and rigging; slip bobbers.

**CPSX77MLB** This rod is for anglers who demand superior performance when fishing extremely long snells with light line. It provides excellent shock resistance, giving the best opportunity to catch the fish of a lifetime in light-line, finesse situations.

**CPSM90ML2B** An extreme finesse rigging rod for extra long snells and bobber fishing; an excellent drift rod.

## Compre® Casting

### Recommended Uses

**CPC60MB** A versatile rod for fishing a variety of lures and techniques, it's good for surface lures, spinnerbaits, topwater plugs, smaller crankbaits, small grubs and worms, especially in clear water. Walleye fans use this rod for drifting jigs and grubs with maximum sensitivity.

**CPC66MLB** Ideal for throwing small, shallow running crankbaits, lipless crankbaits, buzzbaits, small stickbaits, surface lures and chugging baits, this rod is also great for tossing jigs, rigging and slipbobbers.

**CPC66MB** A fun, all-around casting rod for large-mouth bass, smallmouth bass and walleye, it's an excellent multi-purpose rod for topwaters, worms, soft jerkbaits, small crankbaits, buzzbaits and spinnerbaits.

**CPC66M2B** This is a functional, two-piece version of the CPC66MB for anglers who are limited on space.

**CPCX66MB** Excellent in clear water situations where light lines, small lures and presentation are key, this rod will cast undersized baits with accuracy around docks, rocks and brush. It's also good for a variety of techniques with crankbaits, buzzbaits, spinnerbaits, small jigs, soft jerkbaits and plastics.

**CPCX66MHB** A versatile rod for pitching or casting worms and jigs in heavy cover, it's great for slow-rolling big spinnerbaits and crankbaits in deep water.

**CPCX610MHB** This rod fishes bottom-bounce rigs with maximum sensitivity and excels at pitching small worms and jigs in moderate to heavy cover.

**CPC70MB** This rod is ideal for medium to large crankbaits and surface lures, and it's stout enough to handle spinnerbaits and large buzzbaits.

**CPCX70MHB** This rod is excellent for pitching large jigs or worms, big deep-diving crankbaits, spinnerbaits and buzzbaits.

## Compre® Crankbait Casting

### Recommended Uses

**CPC66MB** Rigging and small crankbaits, 1/4 oz traps and jerkbaits.

**CPC66MHB** Rigging and medium to medium heavy sized crankbaits.

**CPC70MB** Rigging and small to medium sized crankbaits.

**CPC70MHB** Rigging and medium to medium heavy crankbaits.

## Clarus® Spinning

### Recommended Uses

**CSS56L** A rod for vertical jig presentation in streams, rivers and lakes, it also handles lighter jigs and jig/worm combinations in shallow water. It's good for twitching minnow baits and chugger-poppers with positive line and lure control.

**CSS60L** An excellent, versatile rod for light-weight jigs, surface lures, minnow baits, grubs and small in-line spinners. Walleye anglers can use it for small leadheads tipped with a crawler or leech, as well as shallow- to medium-depth crankbaits. It's great for smallmouth, trout, shad, crappie or bluegill.

**CSS60M** This very versatile rod can be used for a wide variety of techniques. Its many applications range from worm and tube rigs to small jerkbaits to topwater lures for small- to medium-sized fish.

**CSS60MH** This rod is great in deep water situations when jigging with spoons, grubs and plastic worms.

**CSS62M** This rod is ideal for skipping docks with twin-tail grubs for bass. It's also fun for vertical jigging as well as leech/jig combos, medium depth crankbaits and small spinnerbaits.

**CSS66L** This is the perfect rod for fishing for bass, crappie or walleye with light- to medium-weight leadhead jigs, grubs and small- to

medium-sized lures. It's also a great deep-water crappie rod in brush filled lakes and it's fun for stream bass, shad and big trout.

**CSS66MH** This rod loads easily for increased casting distance and accuracy. It's lightweight and has plenty of power to move fish in and around cover. It's also excellent for vertical presentations and jigging with spoons, and jig/worm rigs, spider jigs and large grubs.

**CSS70ML** This is a great rod for trout, smallmouth bass and walleye. Use it with small jigs, surface lures, live bait, small crankbaits and worms. Trout anglers can use it to troll with blades and bait for small lake trout and rainbows.

**CSS70M** One of the best ways to catch bass is by split-shotting. This rod has a very sensitive tip and can detect bites—even in deep water. It also has plenty of power to set the hook and pull a fish out of cover.

**CSS70MH** This rod casts spoons to pike and plugs to peacocks, and it will pull in large freshwater fish anywhere. Bass anglers can use it to pitch jigs and worms around brush and tules. It's also a spin version of a Carolina-rig rod with enough power to fish heavy cover with big jigs and oversized baits.

# Clarus® Casting

## Recommended Uses

**CSC56M** This rod is ideal for bass fishing with buzzbaits, small spinnerbaits and light jigs in tight quarters, around docks and brush or whenever presentation and accuracy is key. It's a nice stream rod when smaller baits are essential.

**CSC66M** This rod is for throwing medium sized crankbaits, buzzbaits, spinnerbaits and surface lures.

**CSC66MH** This extremely versatile rod is for light to medium weight jigs, worms, medium to large spinnerbaits and large crankbaits. It moves fish from under heavy cover without feeling too stiff.

**CSC66H** This rod is for deep-water jigging, fishing plastic worms and slow-rolling oversized spinnerbaits for largemouth bass, pike and peacock bass. It excels in brush and tree-choked areas where you need to move large fish out of heavy cover.

**CSC610MH** This rod loads and fires spinnerbaits with great accuracy and reacts to even the lightest bite. It also excels at pitching small worms and jigs in moderate to heavy cover and it's great for working Carolina-rigged worms.

**CSC70M** This rod is great for large surface lures and medium to large sized crankbaits, yet it's stout enough to handle spinnerbaits and large buzzbaits.

**CSC70MH** This great all-around rod excels with deep-water jigs and Carolina-rigged plastic worms.

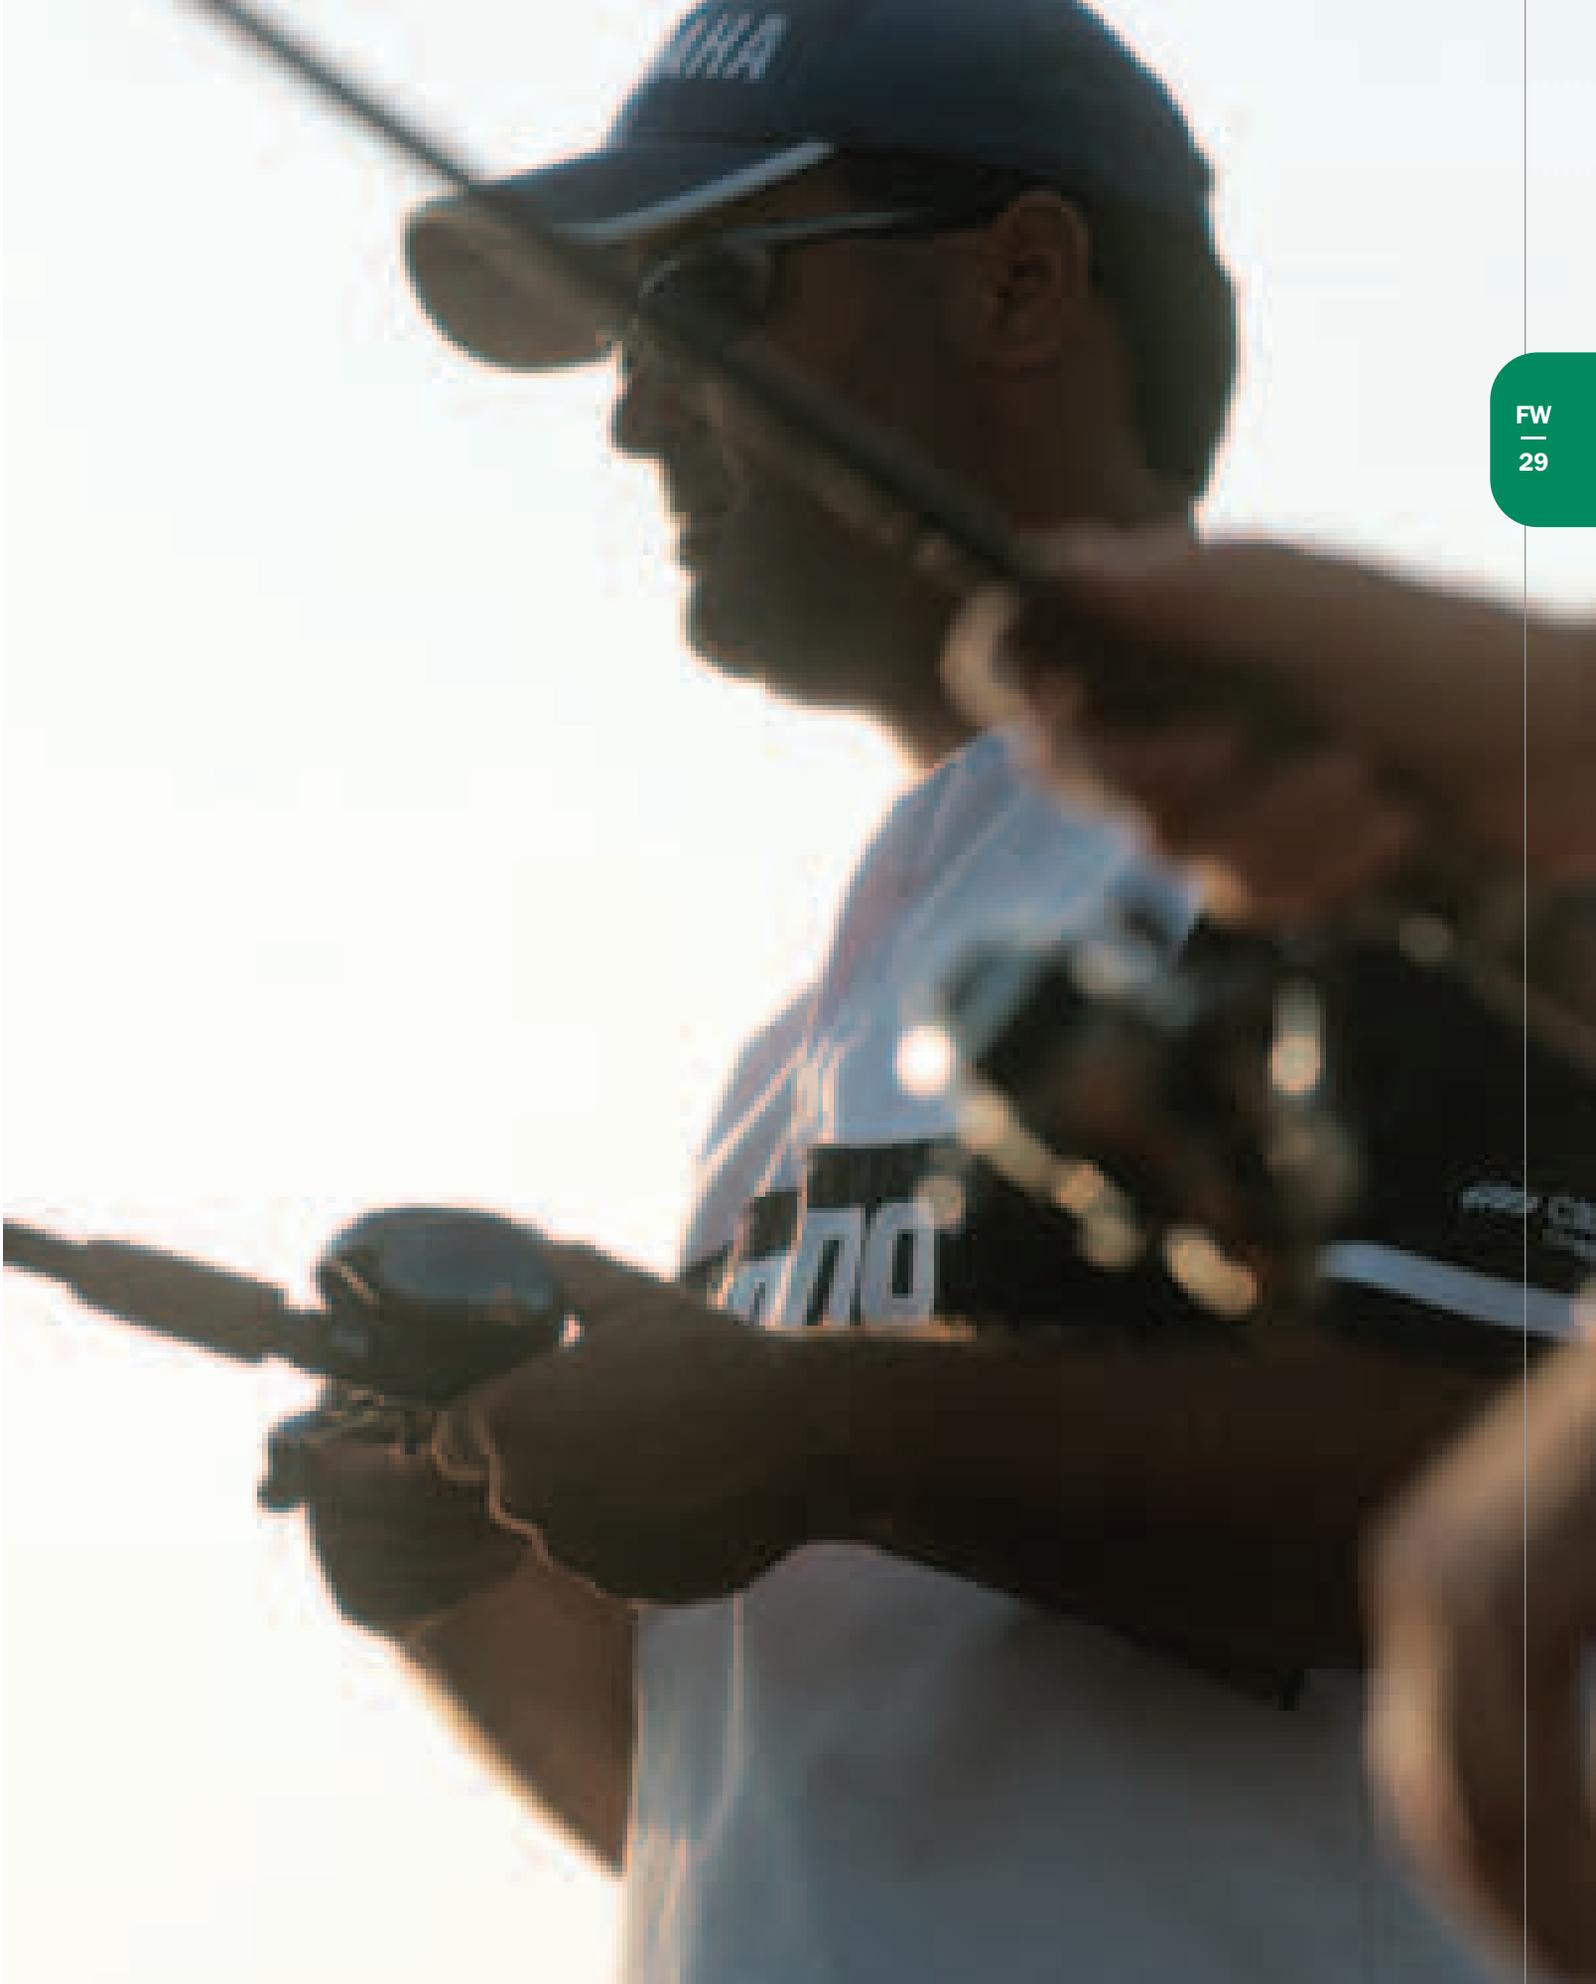

**CSCX70MH** This rod is excellent for fishing big, deep-diving crankbaits, spinnerbaits and buzzbaits, and for pitching large jigs and worms.

**CSC76MH** This rod is great for flipping jigs around the edges of tules and boat docks, or for walleye trolling with deep diving lures at depths of 20 feet or more.

**CSC76H** This rod is ideal for flipping heavy jigs in dense cover for largemouth bass. It casts Carolina rigs, jigs and oversized spinnerbaits, and moves largemouth bass out of deep-water structure.

***A dependable workhorse rod that offers solid performance and quality components for a variety of techniques***

**Feature Highlights**

- IM-6 Graphite Blank Construction
- Lightweight Fuji® Aluminum Oxide guides
- Select casting models feature a Shimano® Bio Grip® Exposed Blank Reel seat
- Comfortable cork handles
- Gudebrod™ thread wrapped guides
- Lightweight EVA Butt cap
- Convenient hook keeper
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

**Recommended Uses**

- **Freshwater:** Cranking, trolling and general purpose, with lures and live bait
- **Species:** Trout, Bass, Muskie, Panfish, Walleye, Striper, Redfish
- **Regions:** All

**Performance and Features**

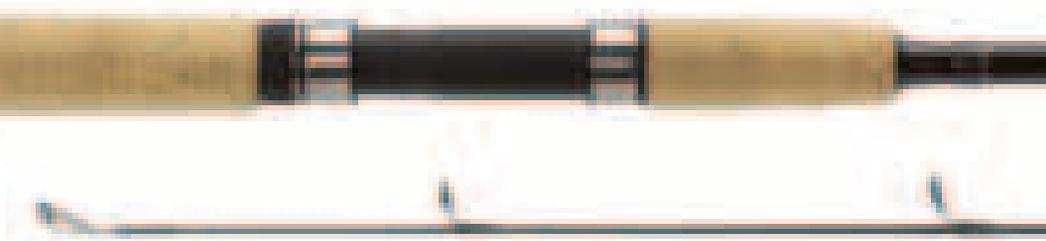

If you want a great IM-6 Graphite Blank Construction rod, look no further—the Convergence® rod series has all the features that avid anglers need. The extensive line-up of lengths, powers and actions provides anglers with plenty of options to choose from when fishing for bass, panfish and walleye.

## Convergence® Spinning

### Recommended Uses

**CVSF50UL** This is a great, little rod for brook trout in small streams with small spinners or tiny jigs.

**CVSF56UL2** This rod will throw small spinners and leadhead jigs in streams, rivers and lakes with accuracy and presentation. It's also great for vertical jigging over brush for crappie in deep water.

**CVS60UL** This rod is perfect for fishing with light line for trout and panfish, but it also has the strength to handle large surprises.

**CVS60M2** This all purpose bass, trout or walleye rod breaks down into two pieces for easy transportation.

**CVS60MH** This is a perfect tube, grub and light jig rod for short- to medium-length casts. It's great in deep-water situations, and for jigging with spoons, grubs, plastic worms and spinnerbaits in medium to heavy cover.

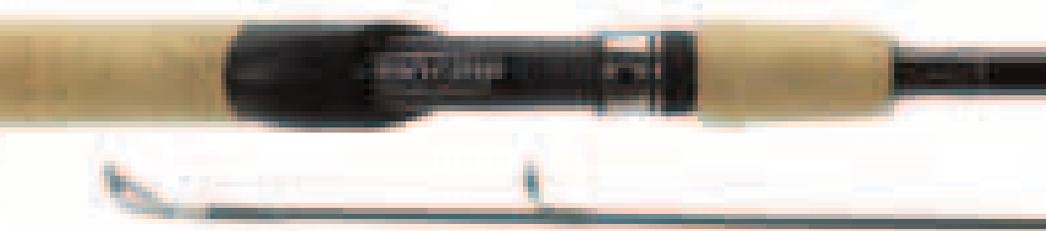

**CVS66M** This is a great rod for minnow baits, split-shot worms and grubs, but it can also double as a light spinnerbait or crankbait rod.

**CVSX70ML** This rod's powerful butt section will cast small jigs and jig/leech combinations. The rod also provides excellent line control when back-trolling or drifting.

**CVS70M** This is an excellent rod for working plastic worms, casting in light cover or fishing for bass in strong currents or deep water.

**CVS70M2** This rod has the same attributes as the CVS70M but breaks down into two pieces for easy transportation.

**CVS70MH** This is a spinning version of a Carolina-rig rod. It's very versatile when pursuing large bass or saltwater striped bass.

## Convergence® Casting

### Recommended Uses

**CVC60M** This is the perfect rod for spinnerbaits, topwater baits, small crankbaits and plastics.

**CVC60MH** Ideal for topwater plugs and medium-sized crankbaits, or for throwing jigs and spinnerbaits around tules, docks, rocks and other obstacles. It increases casting range without being cumbersome.

**CVC66ML** This rod is great for casting shallow-running crankbaits and spinnerbaits to walleye, largemouth bass and smallmouth bass.

**CVC66M** This is an all-purpose walleye and bass rod for spinnerbaits, crankbaits, light topwater baits and worms.

**CVC66M2** Ideal for the traveling angler, this easy-to-transport, compact, sensitive rod fits in any trunk or back seat. It's versatile, too, for casting crankbaits, buzzbaits and spinnerbaits, making it a good all-around rod for bass and walleye.

**CVC66MH** This versatile rod is for pitching or casting worms and jigs in or around heavy cover. It's great for slow-rolling big spinnerbaits and crankbaits in deep water.

**CVS610MH** This rod fishes bottom-bounce rigs with maximum sensitivity. It excels at pitching worms and jigs in moderate to heavy cover. It rolls big spinnerbaits and works Carolina- or Texas-rigged worms with ease.

**CVS70ML** This rod is great in clear-water situations when you need light line, small lures and long casts.

**CVCF70M** This rod will cast large surface lures, medium-sized crankbaits and jerkbaits, yet it's stout enough to handle spinnerbaits and large buzzbaits. It's a fun walleye crankbait rod for both casting and trolling.

**CVS70MH** If you like fishing shoreline structure, then you need a rod that can horse them out of the thick stuff. This rod is sensitive enough to detect the slightest of bites, yet really moves a fish on the hook set.

**CVS70H** This is a versatile deep-water jigging rod that's great for Carolina-rigged worms, and pitching jigs and light-duty flipping. It pulls big bass out of thick weeds. It's also excellent for casting large spoons to northern pike and lake trout.

# CARBOMAX®

## Graphite Rods

**Hyperloop® construction means Carbomax® rods are sensitive, powerful, nearly indestructible—and attractive, too**

### Feature Highlights

- Shimano® Hyperloop® Construction with IM-6 Graphite Blank Construction
- Double reinforced tip section
- Lightweight Fuji® Aluminum Oxide guides
- Casting models feature an Exposed Blank reel seat
- Comfortable shaped cork handles
- Gudebrod™ thread wrapped guides
- Convenient hook keeper
- One Year Limited Warranty (see page 5)

For more information about these and other innovative Shimano features, see page 137.

### On the Internet

- Learn more about Carbomax rods at: <http://fish.shimano.com/rods>

### Quality and Durability

Shimano® Carbomax® rods were designed affordably, but with attention to detail to offer anglers an experience that exceeds expectations. Built with Shimano's Hyperloop® Construction (see page 137) with a double-reinforced tip section (which is approximately two times the average tip strength) these rods are sharp-looking, sensitive and feature great components.

# SCIMITAR® GRAPHITE RODS

**Lightweight and powerful graphite rods, in a variety of actions for freshwater and light inshore applications**

## Feature Highlights

- Sensitive Graphite Composite Blank Construction
- Lightweight Aluminum Oxide guides
- Select casting models feature an Exposed Blank Reel seat
- Comfortable cork handles
- Convenient hook keeper
- One Year Limited Warranty (see page 5)

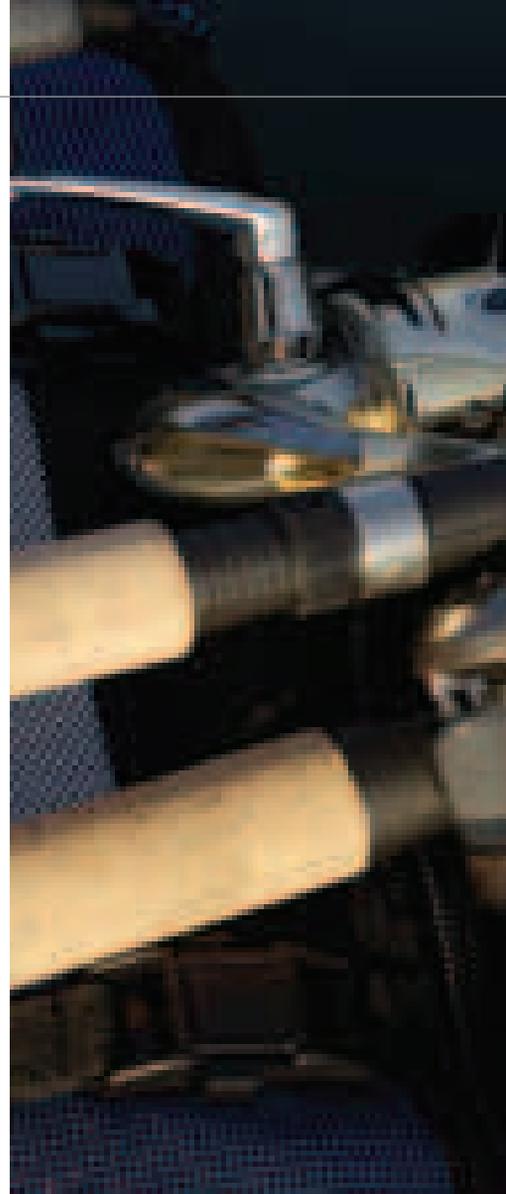

*For more information about these and other innovative Shimano features, see page 137.*

## On the Internet

- Learn more about Scimitar rods at: <http://fish.shimano.com/rods>

## The Right Powers and Actions

Shimano®'s Scimitar® rod series was designed with a high-end look and fish-catching features that will exceed your expectations. If it's freshwater or light inshore applications, these rods offer the right powers and actions to land your favorite species on any lake, river, stream or coastal estuary.

### Multi-Purpose

Designed with natural dark-green finish with black guide wraps and silver accents, Shimano® Sojourn® rods are attractive, well built rods that cover the full range of appropriate powers and actions for fisheries such as bass, trout, panfish and walleye, and they can handle light inshore saltwater.

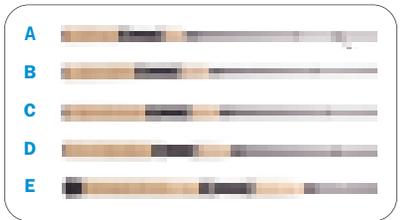

### Feature Highlights

- Graphite Composite Blank Construction
- Lightweight Aluminum Oxide guides
- Select casting models feature an exposed blank reel seat
- Comfortable cork handles
- Convenient hook keeper
- One Year Limited Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

### On the Internet

- Learn more about Sojourn rods at: <http://fish.shimano.com/rods>

### Classic Features and Actions

Shimano® Stimula® graphite composite rods were built to endure years of use on the water. The rugged Stimula series includes a complete line of spinning rods in a variety of sizes and actions that can handle a full range of fish species.

### Feature Highlights

- Responsive Graphite Composite Blank Construction
- Lightweight Aluminum Oxide guides
- Solid locking graphite reel seat
- Comfortable cork handles
- Convenient hook keeper
- One Year Limited Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

# SOLARA®

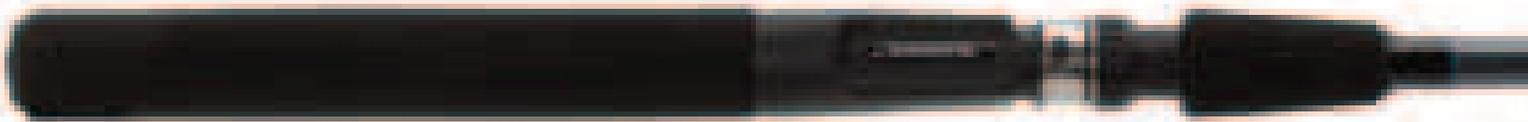

## Outstanding Design

Shimano's Solara® series of rods are designed to be ideal tools for new anglers to learn the art. All the rods are built from fiberglass and feature cork handles.

## Feature Highlights

- Durable Aeroglass® Blank Construction
- Reinforced Aluminum Oxide guides
- Solid locking graphite reel seat
- Cork foregrip and reargrip handles
- One Year Limited Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

# FX®

## All-around Versatility

The FX® series of two-piece rods was created for anglers of all ages and skill levels. These versatile rods cover a wide variety of applications and lengths, and they can be enjoyed on any stream, river or lake, or for light salt-water applications.

## Feature Highlights

- Durable Aeroglass® Blank Construction
- Reinforced Aluminum Oxide guides
- Solid locking graphite reel seat
- Comfortable EVA handles
- One Year Limited Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

# MUSKIE RODS

## COMPRE<sup>®</sup> Graphite Rods

*Avid muskie anglers will appreciate the quality components and innovative actions specifically designed for them*

### Designed Specifically for Muskie Anglers

This versatile series offers the standard core rods plus a variety of different, innovative actions and lengths to provide muskie anglers with plenty of creative options from which to choose.

#### On the Internet

- Learn more about Compre Muskie rods at:  
<http://fish.shimano.com/rods>

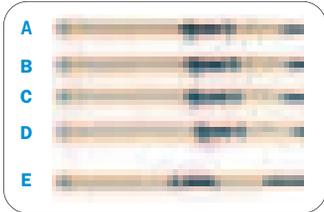

#### Feature Highlights

- IM-8 Graphite Blank Construction
- New Concept Fuji<sup>®</sup> Hardloy<sup>®</sup> guides
- Durable Carboloy<sup>®</sup> tip
- Fuji<sup>®</sup> reel seat
- Shaped Grade A cork handles
- Gudebrod<sup>™</sup> thread wrapped guides
- Oversized convenient hook keeper
- Lightweight cork composite butt cap
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

# Compre® Muskie Casting & Spinning

## Recommended Uses

### Casting Rods

**CPCM62XH** This rod will deliver the heaviest of baits to the most distant of targets and finish the job of setting the hook. It's short enough to maintain its lightweight presence yet powerful enough to control large fish. It's a great rod for topwater baits and jerkbaits.

**CPCM66H** This is a multi-purpose rod for spinnerbaits, medium-sized jerkbaits, crankbaits and bucktails in tight cover situations. It has the power to turn big fish.

**CPCM68XH** An excellent jerkbait rod for heavy baits: bucktails, topwater baits, spinnerbaits and crankbaits. Its extra length makes it easy keep the rod tip in the proper position at the water's surface when working out of a high-sided boat.

**CPCMF70MH** This rod throws small bucktails, topwaters, twitchbaits and jerkbaits with ease. It's a finesse rod that's great for throwing jigs with creatures, giant tubes and small spinnerbaits.

**CPCM70MH** Great for soft plastics, bucktails, light crankbaits and spinnerbaits. It will cast far and give deep figure eights.

**CPCM70H** Use this rod for crankbaits, trophy minnows, jerkbaits and small- to medium-sized topwater lures. It throws in-line spinners, medium-sized spinnerbaits, jigs and plastics (especially around isolated structure).

**CPCM70H2** This is the perfect muskie and northern-pike travel rod. It's perfect for anglers who fly into remote locations or who just don't have the storage space for long one-piece rods, but need the power to land big, toothy critters.

**CPCM72H** The perfect choice for heavy bucktails, soft plastics and jerkbaits.

**CPCM72XH** This rod casts maximum distances with ease yet still provides the backbone for solid hooksets. It has the extra length necessary to complete a full figure eight at boatside for following fish. It also gives added control for fishing with big crankbaits.

**CPCM76H** Great for medium- to large-sized bucktails and large soft plastics, and ideal for extending casting range and executing deep figure eights.

## Compre® Muskie Spinning

7'0"	CPCM70XH	Medium Heavy	Fast	12-20lb / 0.011-0.016in	3/4-2	1	E	4.5"	11.0"	Tip+8	\$99.99
------	----------	--------------	------	-------------------------	-------	---	---	------	-------	-------	---------

**CPCM76XH** This rod's long length gives you good casting distance for large-sized crankbaits, heavy jerkbaits and glidebaits.

**CPCM80H** This rod has extra length, providing increased casting distance for large bucktails and crankbaits. It can also be used for trolling.

**CPCM80XH** Ideal for throwing large, heavy creature baits, such as Magnum Bull Dawgs™ and Big Joe's, and large crankbaits. It's great for taking up slack line during the hook set and for working lures off the bottom.

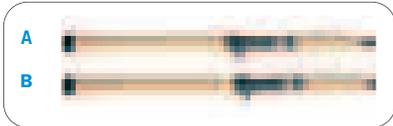

#### Spinning Rods

**CPSM70MH** Those who prefer spinning gear will love this rod. It handles most small to medium sized minnow jerkbaits, soft plastics and finesse style baits.

## Muskie Casting Rods

### Feature Highlights

- IM-6 Graphite Blank Construction
- Lightweight Fuji® Aluminum Oxide guides
- Durable Carboloy® tip
- Shimano® Bio Grip® graphite reel seat
- Comfortable cork handles
- Gudebrod™ thread wrapped guides
- Oversized convenient hook keeper
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

### Muskie Beware

Shimano® Convergence® Muskie rods offer anglers the attributes and, in turn, the confidence necessary to pursue and catch the “fish of a thousand casts.” Built with quality components, they are sensitive, comfortable, durable and lightweight—they feel like an extension of your arm.

## Muskie Casting Rods

### Feature Highlights

- Graphite Composite Blank Construction
- Lightweight Aluminum Oxide guides
- Select casting models feature an exposed blank reel seat
- Comfortable cork handles
- Convenient hook keeper
- One Year Limited Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

### Performance and Value

Shimano's new Sojourn® Muskie rods were designed specifically for muskie anglers who are looking for a combination of performance and outstanding value in their muskie rods.

## Convergence® Muskie Casting

	Model	Power	Action	Line Rating (lb-mono/in-diameter)	Lure Rating (oz)	Pieces	Handle Style	Foregrip Length	Reargrip Length	Number of Guides	MSRP
<b>6'0"</b>	CVC60XH	Extra Heavy	Fast	20-50lb / 0.014-0.018in	1-5	1	A	5.0"	12.5	Tip+6	\$69.99
<b>6'6"</b>	CVC66XH	Extra Heavy	Fast	17-40lb / 0.011-0.018in	1-3	1	B	5.0"	13.0	Tip+7	\$69.99
<b>7'0"</b>	CVCF70XH	Heavy	Fast	15-30lb / 0.011-0.017in	1/2-3	1	B	5.0"	13.0	Tip+9	\$69.99
	CVC70XH	Extra Heavy	Fast	17-40lb / 0.011-0.018in	1-3	1	B	5.0"	13.0	Tip+9	\$69.99

### Recommended Uses

**CVC60XH** Great for “walk-the-dog” topwater baits and jerkbaits. Its relatively short length keeps it from splashing the water. It will deliver the heaviest of baits to the most distant of targets and finish the job of setting the hook. It’s short enough to maintain its lightweight presence, yet powerful enough to control the next world record.

**CVC66XH** This is a very versatile rod for small to medium lures, ideal for spinnerbaits, medium jerkbaits or crankbaits. Its length makes it easy keep the rod tip in the proper position at the water’s surface when working out of a high-sided boat.

**CVCF70H** Casts small to medium bucktails, as well as small to medium crankbaits, twitchbaits and soft plastics, with ease. It has the perfect blend of power and presentation, and allows for easy execution of the even lightest baits.

**CVC70XH** This rod is for medium to large crankbaits and bucktails. Its length ensures easy long-distance casting with total control and solid, secure hooksets and helps execute a complete figure eight at boatside. It can also be used for trolling.

# SALMON AND STEELHEAD RODS

# Clarus<sup>®</sup>

Graphite Rods

***These IM-7 graphite rods are specifically tuned for salmon and steelhead, with longer lengths and light-weight heavy-duty components***

### Feature Highlights

- IM-7 Graphite Blank Construction
- New Concept Fuji<sup>®</sup> Aluminum oxide guides
- Fuji<sup>®</sup> reel seat
- Shaped Grade A cork handles
- Gudebrod<sup>™</sup> thread wrapped guides
- Convenient hook keeper
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

### Perennial Favorite

Shimano<sup>®</sup> Clarus<sup>®</sup> Salmon and Steelhead rods are lightweight, sensitive rods built with durability and classic good looks. The series heightens an angler's fishing experience with a light, crisp feel that will detect the subtlest of bites, and the strength to haul them in.

### On the Internet

- Learn more about Clarus rods at: <http://fish.shimano.com/rods>

## Salmon/Steelhead

### Recommended Uses

#### Spinning Rods

**CSS86ML2** This is a spinning version of an all-around steelhead rod. It's great for summer or winter and for fishing small- to medium-sized rivers, and it's stout enough to handle small salmon.

**CSS86M2** With a little more backbone than the CSS86ML2, this rod is for winter steelhead in high-water conditions and it has enough power for silver salmon. It fishes equally well from a boat or the bank.

**CSS90ML2** The perfect rod for summer-run steelhead or small salmon. It's a great all-around drift-and-spoon rod and ideal when using floats or spawn sacs for steelhead and brown trout.

#### Casting Rods

**CSC79MH** This backbounce rod is for steelhead and salmon in moderate to heavy currents, large rivers or deep pools. It's ideal for casting in-line spinners to big chinook in Tillamook Bay.

**CSCX79MH** This is a more powerful backbounce rod than the CSC79MH for swift currents and for fishing deep water for large kings.

**CSCX80M2** This rod excels with deep-diving steelhead plugs. It backtrolls quickfish for spring and fall chinook with ease.

**CSC80MH2** This two-piece light-duty backbouncing rod is built for plugs and other deep-diving salmon and steelhead lures and it's easy to transport.

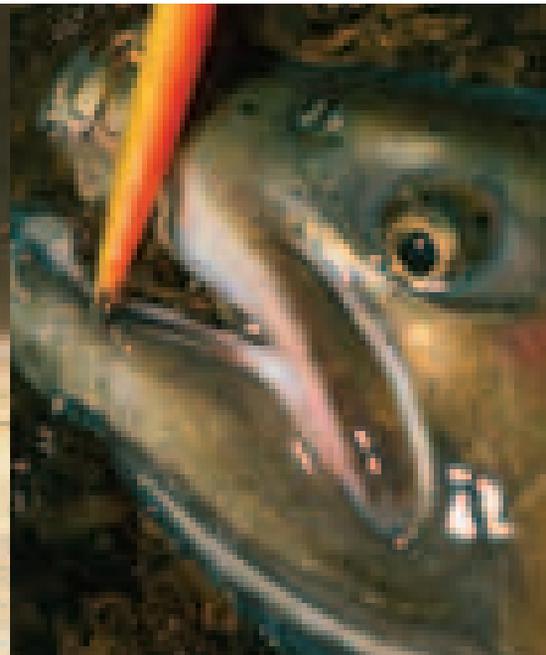

**CSC86ML2** This all-around steelhead rod is stout enough to handle small salmon in summer or winter. It's fun to fish small- to medium-sized rivers with this rod.

**CSC86M2** This rod will cast far out to the breaks—where steelhead love to hang out. The extra length keeps slack line out of the water and the rod has the power to tackle large, winter-run steelhead in high-water conditions and swift currents. It's great for backtrolling plugs or drift fishing. It's ideal for chinook, sockeye, coho and chum salmon.

**CSC86MH2** This rod is the top choice for casting spoons to kings, brown trout and steelhead, as well as for backtrolling plugs and drift fishing. It's an excellent big-river steelhead rod.

**CSC90M2** This is a great rod for low- to medium-level water conditions. Use it when drifting for steelhead in heavy water, float fishing or using long leaders for summer run steelhead in shallow, clear water.

**CSC90H2** This big-water steelhead rod has enough backbone for salmon, too. Its many uses include drifting, fishing large plugs, fishing in light-water conditions and bobber-fishing for larger chinook near tidewater. It's ideal for Buoy 10, Tillamook and Alaska.

## Salmon/Steelhead

### All You Need

The Shimano® Convergence® series of Salmon and Steelhead rods are sensitive, comfortable, durable and lightweight—everything you need to successfully pursue those fish that have the legendary muscle to swim upstream.

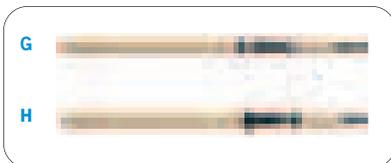

### Feature Highlights

- IM-6 Graphite Blank Construction
- Lightweight Fuji® Aluminum Oxide guides
- Select casting models feature a Shimano® Bio Grip® Exposed Blank reel seat
- Comfortable cork handles
- Gudebrod™ thread wrapped guides
- Oversized convenient hook keeper
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

## Salmon/Steelhead

### Well Balanced

Because Shimano® Scimitar® Salmon and Steelhead rods are so well balanced and sensitive, they are comfortable for hours of fishing pleasure on the water. Plus, the Scimitar rod series provides all the features of a high-end rod in a mid-range model.

### Feature Highlights

- Sensitive Graphite Composite Blank Construction
- Lightweight Aluminum Oxide guides
- Graphite reel seat
- Comfortable cork handles
- Convenient hook keeper
- One Year Limited Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

# TROLLING RODS

COMPRE®  
Trolling Rods

**Now there's a Compre® rod specifically made for freshwater trolling—walleye, muskie and striper anglers will appreciate their premium features and versatility**

### Feature Highlights

- Shimano® High Modulus TC<sub>4</sub> Construction®
- New Concept Fuji® Hardloy® guides
- Selected trolling models feature a Fuji® Exposed Blank reel seat
- Shaped Grade A cork foregrip
- Black Diamond reargrip
- Gudebrod™ thread wrapped guides
- Convenient hook keeper
- Etched Badge butt cap
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

### Recommended Uses

- **Freshwater:** Trolling and casting
- **Species:** Walleye, Striper, Muskie
- **Regions:** All

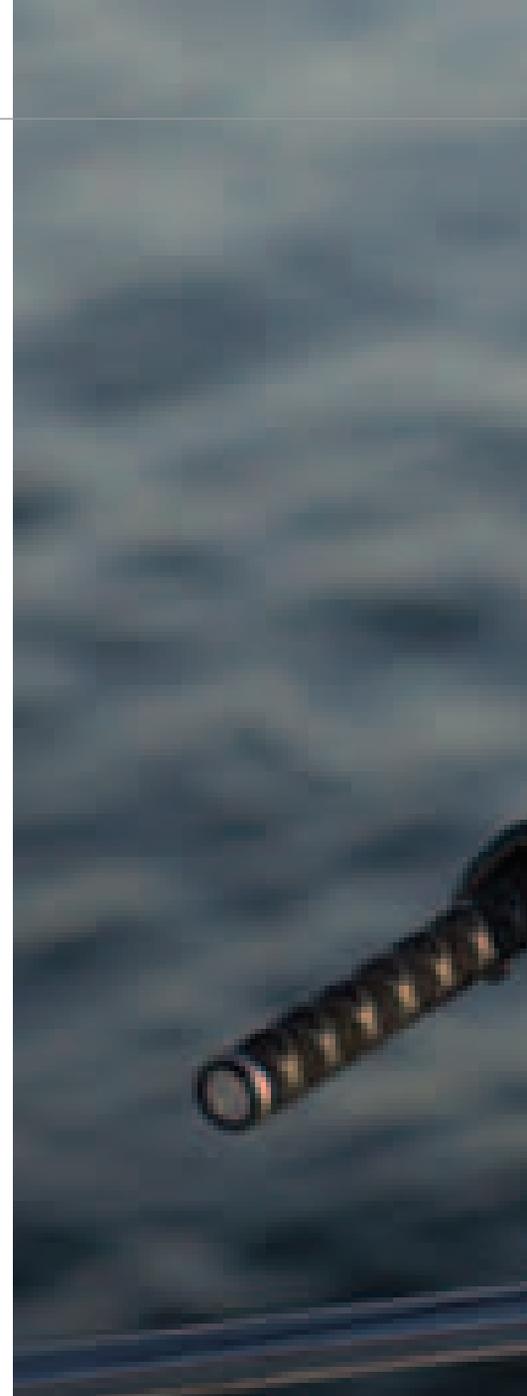

### Freshwater Trolling

Shimano® designed its series of Compre® trolling models to run the gamut from trolling planer boards to bottom bouncing. These sturdy rods are built with High Modulus Shimano TC<sub>4</sub> Construction® and a unique black-diamond reargrip for maximum sensitivity and durability that will improve your fish-catching experience. Made specifically for walleye, and equally applicable for striper and muskie trolling.

### On the Internet

- Learn more about Compre rods at: <http://fish.shimano.com/rods>

### Recommended Uses

**CPCTR66MHB** This is a walleye (Ski) planer-board rod.

**CPCTR70MHB** This is a walleye in-line planer-board rod.

**CPCTR73MHB** This rod fishes bottom bouncers and can be used for inside planer boards.

**CPCTR710MHB** This is a walleye in-line planer-board rod.

**CPCTR83MB** This is one of the most versatile walleye planer-board rods on the market. It's great for rolling and bottom bouncing.

**CPCTR86MH2B** This is a walleye in-line planer-board rod.

**Step up to the ultimate freshwater trolling combo—the Talora® rod mated with Shimano®'s Tekota® reel offers features, performance and durability**

### Feature Highlights

- Shimano® TC<sub>4</sub> Construction®
- Advanced fused graphite thread wrapped guides
- Fuji® reel seat
- Comfortable EVA foregrip
- Grade A cork grip on Kokanee models
- Hard Density EVA reargrip
- Gimbal with removable butt cap on selected models
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

### Recommended Uses

- **Freshwater:** Trolling
- **Species:** Muskie, Trout, Walleye, Striper, Salmon, Kokanee
- **Regions:** All

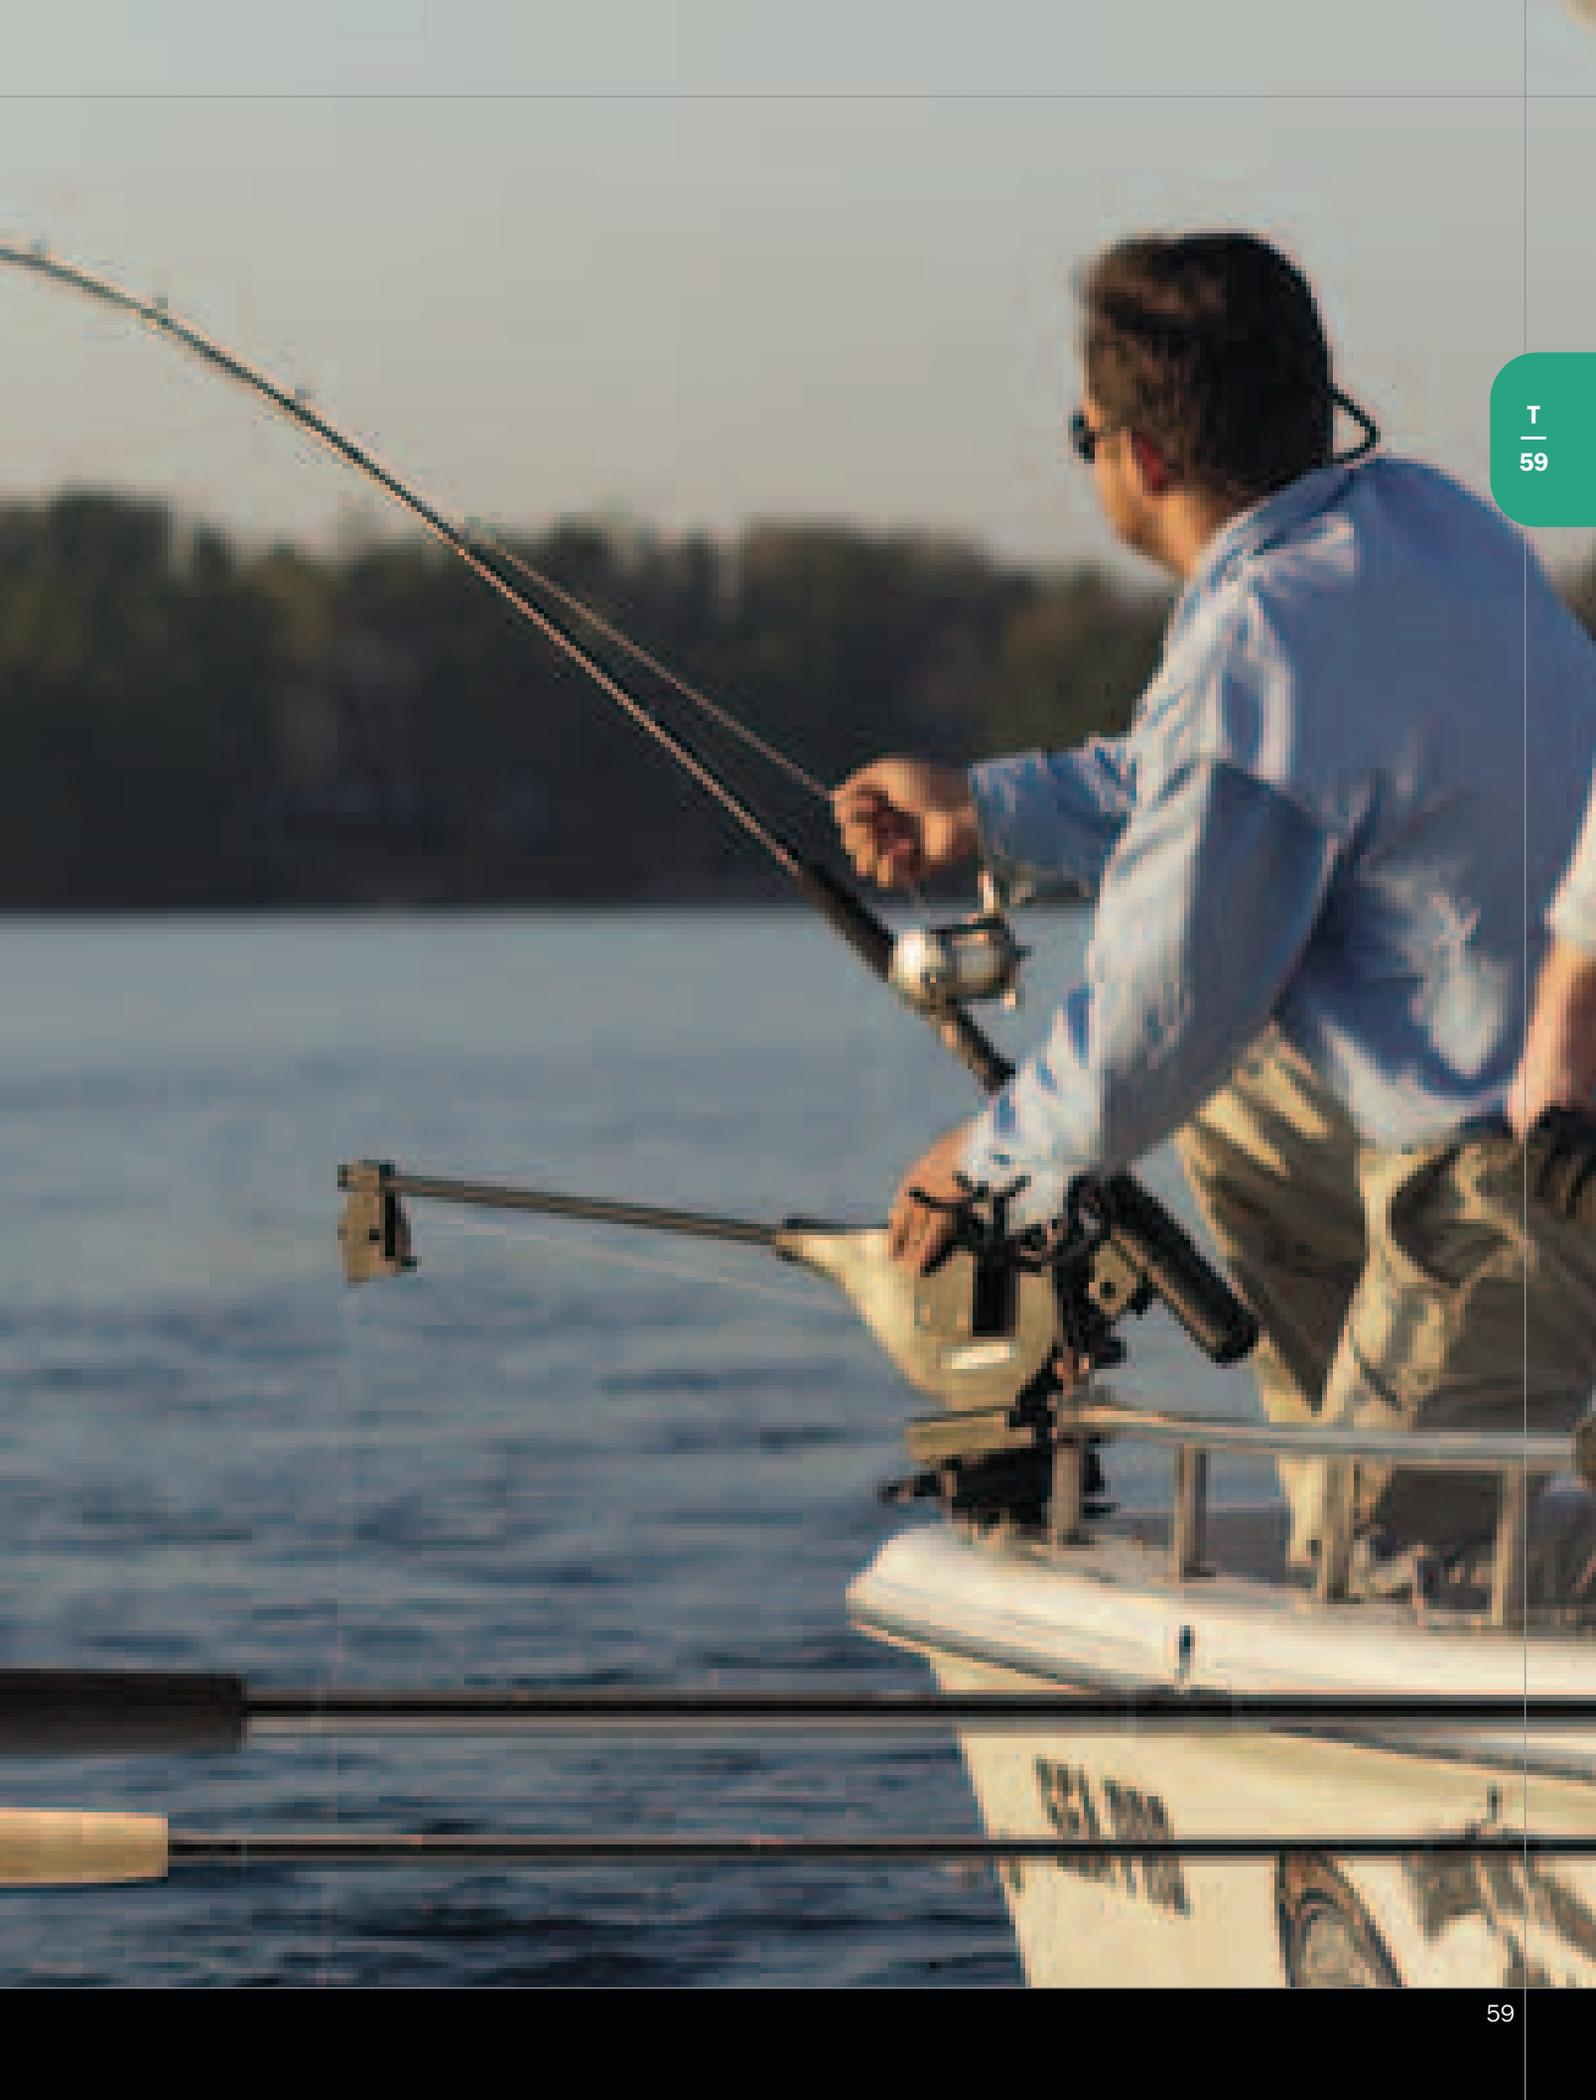

### Raise Your Expectations

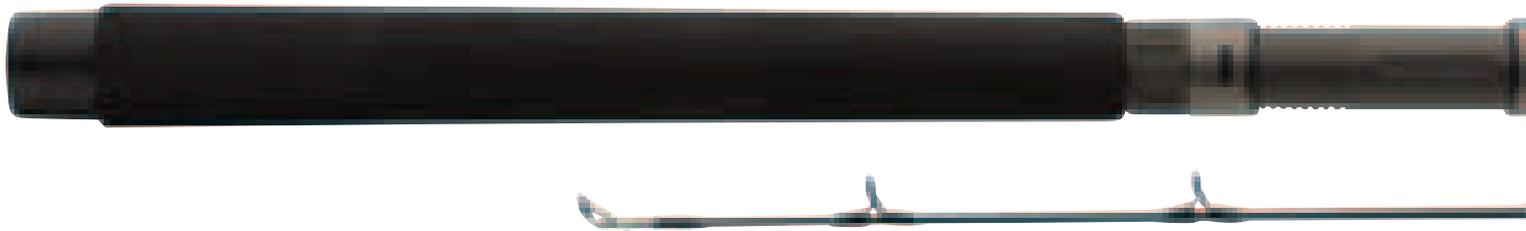

The Talora®/Tekota® freshwater trolling system by Shimano® is the very best rod/reel combination for downrigger, dipsy diver, planer board, wireline and leadcore fishing. The combination of a Talora Rod and a Tekota Reel gives anglers a system that is easy-to-use, durable and extremely effective in pursuit of gamefish. The Talora rod series is built with Shimano TC<sub>4</sub> Construction®, designed to be durable and bring your fishing experience to a new level.

### On the Internet

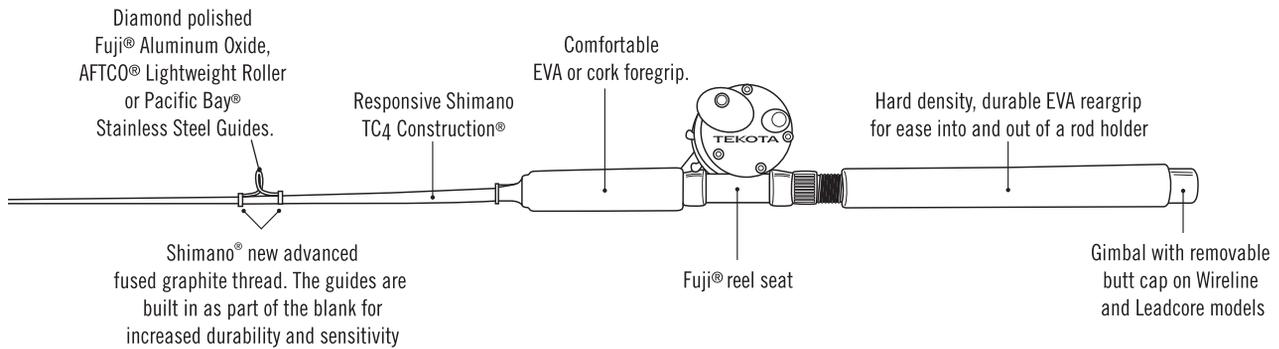

- **Learn more about Talora rods at:**  
<http://fish.shimano.com/rods>

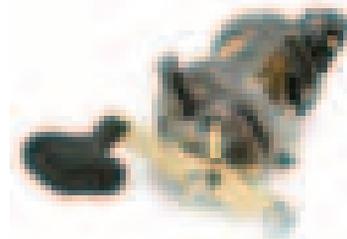

## Talora® Trolling

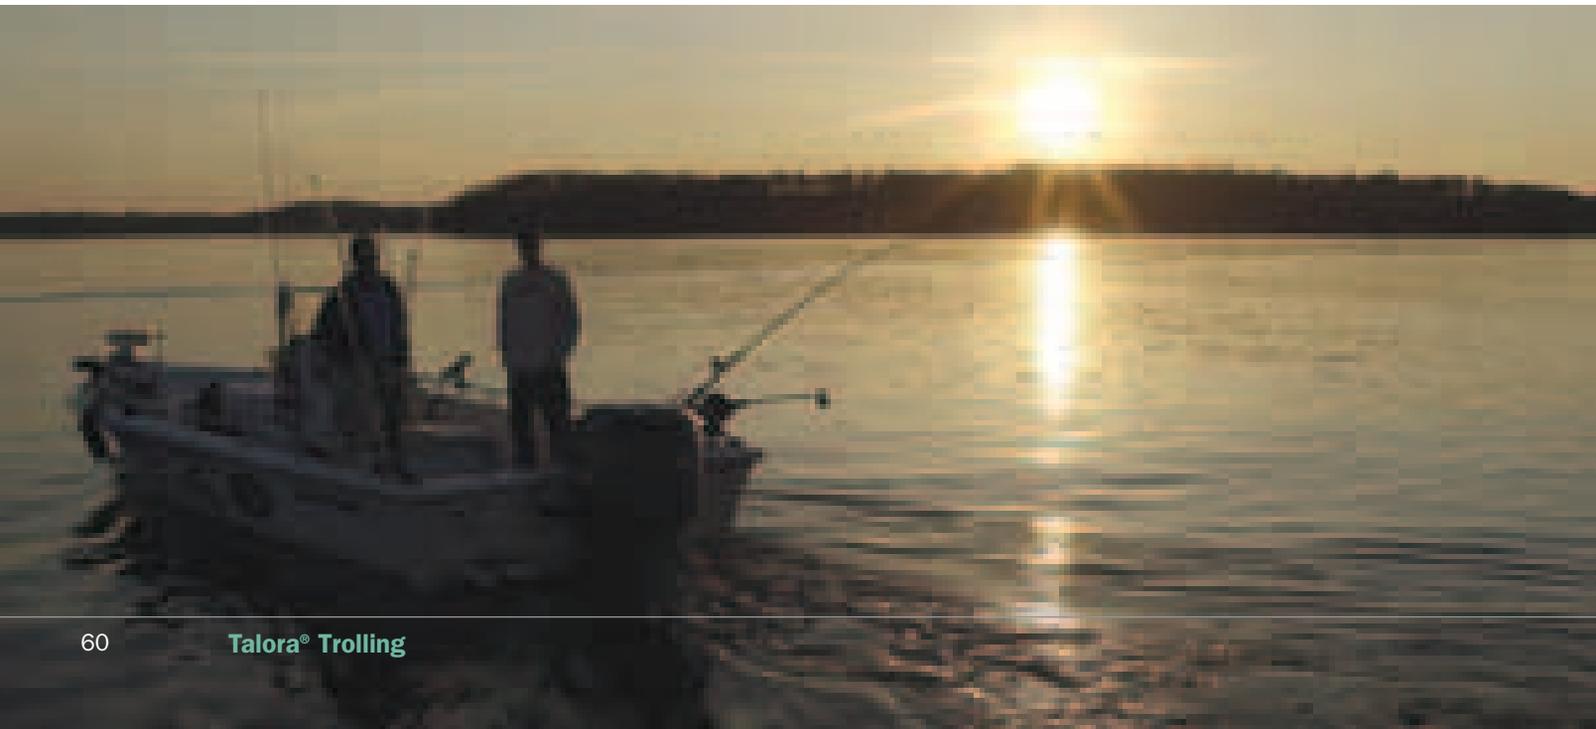

### TC<sub>4</sub> Construction®

Extremely light weight, these rods are so strong, we give them a Lifetime Limited Warranty. For more information, see page 120.

### Shimano Tekota® Reels

The Tekota 500LC and 600LC line counter reels with a Talora® rod are the perfect combination for freshwater trolling.

NEW FOR 2007!

# SURF RODS

# TIRALEJO™

**All-new for 2007, surf casting gets a new look from Shimano with Tiralejo rods**

## Super Surfcasting

New for 2007, Shimano® introduces the Tiralejo™ series of surfcasting rods. Built to fulfill the needs of surf anglers who chase striped bass, bluefish and other species from the beach or jetty, these classy, innovative rods stand out from the standard surf stick. All the rods feature Shimano's new TC<sub>4</sub>K Construction™, a blend of high-modulus graphite and carbon fibers that makes them lightweight, strong, responsive and extremely sensitive. The most innovative feature, however, is a new Slide 'N' Grip™ custom reel seat, which slides up and down the butt end to position to reel to suit anglers' personal styles.

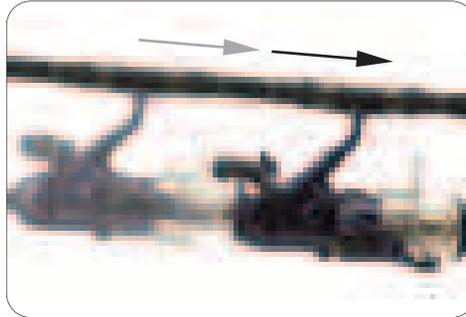

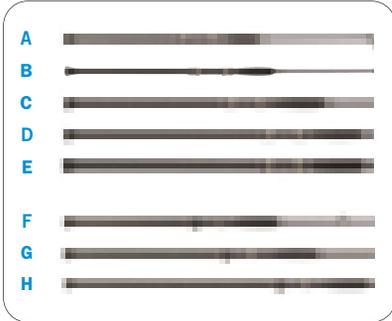

### Feature Highlights

- TC<sub>4</sub> K Construction™
- New Concept Fuji® Alconite® guides
- Slide 'N' Grip™ Reel Seat
- Diamond Grip
- Gudebrod™ thread wrapped guides
- Counter Balance System ready
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

### On the Internet

- Learn more about Tiralejo rods at:  
<http://fish.shimano.com/rods>

### Slide 'N' Grip™ Reel Seat

The unique Slide 'N' Grip™ reel seat enables anglers to position the reel exactly where they want it—so regardless if you're hip-deep in the surf or dug in to the sand, the rod is set up perfectly.

### Counter Balancing System— Model #TRW

Shimano®'s four-weight Counter Balancing System (includes 15 gram, 25 gram, 50 gram and 75 gram) allows anglers to perfectly balance their outfit, allowing for greater distance and accuracy in casting.

# INSHORE RODS

# CALCUTTA®

Inshore Series

**Shimano®'s top-of-the-line rods will satisfy the most demanding inshore anglers—their advanced TC<sub>4</sub> K Construction™ makes them incredibly light, super sensitive, and bullet-proof**

## Feature Highlights

- Shimano® High Modulus TC<sub>4</sub> K Construction™
- New Concept Fuji® SiC Silicon Carbide guides
- Selected casting models feature a Fuji® Exposed Blank reel seat
- Selected spinning models feature an Exposed Blank Foregrip and Reargrip
- Shaped Grade A cork handles
- Gudebrod™ thread wrapped guides
- Convenient hook keeper Warranty
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

## Challenge Yourself with Light Tackle

Shimano's Calcutta® series of inshore rods feature high-performing TC<sub>4</sub> K Construction™ and Fuji® SiC

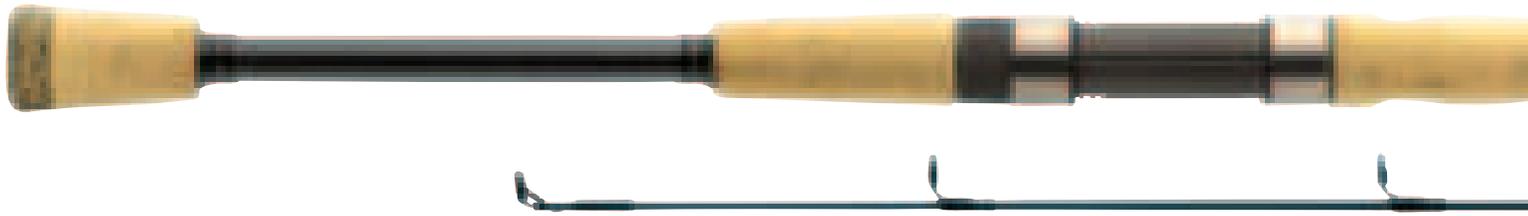

Silicon Carbide guides that will haul in any inshore species. The series provides ultimate fishing gratification to anglers using light tackle for inshore saltwater species such as snook, speckled sea trout and redfish. It's this encounter with a large fish that will challenge your knowledge, skill and stamina and add to your fishing-knowledge repertoire. If you're up to the task of landing big fish on light tackle, the Calcutta Inshore series is made just for you.

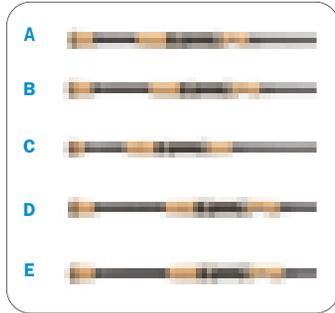

## On the Internet

## Calcutta® Inshore Spinning

### Recommended Uses

**CLS66MH** A great an all-around trout and redfish rod that's excellent in close quarters or open water.

**CLSX69MH** Use this rod for skipping spoons or RT slugs under mangroves for snook and redfish.

**CLSSF70M** A rod for drift- or wade-fishing with topwater baits, soft plastics, floats, jigs and tails for snook, speckled sea trout and redfish.

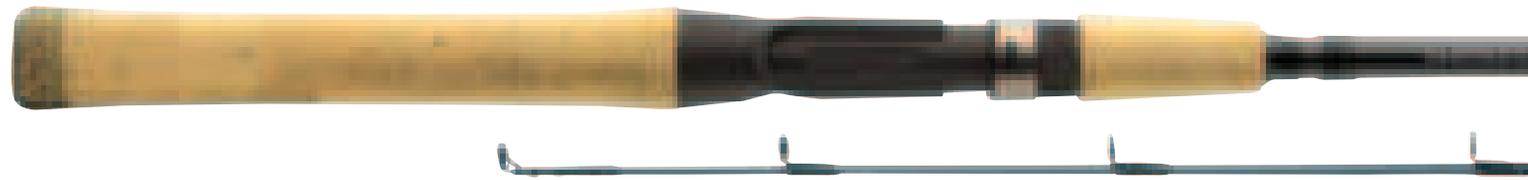

**CLS70M** This rod is for drift- or wade-fishing with soft plastics, jigs and tails for speckled sea trout and redfish.

**CLS70M** A rod that is an all-around, open-water, sea-trout, redfish and snook rod.

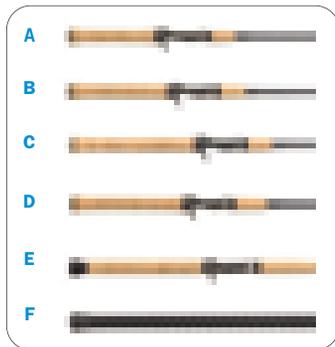

**CLS70MH** Use this rod for throwing large lures or baits to large snook and redfish.

**CLSX74M** A perfect D.O.A.® or live-shrimp rod.

**CLS76MH** Designed for large baits and large fish, this rod is equally at home casting to snook on the Florida flats or a throwing lures in the North Carolina surf.

## Calcutta® Inshore Casting

### Recommended Uses

#### Casting Rods

**CLCM66ML** This rod is for drift- or wade-fishing with soft plastics, small topwater baits, spoons, jigs and tails for speckled sea trout and redfish.

**CLCX66ML** Use this for drift- or wade-fishing with soft plastics, jigs and tails for speckled sea trout and redfish.

**CLC66M** For drift- or wade-fishing with topwater baits, spoons and plastics for speckled sea trout and redfish.

**CLCF66M** This rod is a faster version of the CLC66M, for quicker response.

**CLC69ML** Use for fishing with soft plastics, tops and tails for speckled sea trout, redfish and flounder.

**CLCX69ML** A great rod for fishing with soft plastics, small topwater baits, spoons, tops and tails for speckled sea trout, redfish and flounder.

**CLCX70ML** This rod is for drift- or wade-fishing with soft plastics, plastics and topwater baits for speckled sea trout and redfish.

**CLCX70MLS** For drift- or wade-fishing with soft plastics, and topwater baits for speckled sea trout and redfish.

**CLC70M** Use this rod is for anglers who prefer a long rod for casting topwater baits, soft plastics, plastics, spoons and popping corks.

**CLCX70M** A stronger version of the CLC70M.

**CLCX76ML** A great rod for anglers looking to maximize casting distance with soft plastics, small topwaters, spoons and plastics.

**CLCX76M** A rod for small swim baits and grubs.

**CLCX76MH** This rod is for casting medium swim baits in and around rocks or kelp.

**CLCX76H** Use this rod is for casting large swim baits in heavy cover.

**CLCX80ML** Great for light, small swim baits.

**CLCX80M** A rod for long-casting small swim baits.

**CLCX80MH** This is a rod for long-casting medium swim baits in and around rocks or kelp.

**CLCX80MH** Use this rod for long-casting large swim baits in heavy cover.

#### Jig/Bait Rods

**CLC80MH** This is a Tady-C or WSB-jig-head squid rod.

**CLC80H** A great rod long-casting, Tady-45, Kicker-Senoritas, 30-lb.-jig or sardine rod.

**CLC86XH** Mainly for 40- or 50-lb. jigs, this rod is also excellent for a Tady 77, Tady 45 or Salas 7x.

**CLC90MH** This is a WSB-bait or light-jig rod.

**CLC90H** A rod for fishing 30- to 40-lb. line with a Tady 45, handling some long-casting bait applications.

TERAMAR®  
Inshore Series

**For the Southeast and the West Coast, Teramar Inshore Series has a rod for the specific techniques of your home waters—featuring top-of-the-line Fuji® components and TC<sub>4</sub> Construction® material**

### Feature Highlights

- Fuji® Concept Lightweight Alconite® Guides (Teramar® WC models)
- Fuji® Concept Lightweight Hardloy® Guides (Teramar® SE models)
- Fuji® Exposed Blank Reel Seat
- Shimano® TC<sub>4</sub> Construction®

*For more information about these and other innovative Shimano features, see page 137.*

### On the Internet

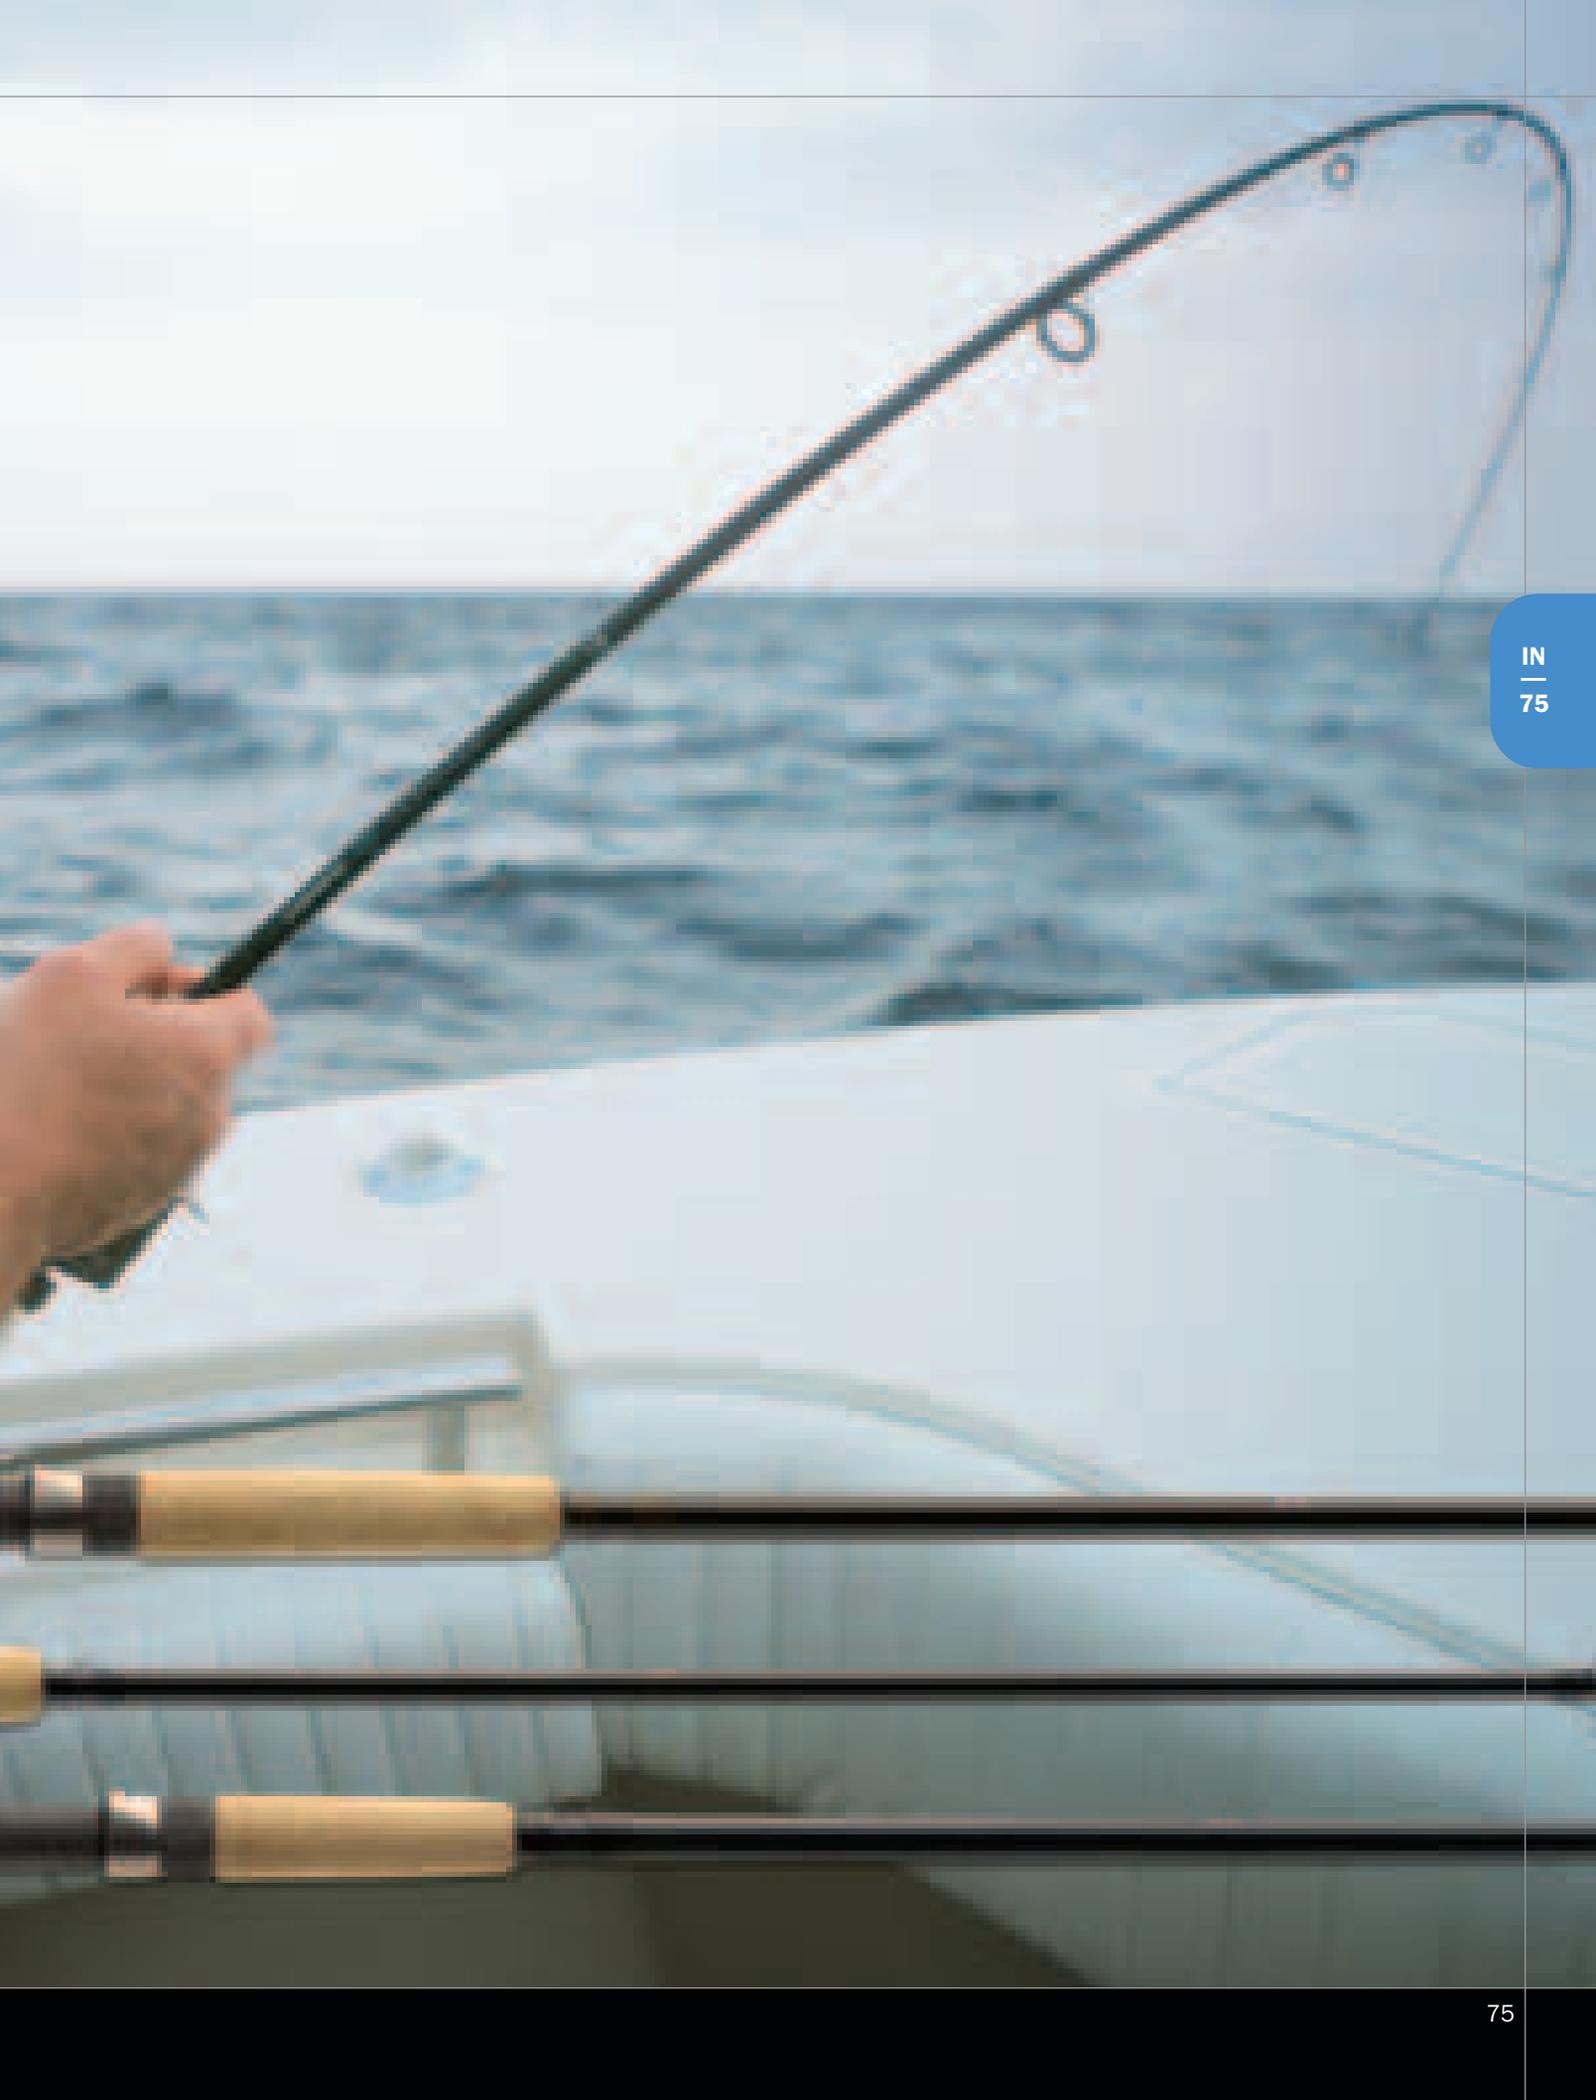

- Learn more about Teramar rods at: <http://fish.shimano.com/rods>

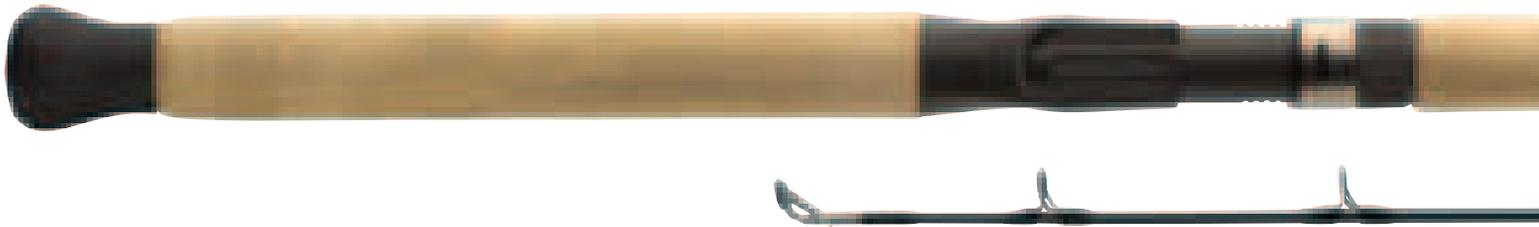

### Regionally Specific Inshore Rods

The Teramar® rod series was created for anglers from two very different locations: the Southeast and the West Coast. As a result, we built three unique series in one. Southeastern anglers will find perfect rods for plug casting for snook, spinning on the flats or tarpon fishing under passes. West Coast anglers have an array of rods that includes trigger-stick casting rods for swim baits and jig sticks.

## Teramar® Southeast Recommended Uses

### Feature Highlights

- Shimano® TC<sub>4</sub> Construction®
- New Concept Fuji® Hardloy® guides
- Fuji® reel seat
- Grade A cork handles
- Gudebrod™ thread wrapped guides
- Convenient hook keeper
- Limited Lifetime Warranty (see page 5)

For more information about these and other innovative Shimano features, see page 137.

### Spinning Rods

**TMSX66M** This is a light-line rod for fishing with live shrimp, jigs, soft plastics or jerkbaits for speckled sea trout and redfish up to 10 pounds.

**TMS66MH** An excellent artificial-bait rod for salt-water trout, redfish and bonefish.

**TMSF70M** This open-water flats rod is perfect for fishing with shrimp, whitebait, finger mullet or light, artificial baits for sea trout, redfish, snook or permit.

**TMS70M** An all-purpose rod will turn big fish and it's versatile enough to throw artificial or live bait with distance and accuracy.

**TMS70MH** This rod is for fishing with large topwater baits, whitebait, mullet or pigfish for bull reds, permit, snook and small tarpon.

**TMSF70H** A great rod that has the strength of an offshore rod, but the castability of a flats rod. It's ideal for tarpon, cobia or dolphin,

**TMSF74M** A rod designed for distance and finesse when wading or fishing from a flats boat with shrimp, light baits or D.O.A.® lures.

**TMS76ML** This rod's great combination of power and finesse will throw light baits yet handle big fish, whether wading or in a flats boat.

**TMS76M** Use this all-around bait rod for the flats and bay.

**TMSX76M** An all-around rod for fishing the flats and in and around Mangroves. A rod capable of handling snook, redfish and, of course, 'gator trout

**TMS76MH** This rod is for fishing with large mullet, pigfish or big Zara® spooks and has the power to deliver the bait and control the fish.

**TMSX710M** The ultimate rod for long-distance casting artificial or unweighted baits to wary fish.

**TMS80MH** The perfect live- or swim-bait rod for large snook, cobia and schoolie tarpon.

**TMSX80XH** A rod that specializes in casting large artificials and large baits to big tarpon from the beach.

### Casting Rods

**TMC66M** This rod is ideal for pitching topwater baits, jigs and jerkbaits up under the mangroves.

**TMC66MH** Use this mangrove plug rod for snook and reds. It's also perfect for fishing in and around docks.

**TMCM70MH** A great rod for fishing with live bait and bucktails for big snook in the passes or tarpon on the beach.

**TMCX70MH** This rod is capable of controlling large snook and tarpon in the passes.

**TMCX70H** Use this great rod for fishing for tarpon and snook in deep holes in the bay and passes or from the beach.

**TMC76MH** A perfect rod for casting maximum distance with bait and artificials to tarpon.

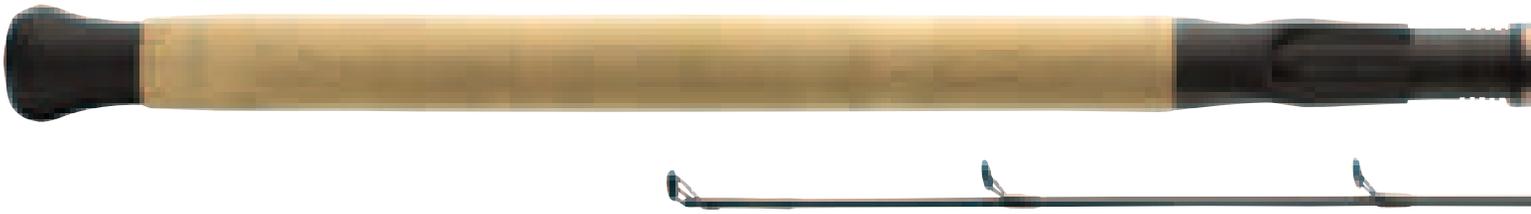

**TMC76H** Use this rod for throwing live bait long distances to tarpon from the beach.

## Teramar® West Coast

### Feature Highlights

- Shimano® TC<sub>4</sub> Construction®
- New Concept Fuji® Alconite® guides
- Fuji® reel seat
- Grade A cork handles
- Bait and Jig rods feature a Black Diamond grip
- Gudebrod™ thread wrapped guides
- Convenient hook keeper
- Limited Lifetime Warranty (see page 5)

For more information about these and other innovative Shimano features, see page 137.

### Recommended Uses

#### Casting Rods

**TMCX76ML** Its extra fast action and light-weight feel make it a comfortable, yet effective rod for fishing small grubs and swim baits with a light line when the bite is tough.

**TMCX76M** A long-casting ability matched with its Extra Fast action allows you to set the hook solidly from a distance. A 1/2 oz. jig head with 3" plastics balances out perfectly on it.

**TMCX76MH** This rod is an extremely versatile swim-bait rod. It has the castability and the power necessary for calico bass.

**TMCX76H** A great rod for serious inshore anglers. The Extra Fast action and unmatched pulling power make it a very unique rod.

**TMCX80M** This is a fantastic light-bait, light-line swim-bait rod. Its extra length allows for effortless casting and its Extra Fast action helps you bury the hook with ease.

**TMCX80MH** A perfect rod for 15- to 20-lb. line with 4- to 5-inch plastics. It has incredible castability and hookset power, yet enough sensitivity to feel the thump of the swimming plastic.

**TMCX80H** This rod casts to spots that others wouldn't dare. Yes, you can cast that far and, yes, you can get them out of that cover.

#### Breakwater Rods

**TMCX69MH** This is the perfect rod for hauling bruisers out of deep cover or from the breakwater using 15- to 20-lb. line or 50-lb. Spectra with small jig heads (3/8, 1/2 or 5/8 oz.).

**TMCX69H** Calico bass, sand bass, white seabass and yellowtail beware! This is a powerful inshore rod that can easily throw light to medium lures and jig heads into rocks, kelp and other heavy structure.

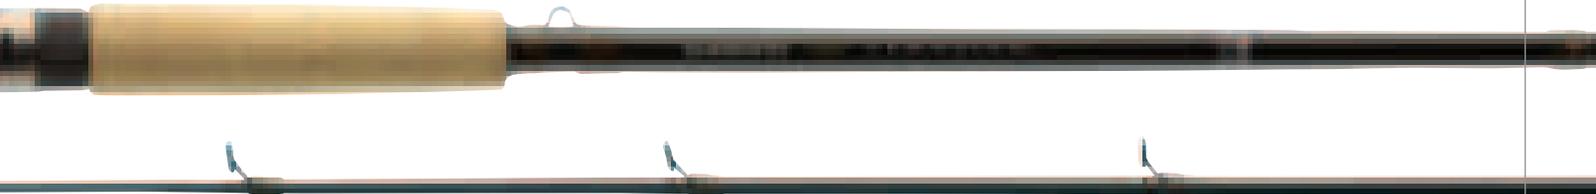

#### Jig/Bait Rods

**TMC80M** With a light tip for throwing anchovies or small sardines and a Fast action for solid hooksets, this rod is built to catch albacore, yellowtail or dorado.

**TMC80MH** A rod with many applications. It's great for light surface irons, or when using a jig head with live squid or sardines for kelp-paddy yellowtail.

**TMC80H** The king of all 30-lb. surface-iron rods. It loads to perfection for long casts, it's comfortable, and it has a lightweight feel.

**TMC90H** One of the best ways of catching calico bass is with a surface iron. This rod was designed to throw irons with ease and it loads to perfection on the bite. It also has plenty of power to move bass out of cover.

# JIGGING RODS

**TREVALA**<sup>®</sup>  
J i g g i n g R o d s

**Experience the amazing Butterfly<sup>®</sup> Jigging System—with super-light and powerful Trevala<sup>®</sup> rods and Shimano<sup>®</sup> jigs**

#### Feature Highlights

- Shimano<sup>®</sup> TC<sub>4</sub> Construction<sup>®</sup>
- New Concept Fuji<sup>®</sup> Alconite<sup>®</sup> or Fuji Hardloy<sup>®</sup> guides
- Fuji<sup>®</sup> reel seat
- Custom shaped EVA foregrip and reargrip
- Gudebrod™ thread wrapped guides
- Convenient hook keeper
- Gimbal with removable butt cap on selected models
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

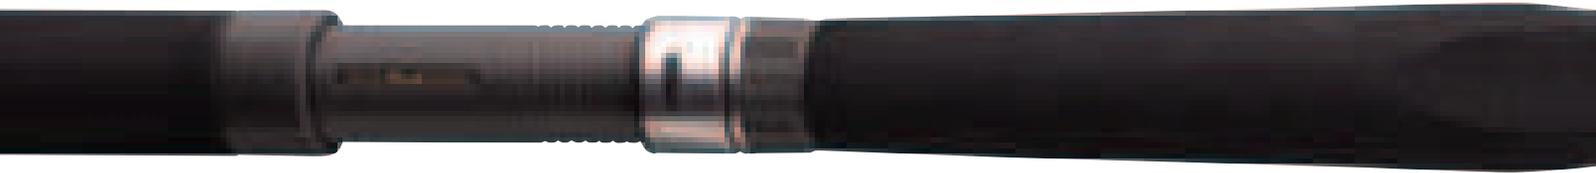

#### Butterfly<sup>®</sup> Jigging Rods

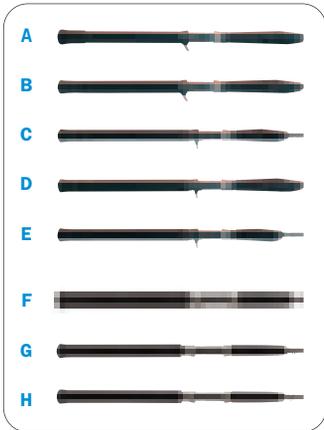

The highly innovative Shimano<sup>®</sup> Trevala<sup>®</sup> Jigging rod series is designed to be fished with the deadly Shimano Butterfly<sup>®</sup> jigs, which were developed from an extremely productive Japanese-style jigging system. These are powerful, lightweight and light-action rods to be used with high speed, high power reels (such as a Shimano Trinidad<sup>®</sup> Narrow or Stella<sup>®</sup>).

# SALTWATER RODS

# TALLUS®

## IGFA Series

**Custom rod quality with off-the-shelf convenience—  
the Tallus® IGFA® series rods are top performers for  
record-chasers and other avid offshore enthusiasts**

### Feature Highlights

- Shimano® TC<sub>4</sub> Construction®
- Triple wrapped AFTCO® Wind-On Roller or AFTCO® Big Foot® Super Heavy Duty Roller guides
- AFTCO® Big Foot® Super Heavy Duty Roller Tip guide
- AFTCO® black & custom Shimano gold Storabutt™ or Unibutt® options available
- Black Diamond foregrip
- Triple wrapped Gudebrod™ thread wrapped guides
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

### World Class Rods

The Tallus® IGFA® (International Game Fish Association) series of trolling rods were created for 50-lb., 80-lb. and 130-lb. line class ratings. These world-class saltwater rods are built utilizing the most advanced engineering technology available combined with a close partnership between our field testers, local guides, dealers and customers. The series also allows anglers to customize their purchases by offering either the tip section without the AFTCO® Unibutt® or the entire rod, including the butt. Offering both options means anglers who already own AFTCO® butts now have the flexibility to use Tallus IGFA® tips.

# TALLUS®

## Trolling Series

**Easily tailored to fit your needs, the Tallus Trolling rods feature top-notch components, unbelievable fish-moving power, and custom wraps that will look great on your boat**

### Feature Highlights

- Shimano® TC<sub>4</sub> Construction®
- Triple Wrapped AFTCO® Heavy Duty Roller, AFTCO® Wind-On Roller or Fuji® SiC Silicon Carbide guides
- AFTCO® Super Heavy Duty Swivel, AFTCO® Standard Roller or AFTCO® Big Foot® Super Heavy Duty Roller Tip guides
- AFTCO® black and custom Shimano gold Unibutt® options available
- Black Diamond foregrip
- Triple wrapped Gudebrod™ thread wrapped guides
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

### Recommended Uses

- **Saltwater:** Trolling in blue water and deep drop offshore
- **Species:** All large pelagic species

### Custom Look and Feel

The new Tallus® Trolling series rods were designed for anglers on both the

Atlantic and Gulf coasts. This series allows anglers to customize their purchases by offering both the tip section without the AFTCO® Unibutt® or the entire rod including the AFTCO® Unibutt®. Offering both options allows for those who already own AFTCO® butts the flexibility to purchase the tip sections only.

## Tallus® Deep Drop Trolling Rods

### Recommended Uses

**TLTDDH** This Bahamas-style, South-Florida deep-drop rod has a somewhat parabolic overall action to absorb the tremendous loads it experiences when retrieving rigs and fish from depths around 1,200 feet. It can also be used as a planer rod or teaser rod. Use it with a Tiagra® 80W reel.

**TLTDDXH** This extra-heavy, Bahamas-style, South-Florida deep-drop rod has a somewhat parabolic overall action to absorb the tremendous loads it experiences when retrieving rigs and fish from depths around 1,200 feet. It can also be used as a planer rod or teaser rod. Use it with a Tiagra® 80W reel.

## Tallus Stump Rods

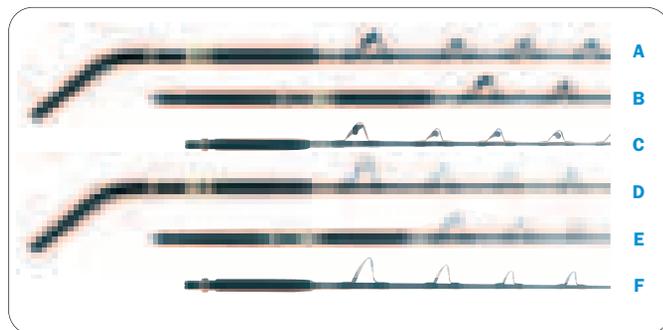

### Recommended Uses

**TLTSTHW** This 80-lb. "stump puller" or pitch-bait rod is for swordfish, bluefin tuna and blue or black marlin and features all roller guides most often found in custom shops. Use it with a Tiagra® 50, Tiagra 50W, Tiagra 50WLRS or Tiagra 80W reel.

**TLTSTH** This 80-lb. "stump puller" or pitch-bait rod is for swordfish, bluefin tuna and blue or black marlin and features Fuji® SiC Silicon Carbide heavy-duty ring guides. Use it with a Tiagra® 50, Tiagra 50W, Tiagra 50WLRS or Tiagra 80W reel.

**TLTSTXHW** This 80-lb. "stump puller" or pitch-bait rod is for swordfish, bluefin tuna and blue or black marlin and features all roller guides most often found in custom shops. Use it with a Tiagra® 50, Tiagra 50W, Tiagra 50WLRS or Tiagra 80W reel.

**TLTSTXH** This version of the TLTSTXHW features Fuji® SiC Silicon Carbide heavy-duty ring-guides.

## Tallus® Trolling Rods

### Recommended Uses

**TLTMHR** This is a 25-lb. sailfish, dink fishing and light-trolling rod. Use it with a TLD® 20II, TLD 25 or TLD 30II reel.

**TLTMH** This version of the TLTMHR features Fuji® SiC Silicon Carbide heavy-duty ring guides.

**TLTHR** This 50-lb. trolling rod is for tuna and big dolphin in the canyons or for islanders. Use it with a TLD® 30II, Tiagra® 30, Tiagra 30WLRS or TLD 50II reel.

**TLTH** A version of the TLTHR with Fuji® SiC Silicon Carbide heavy-duty ring guides.

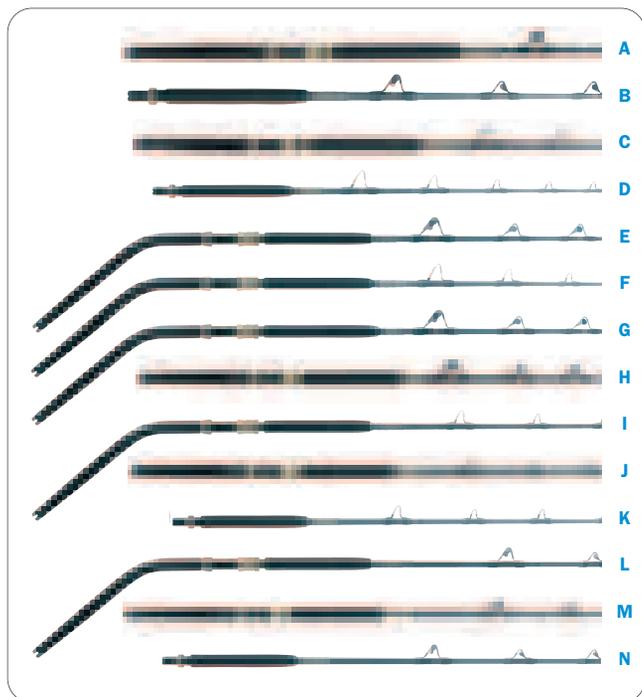

**TLTXHW** This is a heavy, Atlantic-canyon chunking or trolling rod. It's also a great heavy-shark rod. Use it with a Tiagra® 50, Tiagra 50W or Tiagra 50WLRS reel with 50- to 80-lb. line.

**TLTXH** This version of the TLTXHW features Fuji® SiC Silicon Carbide heavy-duty ring guides.

**TLTXHW** This is a core rod for the South Florida and mid/south Atlantic regions. An 80-lb. heavy offshore trolling rod, it's for marlin and swordfish and big lures. Use it with a Tiagra® 80W reel.

**TLTWIRE** This is a South Florida to mid-Atlantic wireline rod for big game or for anglers switching to braid for high-speed trolling. The action of this rod is somewhat parabolic to absorb the drag created by the weight of the wire (or braid) and large trolling, as well as to absorb the impact of large fast striking fish, like wahoo. Use it with a Tiagra® 50, Tiagra 50W or Tiagra 50WLRS reel.

**TLTWIRE** This is a heavy-power all-roller version of the TLTWIRE.

# TALLUS®

## Stand Up Series

**These muscular rods can be designed to handle anything a 300-lb. tuna can dish out—with TC<sub>4</sub> Construction® and triple-wrapped guides, you'll have all the power and strength you need**

### Feature Highlights

- Shimano® TC<sub>4</sub> Construction®
- Triple Wrapped AFTCO® Heavy Duty Roller or Fuji® SiC Silicon Carbide guides
- AFTCO® Standard Roller Tip guide on selected models
- AFTCO® black & custom Shimano gold Slip-Over reel seat
- Denser EVA Reargrip and softer EVA Foregrip
- Precision machined AFTCO® Radiused Aluminum Gimbal with cap
- Triple wrapped Gudebrod™ thread wrapped guides
- Limited Lifetime Warranty (see page 7)

*For more information about these and other innovative Shimano features, see page 120.*

### Recommended Uses

- **Saltwater:** Trolling or live bait fishing
- **Species:** All large pelagic species

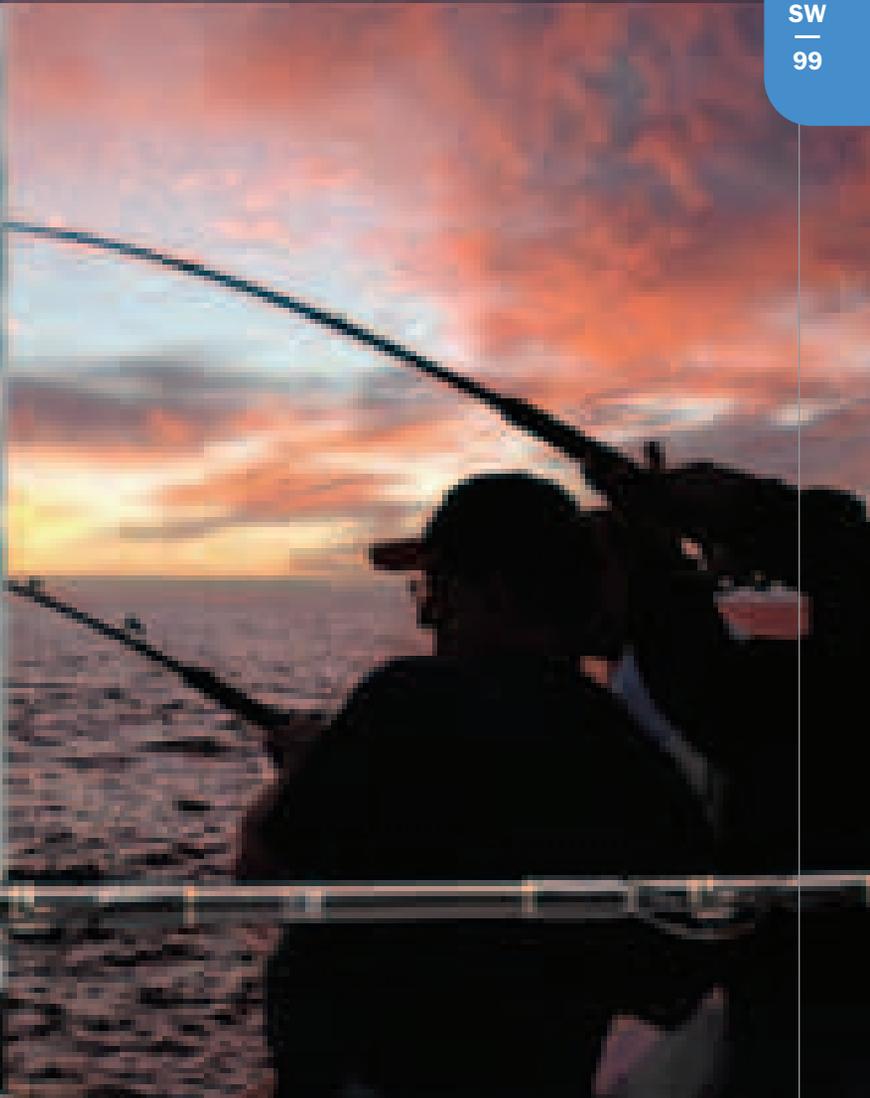

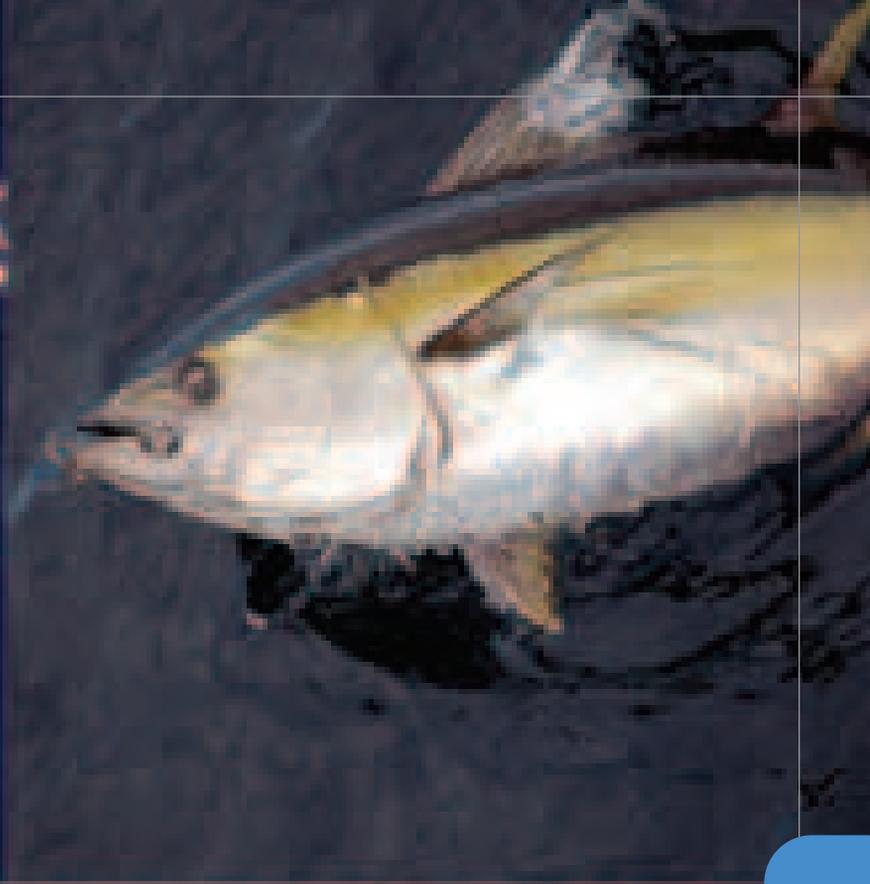

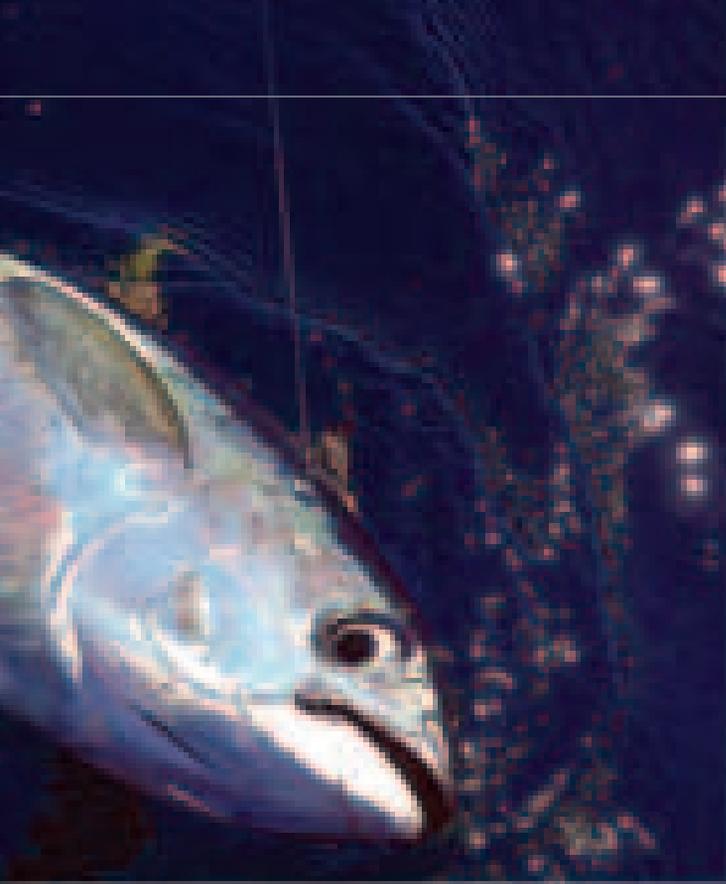

### West Coast Beauties

Stand up rods were originally designed for the West-Coast giant-yellowfin fishery. These long-range anglers needed sturdy rods that could both handle the abuse a 300-pound tuna dishes out and successfully land the beast. This series started around 7'0" in length and has gradually grown shorter as anglers realized that longer rods transfer more pressure back onto the fisherman. With the innovation of TC<sub>4</sub> Construction® and proven actions, Shimano® has developed the ultimate line of Tallus® Stand Up rods designed to stop the baddest yellowfin tuna in their circles. The end result? You catch more fish.

## Tallus® Standup Rods

### Recommended Uses

**TLTS60L** This is a 60-lb. bait rod for casting mackerel. It's also a fantastic light-line class trolling rod for private boaters fishing for tuna, marlin, swordfish, sailfish or wahoo. It's also an excellent choice for dropper-loop fishing for trophy-size yellowtail at Guadalupe or Alijos Rocks. Use it with a Tiagra® 16, Tiagra 20, Tiagra 30, Tiagra 30WLRS, TLD® 30II or TLD 50II reel.

**TLTS60M** This is a phenomenal all-around trolling rod or 80-lb. bait rod for casting mackerel or other large baits to marlin, swordfish, wahoo or trophy-sized tuna on long range banks. Use it with a Tiagra® 30, Tiagra 30WLRS, Tiagra 50, Tiagra 50W, Tiagra 50WLRS or TLD 50IILRS reel.

**TLTS60H** This is a 100-lb. bait rod for chunking and soaking live baits for trophy-sized tuna, or for fishing giant squid or scads on a kite. It's also an excellent heavy-power trolling rod for tuna, marlin or swordfish. Use it with a Tiagra® 50, Tiagra 50W, Tiagra 50WLRS or Tiagra 80W reel.

**TLTSHD66L** This is the perfect rod for casting sardines or mackerel to bluefin or yellowfin off Guadalupe Island. It's also a great rod for casting bait to tailing or feeding marlin. It's a 50- to 60-lb. bait rod designed to cast the long distances necessary when fishing for tuna, marlin, swordfish, sailfish, wahoo or yellowtail. Use it with a Tiagra® 16, TLD® 20II, TLD 25, TLD 30II, TLD 50II or Trinidad® 40 reel.

**TLTS66L** This rod is an excellent choice for the local private boater trolling or casting baits with 50- to 60-lb. line for tuna, marlin, swordfish or sailfish. Use it with a Tiagra® 16, Tiagra 20, TLD® 20II, TLD 25, Tiagra 30 or Tiagra 30WLRS reel.

**TLTS66ML** This 60-lb. bait rod is for casting mackerel or other baits at big tuna. It's also the perfect light-line class trolling rod for private boaters fishing for tuna, marlin, swordfish, sailfish or wahoo. Use it with a Tiagra® 16, Tiagra 20, Tiagra 30, Tiagra 30WLRS or TLD® 30II reel.

**TLTS66M** This is an 80-lb. bait rod for casting big baits at trophy-size tuna on long-range banks. It's also a phenomenal all-around trolling rod for tuna, marlin swordfish or wahoo. Use it with a Tiagra® 30, Tiagra 30WLRS, Tiagra 50, Tiagra 50W or Tiagra 50WLRS reel.

**TLTS66H** This is a 100-lb. bait or trolling rod for anglers fishing for tuna, marlin, swordfish and other big fish. It's also for giant squid or scads on a kite, as well as chunking and soaking live baits for trophy-size tuna. Its added length provides leverage and keeps the line off the transom. Use it with a Tiagra® 50, Tiagra 50W or Tiagra 50WLRS reel.

## Rail Series

**Designed for maximum-strength loads when rested on the rail, Tallus® Rail Rods put the pressure on the fish, not on you**

### Feature Highlights

- Shimano® TC<sub>4</sub> Construction®
- Triple Wrapped AFTCO® Heavy Duty Roller
- AFTCO® Standard Roller Tip guide
- AFTCO® black & custom Shimano gold Slip-Over reel seat
- Custom shaped-bottom foregrip
- Precision machined AFTCO® Radiused Aluminum Gimbal with cap
- Triple wrapped Gudebrod™ thread wrapped guides
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

### On the Internet

- **Learn more about the Tallus Rail rod series at:**  
<http://fish.shimano.com/rods>

### The Rail is your friend

Long-range fishing became popular on the West Coast in the early 1970s. Over the years, yellowfin tuna tackle has evolved from primitive sticks to innovative new products that respond to the specialized needs of these anglers. To that end, the Shimano® Tallus® Rail Rods were specifically designed to handle the maximum load of a full-drag setting when the rod is rested on the rail. Using the rail as a fulcrum allows the angler to put the maximum amount of pressure on the fish. Plus, Shimano Rail Rods offer anglers the strength and durability necessary to land these behemoths.

### Recommended Uses

**TLRX60M** This is an 80-lb. bait rod for fishing for tuna. Use it with a Tiagra® 30, Tiagra 30WLRS, Tiagra 50, Tiagra 50W or Tiagra 50WLRS reel on the rail. Let the rail be your strongest muscle and let the rod do the heavy lifting for you. Put your reel in low, put the rod on the rail, and turn the handle. The rod

will subdue even the meanest and strongest of game fish.

**TLRX66M** This rod is identical to the TLRX60M, but 6 inches longer to add leverage and keep the line off the transom.

# TALLUS®

Blue Water Series

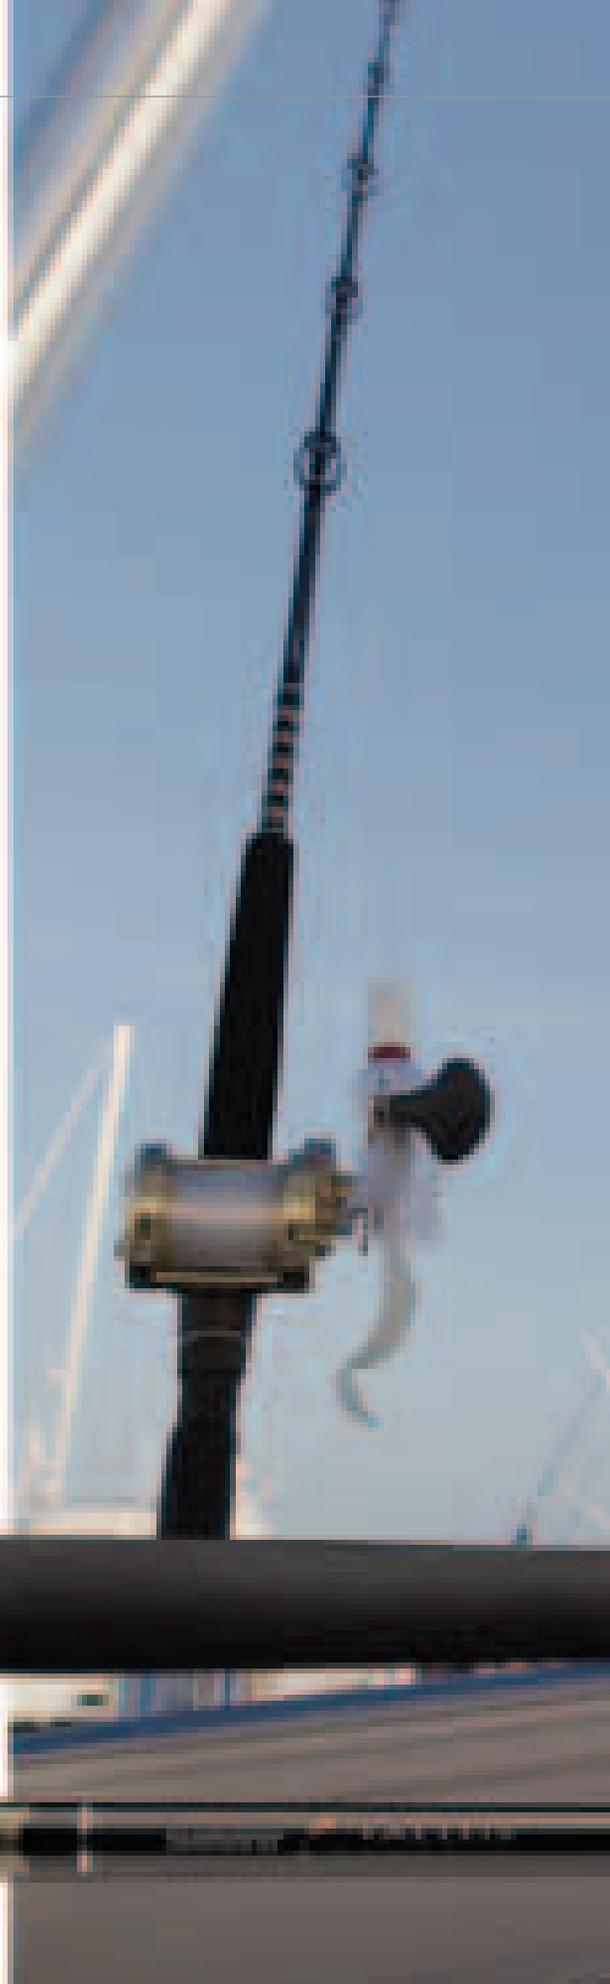

***No matter where you fish, Tallus® Bluewater has a lightweight, powerful rod for your specific needs and techniques. East Coast, Gulf, or West Coast, spinning or conventional, there's a Tallus to fit the situation.***

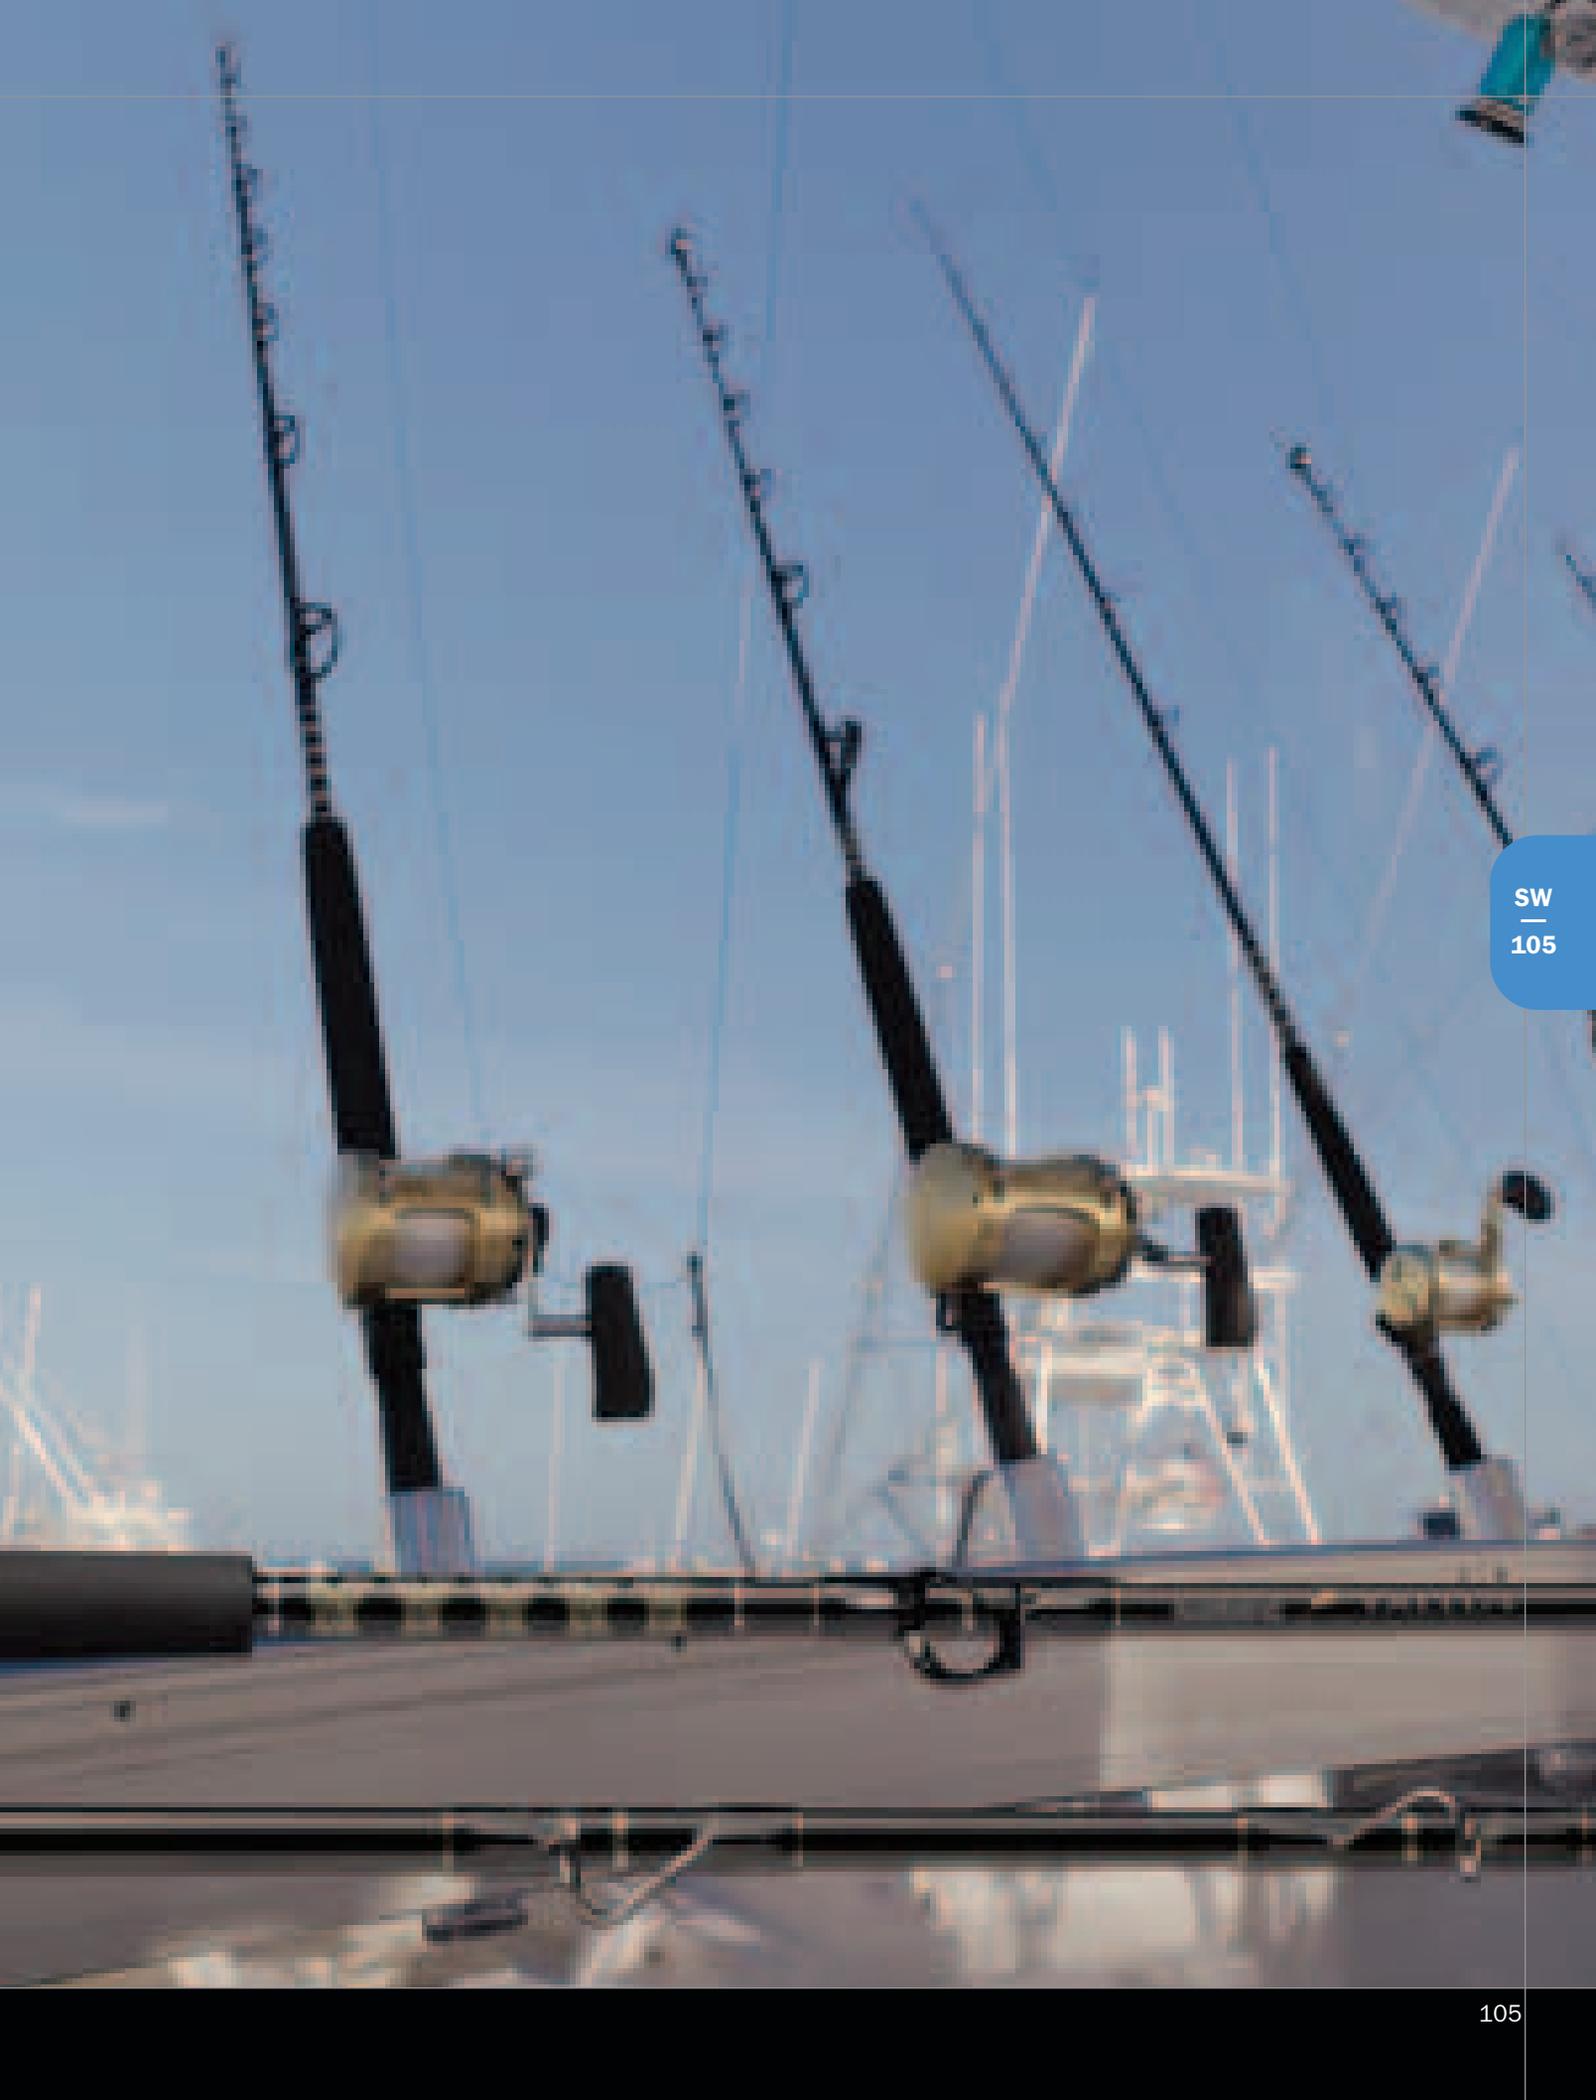

### **Lightweight and Powerful**

Shimano® Tallus® Bluewater rods are designed to be regionally specific, since anglers fishing for different species in different geographic regions have different wants and needs for their specific fishing techniques. The sheer performance of these rods will exceed the expectations of anglers no matter where they fish. These rods elicit confidence with their lightweight feel and powerful actions. Plus, they look incredible.

## Recommended Uses

### Spinning Rods

**TLS66MA** This rod specializes in Dolphin bailing and yellowtailing from a sport fisher. Use it with a Baitrunner® 3500B or a Spheros® 5000FA reel with 12- to 25-lb. mono or 30-lb. braid. It's also a North East bunker snag rod for striped bass when used with a Baitrunner 4500B reel.

**TLS66MHA** This rod is for dolphin, yellowtail, kite fishing and sailfish. It's also a great rod for anglers fishing for bluefish on party boats. Use it with a Baitrunner® 4500B–6500B or a Spheros® 6000FA–8000FA reel with 15- to 30-lb. mono or 30- to 50-lb. braid.

**TLS70MLA** This is the perfect rod for plug casting for yellowtail, fishing bucktails for striped bass or casting from the beach. Use it with a Spheros® 5000FA or Baitrunner® 3500B reel with 8- to 25-lb. mono or 30-lb. braid.

**TLS70MA** This is a great rod for snook, yellowtail and sailfish when used with a Spheros® 6000FA or a Baitrunner® 6500B reel with 12- to 25-lb. mono or 30-lb. braid. It's also a great all-around spinning rod when fishing for striped bass or bluefish from a boat and used with a Stradic® 8000FH or Spheros 8000FA reel.

**TLS70MHA** This rod is for fishing for snook, tarpon, dolphin and sailfish. Use it with a Spheros® 8000FA–12000FA or a Baitrunner® 6500B reel with 15- to 30-lb. mono or 50-lb. braid.

### Live Bait Spinning Rods

**TLS70LA** This rod's Extra-Fast-action tip will respond to fast-striking fish that move in quickly and hit live bait on the troll, drifting or from a kite. Use it with a Baitrunner® 4500B or 6500B reel with 15- to 30-lb. mono. This specialized blank is offered in both conventional and spinning configurations.

### Tuff Butt® Spinning Rods

**TLS66MHSBA** This trolling rod is for fishing from a sport fisher for sailfish, dolphin with pitching baits, spoons or plugs or kite fishing. Use it with a Baitrunner® 6500B or a Spheros® 8000FA–12000FA reel with 15- to 30-lb. mono or 20- to 50-lb. braid.

**TLS70MSBA** This is a general trolling rod for sailfish and dolphin when fishing from center console boats with outboard brackets or other built-in obstacles. Use it with a Baitrunner® 6500B or a Spheros® 8000FA–12000FA reel with 12- to 25-lb. mono or 20- to 50-lb. braid.

**TLS70MHSBA** This is a heavy trolling rod for sailfish and dolphin when fishing from center console boats with outboard bracket or other built-in obstacles, with a Baitrunner® 6500B or a Spheros® 8000FA–12000FA reel with 15- to 30-lb. mono or 20- to 50-lb. braid.

### West Coast Spinning Rods

**TLSF70MLA** This rod has sturdy power with a light tip for casting small baits or iron and should be used with a Baitrunner® 3500B reel.

**TLSM70MA** This is the perfect all-around spinning rod for bait and iron and should be used with a Baitrunner® 4500B reel.

**TLSM70MHA** This is a heavier-power version of the TLSM70MA.

## Recommended Uses

### Roller Stripper, Roller Tip Models

**TLCX58MHRSA** This is the perfect stand-up boat rod for light trolling, bottom fishing or sharking. Use it with a Tiagra® 16, TLD® 20 II or TLD 25 reel with 20- to 30-lb. mono or 50-lb. braid. It's perfect for the Southeast, with applications that range from dink fishing in the Carolinas, to dolphin trolling in near-shore waters, to fishing for huge Goliath grouper in the Florida Keys. The Extra Fast tip on this rod also makes it perfect for white marlin and dolphin in the summer.

**TLC58HRSA** This is a great rod for heavy-lifting medium- to large-sized fish. It's a heavy-trolling rod for wahoo fishing or light tuna chunking. It's also a general 30-lb. trolling rod from center console. Use it with a Tiagra® 16, TLD® 20II, TLD 30II or Tiagra 30WLRS reel with 30-lb. mono or 50- to 65-lb. braid. The Fast action brings the fulcrum point of the rod closer to the angler, providing a greater mechanical advantage over fish like tuna that tend to run deep and stay down for extended periods.

**TLC58XHRSA** A heavier-power version of the TLC58HRSA. Use it with a Tiagra® 20, Tiagra 30, TLD® 30II, TLD 50IILRS or Tiagra 50WLRS reel with 40- to 60-lb. mono or 80-lb. braid. This rod features excellent lifting power and a shorter fulcrum point for dealing with sulking fish that use the depths to their advantage. It's a great all-around trolling rod, excellent for the summer Jersey tuna fishery and late-spring runs in North and South Carolina. It's also a powerful 50-lb. stand-up rod and an ideal shark-chumming rod for the Northeast.

**TLC59XHRSA** This amazing rod has the perfect action for stand-up fights with Florida swordfish (or anywhere with dead baits on the drift) when used with a TLD® 50II reel with 30- to 80-lb mono or 100-lb. braid backing with 80- to 100-lb. mono top shot. It's also a great medium to large yellowfin rod for 30- to 80-lb. fish and it's the perfect choice for 30-lb. center-console anglers who want to add an outfit to their quivers. The rod features a fast, light tip for keeping hooks in place in a swordfish's rubbery mouth and an AFTCO® Wind-On roller stripper/roller tip guide to accommodate all sizes of wind-on leaders.

**TLC66MHRSA** This is an excellent Fast-action, general-purpose trolling rod for dolphin, sailfish, kingfish, school tuna, white marlin or anything else that might crash the party when trolling the blue water offshore. Use it with a TLD® 20, TLD 20 II or TLD 25 reel with 15- to 30-lb. mono.

**TLC66HRSA** This is a heavy version of the TLC66MHRSA. Use it with a TLD® 20, TLD 20II or TLD 25 reel with 20- to 50-lb mono.

### Conventional Tuff Butt Rods

**TLC58HSBA** This is an excellent rod for dink fishing for white marlin, dolphin and tuna. It's also an ideal Atlantic canyon tuna-chunking rod for private boaters. It's a basic 20- to 40-lb. trolling outfit that's particularly suited to cramped cockpits, sport fishers where space is at a premium. Use it with a TLD® 20, TLD 25, TLD 30II or Tiagra® 30WLRS reel.

**TLC58XHSBA** This is a 30- to 60-lb. trolling, stand up or pitch-bait rod for tuna, dolphin, wahoo and marlin. Its compact size helps when cockpit space is at a premium or storage is an issue. The extra large Fuji® guides are designed to give perfect direction to the line when it comes off a high-profile 50-lb.-class reel and they allow clearance for wind-on leaders of all sizes. Use it with a TLD® 50II or Tiagra® 50W reel.

**TLC60XHSBA** This is a 30- to 60-lb. trolling, stand-up or pitch-bait rod for tuna, dolphin, wahoo and marlin that is long enough to maneuver around the outboard. Use it with a TLD® 50II or Tiagra® 50W reel.

**TLC60XXHSBA** This is a 60- to 80-lb. trolling, stand-up or pitch-bait rod for big tuna, dolphin, wahoo, blue marlin that is long enough to maneuver around the outboard. It's also a great party-boat tuna-chunking rod. Use it with a TLD® 50II, Tiagra® 50W or Tiagra 50WLRS reel.

**TLC66MSBA** This is a light-trolling, bluefish and striped-bass rod. It's the perfect, Fast-action, light-trolling rod for center consoles and great to have on-hand for family-boat joy riding around the bay. It's also ideal for Spanish mackerel, jacks and schoolie stripers. Use it with a TLD® 15, Trinidad® 20, Torium® 20, TLD Star or Tekota® 600 reel with 12- to 20-lb. mono.

**TLC66MHSBA** This is an excellent, Fast-action, general-purpose trolling rod for dolphin, sailfish, kingfish, school tuna, white marlin or anything else that might crash the party when trolling the blue water offshore. Use it with a TLD® 20, TLD 20II or TLD 25 reel with 15- to 30-lb. mono.

**TLC66HSBA** This is an all-around inshore trolling or white-marlin drop-back rod when used with a TLD® 25 or Torium® 30 reel. It's also an excellent, Fast-action, general-purpose trolling rod for dolphin, sailfish, kingfish, school tuna or white marlin when used with a TLD 20, TLD 20II or TLD 25 reel with 20- to 50-lb. mono.

**TLC70MSBA** This is the perfect general-purpose 20-lb. trolling rod for dolphin, kingfish, striped bass and bluefish. Use it with a TLD® 20 reel with 20-lb. mono. It's great for anglers who need a long rod that will maneuver around outboard brackets, bow rails and bow pulpits. It's also perfect for use as a

heavy-duty drift-boat rod; its Fast-action tip is light enough for live bait yet can handle the demands of charter or commercial anglers.

**TLC70MHSBA** This is a general-purpose trolling rod that has the leverage to move large fish, and the length to clear boat obstacles, such as the motor-mount brackets and bow pulpits. It's one of the most popular center-console Tallus® Blue Water series rods for dolphin and wahoo. Use it with a TLD® 20II, TLD 25 or TLD 30II reel with 17- to 30-lb. mono.

**TLC70HSBA** This is a heavy-power, general-purpose, center-console trolling rod for tuna, dolphin, wahoo and kingfish. Use it with a TLD® 20II, TLD 25 or TLD 30II reel with 25- to 40-lb. mono.

### Live Bait Conventional Rod

**TLCX70MHA** The Extra-Fast-action tip on this rod responds to fast-striking fish that move in quickly and hit live baits on the troll, when drifting or from a kite. Use it with a Trinidad® 20 or Torium® 20 reel with 15- to 30-lb. mono. This specialized blank is offered in both conventional and spinning configurations.

# Tallus® Bluewater Conventional

## Feature Highlights

- Extra Tough Graphite Composite Blank Construction
- Fuji® Hardloy® and Wire Snake guides
- Fuji® Boat reel seat
- Slip resistant EVA reargrips
- Gimbal with removable cap
- Gudebrod™ thread wrapped guides
- Limited Lifetime Warranty (see page 5)

For more information about these and other innovative Shimano features, see page 137.

## Recommended Uses

### Conventional Rods

**TLC60XHA** This rod is designed for heavy lifting and heavy bottom fishing for large fish or in deep water. The EVA rear grip is comfortable when placed under the arm when deep-water jigging and the slow, parabolic Fast-action bend gives an angler the greatest mechanical advantage over heavy fish holding in depths up to 300 feet. This rod is well suited for heavy braids and ideal for fishing with heavy bucktails or wreck fishing with bait for big groupers. Use it with a Trinidad® 20, Trinidad 30, Trinidad 40, Trinidad 40N or Torium® 30 reel with 30- to 60-lb. mono or 100- to 150-lb. braid.

**TLC60XXHA** This is an extra-extra-heavy power version of a grouper-digging, deep-jigging and heavy bottom fishing rod. It's for heavy lifting and heavy bottom fishing for large fish or deep water. Use it with a Trinidad® 20, Trinidad 30, Torium® 30, Trinidad 40 or Trinidad 40N reel with 60- to 80-lb. mono or 100- to 150-lb. braid.

**TLC66MHA** This is the perfect center-console, live- or dead-bait rod for drifting or kite fishing. It's perfect for any live-bait drift application in Florida or the Southeast, or for near-shore (150 feet of water or less) reef and bottom fishing for snappers from party drift boats. Use it with a Trinidad® 20, Torium® 20, Trinidad 30, Torium 30 TLD® 15 or TSMIV reel with 15- to 30-lb. mono or 40-lb. braid.

**TLC66HA** This is the perfect heavy-action, center-console, live- or dead-bait rod for drifting or kite fishing. It's a perfect for white-marlin drop-back fishing, any live-bait drift application in Florida or the Southeast, or for near shore (150 feet of water or less) reef and bottom fishing for snappers from party drift boats. Use it with a Trinidad® 20, Torium® 20, Trinidad 30, Torium 30, TLD® 15, TLD 20II, TLD 25, TLD 30II or TSMIV reel with 20- to 50-lb. mono or 40- to 50-lb. braid.

**TLC70MA** With a medium-action and medium-fast tip, this rod is perfect for casting large plugs to cruising surface fish, or for jigging. It's also great for light lining live baits and light party-boat drifting. It's excellent for Florida-style mutton and yellowtail fishing over near-shore patch reefs and wrecks. Use it with a Trinidad® 16, Torium® 16 or TLD® 15 reel with 14- to 25-lb. mono or 30-lb. braid.

**TLC70MHA** This rod has the requisite length and power to effectively cast plugs or jig with bucktails for deep-water fluke when using a Tekota® 700 or Torium® 20 reel. It's also a great live-bait rod and a powerful bottom-fishing rod for large snappers in deep water (up to 200 feet) when used with a Trinidad® 20, Torium 20, Trinidad 30 or Torium 30 reel with 17- to 30-lb. mono or 40- to 65-lb. braid. The Medium-Fast-action tip casts large plugs to striped bass or schoolie tuna yet has added strength in the butt for heavy lifting when fishing from drift boats in deep water for tautogs, red grouper and mutton.

**TLC70HA** This is a heavy-power version of a live-bait or bottom-fishing rod for large snappers in deep water (up to 200 feet). It's perfect for bottom fishing and deep jigging from a center console, and it gives seabass anglers the versatility of using a wide range of sinker weights for both inshore and offshore applications. It's particularly suited to heavy lifting and it's a great choice when harbor fishing for tarpon or shark. Use it with a Trinidad® 20, Torium® 20, Trinidad 30, Torium 30 or Tekota® 700 reel with 25- to 40-lb. mono or 40- to 65-lb. braid.

**TLCM80MHA** This specialty, medium-slow-action rod was built specifically for heavy-duty charter- and commercial-style bottom fishing when used with a Trinidad® 40, Trinidad 50, TLD® 25 or Tekota® 700 reel with 25- to 40-lb. mono or 50- to 200-lb. braid. It's also a great South-Florida-style bridge-fishing rod for snook, grouper and tarpon. Built with heavy duty, Wire Snake guides that will not fail under repeated heavy use, it's designed for

lifting heavy loads, pulling heavy fish away from structure and “slinging” fish into a boat or onto a bridge or pier. It can also be used as a wireline rod for North-Jersey-style striper fishing or a medium-heavy cod- or bottom-fishing rod when used with a TLD 25, Torium® 30 or Tekota 700 reel.

**TLCM80HA** This is a specialty, extra-tough cod rod built with a medium-slow action for New-England-style bait and jig fishing or heavy duty charter- and commercial-style bottom fishing. It’s also a great South-Florida-style bridge rod for snook, grouper and tarpon. Built with heavy-duty, Wire Snake guides that will not fail under repeated heavy use, it’s designed for lifting heavy loads, pulling heavy fish away from structure and “slinging” fish into a boat

or onto a bridge or pier. Use it with a Torium® 30, Trinidad® 40, Trinidad 50, TLD® 25 or Tekota® 800 reel with 40- to 60-lb. mono or 100- to 200-lb. braid.

### Wireline Conventional Rod

**TLCW80MHA** This is a wireline-model rod designed to troll bunker spoons for striped bass from outboard rod holders. It also works well for shad umbrella rigs on center console boats. Use it with a Tekota® 800 or TLD® 25 reel.

## Tallus® Bait Shaker

### Recommended Uses

**TLCBSA** Effortless to unhook your baits and safely handle them without removing their scales and injuring them. It also floats!

	Model	Pieces	Grip Length	Grip Material	MSRP
<b>Tallus Bluewater Bait Shaker</b>					
<b>1'6"</b>	TLCBSA	1	5.5"	EVA	\$14.99

### Feature Highlights

- Graphite Composite Blank
- Slip resistant EVA grip
- Limited Lifetime Warranty (see page 7)

# Tallus® Bluewater West Coast Conventional

## Feature Highlights

- Extra Tough Graphite Composite Blank Construction
- Fuji® Hardloy® guides for durability
- Fuji® Boat reel seat
- Slip resistant EVA grips
- Gimbal with removable cap on selected models
- Gudebrod™ thread wrapped guides for added strength
- Limited Lifetime Warranty (see page 5)

For more information about these and other innovative Shimano features, see page 137.

## Recommended Uses

### Bluewater West Coast Conventional Rods

**TLC60HA** This is a private-boat trolling rod for local tuna that doubles as an effective 50-lb. bait rod. Use it with a Tiagra® 12, TLD® 20 or Trinidad® 40 reel.

**TLCM60XHA** This is a bait or trolling rod for dropping back on blue marlin or monster yellowtail down deep at Alijos rocks. Use it with a TLD® 25, TLD 30II or Tiagra® 30 reel.

**TLCM66MHA** This rod is the standard for albacore bait fishing. It has a light enough tip action to throw the bait with accuracy and the power to back it up. Use it with a TLD® 15, TLD® 20/40S, Trinidad® 20 or Torium® 20 reel.

**TLCM66HA** This bait rod targets a variety of species, including bluefin, yellowfin, stripe marlin and yellowtail. Use it with a TLD® 20/40S, Trinidad® 30 or Torium® 30 reel.

**TLC70MLA** This rod is a must-have for finesse sport-boat anglers in pursuit of pelagic species. It has a light tip action, which provides for better casting, yet enough power for comfortable fishing. When you can't get them to bite the anchovy on 30-lb., pick up this rod. Use it with a CTE 400, CT 400S, Trinidad® 14 or TLD® 15/30S reel.

**TLCM70MA** This bait rod has a light tip for solid casting, yet plenty of power for the battle. Use it with a Trinidad® 16, Torium® 16 or TLD® 15/30S reel.

**TLCM70MHA** This is a bait rod for albacore and yellowtail. It has a soft enough tip action to throw the smallest of baits yet also has the power to win the fights it instigates. Use it with a TLD® 15, Trinidad® 20 or Torium® 20 reel.

**TLCM70HA** This rod targets a variety of species, including bluefin, yellowfin, marlin and yellowtail. Use it with a TLD® 20/40S, Trinidad® 30 or Torium® 30 reel.

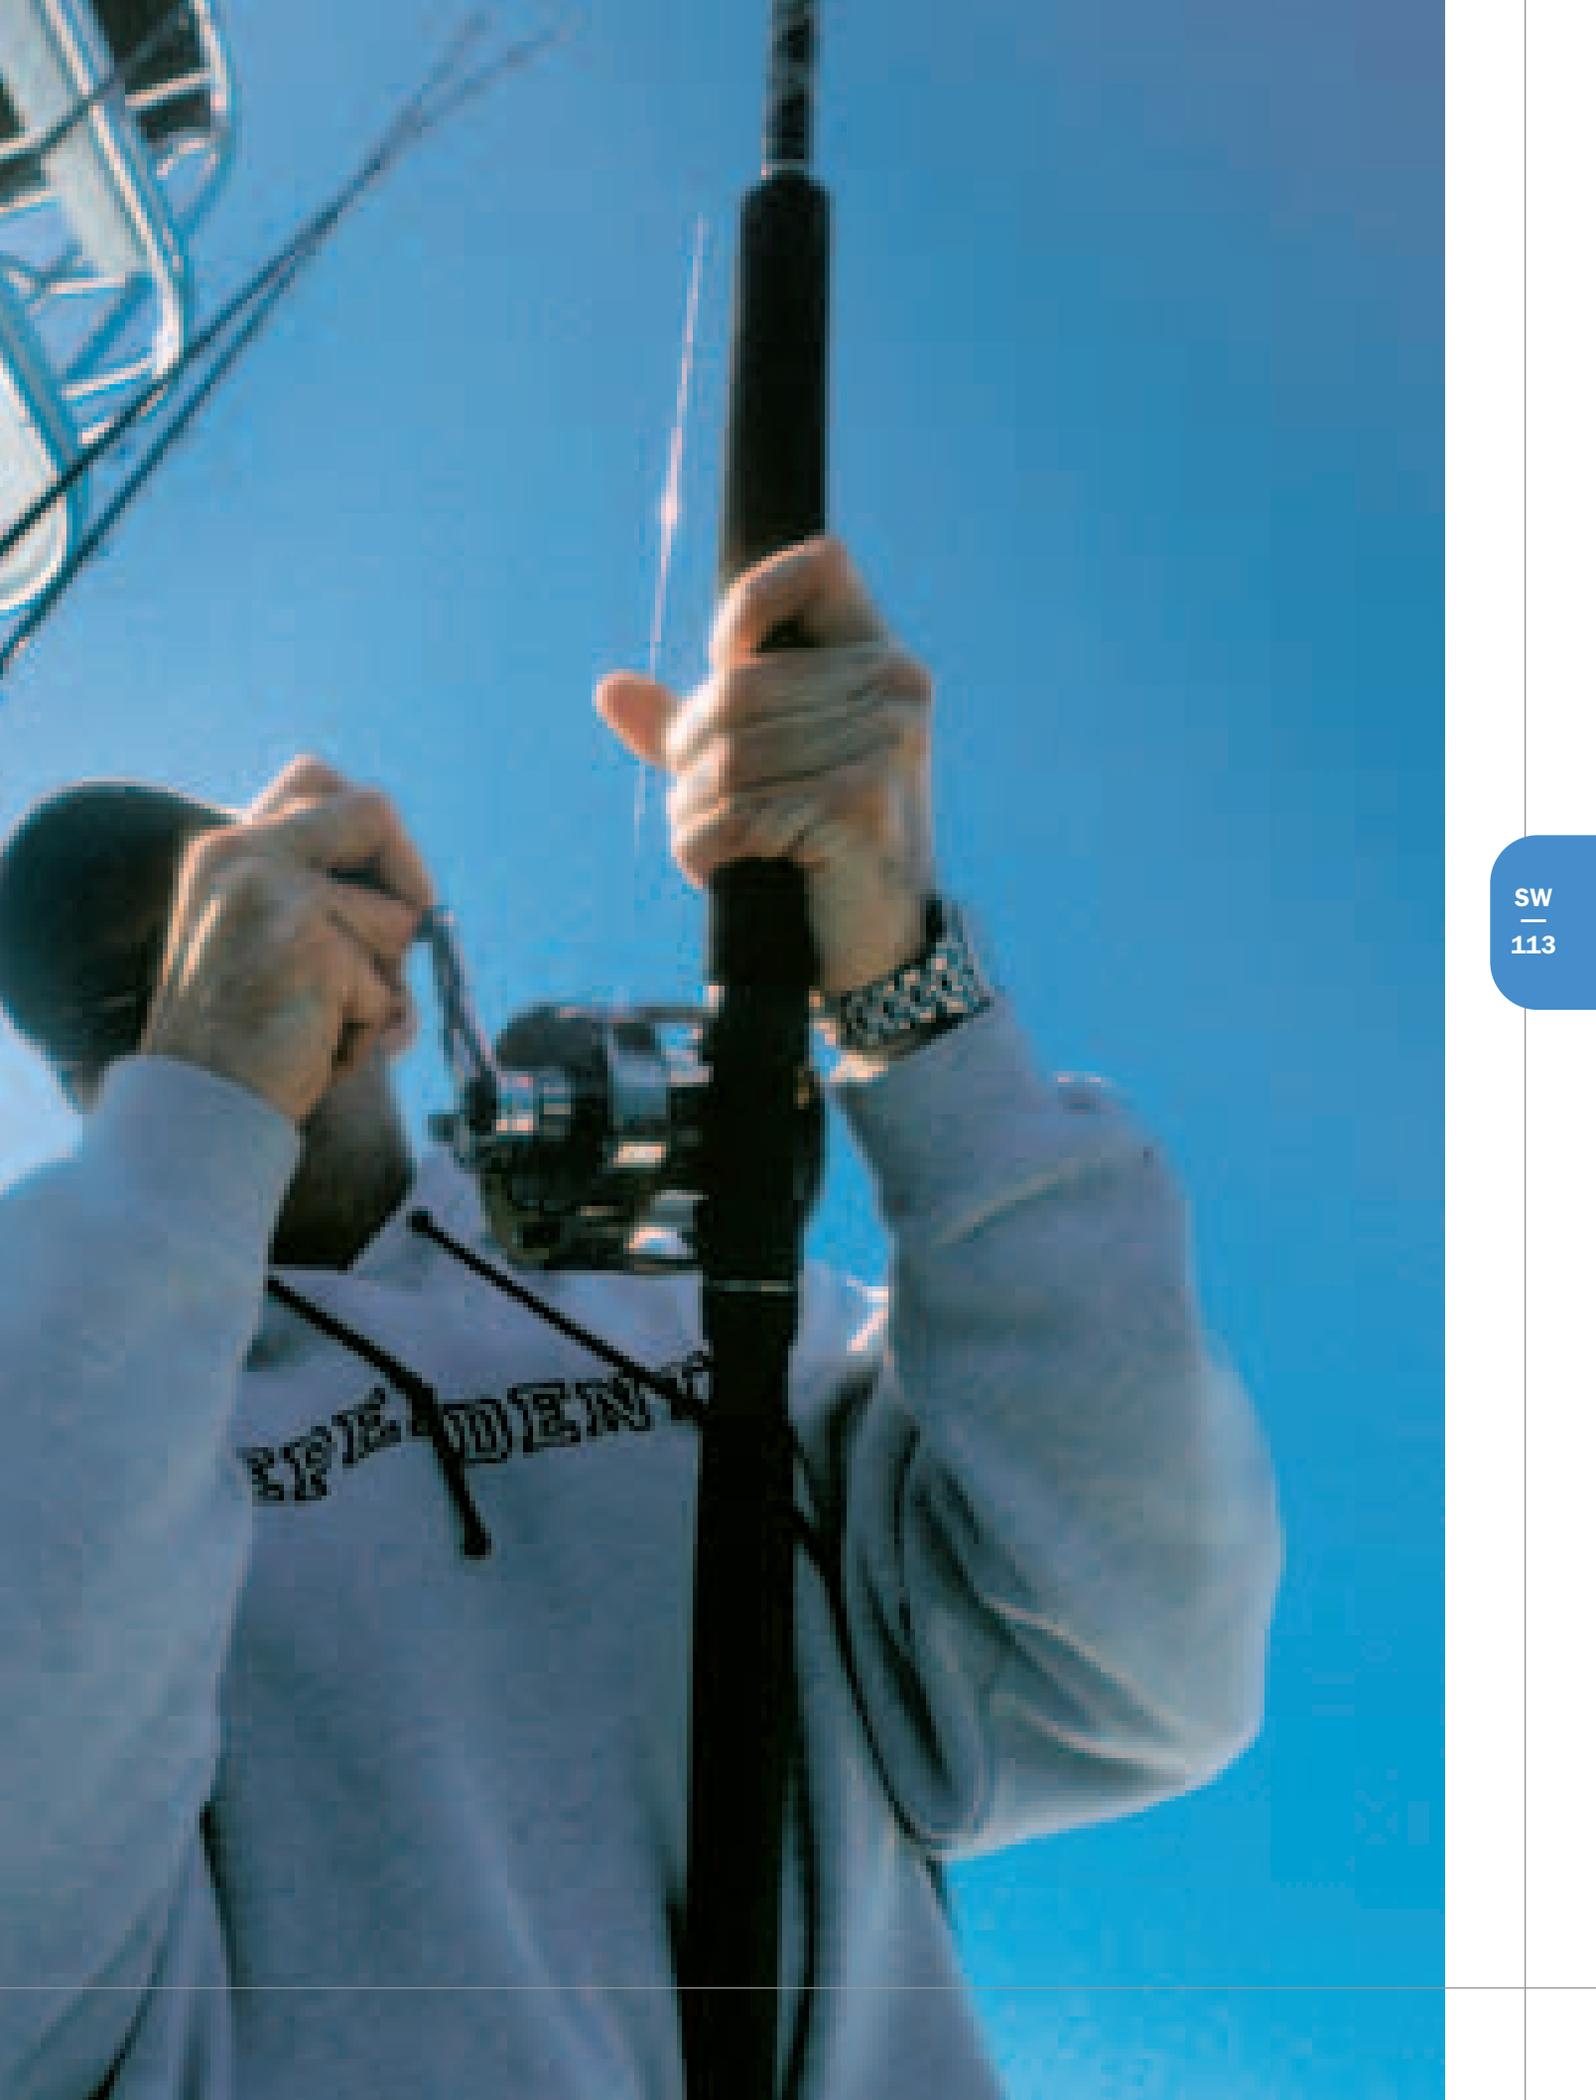

**TLC80MA** The angler who casts the furthest on a charter boat catches the most fish. This rod does just that. Use it with a Trinidad® 14, Trinidad 16N or TLD® 15/30S reel.

**TLC80MHA** This is an all-purpose jig and bait stick that casts irons and large baits like sardines. Use it with a Trinidad® 16, Torium® 16 or TLD® 15 reel.

**TLC80HA** This is an all-purpose heavy-power jig and bait stick that casts irons and large sized baits like sardines and has the power to pull fish out from cover. Use it with a Trinidad® 20, Torium® 20, Trinidad 30, Torium 30 or TLD® 20/40S reel.

# TALLUS®

## Ulua Series

**Specialty rods are our specialty—the Ulua rods are built to catch the Hawaiian Ulua, with unique features like their stainless steel butt section for protection from rocks**

### Feature Highlights

- Shimano® TC<sub>4</sub> Construction®
- Wire coil guides
- Oversized Fuji® reel seat
- Black Diamond foregrip and reargrip
- Stainless Steel butt section
- Gudebrod™ thread wrapped guides
- Brass Bell Holder
- Limited Lifetime Warranty (see page 7)

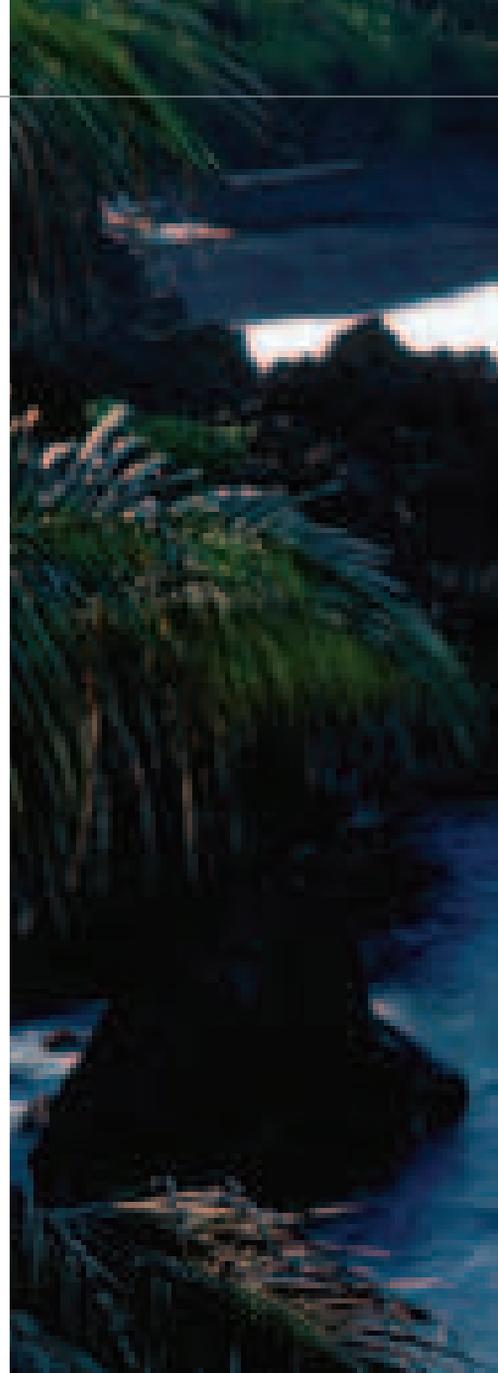

*For more information about these and other innovative Shimano features, see page 137.*

### For the Hawaiian Ulua Fisherman

Shimano® Tallus® Ulua rods were built especially for the Hawaii market. These rods were designed to be lightweight and strong to catch that ulua of a lifetime. These fish (in the same family as jacks and pompano) have a well deserved reputation for being fierce fighters. Shimano TC<sub>4</sub> Construction® material, along with well placed wire coil guides and our comfortable-yet-durable black diamond grip, provides the power needed to land trophy-sized fish from the beach, rocks or cliffs, whether you're on the Big Island, Maui or Oahu.

### On the Internet

- Learn more about Ulua rods at: <http://fish.shimano.com/rods>

### Recommended Uses

**ULC13MH** This rod is perfect for baitcasting or light slide baiting for ulua from the beach or rocks.

**ULC13H** This is an all-around slide-baiting rod that will land large Hawaiian ulua.

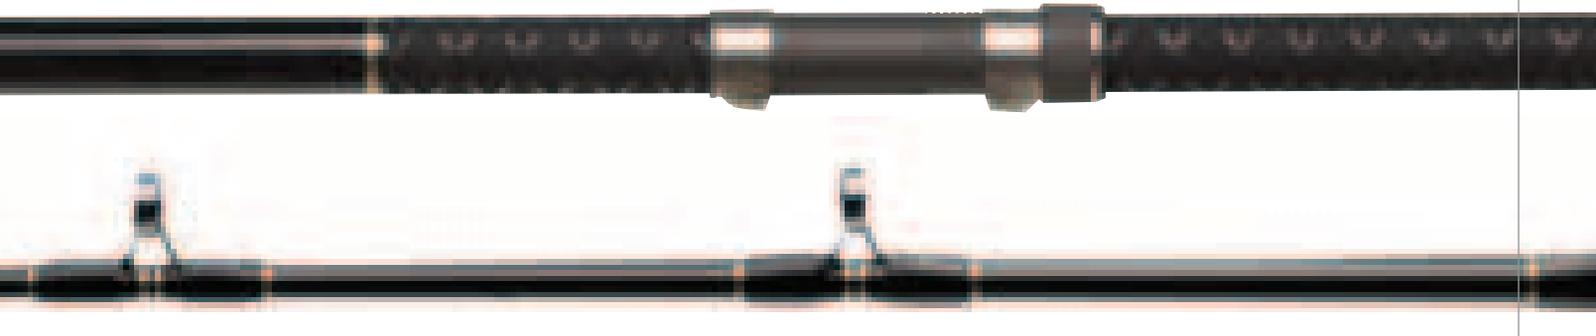

A

**Competition-grade Kingfish rods for competition-minded anglers, with premium features and tough TC<sub>4</sub> Construction®**

**Feature Highlights**

- Shimano® TC<sub>4</sub> Construction®
- Fuji® Hardloy® or Wire Snake guides
- Fuji® reel seat
- Stuart Tuff Butt® or slip resistant EVA grips
- Gudebrod™ thread wrapped guides
- Gimbal with removable butt cap
- Limited Lifetime Warranty (see page 5)

*For more information about these and other innovative Shimano features, see page 137.*

**Built with innovation**

Shimano® Tallus® Kingfish rods are innovative in their design and will exceed the expectations of the avid kingfish angler. Built with Shimano TC<sub>4</sub> Construction® material their forgiving tips actions, built-in durability and flashy good looks reflect the style and demands of kingfish anglers.

**Recommended Uses**

**Conventional Rods**

**TLC70MKA** The bread-and-butter East Coast kingfish rod. With perfect live-bait action, it features an extra-fast tip with a medium power, which is perfect for handling smaller menhaden and pogies. The extra-fast tip transitions into stiff mid and butt sections that help steer fish around outboard brackets and around the bow pulpits of SKA-style boats.

**TLC70MHKA** This rod has the same extra-fast action as the TLC70MKA, but it has a bit more power for destinations with big fish, such as the Florida Keys and Gulf Coast, or areas where large baits, such as rainbow runners and big blue runners, are preferred.

**TLC76MHKA** The No. 1 custom rod requested by tournament kingfish anglers. The 7'6" rod is deployed in a T-top rod holder, which acts as an outrigger to spread live baits and allows fish to pull line directly from the reel for smooth impact absorption and keeps small hooks in place. It also eliminates the need for outrigger release clips, which fish can sometimes feel.

**TLC710MHKA** This rod has the action Florida West Coast kingfish anglers and commercial rod-and-reel kingfish anglers prefer. The parabolic action is useful when heaving fish into the boat.

**Spinning Rod**

**TLS70MLKA** The perfect spinning rod for bait-quill rigs or for jigs and spoons. It's great for casting and retrieving and used as a pitch-bait rod.

# TALAVERA®

***The all-new Talavera® boat rods are durable, strong and attractive alternatives to the high-end competition***

## Feature Highlights

- Shimano® Aeroglass® or Graphite Composite on selected models
- Fuji® Aluminum Oxide guides
- Shimano® Graphite reel seat
- EVA Grip
- Fuji® Heavy Duty Aluminum Oxide Boat Guides on selected models
- Graphite Gimbal with cap on selected models
- AFTCO® Roller Stripper and tip with Fuji® Heavy Duty Aluminum Oxide Boat Guides (trolling models only)
- Black aluminum reel seat (trolling models only)

*For more information about these and other innovative Shimano features, see page 137.*

## Strength and Versatility

Talavera® rods were designed and crafted with quality materials to provide the exceptional power, durability and the fast action that's required to fight the toughest fish. With selected models featuring Shimano®'s durable Aeroglass® construction, extra tough graphite blank construction, and Fuji® aluminum oxide guides, anglers have an array of lengths and applicable features available to choose from. Talavera has what you need.

## Talavera® Casting

### Recommended Uses

**TEC60H** This rod is designed for fishing heavy bucktails or wreck fishing with bait for big groupers, with a Tyrnos 20, Tyrnos 20II, TLD 20, TLD 20II, or the new Torium 50 reel.

**TEC60XH** This is a heavy bottom fish rod for deep jigging or bait fishing. Recommended with a Tyrnos 30, Tyrnos 30II, TLD 25, TLD 30II, or the new Torium 50 reel.

**TEC66M** Perfect rod for the party boat angler. It is an excellent live bait rod for all of your local species. Check it out with a Torium 16, TLD 15 or TLD 15/30S reel.

**TEC66MH** When the bigger local fish are biting or if you are bottom fishing, matched with a Torium 20, TLD 15, TLD 20, or TLD 20/40S reel will make a perfect combo.

**TEC70ML** This rod has a light tip which will help you to cast small live baits. To cast those small baits you will need a reel with good free spool like a CT400, CT400S, Torium 16, or a TLD 15/30S reel.

**TEC70M** The perfect all around rod for fishing live baits or throwing jigs at cruising fish, with a Torium 16 or 20, TLD 15/30 or 20/40S reel.

**TEC70MH** This rod will give you the power and length needed to cast plugs or jigs. It would also be suited for live bait fishing or bottom fishing for larger snappers with a Torium 30, or TLD 20 reel.

## Talavera® Spinning

### Recommended Uses

**TES66MH** This is a general purpose live bait or small to medium jig or swim bait rod. Match this rod with a Baitrunner 3500, 4500 or a Spheros 5000 to an 8000 reel.

**TES66H** A great rod for all of your bigger species like Tuna, Sailfish, Yellowtail, and Dolphin. The reel of choice would be a Baitrunner 6500 or the Spheros 12000, or 14000 reel.

**TES70ML** If you like catching fish on light tackle this rod is for you. This rod is light weight and has great action for fishing for all of your inshore fish like Reds, Specs, and Bass. Perfect balance with any of Shimano's 4000 size reels.

**TES70M** Fishing live bait for all of your local species with a Baitrunner 3500 or 4500 reel is what this rod was built for.

**TES70MH** When live baiting or casting plugs at bigger fish like Tuna, Sailfish, Yellowtail, or Dolphin. Match this rod up to a Baitrunner 4500 or 6500 reel.

**TES70H** Bottom fishing with live bait or big bucktails for big Groupers and Snappers is ideal for this rod. Balance this rod out with a Spheros 12000 or 14000 reel and you will have a great Snapper, Grouper outfit.

## Talavera® Trolling

### Recommended Uses

**TEC59MRS** This is a light weight trolling rod for center consoles, also a great bottom fishing rod when matched with a TLD 15, TLD 20, Tyrnos 20 or Tyrnos 20II reel.

**TEC59MHRS** General purpose trolling rod for dolphin, sailfish, kingfish, school tuna, white marlin or any other fish that will eat a trolled bait. Fish this rod with a TLD 20, TLD 20II, Tyrnos 20, or Tyrnos 20II reel.

**TEC59HRS** All-around trolling rod or drop back rod for marlin, sailfish, tuna, or dolphin. Perfect balance with a TLD 25, TLD 30II, Tyrnos 30 or Tyrnos 30II reel.

**TEC 60LRS** A 50 to 60-lb bait rod for casting mackerel. It is also an ideal trolling rod for private boaters chasing albacore or any other local fish that might come up in your spread. The reel of choice would be a Tyrnos 30II or TLD 30II.

**TEC60MRS** This is a 60- to 80-lb rod built for both trolling and casting mackerel to big tuna and striped marlin. Try a Tyrnos 30II reel backed with braid to keep the outfit light or go for a TLD50II reel.

**TEC63HRS** The South West anglers demand a rod of this length to clear the outboard on a center console. This is a perfect trolling rod for all of your small to medium-sized fish. Perfect outfit with a Tyrnos 20II or TLD20II reel.

**TEC63XHRS** One more 6'3" rod for the South West. This rod is built for bigger tuna using a Tyrnos 30II, TLD 30II or TLD 50II reel.

**TEC66MLRS** This 50- to 60-lb bait rod is great for casting mackerel. Also an ideal trolling rod for private boaters chasing albacore or other local fish that might come up. Pair with a Tyrnos 30II or TLD 30II reel.

**TEC66MRS** A 60- to 80-lb rod built for both trolling and casting mackerel to big tuna and striped marlin. The 6' 6" length gives you extra leverage. Try a Tyrnos 30II reel backed with braid to keep the outfit light or go for a TLD50II reel.

### North East Specialty Conventional

**TECE70MH** A fluke bait rod for sinkers up to 4 oz. It's ideal for weakfish, as a worm rod, and is a great striped bass swim bait rod. It has a long rear grip for arm support while bottom fishing or for bluefish. A good diamond grip jig rod for the private boat angler.

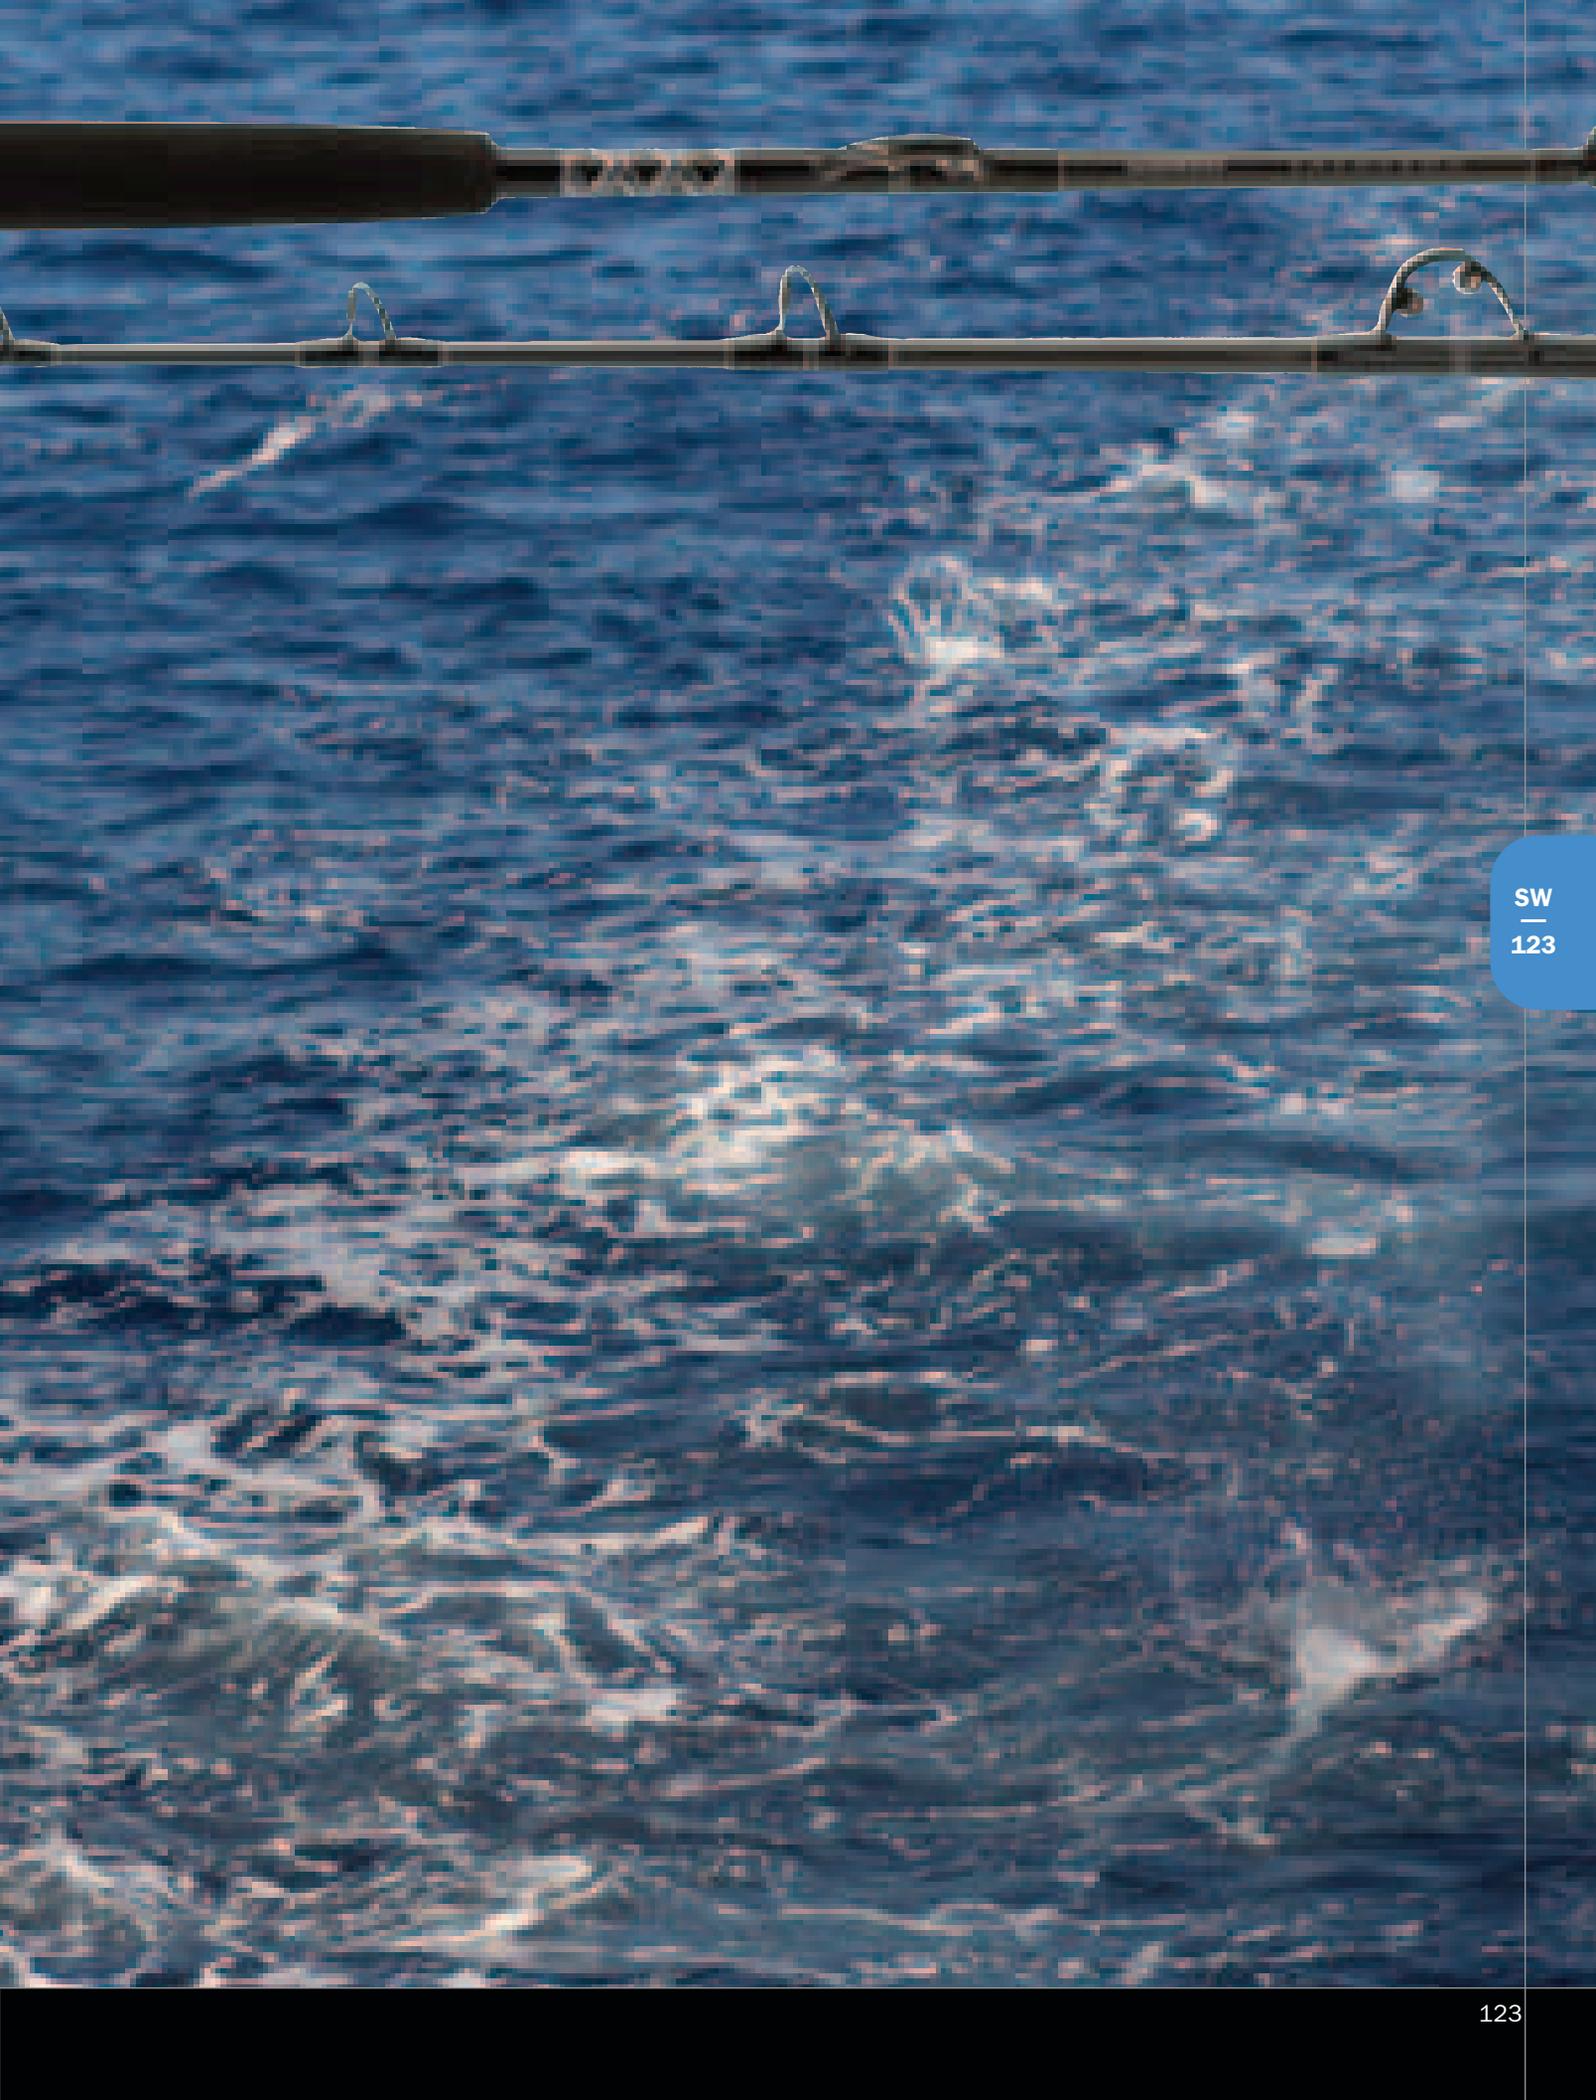

**TECE70H** This is a deep water fluke rod for sinkers up to 8 oz. It is also a great striped bass chunking rod with a long rear grip for arm support.

# Glossary

A guide to Shimano features, technology and terminology

## {BlankSpot}

There's more to rod blanks than graphite.  
Learn more about TC<sub>4</sub> and Hyperloop® below...

### Shimano® TC<sub>4</sub> Construction®

Shimano has engineered the new responsive TC<sub>4</sub> Construction material to elevate your fishing experience. The TC<sub>4</sub> Construction material wraps a double inner layer of advanced, dynamic T Glass with an inner and outer spiral of high modulus graphite. This breakthrough in design construction results in an extremely durable, crisp, yet lightweight rod.

**TC<sub>4</sub> K Construction®** This new construction material is engineered with a blend of high modulus graphite and carbon fibers which provides increased blank strength in a slim blank design. Also built into the rod blank is a reserve of elasticity that smoothly cushions the rod under any sudden increase of pressure without sacrificing the tip action.

### Shimano® High Modulus TC<sub>4</sub> Construction®

Shimano has engineered the new responsive high modulus TC<sub>4</sub> Construction to elevate your fishing experience. The high modulus TC<sub>4</sub> Construction material wraps a double inner horizontal layer of advanced, dynamic fibers with an inner and outer spiral of high modulus graphite. This breakthrough in design construction results in a virtually indestructible, crisp, yet lightweight rod.

**Hyperloop® Construction** Featured in CarboMax rods, Hyperloop Construction wraps a thin layer of θ-graphite with a double inner horizontal layer of graphite followed by another thin outer layer of θ-graphite. This remarkable breakthrough in graphite fiber blank technology increases the rod hoop strength and has enabled Shimano® to build an extremely resilient yet sensitive rod.

## {Guide 2 Guides}

More guides than you can get a grip on? Compare guide types here and make an informed decision next time you're shopping for a new rod.

**AFTCO® Lightweight Titanium Roller Guide** The AFTCO Lightweight Titanium roller guides are lighter than a traditional ring guide, however twice as tough. They have a rugged graphite frame, titanium guards and rollers and are excellent for wireline trolling.

**Pacific Bay® Stainless Steel Guide** These guides are extremely groove resistant and are excellent for Leadcore trolling.

**AFTCO® Swivel Tip** This tip was specifically designed for lighter wireline fishing and is on TLA0MRG2 and TLA100MHRG2 models. The articulated bail, with its Fuji® SiC Silicon Carbide ring guide, keeps lighter wireline running on the center of the stainless roller and keeps the wire from touching the frame. The roller is oversized to minimize stress on the wireline and are fitted with Aftcote™ roller bearings.

**Carboloy® Tip Guide** This guide tip is extremely durable to withstand the demands required by muskie anglers.

**Double Reinforced Tip Section** Featured on Carbomax® rods, this extra durable tip section combines T Glass with graphite to create a tip section that has approximately twice the tip strength of a normal graphite rod.

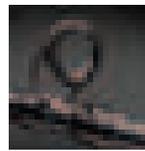

**Fuji® Aluminum Oxide Guides** The most significant difference between the traditional Hard™ ring guide and this new updated version of the aluminum oxide ring guide is the absence of a polymer shock ring. The Fuji® Aluminum Oxide ring guide is more durable, lighter and thinner than in the past and is diamond polished to an ultra smooth finish.

**Fuji® Concept Lightweight Alconite® Guides** A very strong and durable material, Alconite is the latest in a long line of ceramic rings developed by Fuji®. Alconite is so durable it can be made thinner than any other ring, so strong it will hold up to all kinds of fishing demands. Alconite has an 8% greater compression strength and is 20% lighter than aluminum oxide, making it one of the toughest rings used for fishing, as well as one of the lightest.

**Fuji® Concept Lightweight Hardloy® Guides** These low profile guides are produced from a special blend of high grade aluminum oxide, are diamond polished and permanently mounted to the frame. This new guide concept offers greater sensitivity, castability, increased accuracy and decreased line wear.

**Fuji® SiC Silicon Carbide Guides** These guides are extremely lightweight, yet ready to take punishment. Fuji® states their unique frame design makes it virtually impossible for line to tangle; even braided lines, which are notorious for their line tangling ability. The frames Deep Press™ design seats the ring so well that even knots or swivels can't damage it."

**Graphite Thread Wrapped Guides** The guides are directly built into the carbon fiber and as a result they are an integral part of the rod blank. This unique feature also contributes to the superb action of these rods.

**AFTCO® Wind-On Roller Guides** The black and silver finished roller guides in the AFTCO® Wind-On guide set are specifically designed to accommodate the knots and connections of wind-on leaders. This guide set is featured on the new Tallus® IGFA® series 6lb rod and has the same knot clearance as the AFTCO® Big Foot® roller guide, but in a more compact frame.

**AFTCO® Big Foot® Super Heavy Duty Roller Tip Guide** These oversized black and silver finished roller tip guides with extra large bearings are extremely tough, offer unequalled knot clearance and are built to endure the heaviest of line classes. For lasting lubrication and protection, the exclusive AFTCO® Aftcote™ Teflon® dry film coating is bonded to the bearings.

**AFTCO® Big Foot® Super Heavy Duty Roller Guides and Tips** These durable, large framed guides provide for large knot clearances and are featured on the Tallus® IGFA 8 and 130lb rods. These black and silver finished rollers with extra large bearings are extremely tough, provide unequalled knot clearance and are built to endure the heaviest of line classes. For lasting lubrication and protection, the exclusive AFTCO Aftcote™ Teflon® dry film coating is bonded to all bearings. The oversized feet are designed to match the contours of the rod blank and grip with exceptional strength.

**AFTCO® Heavy Duty Roller Guides** The AFTCO® Heavy Duty roller guide set is designed for heavy lines and large knot clearance. These roller guides and tips are featured on selected Tallus® Stand Up rods and are ideal for big game trolling, deep water and stand up style tuna rods. All bearings are Aftcote™ coated with a Teflon® dry film lubricant for high performance.

**AFTCO® Standard Roller Tip Guide** These roller tip tops feature Aftcote™ bearings and are designed to accompany the AFTCO® roller guides used on our Tallus® Trolling series rods. This large head tip size offers extra knot clearance and is matched with both the AFTCO® Heavy Duty Roller and Fuji® SiC Silicon Carbide guide sets.

#### AFTCO® Super Heavy Duty Roller Guides and Tips

The AFTCO® Heavy Duty roller guide set is designed for heavy lines and large knot clearance. These roller guides and tips are featured on the Tallus® Rail rods and are ideal for fishing fish on the rail. All bearings are Aftcote® coated with a Teflon® dry film lubricant for high performance.

#### AFTCO® Super Heavy Duty Swivel Tip Guide

This custom Shimano® anodized black swivel tip is the ultimate choice for wireline fishing. It keeps the line in the center of the roller, eliminating wear on the sides of the guide frame. The oversized stainless steel roller is designed to minimize stress on the wire and is fitted with Aftcote™ roller bearings.

**Fuji® Hardloy®** The Hardloy® guide is Fuji®'s most popular guide and is produced from a special blend of high grade aluminum oxide. All Hardloy® guides are diamond polished for decreased line wear and permanently mounted to the frame. This results in increased performance, corrosion resistance and greater heat dissipation.

**Fuji® SiC Silicon Carbide Guides** These guides are extremely lightweight, yet ready to take punishment. Fuji® states their unique frame design makes it virtually impossible for line to tangle, even braided lines, which are notorious for their line tangling ability. The frames Deep Press™ design seats the ring so well that even knots or swivels can't damage it.

## Rod Butts & Seats, etc.

The connection between your rod and reel is frequently overlooked. With features that enhance your experience, make sure to consider all available options that apply to your style of fishing. Learn more below.

**AFTCO® Aluminum Radiused Gimbal** Machined from solid stock marine aluminum, this radiused gimbal is extremely durable yet lightweight. All exposed edges and extra heavy tapered feet are polished to prevent deck scarring and minimize wear on fighting belts. This gimbal has a full radius machined for greater stability when stand up fishing with a fighting belt.

**AFTCO® Slip-Over Reel Seat** The AFTCO® Slip-Over reel seat is machined, not stamped or rolled, from the finest marine aluminum. The hood is fixed to the barrel, and then epoxied for extra strength. Fine, rounder threads produce a silky smooth locking action and the locking rings offer a heavier knurled surface for easier turning. The Tallus® Stand Up series rods feature this reel seat in a custom anodized Tiagra® gold finish.

**AFTCO® Storabutt™** The AFTCO® Storabutt™ is a handle and reel seat combination designed especially for big game anglers who use curved butts. The reel seat is ferruled at both ends to permit removal of the butt section of your rod without having to also remove your reel. This makes it easier to store curved butts, especially on boats where storage is an issue.

**AFTCO® Unibutt®** The one piece aluminum Unibutt® is precision machined so the pin-plug, gimbal, fixed hood and ferrule are in perfect alignment with the guides. A Teflon® O-ring at the ferrule assures a snug fit, keeps out moisture and prevents corrosion. The hoods are custom anodized in Shimano® Tiagra® gold and the curved Unibutt® increases your leverage by as much as 30% while in a fighting chair.

**Black Diamond Foregrip and Reargrip** This foregrip and reargrip design uses a unique black diamond pattern rubber that is designed for functional non-slip durability and maximum comfort.

**Exposed Blank Foregrip** This blank exposed area within the cork foregrip allows for maximum sensitivity and comfort to detect the subtlest of bites.

**Fuji® Exposed Blank Reel Seat** Selected casting models feature the Fuji® Exposed Blank reel seat. This new, lighter reel seat has a blank exposed area where your finger is in direct contact with the blank, which allows for maximum sensitivity and stability. This reel seat also has a 3-degree offset, which reduces fatigue and adds comfort when palming a reel.

**Fuji® Reel Seat** Built to last Fuji® reel seats are designed with graphite nylon bodies, exclusive S-4 Stainless Steel hoods, with lined cushioned inserts to offer a lightweight reel seat with superior strength. Uniform design for increased comfort and self aligned hoods provide a solid lockdown on your reel foot that will never back off while fishing.

**Shimano® Bio Grip® Exposed Blank Reel Seat** Selected casting models in the Convergence® series is equipped with a Shimano Bio Grip® Exposed Blank reel seat. This comfortable, ergonomically shaped reel seat has an exposed blank area where your finger is in direct contact with the rod blank. This palmable shaped reel seat allows for maximum sensitivity and stability."

Our dedication to customers and to providing exceptional service continues. As such, we commit to find better ways to better serve you. We know that more and more of our customers are looking to the Internet to find the information needed to make educated

buying decisions. If you have ideas on how to improve our site please go online and send us an email. We'll be glad to hear from you.

For Shimano® product information, dealer locations, to search out a Shimano Warranty Center, download a schematic or find the answer to a technical question 24 hours a day and 7 days a week, visit our Website at [www.shimano.com](http://www.shimano.com). You'll find all that and more such as rod specifications, new product releases, the latest promotions and year-round event information.

## Shimano® Customer Service

We have great confidence in the quality and workmanship of our rods and want you to feel the same way. That is why we offer the best warranty programs possible, as described on page 5.

### **SEND WARRANTY CLAIMS TO:**

Shimano American Corporation  
USA Claims-Rod Warranty  
One Holland  
Irvine, CA 92618  
1-877-577-0600

If you have any questions regarding any of our warranties or rods, please contact us any time through our website at [www.shimano.com](http://www.shimano.com) or call us direct at 1-877-577-0600, Monday through Friday 6:00 a.m. to 5:00 p.m. Pacific Standard Time.
