WORLD'S FINEST HOOKS - WWW.GAMAKATSU.COM

Gamakatsu new products ...

Walleye Snell

The new Walleye Snell blends all of the premium components walleye anglers have come to expect from the premium hook leader. Featuring our sticky sharp Octopus hook in the most popular walleye catching colors. Chartreuse, fluorescent orange, fluorescent pink, fluorescent red, glow, and red. All colors are skillfully tied on 7' of premium Japanese 8 lb. monofilament. Available in sizes 2, 4, and 6. 5 rigs per package.

Catfish Rigs

The new Catfish Rig is pre-tied and ready to fish. All rigs are tied with 28" of 50 lb. premium Japanese monofilament and a SPRO Power Swivel. 2 pre-rigged options are available.

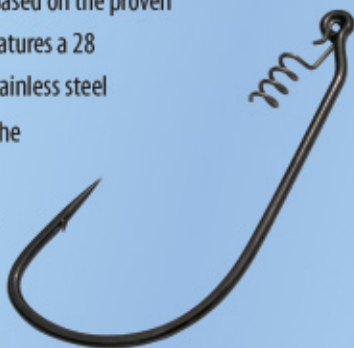

The first tied on a NS black Octopus hook in sizes 5/0, 6/0, 7/0 and 8/0. The second tied on an NS black Octopus Circle hook in sizes 5/0, 6/0, 7/0, and 8/0. 2 rigs per package.

Superline Spring Lock

The new Superline Spring Lock is based on the proven Superline EWG. The Spring Lock features a 28 degree eye with a stress relieved stainless steel spring. Gamakatsu Spring Lock is the ideal soft plastic hook when the situation requires your bait to stay locked and secure.

Sizes 3/0 – 7/0 NS Black.

Short Shank Treble

The new Short Shank treble was developed for the discerning hard bait angler. Featuring Gamakatsu ICAST award winning "Magic Eye", the most advanced design to open split rings and change out your trebles with ease and efficiency. In addition the new Short Shank treble features our Indexed manufacturing process. When rigged, the Short Shank hook points run parallel to the bait creating a perfect balance point. Gamakatsu Short Shank is the ideal treble hook for optimal lure performance.

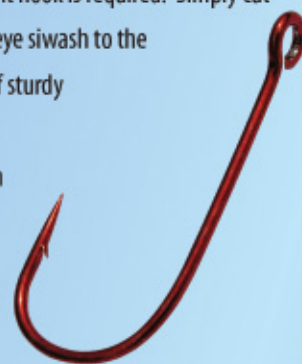

Available in sizes 6, 4, 2, 1, 1/0. NS Black.

Red Open Eye Siwash

Gamakatsu open eye siwash is the preferred hook for spoons, spinners, and vertical jigs. Siwash hooks are considered the best change out option when a single point hook is required. Simply cut off the old hook and apply the open eye siwash to the split ring. Close the eye with a pair of sturdy pliers and you are ready to fish! For 2010 Gamakatsu now offers the open eye siwash hook in the popular red finish and in the most popular sizes. In addition the Siwash is ideal when used as a stinger hook on your favorite spinner bait!

Available in sizes; 1/0, 2/0, 3/0, 4/0, 5/0 and in the new red finish

EWG Double

Available in a new 3/0 size (See page 21)

Octopus Red

Available in 8/0, 9/0 and 10/0 sizes (See page 8)

Open Eye Siwash

25 pack available in 1/0 - 6/0 (See page 14)

History of Gamakatsu

Gamakatsu started producing fish hooks in 1955. At that time, they were the smallest hook manufacturer in Japan and all of their hooks were made by hand. In 1963 they introduced a new automated heating facility which catapulted them to the forefront of the Japanese market. In 1974, they introduced fully automated hook making machines and found it necessary to build a second factory in order to meet the demand they had created.

In 1976, being well established as the leading Japanese hook manufacturer, Gamakatsu started building a new factory to produce high quality fishing rods for the Japanese market.

After upgrading the hook manufacturing machines in 1986, they expanded their product line. As the result, Gamakatsu Co. Ltd became a major manufacturer with a full line of high quality fishing rods, hooks, apparel, and fishing related items by 1987.

In 1988, after upgrading the automated tempering facilities and expanding the hook factory. Gamakatsu Co. Ltd opened Gamakatsu International Co., Ltd. in Thailand and Gamakatsu Shantou Co. Ltd. in China in 1989.

When anglers purchase Gamakatsu hooks, they are buying an original product made by GAMAKATSU. Many hook suppliers are using fabricated Japanese sounding names bought from several different manufacturers.

Market Leader GAMAKATSU

Gamakatsu is the leading fish hook manufacturer in Japan. They are constantly testing new materials, trying to improve their product which already sets the standard for the rest of the industry.

In 1992 Gamakatsu USA Inc. was established to provide Gamakatsu brand hooks to the U.S. market. Obviously, Gamakatsu is well on it's way of achieving their goal of becoming the market leader in the USA and the world!

Environment has our attention

Since 1955, Gamakatsu has strictly stuck to the theme of "Nature and Technology". We work hard to develop new, hi-tech products that benefit the outdoorsman without adversely effecting the environment.

Gamakatsu's policy of technical development has always been "the best of quality". We are always searching for new ways to make our existing products better in addition to constantly looking for unique products which are not yet available. We believe that only this attitude can give our customers the best they deserve!

All over the world

Gamakatsu products are used worldwide. With offices located around the world, Gamakatsu is able to research its markets and develop unique products that meet the needs of even the most demanding anglers.

Aaron Martens

History of Gamakatsu

Invention of hooks

20,000 years ago, the invention of the fish hook marked the beginning of sport fishing. The first hooks were made of wood or bones. As technology improved, so did the hooks. Records show that copper hooks were made in Banchen 7,000 years ago and artificial flies were used in Egypt 4,000 years ago. Fishing was also a popular form of entertainment in ancient China.

Today, modern materials and manufacturing techniques have resulted in hundreds of styles of extremely high quality hooks, designed for specific types of fish and fishing methods.

Quality of hooks

Gamakatsu hooks are the corner stone of the Gamakatsu company, and are famous worldwide. Material and technology are what makes these hooks superior to all other brands. The Gamakatsu company, in conjunction with a material manufacturer, developed a material known as High Carbon steel specifically for the manufacture of fish hooks. This material not only contains a higher percentage of carbon, but also has very few impurities. As a result, GAMAKATSU has earned Anglers' trust throughout the world. The life of a fish hook is measured by the sharpness, hardness, and viscosity of the point. Using low quality materials results in points that are weak and not truly sharp. In order to use High Carbon steel, Gamakatsu developed a unique electronic tempering process which enables hooks to be tempered in a stable condition. As a result, Gamakatsu is able to manufacture consistently high quality, extremely sharp hooks in large quantities.

This innovation has earned Gamakatsu a 70 % market share in Japan.

Hook producing

The methods used in creating Gamakatsu hooks is what makes it so superior to all other brands. First, only the most premium grade of high carbon steel is used. This insures against any blemishes in the metal which can weaken the hook.

Secondly, Gamakatsu has the most advanced tempering system in the world. Every hook is heated to the exact temperature that is perfect for that particular style and size then cooled in oil. This process produces hooks which are super strong, but not brittle. It is extremely difficult to achieve a balance between strength and flexibility, and it took many years for Gamakatsu to perfect this process.

Finally, and perhaps most importantly, our sharpening process is the most modern in the world, and results in a perfectly conical point that is unequaled in sharpness.

Simply the best

Gamakatsu's dedication to producing the highest quality fish hook made, as well as the innovation they bring to the industry has kept the company at the forefront of the premium hook market. Among the innovative ideas that Gamakatsu has introduced are:

- Durability - A unique tempering process allowing us to make a hook of superior strength and durability.
- Strength - Hooks made of high carbon steel for superior strength.
- Sharpness - Conically needle honed points that are sharp from the package and stay sharp.
- Color Variation - Colored hooks in red, blue, green, gold, nickel, bronze, black, shrimp and fluorescent colors F-red, F-chartreuse, F-pink, F-orange, F-glow, F-green, F-purple to match the color of your lure or bait.
- Style Variation - Innovative hook designs like the extra wide gap (EWG) that hook and hold fish better.

Gamakatsu makes a hook for any and every fishing situation. So go ahead, tie on a Gamakatsu because it is "Simply the best!"

Developed for that discerning trout fishermen in mind. With the advances and popularity of artificial dough and paste type baits, it was only a matter of time that an added extra edge was needed. These high quality, sticky sharp, trebles fit the bill. The light wire design will allow your bait to float higher and keep it more in the strike zone. Also, the fine wire design will allow for quick and deeper hook penetration.

Designed to deal with a dough or paste type bait that doesn’t want to stay on the hook. The Mesh Baitholder will take care of that problem. A Red Single Egg Hook that has a small piece of Pink nylon mesh material attached near the eye. Simply mold the bait around the shank of the hook and then press the mesh material around the bait. The barb and nylon mesh combined will hold the bait firm and won’t allow it to fly off the hook when cast or get nibbled off by pesky bait stealers.

SuperLine

An EWG on steroids. This high carbon heavy wire hook was designed to fish braided line in heavy cover. For serious flipping in the tules, overhead mats, or pads. The EWG Superline will increase your strike to hook ratio when you need to get nasty.

Perfect when you require a quicker decent rate without increasing size or adding weights. Want to turn up the heat with a Senko? Go with a Superline for that deadly quick decent!

Extra Wide Gap (EWG) Monster

SIZES		5/0	6/0	7/0
LS Black	LS	283415	283416	283417

When only a high carbon heavy wire hook will do your choice should be the EWG Monster. Hard core doesn't even begin to describe the Monster. Slinging a Mission Fish back in the cover? We now have the perfect hook. Loading for bear with a giant Gitzit, Double Wide Beaver, or oversized Slug-O? The Monster has you covered. Headed to El Salto, Clear Lake, or the California Delta for double digit behemoths? Gamakatsu Monster is the choice when you are taking no prisoners. Heavy line, heavy rods, big baits, and big fish is EWG Monster time!

Extra Wide Gap (EWG) Monster, Weighted

SIZES	5/0 - 1/8	5/0 - 1/4	6/0 - 3/16	6/0 - 1/4	7/0 - 1/4	7/0 - 3/8
NS Black	LS 283415-1/8	283415-1/4	283416-3/16	283416-1/4	283417-1/4	283417-3/8

On the heels of the EWG Monster we have introduced the Weighted Monster for 2009. When the situation calls for a bulletproof weighted hook, look no further than the Monster Weighted. Strategically placed milled weights are perfectly balanced and serve as a keel for large swimbaits or any oversized offering. The hook also features a slightly higher hook point in relation to the eye to help aid in hook setting power.

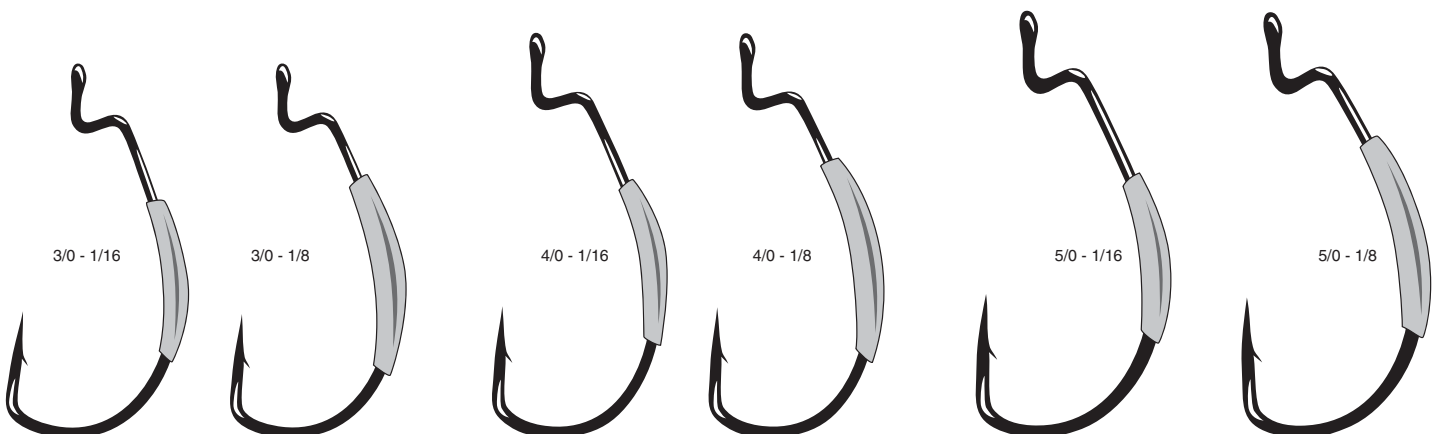

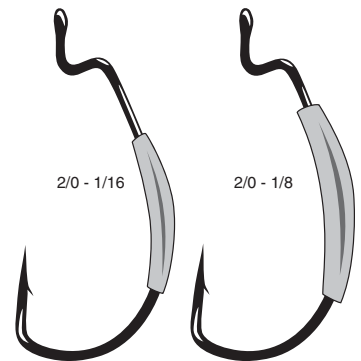

Worm Hooks, Superline, Extra Wide Gap (EWG), Weighted

SIZES	2/0 - 1/16	2/0 - 1/8	3/0 - 1/16	3/0 - 1/8	4/0 - 1/16	4/0 - 1/8	5/0 - 1/16	5/0 - 1/8
NS Black	LS 74412-1/16	74412-1/8	74413-1/16	74413-1/8	74414-1/16	74414-1/8	74415-1/16	74415-1/8

The Weighted EWG Superline is a perfect compliment to the EWG arsenal. Do you need more casting distance with a soft plastic frog? This hook will get you back in the junk. Want to flip into heavy cover without the hassle of pegging a bullet sinker? Consider the EWG Weighted Superline your new best friend. The Lead is strategically placed and milled to perfection.

SuperLine

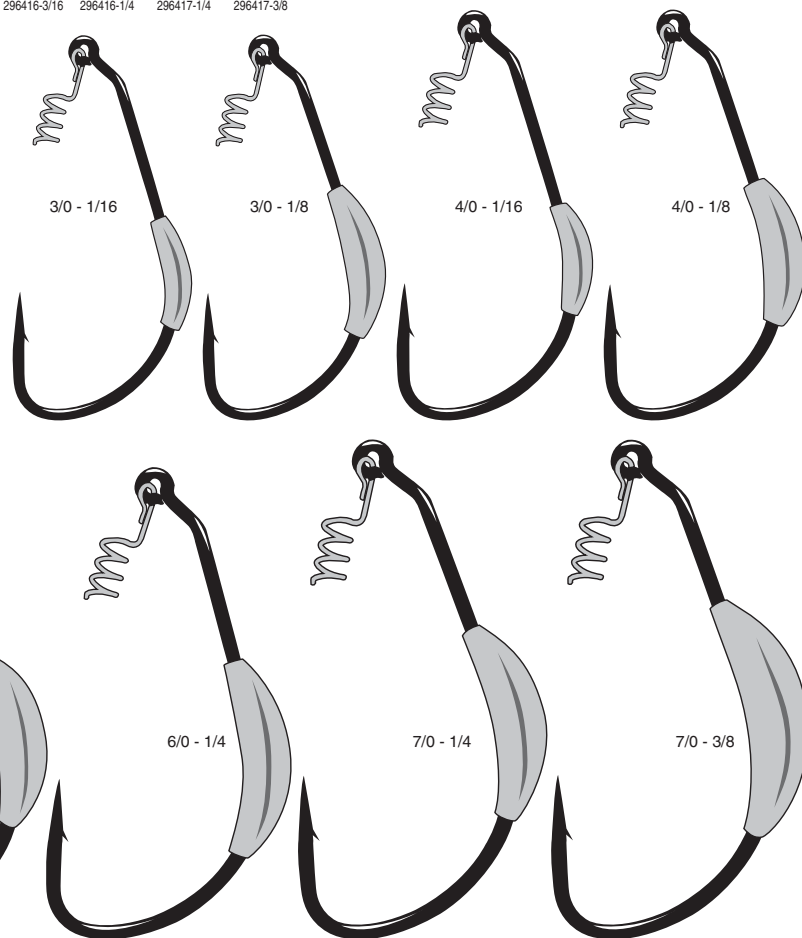

Worm Hooks, Weighted, Superline, Spring Lock

SuperLine

SIZES		3/0 - 1/16	3/0 - 1/8	4/0 - 1/16	4/0 - 1/8	5/0 - 3/16	5/0 - 1/4	6/0 - 3/16	6/0 - 1/4	7/0 - 1/4	7/0 - 3/8
NS Black	LS	296413-1/16	296413-1/8	296414-1/16	296414-1/8	296415-3/16	296415-1/4	296416-3/16	296416-1/4	296417-1/4	296417-3/8

We designed the EWG Spring-Lock to be the perfect hook for paddle tail swimbaits. Based on the proven Superline EWG hook, the Spring Lock features a new 28 degree eye with a stress relieved stainless steel Spring so baits stay locked and secure. Beautifully milled strategically placed weights help your bait track perfectly at any depth. Offered in a variety of sizes and weights to take your paddle tail swimbait fishing to a new level.

 EWG - EXTRA WIDE GAP

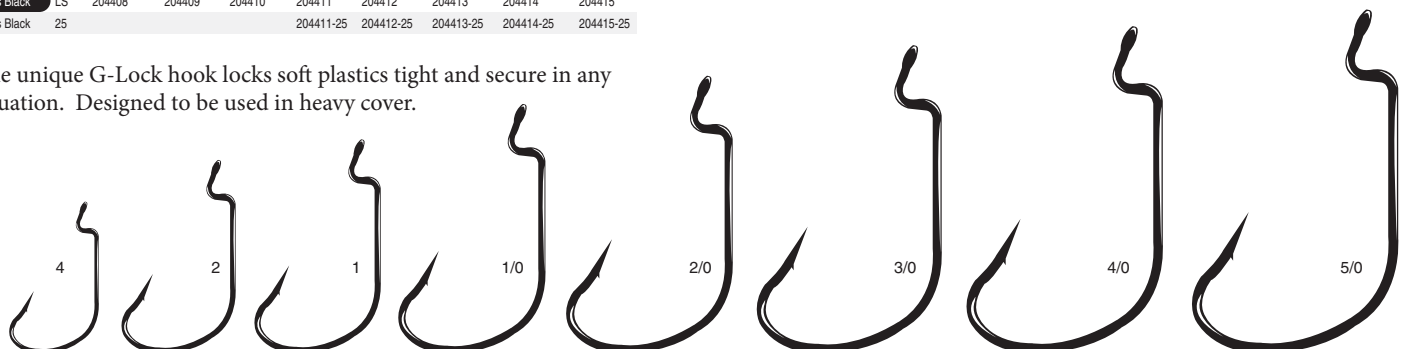

There are times when calling up fish requires a little something extra. For this purpose we designed the EWG Ringed Superline. Need to fish a Horny Toad in the slop and want it to walk? Our solid piece ring allows the bait to swing freely. Fishing a Fluke for schooling smallmouth or big spots and want that super erratic action? This is your hook. Handles braided line and heavy monofilament with ease.

Worm Hooks, Offset Shank, G-Lock

SIZES	4	2	1	1/0	2/0	3/0	4/0	5/0	
NS Black	LS	204408	204409	204410	204411	204412	204413	204414	204415
NS Black	25			204411-25	204412-25	204413-25	204414-25	204415-25	

The unique G-Lock hook locks soft plastics tight and secure in any situation. Designed to be used in heavy cover.

Worm Hooks, Deep Throat Wide Gap

SIZES		1/0	2/0	3/0	4/0	5/0
Ns Black	LS	242411	242412	242413	242414	242415
Ns Black	25 pk	242411-25	242412-25	242413-25	242414-25	242415-25

The deeper throat, extended point and locking offset make this a good hook for soft plastic frog baits.

Live Bait Hooks, Heavy Duty Circle, **TOURNAMENT LEGAL**

SIZES	5/0	6/0	7/0	8/0	9/0	10/0	11/0	12/0
NS Black	LS 210415	210416	210417	210418	210419	210420	210421	210422

Same design as the Live Bait Heavy duty, but with a non-offset circle hook point. The perfect hook for giant fish on big chunk baits.

Octopus Hooks, Circle 4x Strong, Straight Eye

SIZES	1/0	2/0	3/0	4/0	5/0	6/0	7/0	8/0
NS Black	LS 209411	209412	209413	209414	209415	209416	209417	209418
NS Black	25				209415-25	209416-25	209417-25	209418-25

This hook is designed for heavier lines and bigger fish. The offset point makes it a good choice for many chunk bait situations.

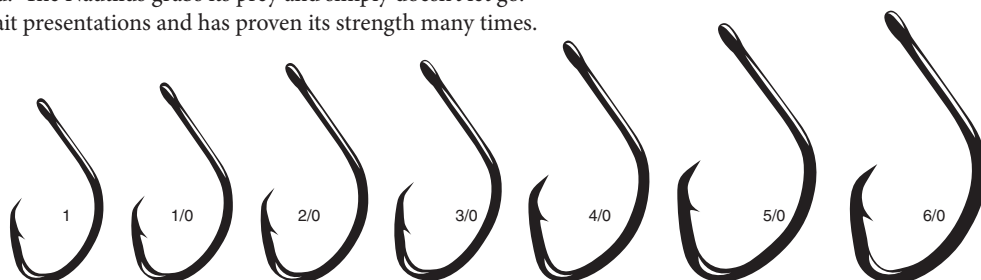

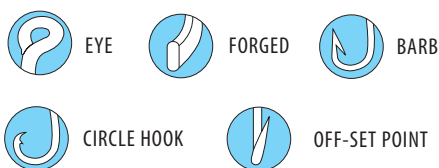

Nautilus Circle Hooks

SIZES	1	1/0	2/0	3/0	4/0	5/0	6/0
NS Black	LS 42410	42411	42412	42413	42414	42415	42416

One of the meanest circle hook designs around. The Nautilus grabs its prey and simply doesn't let go. This hook can be used for live bait or chunk bait presentations and has proven its strength many times.

Super Nautilus Circle Hooks

SIZES	4/0	5/0	6/0	7/0	8/0	9/0	10/0	11/0
LS	272414	272415	272416	272417	272418	272419	272420	272421

Our edition to the already proven "Nautilus" series of saltwater circle hooks comes the "Super Nautilus". Made of high carbon steel, it's a heavier wire hook than our standard "Nautilus" and forged for quality and added strength. This hook has become a favorite amongst demanding saltwater fishermen.

SIZES		1	1/0	2/0	3/0	4/0
Tin	LS	219510	219511	219512	219513	219514

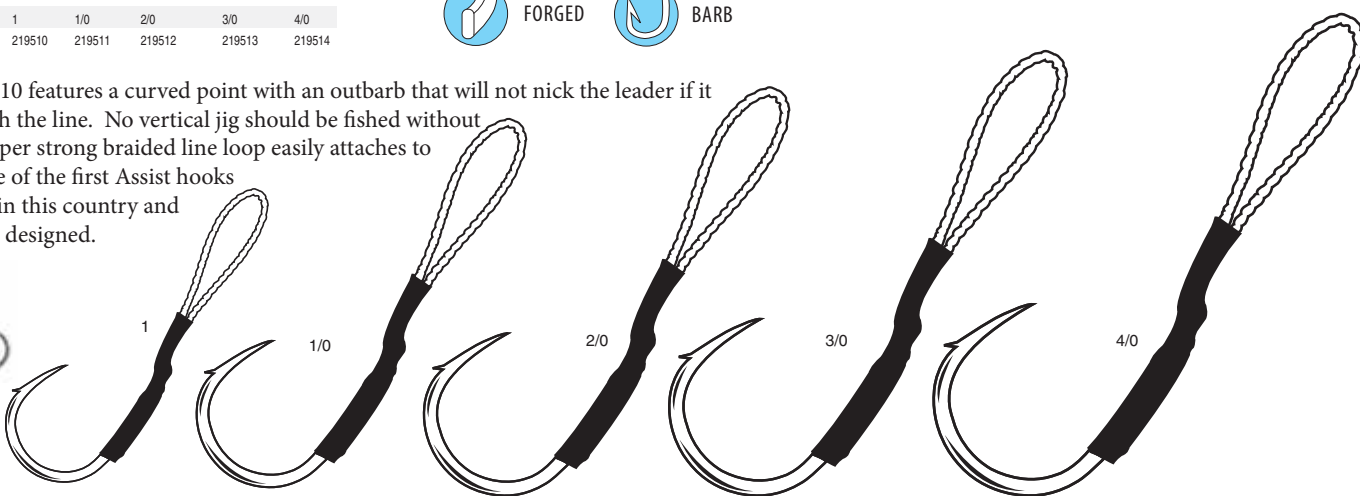

FORGED

BARB

The Assist 510 features a curved point with an outbarb that will not nick the leader if it were to catch the line. No vertical jig should be fished without one. The super strong braided line loop easily attaches to any jig. One of the first Assist hooks introduced in this country and still the best designed.

Tuned Assist Hd

SIZES		8/0	10/0
Tin	LS	270518	270520

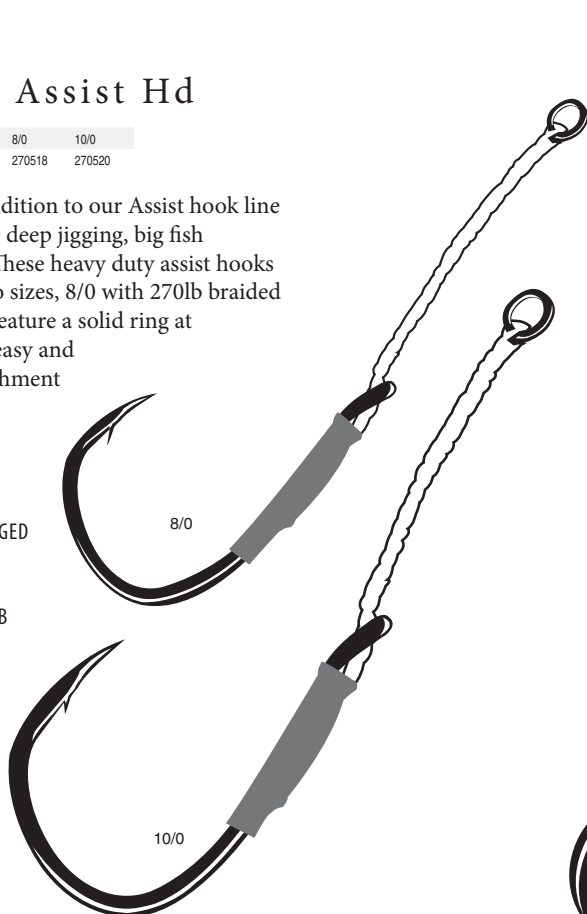

This new addition to our Assist hook line up is for the deep jigging, big fish specialist. These heavy duty assist hooks come in two sizes, 8/0 with 270lb braided line. Both feature a solid ring at the top for easy and secure attachment to the jig.

OFF-SET POINT

Don't sacrifice your favorite jig to toothy fish like Wahoo and Mackerel. This Assist Hook features our Magic Eye Swivel for fast and easy attachment to the split ring on any jig. No pliers needed. 90lb. wire and a 4x Strong Straight Eye Octopus hook make this the ultimate big game, toothy fish Assist hook. Comes in a 3/0 short version and 5/0 long version for bigger jigs.

O'Shaughnessy Hooks

SIZES	8	6	4	2	1	1/0	2/0	3/0	4/0	5/0	6/0	7/0	8/0	9/0	10/0
Tin	LS 13006	13007	13008	13009	13010	13011	13012	13013	13014	13015	13016	13017	13018	13019	13020
Bulk	13006-100	13007-100	13008-100	13009-100	13010-100	13011-100	13012-100	13013-100	13014-100	13015-100	13016-50	13017-50	13018-30	13019-30	13020-20

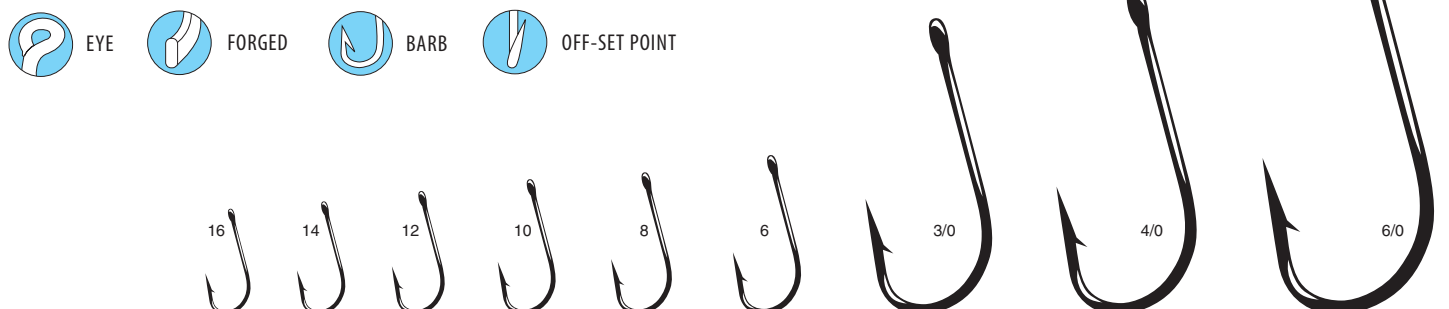

Traditional saltwater style for trolling or general purpose bait fishing.

Sea Hooks

SIZES	16	14	12	10	8	6	3/0	4/0	6/0
Tin	LS 22076	22075	22074	22073	22072	22071	22065	22064	22062

Similar to the O'Shaughnessy hook, but slightly lighter with an offset point.

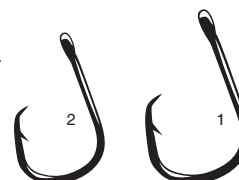

Saltwater Hooks

Flounder Hooks

SIZES	2	1
TIN	LS 21068	21069

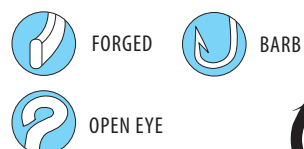

A straight eye circle hook with a slight offset. A good hook for smaller chunk baits.

Single 510

SIZES	1	1/0	2/0	3/0	4/0
Tin	LS 232510	232511	232512	232513	232514
Tin	25 pk 232510-25	232511-25	232512-25	232513-25	232514-25

Single 510 has an open eye so it can be used as a replacement hook for spoons, plugs and other lures. It features a sticky sharp curved point with an outbarb for fast penetration and secure hook ups.

Salt Water Hooks

SIZES	7/0	8/0	9/0	10/0	11/0	12/0	13/0
Tin	LS 15017	15018	15019	15020	15021	15022	15023
Ns Black	LS 15417	15418	15419	15420	15421	15422	15423

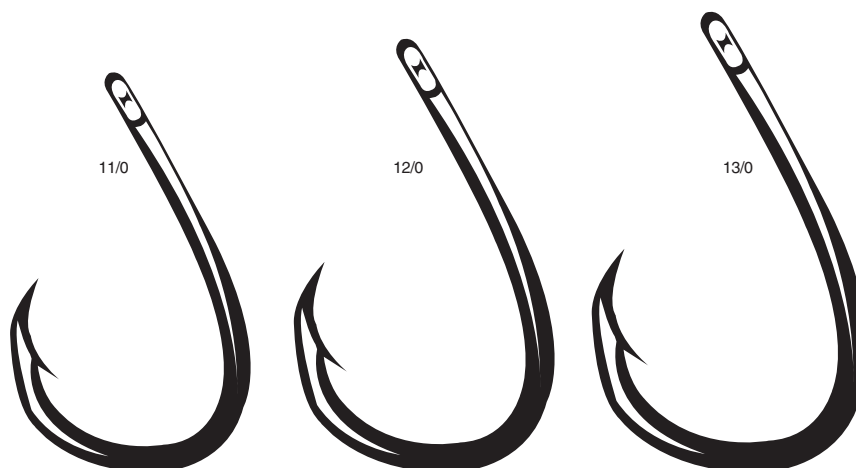

A heavy duty hook designed for larger chunk baits and heavy lines.

Grouper Hooks

SIZES	11/0	12/0	13/0
Tin	LS 44032	44034	44035

As the name implies, this hook is made for pulling big fish from the depths.

Circle Hooks

SIZES	5/0	6/0	7/0	8/0	9/0	10/0	11/0	12/0	13/0	14/0
TIN	LS 06030	06031	06032	06033	06034	06035	06036	06037	06038	06039

A heavy wire forged circle hook with a stamped eye. Used for chunk baits with steel cable.

"3 rigs per pack!"

Nose Ring Live Bait Rig

Hook Size	Line (LB)	Stock #
2	10	231409-10
1/0	20	231411-20
3/0	20	231413-20
3/0	30	231413-30

The nose ring keeps live bait alive and swimming naturally. The hook can be placed anywhere on any size bait for a better hook up and a peg holds the line in place. Easy to rig and very effective.

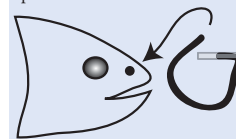

"3 rigs per pack, 48 in. leader!"

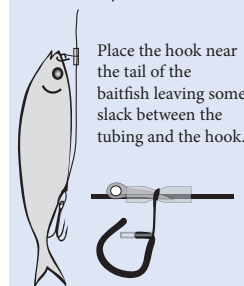

How to use the nose ring

This rig will adjust to any size bait, holds the bait firm and allows for a natural presentation.

Gently slide the nose ring through the nasal cavity of the baitfish

Push the peg into the tubing to hold the line in place. A toothpick can also be used.

Nose Ring Treble Stinger

Hook Size	Line (LB)	Stock #
6	15	236407-15
6	20	236407-20
4	15	236408-15
4	20	236408-20

The same highly effective design as the Nose Ring Live Bait Rig, but with a 2x strong, corrosion resistant NS Black treble hook. A popular rig with California Halibut anglers, it eliminates the need for additional stinger hooks and is perfect for any short striking fish.

"2 rigs per pack, 48 in. leader!"

Top And Bottom Rig

Hook Size	Line (lb)	Stock #
2	30	238409

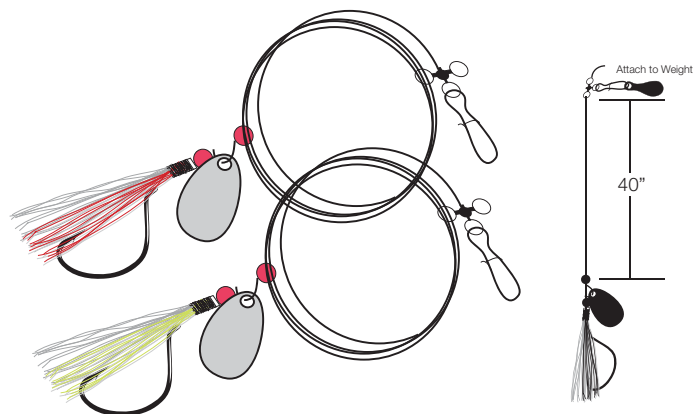

Designed primarily for bottom fishing, this rig uses two size 2 NS Black Baitholder hooks attached to a 40lb. leader so they stick out about 4" from the main line and are spaced about 10" apart. It includes a barrel swivel at the top of the rig and a cross lock for easy weight attachment at the bottom.

Fluke Rig With Teaser

Hook Size	Line (lb)	Stock #
2/0 White/Red	40	239412-RW
2/0 White/Chartreuse	40	239412-CW

Two different color combination fluke rigs available in a size 2/0 hooks with a 40 lb. leader. The Fluke Rigs feature a spinner blade and a teaser made with synthetic hair material that is more tooth resistant and durable in saltwater. The teasers are in either red and white or a chartreuse and white combination with either red or green beads to match. They also feature a 3 way swivel with a crosslock to attach the weight.

Russian River Sockeye Rig

Hook Size	Line (lb)	Stock #
2 White/Red	30	285109-WR-30
2 White/Chartreuse	30	285109-WC-30

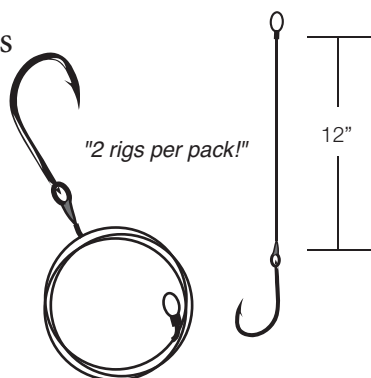

We developed the "Russian River Sockeye Rig" with Alaska's popular fishery in mind. Tied on 34" of 30# mono with our popular Russian River hook, is available in two colors. Available in red and white, and in chartreuse and white.

Steel Leader Rigs

Hook Size	Line (lb)	Stock #
2/0	40	240412

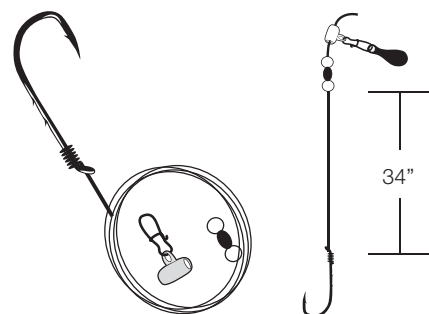

This rig features a heavy duty 2/0 Live Bait style hook attached to a 40 lb. piece of steel leader. The steel leader is a multi strand wire and has an epoxy coating over the twisted portion in front of the hook to eliminate any sharp edges.

Striper Rig With Sliding Sinker Lock

Hook Size	Line (lb)	Stock #
5/0	80	241415

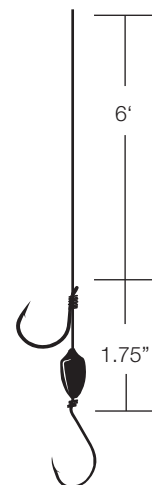

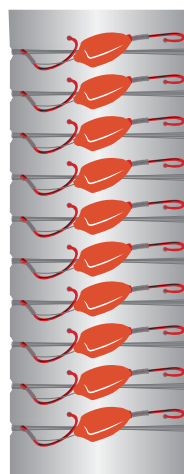

This rig features a 5/0 NS Black Baitholder hook snelled to a 80 lb. clear leader with a 100 lb. barrel swivel and a sliding sinker lock that goes on the main line above the swivel.

Side Drifting Rig

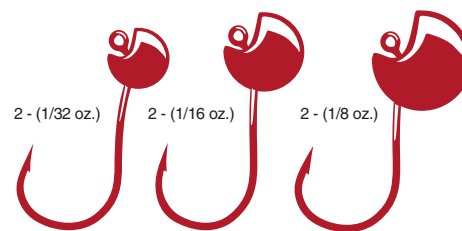

Hook Size	Line (lb)	Stock #
4 Peach Luminous	8	259308-PL
4 Clown	8	259308-C
4 Rocket Red	8	259308-RR
4 Orange Clown	8	259308-OC
4 Pearl Red	8	259308-PR

Rigged with two of our most proven hooks, a size 4 Red Finesse Wide Gap in front and size 4 Red Octopus hook in back with a Yakima Bait "Winner Body" in the middle for floatation and added attraction. Ten rigs come pre-tied on 6ft of clear premium 8lb. mono neatly wrapped around a 6 inch closed cell foam dispenser. They come in 5 of the most popular fish catching colors, RR-Rocket Red, PR-Pearl Red, PL-Peach Luminous, C-Clown, and OC-Orange Clown.

Wacky Head

SIZES	2	2	2	
WEIGHT	LS	1/32	1/16	1/8
	282309-1/32	282309-1/16	282309-1/8	

Gamakatsu is known for its innovative and functional designs, the "Wacky Head" jig is no exception. With its unique flat shape, the "Wacky Head" will entice the finickiest of biters with its side to side rolling type action. Also to add to its attraction is the red epoxy head, and a short shank wide gap designed hook for a greater bite surface area for those short biting fish.

Skip Gap Shaky Head

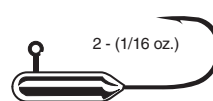

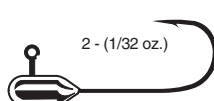

Hook Size	Stock #
3/0-1/8	293413-BR-1/8
3/0-3/16	293413-BR-3/16
4/0-3/16	293414-BR-3/16
4/0-1/4	293414-BR-1/4
3/0-1/8	293413-GP-1/8
3/0-3/16	293413-GP-3/16
4/0-3/16	293414-GP-3/16
4/0-1/4	293414-GP-1/4

Jig Head or Shaky head fishing is a very effective way of finesse fishing for bass. Gamakatsu has developed its own jig head based on the Skip Gap worm hook. It has the same innovative bend that holds your bait secure on the hook. There are no barbs or pegs that can tear apart a small finesse worm. The unique bend lends itself to simplicity and will change the way you shaky fish.

Tube Head

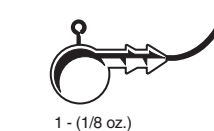

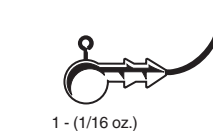

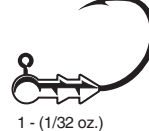

SIZES		2	2	2
WEIGHT	LS	1/32	1/16	1/8
		503409-1/32	503409-1/16	503409-1/8

The ultimate finesse tube head design for precise presentations and smaller baits. Comes on a strong, sticky sharp NS black hook that ensures solid hook ups.

Round 211

SIZES		2	2	2
WEIGHT	LS	1/32	1/16	1/8
		501409-1/32	501409-1/16	501409-1/8

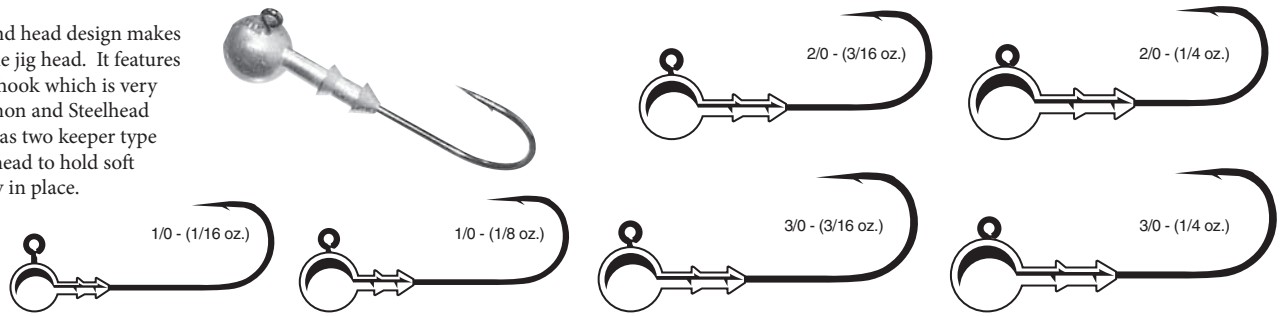

A totally unique design with a short shank and a matte black beak point. Great for live and finesse baits.

Rigs, Snells, Jig Heads, Floats and Swivels

Round 26

SIZES		1/0	1/0	2/0	2/0	3/0	3/0
WEIGHT	LS	1/16	1/8	3/16	1/4	3/16	1/4
		500411-1/6	500411-1/8	500412-3/16	500412-1/4	500413-3/16	500413-1/4

The standard round head design makes this a very versatile jig head. It features our 604 series jig hook which is very popular with Salmon and Steelhead anglers and also has two keeper type rings behind the head to hold soft plastic baits firmly in place.

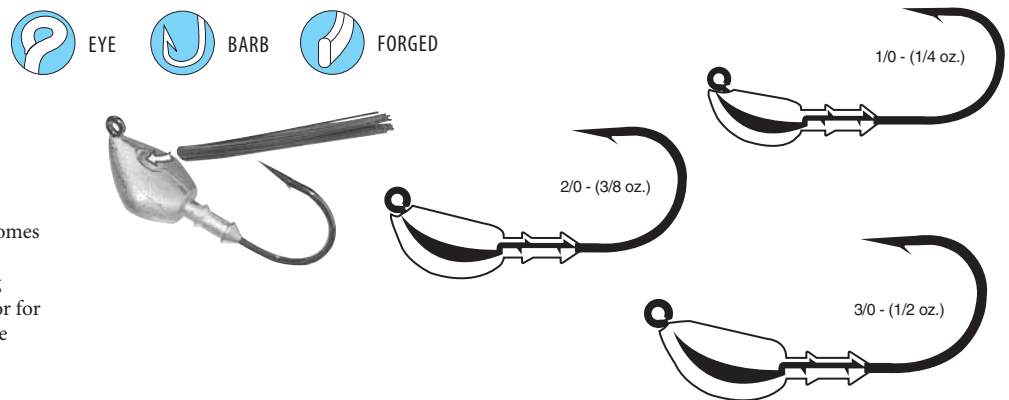

Cobra 27

SIZES		1/0	2/0	3/0
WEIGHT	LS	1/4	3/8	1/2
		504411-1/4	504412-3/8	504413-1/2

5 Nylon Brush Guards Included

Named for its unique head design, the Cobra 27 comes with optional nylon brush guards for weedless presentations. It features a very stout 60 degree jig hook and is great for building your own Bass jigs or for fishing plastic baits in saltwater for inshore fish like Redfish and Speckled Trout.

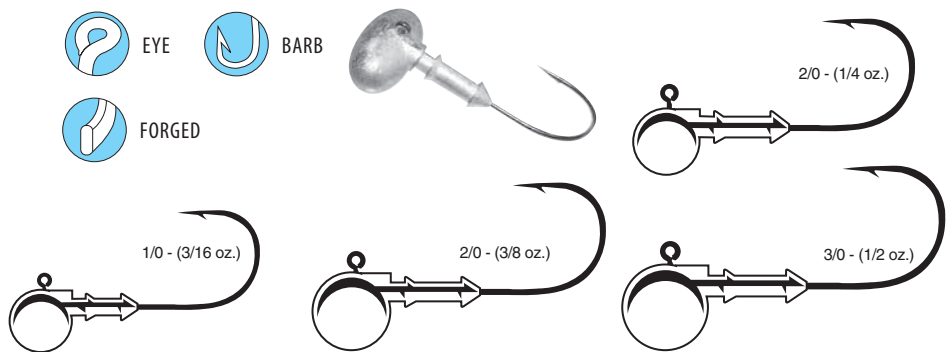

Football 24

SIZES		1/0	2/0	2/0	3/0
WEIGHT	LS	3/16	1/4	3/8	1/2
		502411-3/16	502412-1/4	502412-3/8	502413-1/2

The Football 24 is the choice when fishing around rock or ledges. It is designed to be very snag resistant.

The 24 is the way to go when dragging a Hula Grub or Beaver on deep structure. The 24 features a fine wire hook for fast penetration.

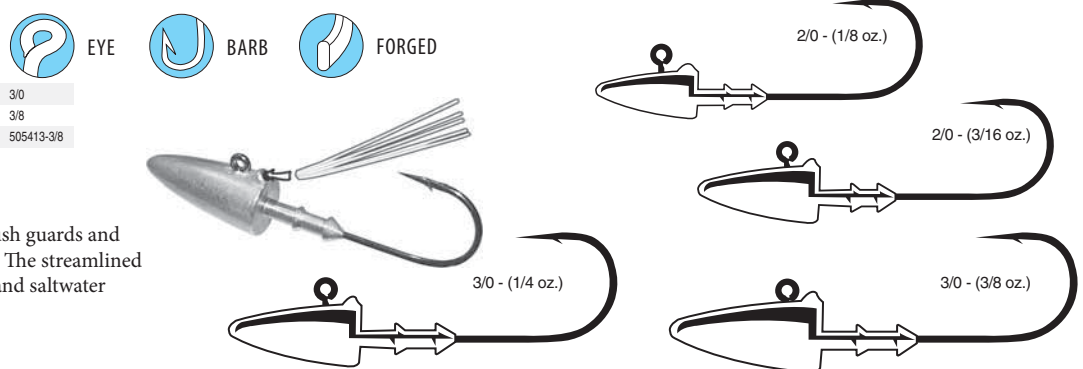

Darter 26

SIZES	2/0	2/0	3/0	3/0	
WEIGHT	LS	1/8	3/16	1/4	3/8
		505412-1/8	505412-3/16	505413-1/4	505413-3/8

5 Nylon Brush Guards Included

This hook comes with optional nylon brush guards and features a heavy duty 90 degree jig hook. The streamlined head design makes it ideal in both fresh and saltwater applications.

Smaller than actual size.

Gamakatsu Premium Lighted Floats

The Night Flyer is designed for distance casting and for supporting larger baits. Built to withstand the rigors of saltwater, this float is perfect for fishing from piers and beaches at night. It's also the ultimate Catfish float for day or night fishing. With a visual range of over 120 yards, this float can be seen much farther than it can be thrown.

Night Flyer Float

Small: GF002-S
Large: GF002-L

Pin Battery GB-001

Made specifically for our Firetip floats, these lithium batteries are designed to give a "Super Long Battery Life".

Smaller than actual size.

Firetip Float

Small: GF001-S
Large: GF001-L

Smaller than actual size.

Easily the most unique lighted float on the market. The soft rubber tip makes it extremely durable and the visual range of over 100 yards makes it the most visible at night. One little Gamakatsu pin battery can light this float for well over 24 hours of continuous use.

Gamakatsu Finger Protector

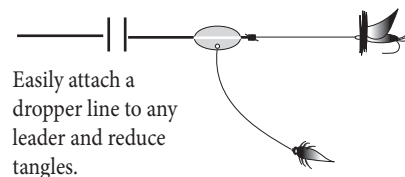

Protects your finger from the abuse of stripping line across all day. One size - GF003

Smaller than actual size.

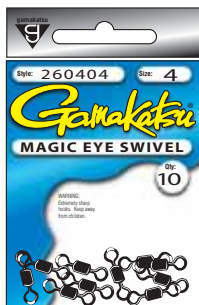

Dropper Bead

Large: GDB001-L
Medium: GDB001-M
Small: GDB001-S

Easily attach a dropper line to any leader and reduce tangles.

Magic Eye Swivel

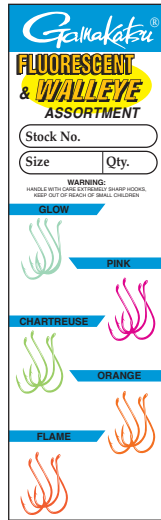

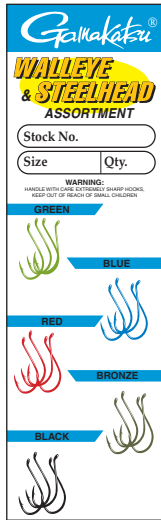

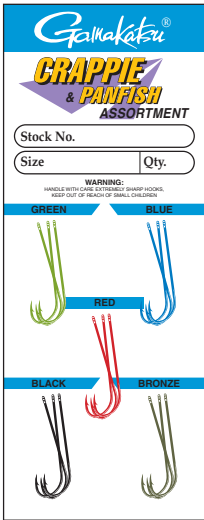

Color	Sizes	Stock #
NS Black	4	260404
NS Black	3	260403
NS Black	2	260402

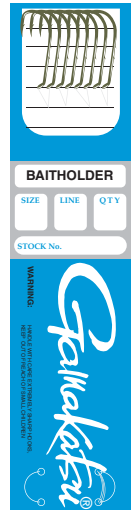

The Magic Eye Swivel has a specially designed eye on one side that allows it to easily open split rings. Just like the Magic Eye Treble, no tools are needed to add this to any lure. Eliminates line twist on hard baits, spoons, and is great for the head of vertical jigs. Available in a size 3 rated at 130lb. test, and a size 4 rated at 110lb. test.

Gamakatsu has been making premium quality hooks since 1955. Every hook is made using Gamakatsu's own high quality, high carbon steel and is meticulously crafted to the highest of standards. Unlike other hook manufacturers, Gamakatsu hooks are made in their own facility which is one of the most technologically advanced in the world and their consistency is unmatched. What you'll find in this catalog are 31 styles of super sharp, super strong fly hooks made for the serious fly tyer and fly angler who will settle for nothing but the best. While an investment in a good fly rod, fly reel, fly line and the knowledge on how to properly use them can enhance the fly fishing experience, the hook is the one piece of equipment at the end of it all that has to hang on to the object of pursuit. Don't settle for anything less than Gamakatsu quality.

The Executive Series

Executive Series fly hooks offers some very unique designs like the R10B Retainer Bend and the C13U Keel Balance. Hooks like the S10 series of hooks have beak points that allow for effortless penetration, especially with light tippets and a slightly wider gap. They also have a shank length just a little longer than standard dry fly hooks. While the R10B and C13U are matte black, the B10S Stinger hooks and the rest of the Executive series have a beautiful NS Black finish that not only looks good, but is also very corrosion resistant. There's no other hook series like it.

Traditional Series

The Traditional Series hooks are mostly all bronze finished, have needle points, and are designed to match up in style and size with other popular hook brands. The key difference being the quality of the steel used in them and the sharpness of the hook. The Traditional Series hooks also feature the traditional Salmon/Steelhead tapered loop up eye hooks, but in non-traditional finishes like Blue, Red, and Green in addition to the traditional NS Black finish. The styles all match, but the quality is unmatched.

Saltwater Series

By far and away the finest selection of Saltwater fly hooks available. Five styles featuring our most popular SC15 and other hooks ranging in sizes from 18 to 8/0. The SC15 is used for many different patterns but is also a great hook for tube flies and the SP11-3L3H makes a great popper hook. There's a hook style for every saltwater application imaginable. Every Saltwater Series fly hook is made from the highest quality high carbon steel and has a durable tin plating for corrosion resistance. Because of the steel used, even the 3x strong hooks are surprisingly light for their size and their strength is unparalleled. These hooks will hold a point much better than stainless steel hooks and are sticky sharp right out of the bag. No sharpening is ever needed before fishing with a Gamakatsu hook and because they're not stainless, they will eventually corrode out of a fish's mouth if the hook is taken deep and cannot be removed. From the flats to blue water, there's no hook selection better than this.

Executive Series

"The most advanced fly hook available"

- Corrosion Resistant N.S. Black Finish
