## CONTACT US

**PHONE:** 02 9299 8833                      **FAX:** 02 9299 1658  
**EMAIL:** sales@fotoriesel.com              **WEB:** www.fotoriesel.com.au  
**STREET:** 360 & 364a Kent Street, Sydney, NSW, 2000  
**POSTAL:** PO BOX Q97, Queen Victoria Building Post Shop, Sydney, NSW, 1230

### PLACING YOUR ORDER:

**FAX:** 02 9299 1658  
**EMAIL:** orders@fotoriesel.com  
**ONLINE:** www.fotoriesel.com.au  
**SMARTBUY:** www.smartbuy.nsw.gov.au

**WE REQUIRE AN OFFICIAL PURCHASE ORDER TO PROCESS GOODS ON ACCOUNT.**

### DELIVERY CHARGES

Orders with a value over \$250.00 will be charged \$9.00ex freight (Sydney metro deliveries only). Orders with a value below \$250.00 will be charged a \$15.00 freight charge. Deliveries outside Sydney metro, country and interstate will be charged \$15.00 for freight.

### INCOMPLETE OR INCORRECT DELIVERIES

All claims must be made within 7 days of receipt of delivery, otherwise no claim will be accepted. Where a shortage is suspected, please contact us immediately quoting our invoice number, and if possible your order number.

### BACKORDERS

Goods not supplied will be automatically back ordered unless requested otherwise, and supplied once stock becomes available.

### PRICING

Due to constantly changing prices, all prices are correct at time of printing, but are subject to change without notice. This price list supersedes all others and is correct conditional that there are no errors due to an oversight by us, or incorrect details supplied to us.

### ABOUT US:

Foto Riesel has been supplying Photographic equipment to schools and Government Departments under Australian Federal Government and NSW State Government Contracts for over 25 years.

Foto Riesel was established in Sydney over 60 years ago and continues to provide photographic equipment sales, support and advice to a growing customer base of professional photographers, retail customers, businesses, schools and Government departments. 3 years ago Foto Riesel expanded operations into a second premises for Fine Art Printing, Government Sales, Training & Workshops.

Our Professional Image Centre is dedicated to the creative output of images, encouraging all photographers, students and teachers to pursue high quality image output. Teachers and students are encouraged to visit our imaging centre and speak to our friendly, informed staff about our Fine Art Printing facilities and how we can help you print your student artworks and photographs.

## IMAGING SUPPORT PROGRAM

### The benefits of purchasing through your contract supplier

To help you get the most from your new equipment, Foto Riesel offers schools and teachers no-charge access to our exclusive *Imaging Support Program*. Benefits of the support program include:

#### FREE TECHNICAL HELP DESK SUPPORT

Foto Riesel's highly trained support team can help you with a range of support issues, from the basics of camera start up errors through to more complex lighting and colour management issues.

Helpdesk support is available 9am-5pm, Monday to Friday on 02 9299 8833, or [sales@fotoriesel.com](mailto:sales@fotoriesel.com)

#### FREE ONLINE TRAINING

Learn how to get the most from your camera with our online training centre, which allows you to learn at a time and place that suits you.

On-line training will help you gain a better understanding of your camera and its lens, processor, exposure modes and dials, plus offer a range of hints and tips to help you take better images.

#### SATISFACTION GUARANTEE

Is your new equipment not quite what you need? We gladly exchange your equipment within 14 days of purchase. Contact our Government Sales staff on 02 9299 8833 to arrange return of your goods.

This guarantee does not apply to special orders, film, lamps, paper or chemicals. Equipment must be in original condition with all boxes and packaging.

#### PRIORITY REPAIRS

Unfortunately things sometimes do go wrong. If your equipment requires repair, servicing or just a clean, we will give your repair priority treatment.

Terms and conditions apply. Contact our Government Sales staff on 02 9299 8833 for information.

These additional services and our renowned professional advice are the benefits of purchasing your photographic equipment from Foto Riesel, your Government contract supplier.

### PROTECT YOUR PURCHASES LONG-TERM WITH AN EXTENDED WARRANTY, AVAILABLE ON ALL HARDWARE

Contact our Government Sales Staff on 02 9299 8833 for a further information and pricing

## TEACHER SUPPORT PROGRAM

### Additional services for Photography or Art Teachers, and Students

In addition to our overall imaging support program, schools also qualify for our exclusive teacher support program with all purchases. Our teacher support program includes:

#### FREE TEACHER TRAINING

Held during school holidays, our free teacher training workshops cover a range of topics, including Digital Darkroom, Colour Management and Studio Lighting. These informal sessions are completely free, and tailored specifically to the needs of teachers and the school environment.

To receive email notification of training dates, send your details to [courses@fotoriesel.com](mailto:courses@fotoriesel.com)

#### FREE STUDENT SEMINARS

Are your students working with digital photography and require guidance, or are your senior students seeking high quality output of digital artwork and photography for the HSC?

Our Professional Image Centre hosts free Student Seminars on file preparation, digital workflow and digital printing with our experienced Fine Art Printing Professionals.

These seminars can be tailored to the knowledge level and specific needs of any student group, and are especially recommended for Senior Students considering digital output of their photography or artwork for the HSC.

Seminars are held on demand for groups of up to 15 students, and are scheduled at a time and date that suits your timetable.

Contact our Professional Image Centre on 02 9299 8833 or email [courses@fotoriesel.com](mailto:courses@fotoriesel.com) to arrange a session for your students today.

#### FREE SENIOR STUDENT SUPPORT

Help your senior students beat the stress of artwork submission with our free 1 on 1 print consultation.

Senior students who choose to print their digital artwork or photography with Foto Riesel, have the opportunity to spend valuable time with our Fine Art Printing Professionals in an individual, 1 on 1 print consultation.

Our Fine Art Printing Professionals will guide students through correct file preparation for optimum output and minimum stress. Students can view paper and print samples, and will be guided in selecting the right stock for their print. Our Fine Art Printing Professionals can also discuss mounting and framing options available, and help arrange these services for students.

To book a student consultation contact our Professional Image Centre on 02 9299 8833, or visit us at 360 Kent St, Sydney (Monday - Friday 8.30am - 5.30pm).

DON'T FORGET A MEMORY CARD!

For most digital compact and SLR cameras a memory card is not supplied, but is an optional accessory. This allows users to choose a card capacity and price point that suits their needs. Remember to add a memory card to your order when purchasing a Compact or DSLR Camera.

### CAMERA RANGE & PRICING CHANGES REGULARLY

Download a monthly pricelist update at [www.fotoriesel.com.au](http://www.fotoriesel.com.au)

### 35MM FILM SLR CAMERAS

Availability of 35mm Film SLR Cameras has greatly reduced over recent years. Production has now stabilised with two models currently available, though manufacture of these models is limited.

**FAQ** **WHAT ARE COMPACT INTERCHANGEABLE LENS CAMERAS?**  
CILCs have all the features of a standard DSLR, in a more compact design. The reduced size is achieved through a small sensor and an electronic viewfinder, instead of an optical viewfinder.

## OUR MEMORY CARD RANGE

**Standard Cards:** Ideal for everyday use in compact cameras.

**Premium Cards:** Recommended for use in DSLR cameras and premium compact cameras. Premium cards are more robust and offer faster read/write speeds than standard cards. Premium cards are recommended for recording video on DSLR.

**Extreme Cards:** The choice of card for professionals. Featuring fast burst rate with quick review speeds. Robust enough to use all day every day, no matter the conditions.

## CARD READERS

A card reader is a device that allows you to download the images from your memory cards without the need to connect the camera to the PC.

Ideal for schools & colleges, using a card reader will keep your camera free for more shooting, rather than connected to a computer downloading.

RECORDING AUDIO: MICROPHONE TYPES & APPLICATIONS

**LAPEL MICROPHONES** are small and inconspicuous, designed clip on to the lapel, shirt front or tie. They are usually omni-directional and occasionally have a supercardioid polar pattern. Lapel microphones are used when presenting or speaking on camera.

**HAND HELD MICROPHONES** are designed to be held by the user, or can be mounted on a microphone stand. These usually feature a cardioid polar pattern.

**SHOT GUN MICROPHONES** are used to capture sound from a single source, while capturing a minimum of other sounds around it.

LAPEL MICROPHONE

**VIDEO MICROPHONES** are designed to be mounted on the top of a video camera, or video capable DSLR. They feature a directional super-cardioid pattern for picking up sounds occurring in front of the camera.

**STEREO MICROPHONES** feature a pair of microphone heads mounted together within the one microphone unit. They are set up in an X-Y pattern, crossing each other at 90 degrees, and are usually a pair of super cardioids or cardioid microphone heads. A stereo microphone provides an easy way of recording stereo sound without having to use 2 or more microphones.

## MICROPHONE PICK UP (POLAR) PATTERNS

**OMNI DIRECTIONAL MICROPHONES** capture sounds from any direction around the microphone.

The **CARDIOID MICROPHONE** pick-up pattern is vaguely heart shaped. The microphone picks-up sounds coming directly into it from the front, whilst rejecting sounds coming from the rear.

**SUPER CARDIOID** is a variation on the cardioid microphone pattern. It is more directional in the front but has a lobe to the rear, meaning it does not have as good rear rejection compared to the standard cardioid. How directional the microphone, and the size of the rear lobe, varies from model to model.

**SHOT GUN OR LO BAR MICROPHONES** are highly directional. The name comes from the physical shape of the microphone, which is similar in size & shape to a shotgun barrel.

## EASY BUY KIT BASIC VIDEO MICROPHONE KIT

Includes:

- Rode Video Microphone with 3.5mm stereojack, suspension shock mount, adjustable shoe adapter and wind shield
- Collapsible Angle Bracket

(For Video Cameras Without Accessory Shoe)

## WHAT IS A HD VIDEO RIG?

The photo industry is a-buzz with talk of HD Video, especially on DSLR cameras. The HD Video Rig is central to this new application, transforming a DSLR or HD Camcorder into an impressive movie-making kit.

For more information on HD movie recording or HD Rigs, contact Matt Scott in our Government Sales Department on 02 9299 8833.

In 2012, Foto Riesel will again be hosting our **FREE TEACHER TRAINING** sessions on using a DSLR

To register your interest, email your details to [courses@fotoriesel.com](mailto:courses@fotoriesel.com)

## STUDIO LIGHTING: HOW TO

Adding studio lighting to your photography curriculum is a great way to expand your program and challenge advanced or senior students. Digital photography has made teaching lighting easier, with results instantly viewable for quick and easy troubleshooting, though using studio lighting and balancing light sources is not always an easy task!

For more information on selecting the right studio lighting kit for your needs, contact our Government Sales Department on 02 9299 8833.

In 2012, we will continue hosting our **FREE TEACHER TRAINING** session *Introduction to Studio lighting* for beginners and teachers looking to purchase lighting units. Plus new, expanded sessions on lighting applications for portraiture, still life photography and video.

To register your interest, email your details to [courses@fotoriesel.com](mailto:courses@fotoriesel.com)

## MULTIBLITZ PROFILUX PLUS

The award winning **MULTIBLITZ PROFILUX PLUS** system of small & compact flash units feature fast recycle times and easy operation.

The range now includes a portable battery pack for on-site operation (optional extra to kits).

Profilux Plus is available in 200, 400 & 800 w/s models, and are packaged as a single head or twin kits. 3 head kits also available on request.

**FAQ PROFESSIONAL IMAGE CENTRE**

**PRINT YOUR SENIOR ARTWORK WITH US**

Foto Riesel are the Fine Art Printing specialists, offering unparalleled individual consultation, student seminars, training & support.

Foto Riesel's Professional Image Centre is the home of Large Format, Fine Art Printing for Professionals, Enthusiasts and Students.

We encourage teachers and students to visit our Create store and tour our state-of-the-art facilities. Visitors can view samples of the outcomes we produce from Photographs and Artworks, including our range of paper stocks, and our mounting or framing options.

Visit us at 360 Kent St, Sydney and speak to our friendly, informed staff about our new facilities and how we can print your student artworks. Get in early and ensure your students are informed about digital output well before submission pressure looms.

**The Professional Image Centre also houses our Training Centre, where we hold Photography Workshops on evenings and weekends, and our FREE Teacher Training every school holidays.**

**FAQ LARGE FORMAT PRINTERS**

With fast print speeds, media flexibility and low running costs, the Canon range of wide format printers can help you to dramatically reduce digital darkroom running costs within your photographic department.

So, if your department is printing more and more inkjet work, talk to us about the cost savings available when investing in a large format printer.

**CANON LARGE FORMAT PRINTERS**

| CODE  | PRODUCT   | EX GST     | INC GST    |
|---|---|------------|------------|
| <b>CANON LARGE FORMAT PHOTO PRINTERS</b>  |   |            |            |
| Large format printers offer a wider colour gamut, producing well-balanced colour & smoother gradations, whilst boasting efficient, cost effective printing due to high capacity ink tanks.  |   |            |            |
| Lower running costs are achieved through a much lower ink price per mL when compared to A3 printers. Roll paper compatibility also means students are not restricted to standard cut sheet sizes. Fine Art and Photographic paper in roll format is also more economical than cut sheets. |   |            |            |
| 67893   | <b>CANON IMAGE PROGRAF iPF5100</b><br>17inch Roll / A2 Sheet Printer<br>12 LUCIA Pigment Inks, 130ml Ink Tanks, for borderless A2 prints  | \$3863.64  | \$4250.00  |

## WHAT IS CALIBRATION?

In a perfect world you could take a photo, view it on your computer then print it out and, throughout the process, the colours would all appear the same. Unfortunately this is rarely the case. Monitors have one set of colours, while printers have another. Cameras also capture in different colours.

Colour management allows all these different devices to 'talk' the same colour language, so that they display and print the same colours. This means that you can create a print quicker and with less proofing, saving you time and money!

Contact our Professional Image Centre on 02 9299 8833 for more information on Calibration

## WACOM GRAPHICS TABLETS

Education packs of 10x Wacom Tablets are available to schools and educational institutions at discounted prices.

Contact our Government Sales Staff for full details on 02 9299 8833.

## RAID STORAGE DRIVES

**RAID** (Redundant Array of Independant Drives) storage is a desktop Hard Disk storage solution wherein one unit contains *two drives of the same capacity, which have the same data automatically written to them both simultaneously (mirroring).*

As such, in the event of one of the drives failing, the data can be recovered from the second drive. The computer sees the RAID as a single drive with the capacity of one of the individual drives, not the drives combined; ie 1000GB / 1TB RAID is split into 2x 500gb drives, and is seen by the computer as 500gb of storage.

## DESKTOP HARD DRIVES

### FAQ

#### WHY USE GENUINE INKS?

Inkjet printers are sophisticated machines, built to extremely high standards.

Genuine inks are made to complement your printer, ensuring that you get the best possible result, every time. Using non-genuine inks may permanently damage your printer and void the manufacturers warranty.

## WHAT IS INK AID?

Inkaid is the digital darkroom alternative to liquid emulsion.

Inkaid is a coating solution that can be applied to virtually any material that can be fed through an inkjet printer, for amazing individual results.

Materials include fine art papers, canvas, metal, plastic, or wood veneer.

The type and thickness of materials depends on your printer.

For more information on Inkaid products contact us on 02 9299 8833.

## IS THE DARKROOM DEAD?

While it may be getting harder to obtain traditional darkroom equipment, paper and chemistry, the traditional black & white darkroom is still going strong.

Foto Riesel supplies as much darkroom related equipment today as we did 15 years ago and we do not see this changing quickly.

Most schools have implemented digital photography courses, however they are keeping their traditional darkrooms, allowing their students to experience both aspects of photographic imaging.

**FOTOSPEED KITS**

**FOTOSPEED CYANOTYPE KIT**

**o \$104.55 ex**

Cyanotype is a single solution, updated version of the original 'blue print' process, giving a long lasting blue tonal print that does not wash out. The Kit comes complete with everything needed to make Cyanotypes: 5 sheets 8x10 inch Fabriano5 HP paper, 5 sheets 8x10 inch Digital contact film (to make contact negative), 2ml syringe, 50ml bottle of Cyanotype sensitiser, 2 coating rods (4 inch & 7 inch), 100gms of Citric Acid, protective gloves and detailed instructions.

**FOTOSPEED ARGYROTYPE KIT**

**o \$135.45 ex**

Argyrotype uses a silver based sensitising solution which is coated onto a quality art paper. Exposure is by natural sunlight with development in water and fixation by a simple hypo solution. Argyrotype prints are a rich brown and warm toned giving good contrast and midtone definition; being silver based they can then be toned and dyed. The Kit comes with everything needed to make Argyrotypes: 5 sheets 8x10 inch Fabriano5 HP paper, 5 sheets 8x10 inch Digital contact film, 2ml syringe 50ml bottle of Argyrotype sensitiser, 2 coating rods (4 inch and 7 inch), 140gms of Hypo Crystals, protective gloves and detailed instructions.

**FOTOSPEED PRODUCES DARKROOM-FRIENDLY CHEMISTRY**
