PARROT CK3100 LCD Black Edition

Find your mobile phone's information on a small LCD screen

The CK3100 LCD Black Edition car kit displays your mobile phone's information on an LCD screen: incoming call number, phonebook, last number called, and so on. The ingenious screen / keypad can be mounted wherever users want on the dashboard to provide the optimal viewing angle for greater comfort and useability.

Make calls hands-free with the voice recognition feature

When users get in their car and start the engine, the kit immediately connects to their mobile phone. With its voice recognition feature, drivers say a name and the kit automatically dials the number. You don't have to touch your phone.

Choose a kit that integrates seamlessly into your car for superior audio quality

The car's speakers accurately reproduce the caller's voice. The microphone captures the sound of your voice while filtering out the surrounding noise. When a call comes in, the car radio automatically mutes to allow for a clear conversation.

Take advantage of the universal Bluetooth® solution

The CK3100 LCD Black Edition is compatible with all *Bluetooth* mobile phones on the market.

Control unit fitted beneath the dashboard by a professional

Microphone

Wireless technology

Bluetooth wireless technology enables voice and data to be sent via a short distance radio link. It connects a wide range of electronic equipment without requiring additional cables. Furthermore, it extends the communication possibilities for mobile phones and a large number of devices. The *Bluetooth* Stereo (A2DP) profile uses the same short distance radio frequencies to transport music files from one peripheral to another.

Phone & device compatibility

Parrot products are compatible with almost every *Bluetooth* mobile phone. Refer to www.parrot.com

Example: Asus, Audiovox, BenQ, Blackberry, Eten, Grundig, HP, HTC, I-Mate, LG, Motorola, NEC, Nokia, Palm Treo, Panasonic, Qtek, Sagem, Samsung, Sendo, Sharp, Siemens, Sony Ericsson, SPV, Telital, VK mobile and many others.
