Enjoy a cleaner pool and free shipping  
with iRobot's® Verro™ Pool Cleaning Robot.

What cleaning your pool  
looks like with an iRobot®  
Verro™ Pool Cleaning Robot.

## Just drop Verro™ into your pool and drop into your favorite chair.

Pools are great—until you have to clean them. That's when the fun ends and the drudgery of scrubbing and vacuuming begins—unless you're using an iRobot® Verro Pool Cleaning Robot. Verro cleans your pool so you don't have to. And does away with bulky hoses, booster pumps and suction lines in the process. This hands-free, self-contained vacuum cleaning and water filtering robot will get your pool deep down clean from floor to waterline—automatically—in about an hour.\*

### Verro doesn't just improve the quality of your pool. It improves your quality of life.

Verro's powerful vacuum and filtration system removes leaves, hair, sand, dust, debris, algae, bacteria, pollen and particles as small as 2 microns—a fraction of the diameter of a human hair, which averages 70 microns.

Its equally powerful Hydro-Jet System\*\* pumps 5,000 gallons of water per hour, improving the chemical mix and temperature circulation of your pool water. Because Verro has its own filtration system built in, there's no wear and tear on your pool's filtration system. It actually helps to reduce pool filtration run-time. Overall, Verro gives your pool a tremendous boost in quality. While giving you a lot more time to enjoy it.

### The company that brought you floor cleaning robots for the house is now at work in the backyard.

You've probably heard about iRobot's other popular helpmates—the Roomba® Vacuum Cleaning Robot and the Scooba® Floor Washing Robot. iRobot's Verro uses the same on-board technology that enables Roomba and Scooba to do the dirty work for you, thoroughly and automatically, with just the press of a button.

"I never knew there was a robot cleaner for an above ground pool—the Verro 100 was just what I needed! I hated the process of dealing with the dirty wet hoses and filter to clean the pool. Now I just drop Verro in and let him clean! So easy. Thank you iRobot!"

—Holly, Massachusetts

## Try Verro in your pool for 30 days—risk-free.<sup>†</sup>

iRobot Verro 100  
for Above-Ground Pools

- Cleans above-ground pools in 60-90 minutes
- Vacuums pool floor and filters water
- Cleans and circulates 70+ gallons of water per minute

iRobot Verro 300  
HydroJet

- Cleans in-ground pools, floor to waterline, in 60-90 minutes
- HydroJets "power wash" the surface of the pool to lift off deep down dirt and debris
- Cleans and circulates 80+ gallons of water per minute
- Works great on all pool surfaces (gunite, vinyl, tile and fiberglass)

iRobot Verro 500  
PowerScrub

- Cleans in-ground pools, floor to waterline, in 3 hours
- Sturdy PVA Brushes "power scrub" pool surfaces
- Cleans and circulates 70+ gallons of water per minute
- Works great on all pool surfaces (gunite, vinyl, tile and fiberglass)

"I was very impressed with the way the Verro cleaned my pool and went all the way up to the tile line. When I cleaned the filter bag, I found a lot of debris that was missed by my previous automatic pool cleaner."

—Austin, California

"I place the Verro in the pool for 90 minutes each day and it's done! It's never been cleaner! I am thrilled with the job my iRobot is doing."

—Lesley, Texas
