JETBOIL®

Making hot food & beverages mobile and easy!

The Jetboil Story

Frustrated with heavy vacuum bottles and clunky stoves, Jetboil founders Dwight Aspinwall and Perry Dowst set out in 2003 to simplify outdoor cooking.

They discovered that the key to maximizing convenience and efficiency lay in combining heat transfer technology with innovative design. Alternating between their lab and the mountains, Dwight & Perry evolved their idea into a new product that was a total rethink of mobile cooking, and premiered their new FluxRing® technology and integrated approach.

The result was the Personal Cooking System (PCS), launched in 2004 to instant acclaim from magazines and adventurers worldwide. This revolutionary product combines heating, eating and drinking all in the same insulated cup which integrates directly with a burner for fast no-fuss use. An insulating bottom cover allows the cup to be removed from the burner and immediately held in your hands to eat or drink.

Jetboil continues to expand its line with a family of innovative integrated products offering extended functionality for everything from trailside coffee to gourmet and group cooking.

FluxRing® Technology

Jetboil's patented FluxRing® design works like a radiator in reverse to effectively absorb heat from the burner and transfer it directly into the cooking vessel's contents. This both speeds boiling time and doubles heating efficiency, dramatically reducing fuel consumption. The heat is concentrated on the bottom of the cooking vessel, and the cozy covers all hot surfaces for safe handling and food insulation.

The Jetboil Advantage

Fast and Efficient

Jetboil's FluxRing® absorbs more heat to reduce boil times, and yields fuel efficiencies of up to 80%, compared with to 30-40% typical of traditional stoves and cookware. The bottom line: you save weight and money and reduce your carbon footprint because each canister of fuel boils twice the volume of water. A single 100 gram Jetpower canister boils up to 12 liters of water.

Light and compact

Jetboil components and accessories, including fuel canisters, nest within the cooking vessels for space-saving storage. Our cleverly integrated lightweight designs allow you to cook almost anywhere. When adding the weight savings from fuel efficient operation, Jetboil is without rival for fast and lightweight use.

Easy to use

Jetboil cooking systems include all of the elements required for outdoor cooking in a single unit. Burner and cooking vessel are integrated to provide unparalleled functionality and ease of use. Cooking vessels attach securely on the burner base. Assembly and priming are not required: piezo electric igniter lights quickly and easily. Heat level can be easily adjusted from a low simmer to a full boil. After heating is complete, the insulating neoprene cozy and plastic bottom cover allow you to handle and hold your vessel and keep your food or beverage warm.

Expandable

Jetboil offers a complete range of accessory products designed to enhance your outdoor cooking experience. For the new Sol family, our Ti (titanium) Companion Cup or high capacity Sumo Companion Cup provide exandability and cooking versatility. Enjoy fresh-brewed coffee anywhere with our packable Coffee Press. Accessorize with utensils matched perfectly to your Jetboil cooking system. Cook on a big wall climb or backcountry ski traverse with our Hanging Kit. For the Helios System, add the 3.0 Liter Helios Cooking Pot to expand capacity to meet the needs of larger groups.

SOL™ PREMIUM COOKING SYSTEM

SOL™ ADVANCED COOKING SYSTEM

Designed to fuel your backcountry passion, Jetboil Sol™ delivers ultimate performance and reliability in extreme conditions.

DESCRIPTION

Fuel sold separately

Trust Jetboil Sol to deliver warmth and sustenance wherever and whenever your outdoor pursuits take you. From the company that launched the revolutionary Jetboil PCS, the all new ultra-compact, 10.5 ounce Sol Cooking System is barely noticed in your pack while assuring you're prepared for the toughest conditions. In this true 4-season upright canister cooking system, Jetboil introduces advanced Jetboil Thermo-Regulate™ Burner Technology to deliver consistent heat output down to 20°F (-6°C).

Conceived, tested, and refined in New Hampshire's rugged White Mountains, Sol moves Jetboil performance and reliability light years ahead.

For ultra lightweight requirements, Sol Ti, with a titanium cooking cup (does not include the skirt cover) weighs an astonishing 8.5 ounces, with full Jetboil performance and efficiency.

The all-in-one Sol design offers all of the features and functionality of Jetboil's trademark convenient cooking systems, including integrated burner base and 0.8 Liter FluxRing Cooking Cup.

FEATURES

- Thermo-Regulate™ technology - consistent heat to 15°F
- 0.8 Liter FluxRing® cooking cup
- Insulating Cozy with heat-indicating display (Sol Al only)
- Convenient, reliable push-button igniter
- Pot Support and Stabilizer tripod included
- Drink-through lid with pour spout & strainer
- Compatible with all Jetboil Accessories

SPECIFICATIONS

Weight:	SOL: 10.5 oz (300 g) Aluminum SOL Ti: 8.5 oz (240 g) Titanium
Volume:	27 oz (0.8 Liter)
Boil Time:	16 oz (1/2 Liter) = 2 minutes 15 sec. [avg over the life of Jetpower Can]
Water Boiled:	12 Liters per 100 g Jetpower canister
Dimensions:	4.1" x 6.5" (104 mm x 165 mm)

* System weight excludes pot support and fuel stabilizer.

ZIP-AL

New

ZIP™ COOKING SYSTEM

Simplify without sacrificing performance! Jetboil Zip™ delivers trademark Jetboil convenience and reliability for outdoor thrills without the frills.

DESCRIPTION

Fuel sold separately

Rely on Jetboil Zip to provide hot food and drinks quickly and conveniently when you want them the most. Distilled from the flagship Jetboil PCS design, Zip provides the essential function and features you expect from Jetboil.

Zip is so compact and light-weight, you'll keep it on hand for day trips close to home and overnight adventures alike.

FEATURES

- 0.8 Liter FluxRing® cooking cup with insulating Cargo Cozy
- Adjustable burner
- Pot Support and Stabilizer tripod included
- Drink-through lid with pour spout & strainer
- Bottom cover doubles as a measuring cup and bowl
- Compatible with all Jetboil accessories

SPECIFICATIONS

FluxRing® convenience and efficiency for the healthy appetite, Jetboil Sumo™ expands Jetboil Sol, Zip, and PCS system capacity.

DESCRIPTION

Sumo is big & fast, powering through cooking chores while sipping fuel daintily. When used with the all-season Sol burner, 1.8 liter Sumo is a snow-melting power-house. Sumo locks directly onto your compatible Jetboil burner base* for ultra-quick set-up. Small groups can enjoy the efficiency of one-pot cooking with Sumo.

Versatile Sumo supports a myriad of packing configurations. Stows a 230 or 450 gm can of fuel and burner base with room to spare, or a complete Sol or Zip system with 100 gm fuel.

FEATURES

- 1.8 Liter hard-anodized FluxRing® cooking cup
- Insulating neoprene Cargo Cozy with secure hypalon handle and secure-grip hypalon straps.
- Drink-through lid with pour spout & strainer
- Bottom cover doubles as a measuring cup and bowl
- *Compatible with Jetboil Sol, Zip, Flash, PCS and GCS

SPECIFICATIONS

Weight (Vessel): 12.5 oz (355g)
 Volume: 59.5 oz (1.8 Liter)
 Water Boiled: 12 Liters per 100g Jetpower canister
 Dimensions: 4.9" x 8.25"
 (125 mm x 210 mm)

Stows a complete Sol or Zip system!

TOOLS

CrunchIt
Fuel Canister
Recycling Tool

CRNCH

Jetboil's patent pending CrunchIt™ recycling tool safely vents and preps butane canisters for the recycling bin.

DESCRIPTION

Enjoy butane canister fuel convenience without creating landfill, thanks to Jetboil's CrunchIt recycling tool. Safe, foolproof, and compliant with recycling standards, CrunchIt punctures Jetboil Jetpower® (and certain other) butane fuel canisters, rendering them recycling bin ready and headed for re-melt and reformation.

Do the right thing – reduce your carbon footprint with Jetboil and Jetpower fuel, and Crunch your can.

****Empty fuel canisters are recyclable as Tin/Steel****

FEATURES

- Lightweight, rugged Stainless Steel Construction
- Safely vents fuel before puncturing
- Useful Jetboil toolkit integrated into CrunchIt handle
- Clips onto carabiner or keyring for convenience
- Bottle opener.

SPECIFICATIONS

Weight: 1 oz (28 g)
 Dimensions: 3.0" x 1.4" (76 mm x 35 mm)

Jetpower
CrunchIt
Fuel Bundle

JETPWR-CRN

DESCRIPTION

Purchase CrunchIt bundled with a canister of 100gm Jetpower 4-season fuel, so you can have your fuel, and recycle it too! ****Empty fuel canisters are recyclable as Tin/Steel**.** Sold in cases of 24.

****Recycling rules vary, please check with your local municipal or county waste facility to ensure full compliance with recycling regulations in your region**

SPECIALTY COOKING SYSTEMS

Java Kit

FLSHJAVA

DESCRIPTION

Fuel sold separately

Just add water! The Flash Java Kit makes it a snap to enjoy fresh-roasted coffee whenever you work or play outdoors. It will brew two perfect cups of coffee in just minutes, and packs to the size of a water bottle. Available twice a year, with holiday packaging for Fall shipment. Please pre-order.

FEATURES

- 1.0 Liter FluxRing® cooking cup with insulating cozy
- Adjustable burner with push-button igniter
- Insulating drink-through lid & bottom cover
- Jetboil Coffee Press
- Pot Support and Stabilizer tripod included
- Coffee sample pack

SPECIFICATIONS

Kit Weight: 15.8 oz (448 g)
 Volume: 32 oz (1 Liter)
 Boil Time: 16 oz (1/2 Liter) = 2 minutes 30 sec.
 [avg over the life of Jetpower Can]
 Water Boiled: 12 Liters per 100g Jetpower canister
 Dimensions: 4.1" x 7.1" (104 mm x 180 mm)

GROUP COOKING SYSTEMS

Helios | HEL200
Helios Guide | HEL300

HELIOS™

3.0 Liter Helios | CCP300
FluxRing® Pot

Helios Guide including 2.0 and 3.0 liter FluxRing® cooking pots, nested and packed with 230 gm Jetpower fuel can

DESCRIPTION

Incorporating the same FluxRing® technology that launched the award winning, best selling PCS, Jetboil has scaled up and combined the PCS' benefits with inverted butane canister injection to create the easiest to use, most efficient, high capacity system available for outdoor cooking. Helios lights quickly and reliably with the click of a button, and heats consistently down to the last drop. Helios is an all-in-one cooking system that covers the gamut, from melting snow to prepping robust meals for you and your crew.

SPECIFICATIONS

Weight: 28 oz (793 g) / Guide 48 oz (1,349 g)
Volume: 2 Liter / Guide 2 Liter & 3 Liter
Boil Time: 32 oz (1 Liter) = 3 minutes
Water Boiled: 24 liters per 230 gm Jetpower canister
Dimensions: 8.25" x 4.5" (packed) (210 mm x 115 mm)
Guide 9.5" x 5.1" (packed) (240 mm x 130 mm)

FEATURES

- 2.0L FluxRing® Pot (Guide 2.0L and 3.0L)
- Pot-supporting burner base
- Push-button igniter
- Fuel can stabilizer
- Snap-on windscreen
- Lid and bottom cover that doubles as a plate (lid makes a good 'flying disc' for added fun around camp)

Fuel sold separately

ACCESSORIES

Group Cooking System (GCS) | GCS150

Fuel sold separately

DESCRIPTION

Expand your dining options with our chow-friendly 1.5 liter system. Jetboil's Group Cooking System (GCS) brings versatility to fast, efficient outdoor cooking. Throw in a can of fuel, snap on the lid, and you have everything you need for backcountry cuisine in one convenient, light-weight package. The pot heats quickly and evenly, so you can enjoy perfect scrambled eggs, rice, chili and pan breads. Rubberized wire handles and an insulating cozy make for safe and easy handling.

FEATURES

- 1.5 Liter FluxRing® pot with insulating cozy and fold-out handles
- Adjustable burner with push-button igniter
- Insulating lid and bottom cover
- Quick-lock universal pot support
- Pot Support and Stabilizer tripod included

SPECIFICATIONS

Weight: 20 oz (560 g)
Volume: 51 oz (1.5 Liters)
Boil Time: 32 oz (1 Liter) = 5 minutes
Water Boiled: 12 Liters per 100g Jetpower canister
Dimensions: 7.0" x 4.5" (175 mm x 110 mm)

1.5 Liter FluxRing® | CCP150
Cooking Pot

DESCRIPTION

The 1.5 Liter pot offers cooking versatility with a wide-open form factor that makes it easy to simmer and cook for small groups. Folding wire handles and insulating cozy make for safe and easy handling. Plastic base cover works as a serving plate or bowl.

Weight: 12 oz (340 g)
Volume: 51 oz (1.5 Liters)

FLUXWARE™

FluxRing® | FRYPAN
Fry Pan

DESCRIPTION

A long-time standard for outdoor cooking, now updated and improved through the use of Jetboil's FluxRing® technology, which provides incredibly even heating. Plastic base cover doubles as a food preparation / eating bowl.

Weight: 10 oz (280 g)
Dimensions: 8.1" x 2.2" (205 mm x 57 mm)

ACCESSORIES

Coffee Press | COF075

DESCRIPTION

Upgrade your backcountry beverage selection with our feather-light Coffee Press. Stem detaches from basket so you can stow in your PCS cup.

Weight: 0.8 oz (22 g)
Dimensions: 3.9" (10cm) diameter x 5.9" (15cm) tall (assembled)

Hanging Kit | HNGKIT

DESCRIPTION

Perfect for big wall climbs or backcountry ski trips, the Hanging Kit is lightweight and easy to use. The kit attaches securely to your PCS/GCS burner for suspended cooking with any PCS/GCS vessel.

Weight: 1.9 oz (55 g)
Dimensions: 7.1" (180 mm) Packed

Maintenance Kit | MTN100

DESCRIPTION

Make sure your Jetboil stove is operating at peak performance. CONTENTS: piezoelectric igniter.

This produce is compatible with PCS, PCS Classic, GCS.

It is not compatible with Helios, Zip, Sol, Flash systems.

Jetpower | JETPWR-100
Fuel 100g | JETPWR-230
230g | JETPWR-450
450g

NEW FOR 2011

DESCRIPTION

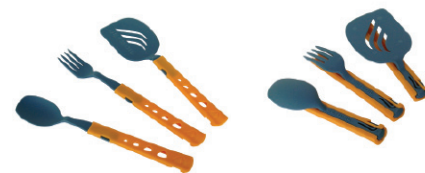

For maximum efficiency and minimum consumption, use our high-performance propane / isobutane four-season blend. Propane provides higher vapor pressure for better performance in cold weather. Isobutane provides more constant pressure as the fuel level gets low. Now available in 100, 230, and 450 gram canister sizes!

* Empty fuel cans are recyclable with our CrunchIt tool. Check local facilities for recycling info.

Weight, gross: JETPWR-100: 6.8 oz (194 g)
JETPWR-230: 12.9 oz (356 g)
JETPWR-450: 15.9 oz (450 g)

Dimensions: JETPWR-100: 3.5" (9cm) x 2.8" (7cm)
JETPWR-230: 4.3" (11cm) x 3.9" (10cm)
JETPWR-450: 6.8" (15cm) x 4.5" (11cm)

ACCESSORIES

Jetset | UTNSFS
Utensil Set

DESCRIPTION

The ideal utensils for Jetboil cooking systems or meals in a bag. Long handles keep your hands clean, and specially shaped tips scour vessel contours. Handles telescope to store compactly inside cooking vessels or in cozy cargo pocket.

Weight: 1.3 oz (36 g)
all 3 utensils
Dimension: 5.2" - 8.5"
(130 mm - 215M mm)

Locking Pot | PST075
Support & Stabilizer

DESCRIPTION

The updated locking Pot Support & Stabilizer adapts the Jetboil burner for use with our FluxRing® Fry Pan and 1.5 Liter Cooking Pot, as well as a wide variety of traditional pots and pans. Just twist clockwise to lock the support onto the burner.

Weight: 1.2 oz (35 g) Pot Support
Weight: 0.9 oz (27 g) Stabilizer

POINT-OF-SALE/MERCHANDISING

36" vertical

24" wide
