

## Ravishing Razor Ripstik Caster Board

The Razor Ripstik caster board is popularly being called as the skater board alternative in the urban landscape. The inclined caster trucks which can go up to a full circle inclination of 360 degrees has a pivoting duck giving a breezy smooth ride even over concrete grounds. The way the Ripstik Scooter have been designed gives it a snowboard like carving ability and can be accelerated and turned without any external push. You can just glide with speed, cut, carve and spin in no time.

The concave deck platforms of the Razor Ripstik are linked to each other with a sturdy traction plate which gives great control over the foot. The design of the [Razor Ripstik Caster Board](#) can be called as an adaptation brought in between a skate board and a snow board giving it more torsional response. They are very light in weight enabling one to try easy swirls and tricks on it along with a kick tail and nose feature to the deck which sure improves the foot control and a must try.

The Razor Ripstik caster board comes in all ravishing colors like Blue, Silver, Green, Red and Pink and their wheels are made out of 76mm Poly-Urethane wheels with high performance ABEC-5 bearings which gives skater an amazing smooth ride that they can glide over any kind of pavement. The caster board also comes along with a DVD giving detailed information on how to ride it with simplest easy to follow instructions (it also comes with few tricks that you can try upon).

[Razor Ripstik](#) is preferred for kids of age 8 years and above and can withstand a maximum rider weight of 220 lbs. It also comes along with a replacement wheel set. The caste board comes at a very affordable rate when compared to others in the market. If you're young ones a speed thrill, then this should probably be the best u can gift.
