

**The Redfield Rifle Scope Full Lifetime Warranty**

Redfield is owned by Leupold & Stevens, Inc., an American, family owned company that has been in business for over 100 years. Redfield's success has been built on our commitment to your absolute satisfaction, and our commitment to building the best optics for hunting and shooting sports. It's for these reasons that we offer the Redfield Rifle Scope Full Lifetime Warranty.

If any Redfield Revenge or Revolution rifle scope is found to have defects in materials or workmanship, we will, at our option, repair or replace it. FREE. Even if your customer is not the original owner. No warranty card is required. No time limit applies.

**The Redfield Limited Lifetime Warranty**

Redfield sporting optics are engineered and manufactured to standards set and monitored by Redfield, with the goal of reliable performance at an accessible price.

Redfield non-electronic products are warranted for as long as the original owner owns them. We warrant them to be free of defects in materials and workmanship, and to function satisfactorily under normal use conditions. If at any time a Redfield non-electronic product is found to have a defect in materials or workmanship, Redfield will, at our discretion, repair or replace it free of charge, when requested by the original owner.

Redfield digital laser rangefinders are warranted by the Redfield Electronics Warranty, and are protected from defects in materials and workmanship for ONE YEAR from the date of purchase.

All warranties are void if damage results from unauthorized repair, alteration, or misuse. Both warranties are given solely to the original owner and are not transferable.

the SOUL of the  
AMERICAN HUNTER™

2012

**REDFIELD**

the SOUL of the AMERICAN HUNTER™

Opening day. Last shooting light. End of season. If there's one thing the American hunter is passionate about it's the time he or she can spend in the stand, the blind, or on the hunt—where each passing minute is more precious than the one before it. We understand.

For more than 100 years, Redfield has been right there with you, building riflescopes and optics that match that spirit and put success within reach of virtually any hunter. No-nonsense design. Intelligent features. Time-honored quality. All at a price that is both affordable and packed with value.

So whether you choose an American-made Revolution™ riflescope, a Rampage™ spotter, Rebel™ or Renegade™ binocs, Raider™ rangefinder, or our all-new Revenge™ riflescope with Accu-Ranger Ballistics System™, you'll know you're carrying optics that are cut from the same cloth as you.

Pick up a Redfield and feel the passion.

# EXACT YOUR REVENGE™

R

## RANGE-FINDING RIFLESCOPE\*

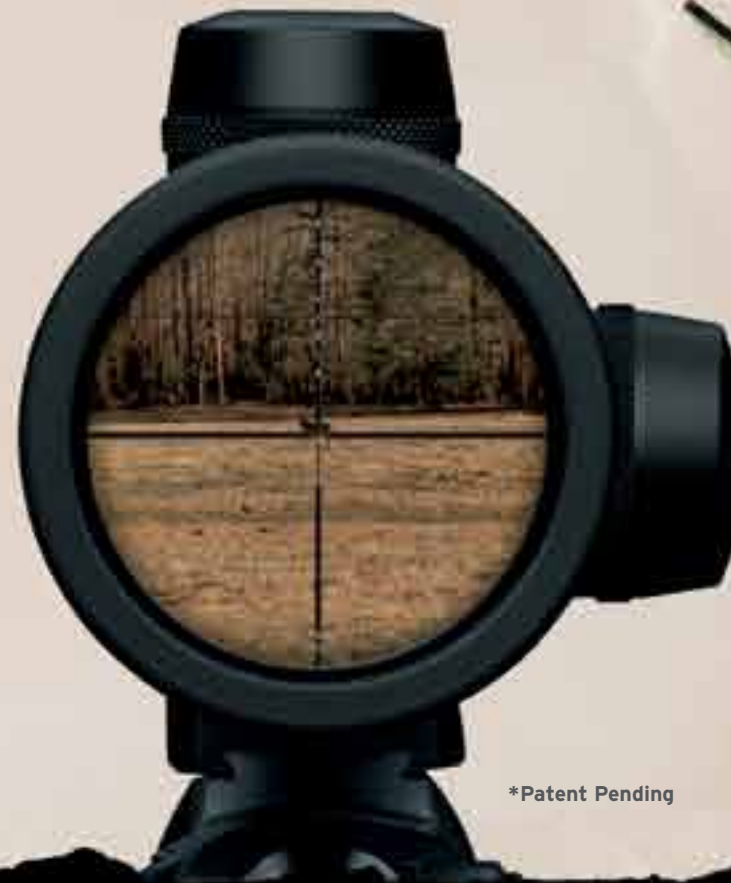

Misjudged distances lead to missed shots. Don't get mad. Get even. Our new Revenge™ riflescope features an exclusive "in-scope" ballistic ranging system that puts you dead on the money. Bright, clear optics. Rugged reliability. And, accurate range-finding all in one package.

To use the Accu-Ranger reticle, **simply bracket the torso of the animal** between the horizontal line and top post of the reticle. The corresponding number is the yardage to the target.

Once you determine range, **zoom to the highest power** and use the corresponding ballistic holdover points as your aimpoint.

\*Patent Pending

## REVENGE

THE DISTANCE BETWEEN YOU AND THAT TROPHY JUST GOT SHORTER.

### REVENGE™

- + Accu-Ranger Ballistics System delivers one-of-a-kind riflescope performance that is always dead on the money.
- + Our new Revenge riflescope is an optical marvel, combining a bright, crystal-clear sight picture with an exclusive "in-scope" ballistic ranging system. No other scope in the world packs so much performance, function, and value into one neat and tidy package.

### ACCU-RANGER BALLISTICS SYSTEM™

- + Misjudged distances lead to poor shots and unfilled tags. Don't get mad. Get even with our exclusive Accu-Ranger Ballistic System (available on selected models). The only optical/mechanical ranging system of its kind, Accu-Ranger will give you accurate ballistic ranging within your scope. No going back and forth between scope and rangefinder. No excess movement. Just set up, determine the range, adjust your holdover, and put your bullet downrange with incredible accuracy.

### FAST-FOCUS EYEPIECE

- + Lets you quickly and easily adapt to changing conditions.

### 100% WATERPROOF / FOG PROOF / SHOCK PROOF

- + Revenge riflescopes are built to take on the elements, no matter how bad they get. Nitrogen-processed maintubes are totally waterproof and fog proof, and are guaranteed to stay that way for the life of your scope. Redfield rugged reliability means the optics can withstand the heaviest recoiling rifles without missing a beat.

### FULLY MULTICOATED LENS SYSTEM

- + Revenge riflescopes feature our Fully Multicoated Lens System to reduce glare and diffusion. Maximum light transmission is delivered to your eye so you see a bright, clear image in all lighting conditions.

### 1/4-MOA POP-UP RESETTABLE FINGER CLICK ADJUSTMENTS

- + Quickly adjust for windage and elevation (Revenge 6-18x44mm has 1/8-MOA adjustments).

### FULL LIFETIME WARRANTY

- + We don't just say "for a lifetime of hunts." We mean it. Our Revenge riflescopes are covered season after season, hunt after hunt. If you have an issue, let us know, and we'll make it right. For more information on our warranty, see the back cover.

### 13 DIFFERENT MODELS

- + Revenge is available with and without the Accu-Ranger Ballistics System (ABS), in a variety of reticle options. See chart on page 14.

# ACCU-RANGER BALLISTICS SYSTEM

## REVENGE

### MISJUDGED DISTANCES LEAD TO MISSED SHOTS. DON'T GET MAD. GET EVEN.

Redfield Revenge riflescopes offer an unprecedented combination of ranging capability and long-range aiming precision. For those scopes equipped with ABS, simply adjust the magnification until your target fits the bracket and read

the distance indicated on the top post of the reticle. Once the distance has been determined, adjust the scope to high magnification and aim with the appropriate holdover point. Each reticle offers ranging brackets for 16" and 25" targets,

while the Varmint reticle has an additional 8" bracket. The 8" bracket can be used for prairie dogs, the 16" bracket can be used for deer, and the 25" bracket can be used for elk and/or coyotes as shown in the following diagrams.

#### ABS HUNTER RETICLE

#### 25" Bracket

#### 16" Bracket

Caliber	Bullet Wt.	Velocity
.223 Remington	40	3800 fps
.22-250 Remington	55	3650 fps

#### ABS CROSSBOW RETICLE

#### 16" Bracket

#### 4-PLEX REVENGE RETICLE

+ Heavy posts stand out against cover and in twilight conditions pointing boldly to the intersection. Centering is a snap. The thin crosshairs obscure little.

#### FINE PLEX RETICLE

+ Thinner posts and crosshairs allow for less target coverage, making precision shots on small targets easy.

**REVENGE 2-7x34mm**  
Finish: Matte  
Reticles: 4-Plex or ABS Crossbow

+ For woodlots, thickets, or dark timber, this Revenge is the answer. Mount it on a crossbow or short action rifle to save weight, and the 7x magnification makes this scope perfect for hunting over meadows, clear-cuts, and broken country.

**REVENGE 3-9x42mm**  
Finishes: Matte or Silver  
Reticles: 4-Plex, ABS Hunter, ABS Sabot ML

+ The 3-9x42mm offers great flexibility with a magnification range that combines low-power field of view and high-power precision. The ranging abilities of the ABS Sabot ML model give blackpowder hunters a distinct advantage in the field.

**REVENGE 3-9x52mm**  
Finish: Matte  
Reticles: 4-Plex or ABS Hunter

+ Squeeze a little extra light out of the day. The 3-9x52mm adds maximum brightness for easy targeting of deer and other game at dawn, dusk, or for when the weather turns nasty.

**REVENGE 4-12x42mm**  
Finish: Matte  
Reticles: 4-Plex, ABS Hunter, ABS Varmint

+ When long range shots are the norm, choose the Revenge 4-12x42mm. Crank it all the way up to 12x magnification and you're ready for everything from pronghorns and muleys to whitetails and woodchucks.

**REVENGE 6-18x44mm**  
Finish: Matte  
Reticles: Fine Plex or ABS Varmint

+ For tiny targets and smaller groups, the 6-18x44mm provides high magnification, 1/8-MOA adjustments, and an adjustable objective. Whether you're targeting coyotes, prairie dogs, or paper, give your Revenge a power boost.

## REVOLUTION

Made in **U.S.A.**

**A NO-NONSENSE SCOPE FOR NO-NONSENSE HUNTERS;  
REVOLUTION™ HAS EVERYTHING YOU NEED, AND NOTHING YOU DON'T.**

### AMERICAN CRAFTSMANSHIP

+ With a name like Revolution, it's only fitting that this scope be made right here in our Beaverton, Oregon, facility. Buy with confidence knowing your Revolution was crafted with pride in America.

**U.S.A.**

### ILLUMINATOR LENS SYSTEM™

+ Quality lenses can make or break a hunt. Our Illuminator Lens System™ gives you the clearest image for the cleanest shot. So take a deep breath and squeeze the trigger with complete confidence. If you're on the mark, get out your knife. Premium lenses and vapor deposition, dielectric coatings deliver exceptional light transmission in the low-light, blue wavelengths that dominate at dawn and dusk, when game is most active.

### RAPID TARGET ACQUISITION™

+ See your buck, target your buck. It's easy with Revolution's generous eye relief and Rapid Target Acquisition™ eyepiece. No searching for the visual sweet spot when time is critical.

### RUGGED RELIABILITY

+ Every scope we design gets put through its paces. Our tests dish it out to make sure every scope is tough as nails, fully waterproof, and ready to hunt.

### ACCU-TRAC® ADJUSTMENTS

+ Precision, stainless steel, 1/4-MOA finger click windage and elevation adjustments let you quickly and easily zero your rifle on the range, and confidently correct for windage or elevation in the field. When combined with Redfield's exclusive Accu-Range™, you can quickly zero and place shots right on the money, even at long range.

### 100% WATERPROOF / FOG PROOF

+ These scopes are built to take anything Mother Nature can dish out: driving rain, sleet, ice, and snow are no match for the rugged, watertight Revolution. Nitrogen-processed maintubes are totally waterproof, and are guaranteed to stay that way, so the elements will never dampen your hunt.

### REDFIELD'S RIFLESCOPE FULL LIFETIME WARRANTY

+ We don't just say "for a lifetime of hunts." We mean it. Our Revolution riflescopes are covered season after season, hunt after hunt. If you have an issue, let us know, and we'll make it right. For information on our riflescope lifetime warranty, see the back cover.

### LOCK IT DOWN WITH LEUPOLD®

+ Built right alongside your Revolution riflescope, Leupold® rings and bases are the right choice for any rifle. Designed to withstand the same rigors and punishment as your scope, Leupold mounts will keep your scope squarely in place atop your favorite firearm. Learn more on page 14.

Accu-Range is ideal for fast target acquisition at close range or on running game.

Accu-Range is also ideal for taking game cleanly at longer ranges.

#### ACCU-RANGE™ RETICLE

+ As one of the first with bullet drop compensation, Redfield's original Accu-Range pioneered the reticles we take for granted today. The new Accu-Range blends precise holdover points hunters need with a bold center that naturally leads the eye for fast shot placement at close quarters.

The reticle comes with precise aiming points that work with most popular hunting loads. For many standard cartridges (Group 1 at right), sight in at 200 yards with the center crosshair, and the remaining hold points are dialed in up to 500 yards. The bottom of the circle intersects the vertical crosshair at the 300-yard aim point, the dot is your hold for 400 yards, and the bottom post provides a 500-yard aiming point. For faster, magnum-caliber rifles shooting light bullets, you can sight in at 300 yards, and have hold points

for 400, 500 and 600 yards.

#### CARTRIDGE GROUPS FOR USE WITH THE ACCU-RANGE™ RETICLE

GROUP 1 (200 YARD ZERO)		
Caliber	Bullet Wt.	Velocity
.243 Winchester	100	2900 fps

7mm WSM	140	3225 fps
7mm STW	140	3325 fps
7mm RUM	140	3450 fps
7mm RUM	160	3250 fps
.30-378 Weatherby Mag	180	3400 fps
.300 RUM	180	3400 fps
.270 Weatherby Mag	130	3200 fps
7mm Remington Mag	150	3100 fps
.300 Weatherby Mag	150	3375 fps

(Less than 35 inches of drop at 500 yards)

#### 4-PLEX RETICLE

+ Heavy posts jump from the background, while guiding the eye to the image center quickly. Thin crosshairs allow precision placement of your shot.

## REVOLUTION

Made in U.S.A.

**REVOLUTION 2-7x33mm**  
Finish: Matte  
Reticles: Accu-Range or 4-Plex

+ If you hunt woodlots, thickets, or dark timber, this Revolution is for you. Mount it on a lever gun or short action to save weight and get the job done. Plus, the 7x magnification makes this scope at home hunting over meadows, clear-cuts, and broken country.

**REVOLUTION 3-9x40mm**  
Finish: Matte  
Reticles: Accu-Range or 4-Plex

+ This go-to scope gives hunters great flexibility with a magnification range that combines low-power field of view and high-power precision. This Revolution will be right at home in any terrain you fill your tag.

**REVOLUTION 3-9x50mm**  
Finish: Matte  
Reticles: Accu-Range or 4-Plex

+ Need to squeeze a little extra light out of the day? The 3-9x50mm adds maximum brightness for easy targeting of deer and other game at dawn, dusk, or when the weather turns.

**REVOLUTION 4-12x40mm**  
Finish: Matte  
Reticles: Accu-Range or 4-Plex

+ For those wide-open spaces, cutovers, clear-cuts, and bean fields where long-range shots make a difference. Dial it all the way up to 12x magnification, and you have a scope for everything from pronghorn and whitetail to woodchucks.

**GREAT  
OPTICS.  
GREAT  
PRICE.  
THAT'S  
OUR  
VISION**

The imported full-size Rampage™ spotting scope delivers big-time performance at a hunter-friendly price. If you need more magnification on your hunts, this 20-60x60mm spotter fits the bill. The Rampage comes equipped with a standard tripod adapter, so you can mount it on most standard tripods or window mounts.

And for 2012 we've expanded our Rampage line to give you the option of an angled eyepiece with an 80mm objective. The 45° angle provides greater comfort and ease of use at the range or in the field.

**NEW FOR  
2012**

**RAMPAGE 20-60x80mm ANGLED EYEPIECE KIT**  
Finish: Black

- + This all-in-one kit comes complete with a 20-60x80mm Angled Eyepiece Rampage, tripod, view-thru case with strap, soft storage case, and covers for both the eyepiece and objective.

**RAMPAGE**

**BAK4 PRISM SYSTEM**

- + These top-quality prisms deliver unmatched image clarity and resolution, so you get a crisp, clear image every time. No dull or muddled reproduction, just accurate color fidelity and sharp edge clarity to help you pull game from their surroundings.

**FIELD OF VIEW**

- + The generous field of view—114 feet at 20x; 51 feet at 60x—means you get the whole picture. Don't miss a single detail as you scan the ridgeline for your trophy bull.

**POLYCARBONATE BODY**

- + Made of the same stuff as bulletproof glass, the body is exceptionally light, yet remarkably tough. It will be there with you, standing up to even the most daunting terrain.

**RETRACTABLE LENS SHADE**

- + Reduce glare and increase visibility when spotting in wide-open country.

**LIMITED LIFETIME WARRANTY**

- + Quality craftsmanship backed by Redfield's Limited Lifetime Warranty means your spotting scope will be with you, season after season.

**RAMPAGE 20-60x60mm KIT**  
Finish: Black

- + Includes a 20-60x80mm Rampage, tripod, view-thru case with strap, soft storage case, and eyepiece and objective covers. This complete spotter kit is at home at the range or on the hunt.

**REBEL**

New for 2012, the Rebel line expands to include new 8x42mm and 10x50mm models. You get more choice and more flexibility to tailor your binoculars to your specific needs. The slim Rebel is a perfect all-purpose optic for the American hunter. Available in 8x and 10x models, this rugged bino will get the job done from dawn to dusk. A short minimum focus distance and impressive field of view make the versatile Rebel a good fit for almost any hunting situation.

- + Integrated twist-up eyecups provide a great fit, with or without glasses.

**REBEL**  
8x32mm | 8x42mm | 10x42mm | 10x50mm  
Finish: Black

**RENEGADE**

Traditional design at a great price, the Renegade is available in either 7x or 10x models. No matter the light, you'll spot game with ease thanks to a Porro prism design that doesn't flatten the image, giving you 3-D reproduction with genuine depth of field.

- + No fumbling around, even with gloves, thanks to heavy-duty focus knob knurling.

**RENEGADE**  
7x50mm | 10x50mm  
Finish: Black

**BAK4 PRISM SYSTEM**

- + Brightness. Resolution. Edge clarity. Three things you need to spot a rack in tangled timber or hair through the brush, all thanks to the advanced BAK4 Prism System. These top-quality prisms help define objects so you can easily distinguish big game from background.

**FULLY MULTI-COATED LENSES**

- + Fully multi-coated lenses guarantee a bright, sharp image to spot your buck. These lenses maximize transmission of fading light for strong performance in twilight conditions. Eliminate muddy images and missed deer thanks to crystal-clear resolution and accurate color reproduction.

**ARMORED CONSTRUCTION**

- + Aluminum body construction stays fog-free to keep you glassing in all conditions. Built tough, these binoculars can hack field, thicket, and creek bed without worry. Includes a soft case, comfortable neoprene neckstrap, and durable lens covers.

**TWIST-UP EYECUPS**

- + Flexible and accommodating, these binoculars are equipped with easy twist-up eyecups for use with or without eyeglasses.

**LIMITED LIFETIME WARRANTY**

- + Imported by Redfield and backed by our Limited Lifetime Warranty means these will be with you hunt, after hunt, after hunt.

# RAIDER 550

When a big buck sneaks through the clearing you've scouted for months, don't rely on a guesstimate. Shoot with confidence; knowing the Raider 550 will put you right on the money. Imported by Redfield, the lightweight, compact Raider 550 uses a precision laser for fast, accurate ranging of your trophy.

## COMPACT SIZE

- + At less than 4 inches long and under 5 ounces, the Raider is a powerful tool in a tiny package. Easy to carry and handle, it's a little rangefinder that makes a big difference.

## MAGNIFICATION

- + The 6x magnification lets you get up close and personal while ranging. Make sure you're dialed in on that deer, or use your Raider as an instant spotter when game is close.

## PEAK PERFORMANCE

- + High-speed, digital processor and powerful laser combine to deliver quick, accurate ranging in the field.

## BATTERY POWER

- + The Raider's efficient energy use means longer battery life, so it will be ready whenever you are. And when the battery does go dry, simply replace it with a common CR-2 battery.

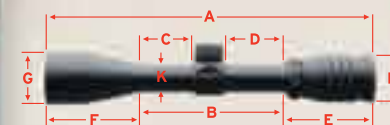

**RAIDER 550**  
Finishes: Black or Mossy Oak® Break-Up® Infinity™

## EASY TO USE

With simple one button operation, the Raider is ideally suited for fast action in the field. One press of the button ranges your target instantly, while a press and hold will let you scan the landscape, returning ranges for various landmarks or big game.

**WHEN YOU MOUNT YOUR REDFIELD RIFLESCOPE, USE LEUPOLD RINGS AND BASES.**

Available in a black matte or silver finish, these machined steel mounts will securely and reliably hold your scope atop your favorite rifle. Rings and bases, machined in our Oregon factory, undergo the same scrutiny and quality control as our riflescopes, so you know their performance is unmatched. For more information on Leupold mounting systems, visit [www.leupold.com](http://www.leupold.com).
