UNICO Xplor

DESIGNED FOR SHOOTING

A400 Xplor is the result of the hard work of designers passionate about hunting, always in search of the optimal balance between innovation and tradition. But that's not all: with the A400 the design and research also meet functionality, with simple and original solutions thought for the hunter.

Perfect mix of walnut and polymer to maximize performance. From the fore-end insert to the trigger guard and over to the kick-off interface, each polymer component of the A400 Xplor has been conceived to optimize form, weight and functionality. Green receiver: a true cosmetic alternative respectful of even the most classic tastes.

The finishing of the A400 Xplor Unico's receiver is an absolute innovation in the world of hunting shotguns and represents the union between the protective characteristics of anodizing and the exclusive green color that renders the A400 Xplor truly "Unico", a green technological beast.

Gun Pod under receiver

A300 Outlander \$1799

The key to superior performance in semiautomatic shotguns is simplicity. In keeping with the Beretta tradition, the new A300 Outlander is a soft-shooting gas-operated system semi-auto which combines the reliable Beretta bolt with falling block (locked breech) with an improved gas valve with a self-cleaning cylinder and piston, so that excess pressure caused by the most powerful cartridges can be decreased automatically.

686 SILVER PIGEON 1 \$3175
GAUGES: 12, 20, 28, 410

The new 686 Silver Pigeon 1 is a stunning new Beretta over and under, blending the Beretta tradition of excellence with a never before seen price. • Walnut stock and fore end with matt oil finish. • Beautiful engraved receiver. • Available in game and sporter models. Game model : 12ga, 20ga, 28ga and .410ga, all with Multichoke and available in 28" and 30" barrel lengths. Sporting model: 12ga, with flush Optimabore chokes and available in 28" and 30" barrel lengths

ALL BENELLI FIREARMS AVAILABILITY AND PRICES SUBJECT TO SUPPLIERS VARIATIONS

Cordoba

Inspired by the high volume dove shooting found around Cordoba, Argentina, the Cordoba is a lighting fast hunting gun with all the advanced features of a serious sporting clays shotgun. 10mm sporting rib favoured by competition shooters and porting to keep barrel climb to a minimum.

Cordoba 28" 12g 20g \$3989

Cordoba Max4-HD 28" 12g 20g \$4245

Supersport

The ultimate "speed gun" for sporting clays. Its recoil-dampening system allows the shooter to recover for the critical second shot up to 69% faster than with other comparable shotguns — that's fast!

SuperSport 28" 30" 12g \$4245

SuperSport 28" 30" 20g \$4245

Vinci 28" 12g \$2115

Vinci 28" Camo 12g \$2389

Vinci

The new Benelli Vinci, the most reliable, fastest shooting, softest kicking, lightweight shotgun in the world has arrived. Every few generations an innovative design raises the standard for firearms technology. Advanced ergonomics assure fluid gun-movement and combined with the ComforTech™ Plus recoil reduction system Benelli offers the world's softest kicking shotgun. In recent lab test results, the competition was shown to have up to 72% more felt recoil than the new Benelli Vinci.

Super Black Eagle II

The workhorse of the Benelli semi-auto line. Light, nimble, but ruggedly built, the Benelli M2 is built around the ultra-reliable Inertia Driven® bolt mechanism. The Inertia Driven® system allows the M2 to digest nearly any 12-gauge cartridge, from 2 3/4" target loads to the heaviest 3" magnums. The ComforTech™ recoil system for the M2. This revolutionary system reduces felt recoil by up to 48%, and cuts muzzle climb by 15%.

Benelli 3 Shot Mag Extensions \$299

M2 Field

At the heart of this new pump gun is a lightweight steel skeleton framework over-molded with a high-tech polymer, making the new SuperNova super light, super strong and almost completely impervious to any weather condition. But the SuperNova isn't just tough on the outside; with its dual-action bars and two-lug rotary bolt head that locks up steel-to-steel inside the barrel, the SuperNova is rock solid to the core. Chambered for 2 3/4" and 3" shells and 3 1/2" Magnum loads.

BROWNING

Pair Belgian Browning Trap and Skeet \$6500

Holland And Holland Cased 12 Gauge SBS \$15000

Commissioned by Captain G.B. Walker esq. New 12 Bore bar action. Snap Breech Loader Double Gun. Bend 2 1/8 + 1 5/8. Length 14 1/2 in. The gun was completed circa 1881. Rose Brown Damascus barrels. In excellent condition. Minor restorative work performed by Robert Dolimore. Viewing by appointment only.

Remington

Versa Max

Versa Max 12ga Semi Auto \$2299
Versa Max Camo 12ga Semi Auto \$2559

Proven in the field and in extreme tests of endurance with thousands of test rounds, the Versa Max cycles 12-gauge loads with ultimate consistency, softer recoil and less maintenance than you've ever experienced.

Model 887 Synthetic 12g 28" \$679
Model 887 12g MAX4-HD 28" \$869

Armor-clad pump-gun to handle the most extreme conditions on earth. The most durable and reliable shotgun ever built, it has no external surfaces to rust. ArmorLok™ construction process seals the receiver and barrel in a vault of weather-impervious synthetic armour, so you can wipe it down with your wet dog or a decoy bag at the end of the day. Overmolded surface is built to withstand abrasion whether that's barbed wire, gnarly thorns or the bottom of a Jon boat. And when it's time for action, our revolutionary new SuperCell™ recoil pad so effectively reduces rearward force that it makes a 3" mag 12 gauge feel like a light field load. This is our softest-shooting pump gun ever.

11-87 Sportsman Synth 12g 3" 26" 28" 20g 26" \$1139

Reliability has always been a longstanding hallmark of Remington, autoloaders. The Model 11-87™ is no different. Its patented pressure-compensating gas system is the biggest reason why. The same gun you use one day on the skeet range can be used the next day in the goose blind. And while many have tried to copy its dependable performance and versatility, none have come remotely close. Take the time-honored, all-weather dependability of the Model 11-87 action and combine it with the capability to handle high-payload shotshells. Now prepare to rule the flyway. Ultimately versatile for today's varied waterfowl (or any other) hunting situations.

If the Model 870™ were introduced today, it would be hailed as a major advance in pump-action shotgun design - The ultimate in strength, durability, silky-smooth bind-free action, and sleek classical lines. Yet this remarkable shotgun has been around for almost half a century, and has become the best-selling shotgun of any type in history, with OVER 7 MILLION sent out into the world.

870 Wood Blue 12g 28" 3" Magnum Modified Rem Choke \$639
870 Wood Blue 12g LH 28" 3" Magnum Modified Rem Choke \$699
870 Wood Blue 20g 28" 3" Magnum Modified Rem Choke \$639

870 Synthetic Blue 12g 28" 3" Magnum Modified Rem Choke \$639

Superior design and inherent strength of America's favourite pump shotgun, • Super Magnum receiver same size as all 12-gauge Model 870™ for same balance point • Bolt design keeps cycle stroke equal for these lengths of 12g shotshells • Magazine capacity is four 2 3/4" and 3" shells • Available in wood laminate, synthetic and camouflaged versions.

870 Combo 28" 12g \$899

Ultimate versatility is provided by the Model 870 Express Super Magnum Combo. Standard Super Magnum with checkered laminated stock, vented recoil pad, 3" chamber and 28" vent rib barrel with a Modified Rem™ Choke. Coupled with this is a 3" chambered, 20" Slug barrel with rifle sights.

870 Express Synthetic 7 Round Mag 18" 12g \$739

TriNyte Corrosion Control System for use in the most extreme conditions on earth. 7-round capacity 12g (2 3/4" and 3").

MP-153 3" 12g Synthetic \$799
MP-153 3.5" 12g Synthetic \$799

YouTube/reloadersnz

Popular semi-automatic smoothbore shotgun offers a wide range of applications: from various kinds of hunt and target shooting to law enforcement and personal defence. At present time MP-153 is the only domestic specimen of semi-automatic shotgun chambered in 12/89 and showing dependable performance with the whole range of 12 gauge cartridges – from 2 3/4" to 3 1/2". Gas-operated system. Gas cylinder accommodates an automatic pulse regulator. The breech-block being attached directly to the barrel provides stable and durable lock and relieves the chamber when a shot takes place. Receiver is made of aluminium alloy. Gas exposed elements (bore, chamber, piston, gas chamber, external surface of magazine tube) are chrome plated. Valve and piston rings are made of stainless steel. Removable hammer-type trigger group with safety system. Safety system prevents discharge while the bolt is not completely locked. Non-automatic safety that blocks the trigger. Under-barrel tube magazine has improved cut-off system. An extender can increase the magazine capacity.

**DT11 \$POA****DT11**

ONE HIT, ONE SHOT, ONE VICTORY. Beretta is proud to announce the launch of the new competition shotgun DT11. Born from the legendary DT10 Trident, the Beretta competition over and under that has collected more medals in competition than any other shotguns, the new DT11 will astonish you with its qualities and performance. New Steelium Pro barrels, a new look, a new balance thanks to the wider receiver, ergonomics controls, the attention to detail in full respect of design and aesthetics: nothing has been left to chance. Because the shooter has been our target And the DT11's top performance is the result.

682**OPTIMA-BORE® – OPTIMACHOKE®**

Some models of the 682 Gold E feature the new Optima-Bore® barrel profile that reduces felt recoil and improves shot distribution. The new long and thin Optimachoke® tubes, also available in the extended version, ensure consistent shot distribution year after year. Top and side ribs are ventilated to dissipate heat as well as improve pointability and target acquisition. They differ from model to model. Barrels are chrome lined internally and have a deep blued finish.

DETAILS THAT MAKE A DIFFERENCE

Triggers on all 682 E's are adjustable for length of pull fit to three positions to better fit the gun to the shooter's hand and shooting style. Two trigger shoes are supplied: one with a canted surface for right- or left-handed shooters and one with a wide, symmetrical face. Trigger pull is precise and lock times assured through the use of powerful core springs and sturdy alloy firing pins. Exceptional durability is ensured by self-adjusting, dual conical locking lugs, replaceable hinge pins and barrel shoulders, hard chrome-lined barrels and chambers, and obviously thanks to the quality of raw materials, the precision of machining and the perfection of heat and surface treatment. A newly designed ABS hard case, featuring the exclusive double handle, is included.

PRECISION FIT STOCKS

This is the answer. It will adjust precisely in any direction to put you exactly where you want to be on the target. It allows you to hold where you're comfortable in any situation, easily change the length of pull for summer or winter, and control recoil for any load. Available for: K-80, Perazzi, Beretta (not DT-10), Ljutic, Browning Citori. Browning BT-99, Kreighoff KS-5. These units have been developed to make shooting an even greater pleasure. These devices are designed to provide you with very serious shooting tools. They enable you to get a precise gun fit and a level of felt recoil reduction that is unsurpassed by any devices currently on the world market.

**Stock & Grip Complete \$1699**
Spare Grips \$299**Ultimate Fit Comb \$195**

Established in 1893 Miroku not only benefits from a great gun-making experience but also from the Japanese tradition of precision work with steel and wood. Because of this heritage, Miroku guns are technically perfect and pleasing to the eye. For all Miroku shotguns quality is consistent, their strength and style is legendary. In the hand, their balance is perfect, and as one has come to expect from Miroku the finish is impeccable.

Back bore technology to reduce shot deformation and increase pattern density but unlike the Miroku MK-38, the Miroku MK-10 is a multi choke gun allowing you to change your choking according to circumstances. Fitted with a tapered 13mm to 10mm rib your eye is easily guided along the sighting plane to the Target while the lateral ventilated ribs aid your swing. To ensure a full grip the MK-10 has a generous palm swell incorporated into the stock and to help you adjust exactly to your requirements. Trigger Pull length is adjustable.

LEATHER LOOK GUN CASES: All Miroku guns are supplied with a high quality leather look gun case valued at \$250.

Patternmaster

The first revolutionary development in shotgun chokes in over 500 years. The secret is the studs inside Patternmaker. The slow the wad for a fraction of a second and as it pauses – completely within the choke tube – the shot charge leaves the barrel undisturbed by the wad and the gases. When the other choke manufacturers saw how well Patternmaster worked they threw out all the other rules and tried anything and everything. The range is over 40 different chokes for everything from skeet to 20g.
