Please provide the following information on your purchase orders:

- ★ Purchase order number
- ★ Complete ship to address (we cannot ship to a P.O. address)
- ★ Complete bill to address
- ★ Phone number including area code
- ★ Contact name or purchasing agent
- ★ Complete model number
- ★ Quantity for each model
- ★ Complete description of each model
- ★ Specify voltage or gas type
- ★ Special shipping instructions

Quik Ship Program

We are excited to share with you our new **Quik-Ship Program** which guarantees shipment on select models within 24 hours!

Items in the price book highlighted in red are Quik-Ship items.

Terms of Quik-Ship Program

- The order cannot exceed more than three units of each Quik-Ship item in order to guarantee shipment by the next business day.
- Quik-Ship products sent in to the factory by 12:00 p.m. (Noon) Central Time will be shipped within the next business day.
- The order cannot be combined with other non-Quik-Ship items in order to guarantee shipment by the next business day.
- We reserve the right to hold free freight orders until order is complete.
- Shipment of any equipment that is part of the Quik-Ship Program that exceeds UPS size or shape and goes by an LTL carrier must ship on our carrier and be prepaid and add. Other carriers may not arrange to pick up timely.
- Orders must have the voltage and or gas type specified and the prices on the PO must be correct according to our records to meet the criteria for shipping by the next business day.
- Orders for equipment with LP gas designations, special elevation requirement or international voltages do not qualify.
- Orders from Dealers on credit hold or accounts exceeding credit limit with Star do not qualify.
- Items may be removed from this program without notice at any time.

Items in the price book highlighted in red are Quik-Ship items.

Ultra-Max® Griddles

Proven Performance. Proven Reliability.

- NEW heavy-duty metal knobs
- NEW gas models feature 40,000 BTU burners every 12" (manual gas & mechanical snap action griddles are rated 30,000 BTUs every 12")
- 24", 36", 48", 60" and 72" widths
- Models available in gas or electric

1 Ultra-Maximum Griddle Surface

1" thick plate, offering optimal heat distribution, retention, and energy efficient cooking consistency. 24" deep cooking surface is ideal for high volume operations.

2 Chrome Plating

Reduce energy consumption by as much as 30%. Quick and simple cleaning reduces labor costs dramatically.

3 Internal Plate Sensor

Measures the temperature of the griddle plate 3/16" from the griddle surface. Ultra-fast temperature recovery. (Not available on manual griddles.)

4 40,000 BTU Tubular "U" Shaped Steel Burners or Custom-Designed 4350-Watt Elements (spark ignition models)

Positioned at 12" increments of width to provide a superior cooking performance. Manual gas & mechanical snap action griddles are rated 30,000 BTUs every 12".

- NEW increased max temperature to 550°F (throttling & snap action thermostats)
- Manual, mechanical snap action, snap-action and electric controls
- Electric models feature custom designed 4350-watt elements every 12"

5 Cool to the Touch

Vented stainless steel front panel and large bull nose for cooler operating zone.

6 Variety of Temperature Control Options

- Manual control with standing pilot
- Mechanical snap action
- Snap-action thermostatic control system with safety pilot
- Electric thermostatic control

7 Tapered Steel Splash Guards

The 5" stainless steel splash guard wraps around 3 sides, offering your operators maximum protection from grease and spills.

8 Grease Management

All units come with an over-sized, 3-1/2" spatula-sized front grease trough and grease chute.

9 Heavy-Duty Construction

- All welded body construction
- Eurostyle curved stainless steel front panel
- Stainless steel side panels

\$200.00 UPCHARGE FOR 230V CE DECLARED ELECTRIC GRIDDLES

We have equipment stands! See page 11

Ultra-Max® Char-Broilers

Maximum Performance. Maximum Control.

- NEW 20,000 BTU cast iron burners every 6"
- NEW steel alloy radiants
- NEW heavy-duty metal knobs
- Heavy-duty steel alloy radiants or natural lava rock briquettes
- 24", 36", 48", 60" and 72" widths
- Heavy-duty cast iron, fully adjustable grates

1 Ultra-Maximum Grill Space

Allows for 30% more cooking space than competitive models.

2 Heavy-Duty Adjustable Cast Iron Grates

- Grates can be individually positioned (flat or slanted) to accommodate a variety of broiling needs.
- Reversible with a thin side for searing and a thick side for more delicate menu items.
- Round grates are also available.

3 Superior Performance Steel Alloy Radiants

Exclusive full-length radiants are constructed of the highest quality steel alloy and are backed by a three-year warranty.

4 20,000 BTU Cast Iron

Tubular Burners

20,000 BTUs are positioned every 6" of width and include standing pilot lights.

5 Cool-to-the-Touch

Keeps heat away from hands and protects the controls. Vented stainless steel front panel and large bull nose provide a cooler operating zone.

6 Steel Drip Deflector

- Located under the burners deflects grease before it falls into the water pan.
- Grease smokes off the deflector to enhance flavor of the grilled product.
- Keeps heat away from the water pan to reduce the likelihood of flare-ups.

Ultra-Max® Hot Plates

The Perfect Complement to Our Char-Broilers and Griddles

- NEW step-up models
- NEW heavy-duty metal knobs
- 12", 24", 36" and 48" widths
- 2, 4, 6 and 8 burner styles
- 30,000 BTU 2-piece cast iron burners
- Heavy-duty cast iron grates

① Heavy-Duty Construction

Features all-welded body construction with stainless steel front, side panels, bull nose and splash guard.

② Cast Iron Burners

- 30,000 BTU 2-piece anti-clogging cast iron burners for superior performance, cleanability and reliability.
- Anti-clogging pilot shield.

③ Cast Iron Grates and Non-Tilt Top Design

- Built for high volume use, stability and long life.
- Non-tilt top design makes it easy to slide pots from section to section.

④ Cool-to-the-Touch

The vented stainless steel front panel and large bull nose creates a cooler operating zone providing both comfort and safety.

⑤ Stylish Design

- Eurostyle curved stainless steel front panel provides easier viewing of controls.
- The extra heavy-duty oversized legs add a stylish appearance as well as stability and safety to your workplace.

⑥ Grease Drawer

Allowing spills and crumbs to be held safely and easily cleaned at the end of the day.

High Performance impingement ovens that will change the way you cook!

Ultra-Max® Ovens

Ultra-Max® Gas Impingement Oven

Take complete control of your kitchen operations with the one oven engineered to make your life easier and your business more profitable. The Ultra-Max Gas Impingement Oven will meet the requirements of your present menu and enable you to expand the variety of foods you offer.

Prepare pizzas, sandwiches, cookies, beef, fish, oven fries, cinnamon rolls and more! Your oven will seal in flavor and moisture while cooking food thoroughly and consistently no matter how great the volume.

Features That Will Change The Way You Cook:

- State-of-the-art, digital controls with built in programming and diagnostics, plus large LED control panel can be read at-a-glance
- Precision digital conveyor speed and temperature control for consistent, accurate cooking time
- Unique front access hinged door for easy placement of food items requiring manual placement in cooking chamber
- Extra large 3.5" x 18.9" product opening and 28" baking chamber will accommodate a variety of products from sub sandwiches to pizzas
- Stainless steel removable conveyor belt, 18" x 54" can easily handle 18" pizzas
- Conveyor belt is driven with a heavy-duty brushless DC reversible motor for years of reliable service
- Powerful steel centrifugal fan/motor combination provides hot air flow to cooking chamber
- 40,000 BTU stainless steel burner with automatic ignition for superior cooking performance
- Optional accessories include floor stand, quick connect hose, restraining cable and extended conveyor shelves

Ultra-Max® Countertop Electric Impingement Ovens

The Ultra-Max Countertop Electric Impingement Ovens are designed to handle the most rigorous foodservice demands while cooking menu items to perfection. Our ovens will meet the requirements of your present menu and enable you to expand it.

Unlike other electric impingement ovens, Holman's Ultra-Max electric ovens feature an 18" wide conveyor belt, as well as the same quality motor and other components found in our gas model. Plus, our ovens are just as compact as our competitors.

Prepare pizzas, sandwiches, cookies, fish and more! Your oven will seal in flavor and moisture while cooking food thoroughly and consistently.

Outstanding Features Include:

- Compact in design, big in volume — 37.2" x 30.4" footprint fits most commercial countertops
- Industry leading 4" x 18.9" product opening and 24" baking chamber to handle a variety of products from sub sandwiches to pizzas
- Stainless steel removable conveyor belt, 18" x 33" or 50", easily moves 18" pizzas through oven
- Easy-to-use electronic control eliminates guess work
- Precision digital conveyor speed and temperature control for consistent, accurate cooking time
- Large LED display for at-a-glance reading of time and temperature
- Powerful steel centrifugal fan/motor combination and 6,000 watt metal element provides hot air flow to cooking chamber
- Front panel removes easily for cleaning inside baking chamber
- Optional accessories include floor stands and 6-50R receptacle

CCOH-3

CCOF-4

OVENS

FEATURES

- Maximum baking capabilities in a minimum footprint.
- Ovens require only 24.4" of counter space.
- Model CCOH-3 bakes approximately 144 cookies every hour.
- Model CCOH-4 bakes approximately 192 cookies every hour.
- CCOQ-3 requires only 19" of counter space and can bake approximately 72 cookies
- Model CCOH-3 features three removable wire racks and can accommodate three 1/2 size baking pans (not included).
- Model CCOH-4 features four removable wire racks and can accommodate four 1/2 size baking pans (not included).
- High performance rear fan and heating element.
- Heavy-duty oven door hinge mechanism.
- Stainless Steel baking chamber.
- Temperature range is 175° F to 500° F.
- Model CCOH-3 features a broiler element in the top of the bake chamber providing intense heat for broiling, browning and finishing menu items.
- Timer range is 0 to 120 minutes. Heat turns off automatically at the end of the timer cycle.
- Interlock switch turns off the blower fan when the door is open minimizing heat loss.
- Illuminated baking chamber when in use.
- Door is constructed of double pane tempered glass.

The Ultimate in Two-Sided Grilling

Pro-Max® Sandwich Grills

- 10", 14" and 28" width platens for small to large foodservice operations
- Heavy-duty cast iron or aluminum platens that are durable and provide superior performance
- A heavy-duty pro-lift hinge system designed for safe and effortless opening and closing of the top platen
- Up to 3" of ultimate grilling height and a steady three to four pounds of pressure for consistent cooking performance
- An ergonomically-designed control panel which gives easy access to controls and grease drawer
- The bottom platen is equipped with a patented 3/4" splash guard for maximum protection against grease spills while keeping food on the grill
- Accurate temperature controls from 175° (79°C) to 550° (302°C)
- A removable, large-capacity grease tray located in front of the bottom platen for easy access and optimal grease management
- Optional timer and on/off three-position switch allows only bottom platen cooking
- *Tested over 4 million open and close cycles!*

Versatility Within Budget

Grill Express™ Sandwich Grills

- Superior performance with European styling at an affordable price
- Heavy-duty cast iron platens, smooth or grooved, for long life and ultimate performance
- Accurate cooking temperature with an adjustable thermostat from 175° (79° C) to 450° (232° C)
- Elements recessed within the cast iron platens for excellent heat distribution and fast recovery
- Versatile grilling height to accommodate from the flattest tortilla to a 3" sandwich
- The bottom platen is equipped with a patented 3/4" splash guard for maximum protection against grease spills while keeping food on the grill
- A reliable hinge system for effortless operation and consistent application of pressure for ideal cooking performance
- Easy clean up with a removable grease tray located in front of the bottom platen

WAFFLE BAKERS

Fresh Off Our Grills

Featuring ideal presentation capabilities, great appetite appeal and menu flexibility.

All Star Grill-Max® roller grills are designed to handle high-volume demand. Grills are available in a variety of sizes accommodating capacities from 20 to 75 hot dogs to meet your counter space needs. Many can be configured with built-in bun warmers or placed on top of bun drawers and accessorized with a number of sneeze guard options. Our roller grills are designed for 24/7 operations providing reliable performance day after day.

50SCBBC
Shown with clear door
and optional dividers

75SCBD
With built-in bun drawer

- Grill more than hot dogs: burritos, sausages, egg rolls, breaded products and much more
- Stadium seating - Slanted at a 3° to 5° slope which is ideal for showcasing products
- Built-in Bun Drawers - Roller grills with built-in bun drawers maintain a lower profile while saving space, reducing cost and providing efficient space to store buns

30SC

- Flat version available - ideal for island configurations

- Choice of Finishes:

- *Super Turn finish* - The best non-stick high-performance coating for high-volume operations; Superior grip provides flexibility for today's diverse roller grill snack foods
- *Chrome finish* - Provides stable cooking surface for traditional cooking operations
- *Duratec* - A superior non-stick coating for easy cleanup and ideal for rolling hot dogs and other sausage products (on Express models only)

- Wide rolling area lets you cook more with no additional counter space required
- Infinite temperature control allows flexibility of cooking and holding temperatures

The Steam Team

Cook and hold hot dogs and buns while keeping them fresh and moist.

Our hot dog steamers are built for easy access and easy operation. Our industry leading steamers are designed for commercial foodservice operations and will provide years of trouble-free service plus our colorful graphics are great for building impulse sales.

35SSC

- Lid opens to the side for safe and easy entry and exit of hot dogs and buns
- Top loading design for easy access
- Two full-view tempered glass windows on the operator's and customer's side
- High-capacity water pan for all-day steaming

35SSA

- Pull-down, full-view tempered glass door for safe and easy access
- Space saving design holds maximum amount of hot dogs and buns compared to other steamers
- Low water indicator light for convenience

Accessories

35B
Bun Basket -
Converts 35SSA unit
to a bun warmer

35T
Juice Tray -
Keeps water
pan clean

Typical Specifications for Galaxy

Star popcorn machine cabinet is constructed with aluminum alloy corner posts and tempered glass panels. The popping kettle is constructed of nickel plated steel and has a stainless steel shell. The kettle is heated by spiral sheath elements and is thermostatically controlled. An aluminum transfer plate is attached to the bottom of the kettle to provide equal heat distribution and heat retention in the popping kettle. The kettle is supported by cast aluminum alloy twin hanger arms which provide the safest operation. The kettle pivots on its own axis providing maximum utilization of the cabinet and provides easy removal of the kettle.

A gearless agitator shaft with an easily removable stainless steel agitator is provided for optimum popping results. An infra-red heat lamp with a stainless steel safety cage and a sheath element under the stainless steel corn pan is provided to keep popped corn fresh and warm. A stainless steel old maid drawer is provided. Lighted switches that control the kettle, agitator motor and warming functions is provided.

The cabinets have thick polycarbonate doors with full length aluminum alloy hinges. A clear polycarbonate drop panel is included. Machine is supplied with a 6 foot lead-in cord and plug. Units to be National Sanitation Foundation approved and be listed by Underwriters Laboratories.

Typical Specifications for JetStar

Star popcorn machine is constructed of extruded aluminum corner posts and has 1/8" thick tempered glass panels and two 3/16" thick plexiglass doors with full length aluminum hinges which provide easy access to the interior of cabinet. A clear polycarbonate serving drop panel provides unobstructed merchandising. Star popcorn machine is supplied with a 1000 Watt 4 oz., 6 oz. or 8 oz. capacity nickel plated steel popping kettle with a stainless steel exterior shell. A wire cage protected display lamp, heated stainless steel corn pan and stainless steel old maid drawer is included as standard. The Star popper is approved by Underwriters Laboratories and National Sanitation Foundation.

History of Star's Poppers

Around 1921, Julian R. Burch started producing popcorn machines under the name Burch Manufacturing Company. Six months later, Charles T. Manley joined him and they formed the Burch Manufacturing and Sales Company. They eventually separated and Burch went to St. Louis and started the Star Manufacturing Company. It wasn't until 1948 that Manley changed the name of the original company to Manley, Inc. Over the last 80 plus years Star has grown into one of the world's leading producers of foodservice equipment, providing solutions for a variety of operators in the foodservice industry.

The articles of incorporation for Manley Popcorn in Kansas City and Star Mfg in St. Louis, Mo. confirm this fact and can be verified through the Missouri, Secretary of State.

TERMS AND CONDITIONS

Terms are Net 30 Days with approved credit - F.O.B. Factory, Cookeville, Tennessee 38501. Prices are subject to change without notice. Orders accepted are subject to prices in effect on date of shipment.

Possession of our price list is not an offer to sell.

Merchandise may not be returned without our written consent and will be subject to a restocking charge.

No C.O.D. return shipments will be accepted.

This price list may not be reproduced or altered without our written consent.

Specifications and prices on the preceding pages are effective April 15, 2012. Star reserves the right to make product changes at any time, without notice, in specification and/or design. Star also reserves the right to discontinue items and to ship improved designs. Holman Cooking Equipment is a subsidiary of Star International Holdings, Inc.

WARRANTY

THOROUGHLY INSPECT YOUR UNIT ON ARRIVAL

Star equipment is tested for proper operation before leaving our plant to insure delivery of your unit in perfect condition. However, there are instances in which the unit may be damaged in transit. In the event you discover any type of damage to your product upon receipt, you must immediately contact the transportation company who delivered the item to you and initiate your claim with same. If this procedure is not followed, it may affect the warranty status of the unit.

LIMITED EQUIPMENT WARRANTY

All workmanship and material in Star products have a one (1) year limited warranty on parts & labor in the United States and Canada. Such warranty is limited to the original purchaser only and shall be effective from the date the equipment is placed in service. Star's obligation under this warranty is limited to the repair of defects without charge, by the factory authorized service agency or one of its sub-agencies. Models that are considered portable should be taken to the closest Star service agency, transportation prepaid. For a list of portable equipment please visit the Star website at: www.star-mfg.com under Tech Service you will find a document Warranty Service.

- ★ Star will not assume any responsibility for loss of revenue.
- ★ On all shipments outside the United States and Canada, contact factory for International Warranty.
- ★ The warranty period for the JetStar® series six (6) ounce popcorn machines and Super JetStar® eight (8) ounce series is two (2) years.
- ★ The warranty period for Ultra-Max® Griddles, Char-Broilers and Hot Plates is two (2) years.
- ★ The warranty period for the Chrome-Max® Griddles is five (5) years on the griddle surface. See detailed warranty provided with unit.
- ★ The warranty period for Duratec® coatings is one year under normal use and reasonable care. This warranty does not apply if damage occurs to Duratec® coatings from improper cleaning, maintenance, use of metal utensils, or abrasive cleaners. This warranty does not apply to the "non-stick" properties of such materials.
- ★ This warranty does not apply to "Special Products" but to regular catalog items only. Star's warranty on "Special Products" is six (6) months on parts and ninety (90) days on labor.
- ★ This warranty does not apply to any item that is disassembled or tampered with for any purpose other than repair by a Star Authorized Service Center or the Service Center's sub-agency.
- ★ This warranty does not apply if damage occurs from improper installation, misuse, wrong voltage, wrong gas or operated contrary to the Installation and Operating instructions.
- ★ This warranty is not valid on Ultra-Max® Conveyor Ovens unless a "start-up/check-out" has been performed by a Factory Authorized Technician.

PARTS WARRANTY

Parts that are sold to repair out-of-warranty equipment are warranted for ninety (90) days. The part only is warranted. Labor to replace the part is chargeable to the customer.
