

Freestanding Range

FPEF4085K F

40" Electric

Signature Features

SpaceWise® Side Oven

This range features an extra 1.7 cu. ft. SpaceWise® side oven that gives you more space to cook multiple dishes at the same time.

True Convection

Multi-rack baking is faster and more even with True Convection.

Pro-Select® Controls

Precise control at your fingertips.

Keep Warm Zone

Keep food warm until everything — and everyone — is ready.

Product Dimensions

Height (Max.)	48-1/8"
Width	40-1/8"
Depth (Including Handle)	28-1/2"

More Easy-To-Use Features

One-Touch Keep Warm Setting

Just one touch of a button keeps food warm until everything — and everyone — is ready.

Real Stainless Steel

Real stainless steel with a protective coating that reduces fingerprints and smudges so it's easy to clean.

Delay Start

Set your oven to begin cooking on your schedule. It can be programmed from 1 to 24 hours.

Effortless™ Convection

Takes the guesswork out of convection cooking — our oven does the converting for you.

"My Favorite" Setting

Easily program your most used setting with the touch of a button.

SpaceWise® Expandable Elements

Flexible elements expand to your cooking needs.

SpaceWise® Bridge Element

A flexible element lets you combine two elements into one to fit larger cookware.

Even Baking Technology

Our latest technology ensures even baking every time.

Freestanding Range Specifications

- Product Shipping Weight (approx.) - 235 Lbs.
- Single phase 3- or 4-wire cable, 120/240 or 120/208 Volt, 60 Hertz, fused on both sides of line with ground. (If local code permits, range may be connected by hard-wiring or by means of power supply cord kit.)
- Connected Load (kW Rating) @ 240/208 Volts = 12.8/9.6 kW
- Amps @ 240/208 Volts = 53.0/46.0 Amps
- Recommended Circuit Breaker - 50 Amps (40 Amps minimum)
- Always consult local and national electric codes.
- Make sure wall coverings around range can withstand heat generated by range.
- Linoleum or any other synthetic floor covering located beneath range, must be capable of withstanding minimum heat of 90°F above room temperature without shrinking, warping or discoloring. Insulating pad or 1/4"-thick plywood required between range and a carpeted floor.
- Absolute minimum horizontal distance between overhead cabinets installed to either side of appliance must be no less than maximum width of appliance.

- Allow 24" minimum clearance between rangetop and bottom of cabinet when bottom of wood or metal cabinet is protected by not less than 1/4" flame-retardant millboard covered with not less than No. 28 MSG sheet steel, 0.015" stainless steel, 0.024" aluminum or 0.020" copper. Allow 30" minimum clearance when cabinet is unprotected.
- To reduce risk of fire when using overhead cabinetry, install range hood that projects horizontally a recommended minimum of 5" beyond bottom of cabinets.
- 0" clearance required (minimum 2" recommended) from edge of rangetop to nearest combustible wall on either side of range above 36" height.
- Range can be installed flush to wall with 0" minimum rear clearance.
- For installation against left side wall that extends to or beyond range's side panel, allow 2-3/4" minimum clearance to allow auxiliary oven door to open.
- Follow all dimension requirements provided to prevent property damage, potential fire hazard, and incorrect countertop and cabinet cuts.

Note: For planning purposes only. Refer to Product Installation Guide on the web at frigidaire.com for detailed instructions.

Use these dimensions and clearance instructions for planning purposes only. For detailed installation instructions, refer to installation guide, packed with product, or on the web at frigidaire.com.

Use these dimensions and clearance instructions for planning purposes only. For detailed installation instructions, refer to installation guide, packed with product, or on the web at frigidaire.com.

*When installing refrigerator adjacent to wall, cabinet or other appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 140° door swing, providing complete crisper access and removal. (Absolute 3" minimum clearance will ONLY allow for 90° door swing which will provide limited crisper access with restricted removal.)
