Best choice for printing

Selecting the right ink cartridge is important to achieve impressive printouts. Whatever your printing needs are, you can count on a comprehensive range of Original HP ink cartridges to reliably produce printouts that shine.

Easily choose the ink that best fit your needs

With your printing needs in mind, HP has designed a colour-coded packaging system to help you select the Original HP ink cartridges that best fit your requirements.

STANDARD

For everyday printing that is precise and affordable.

GREEN VALUE

For high volume printing, choose high-capacity XL packs or multi-packs.

RED SPECIALTY¹

For high quality photo prints.

PHOTO VALUE PACK¹

For affordable and easy lab-quality photo printing at home.

OFFICEJET VALUE PACK¹

For designing and printing professional looking corporate materials at ease.

For more information, visit your nearest HP authorised retailer or log on to **www.hp.com/apac/printingsupplies**1 Applicable for selected Asia-Pacific countries and selected printers only.

1

Beware of counterfeits!

Counterfeit cartridges are illegal. Although they may be packaged to look like HP cartridges, it offers none of the quality and reliability that only an Original HP ink cartridge can offer.

To protect you against fraudulent practices, HP has introduced a new security seal that is found on every Original HP ink cartridge packaging.

HOW TO SPOT A COUNTERFEIT?

- Missing HP logo on product or packaging
- Missing security seal on packaging
- Missing colour switch feature on security seal
- Signs of repackaging
- Questionable price
- Better prices than those offered by recognised HP distributors
- Product has no usual outer wrappings, subpacks or pallets
- Frequent cartridge failure, poor or inconsistent print quality
- Suspicious price claims based on the products' country of origin

For more information, visit www.hp.com/apac/nofakes

Existing seal still in use

Some Original HP ink cartridge packaging still carry the previous colour shifting security seal.

The ink cartridges within these packaging are genuine HP products and should not be mistaken as fakes.

To check if these cartridges are genuine HP products:

- Look for the colour shifting security seal.
- Turn the box from side to side and see the colour switch.
- When the background is dark, half of the lettering "ORIGINAL INK" will be light and vice versa.

Industry-leading ink technologies

Extensive research, studies and tests go into the design and development of every Original HP ink cartridge to ensure that you enjoy the best printing experience.

HP Vivera Inks

Brilliant, Endurina Colour.

Vibrant colours for richer, life-like image quality

See your printouts in a refreshing burst of colours! HP Vivera inks produce up to 72.9 million colours accurately, helping you achieve exceptional image quality.

Exceptional ink purity

Purer inks translate into cleaner printing and therefore ink savings in the long run. HP Vivera inks combine precise levels of purity for each ingredient with stringent 'clean' manufacturing processes to ensure optimal reliability and performance.

Industry-leading ink technologies

HP Dual-Drop-Volume Technology

Micrograph of single-drop-volume image

Micrograph of dual-drop-volume image

Featured on HP 60 Ink Cartridges, HP 564 Photosmart Ink Cartridges and HP 920 Officeiet Ink Cartridges

Dual-drop-volume printing produces lab-quality photos and vibrant colour graphics – all from a single set of ink cartridges. This technology intelligently fires a combination of small or large ink droplets, creating lighter colour shades and rich photographic blacks for your photos. This technology is used when printing photos and colour graphics in Normal, Best and Maximum-dpi print modes on select HP photo and brochure papers.

HP Dual-Drop-Volume Technology benefits:

- Vibrant, lab-quality photos microscopic ink drops, as small as 1.3 picolitres, for smooth transitions and reduced image grain
- Larger colour gamut and outstanding colour accuracy

HP Officejet Pigment Ink Technology

WAAR .

PAPER

Drop hits paper

Ink begins to absorb into the paper ColorLok® papers cause pigment particles and binder to remain near the surface. Water or other solvents penetrate deeper or evaporate

Binder dries into a film attaching pigments firmly to paper fiber

Featured on HP 940 Officejet Ink Cartridges

HP Officejet Pigment Ink Technology delivers excellent printouts that are water-resistant on plain paper.² The unique ink formulation delivers fast drying prints and longlasting, laser-like quality.³ On HP Papers with ColorLok® logo, you get professional-quality graphics and images.

HP Officejet Pigment Ink Technology benefits:

- Fast-drying, water-2 and archive-quality3 documents
- · Crisp, laser-quality text; vivid colours and bold blacks
- · Cost savings with lower cost-per-page
- Fast throughput with enhanced dry time and no clogging
- Extended printer lifespan with reduced corrosion of printheads

Including HP Brochure and Flyer Paper, HP Premium Paper, HP Everyday Photo Paper and HP Advanced Photo Paper. Dual-drop-volume is not used when printing in plain paper modes.

Based on HP internal testing, using papers with the ColorLok® logo.

³ Based on HP internal testing using a range of plain papers, including papers with the ColorLok® logo. For details, go to www.hp.com/go/printpermanence

Outstanding value with proven HP reliability

Count on Original HP ink cartridges for consistent, reliable performance and outstanding value.

Get twice as many prints with Original HP inks

An independent testing agency revealed that Original HP ink cartridges deliver twice as many prints than refilled ink cartridges¹. What's more, whilst Original HP ink cartridges performed reliably every time, 42% of the refilled ink cartridges were dead on arrival or failed prematurely, and delivered subaulity printouts with streaking and fading.¹

Trust Original HP ink cartridges for exceptional prints, outstanding value and reliable performance - print after print, cartridge after cartridge.

Did you know ...

42% of the refilled ink cartridges were dead on arrival or failed prematurely.¹

Results of 3rd party testing, commissioned by HP done by TÜV SÜD PSB Ltd – 2010 Reliability Comparison Study Asia. Ink cartridges tested 45, 78, 56, 57, 60 Black & 60 Tri-colour. Full report available at www.tuv-sud-psb.sg/reportdisclaimer.aspx. Applicable for selected Original HP Ink Cartridges only.

Recommending the Right Photo Paper

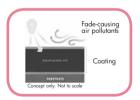

The kind of paper used in printing significantly influences the quality of the output. Every type of HP paper is made with a specific print output in mind. Choose from the range of HP Photo Papers for stunning photo prints that will last a lifetime.

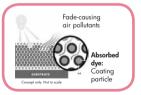

Technologies behind HP Papers

The permanence of an inkjet photo print is dependent not only on the type of ink and paper coating, but also on the interaction of the ink and the coating.

There are two basic types of ink-receptive coatings used on inkjet photo papers – swellable and porous.

- 1. Swellable coatings are comprised mainly of synthetic or natural polymers that swell when contacted with water or inks. After the ink dries, dye is left behind and encapsulated in the coating, which essentially protects the dye from any contact with airborne pollutants, hence preventing the photo from fading.
- 2. Porous coatings for inkjet photo papers are designed to dry immediately after printing. The ink flows through the spaces between the particles in the coatings and deposits the dye on the surface of the particles.

Spreading the ink exposes it to more air, which greatly shortens dry time. Unfortunately, the dye left behind when the ink dries is still exposed to air and thus highly susceptible to fading from air pollutants. In order to protect photo prints on porous paper from air fading, the print must be displayed with protection such as glass or lamination.

On selected papers only.

Proven longlasting quality

HP Premium Plus Photo Paper was awarded the Wilhelm Imaging Research (WIR) fade-resistance certification seal. For more information, visit www.hp.com/go/printpermanence or www.wilhelm-research.com

ColorLok® Technology¹

HP papers with the ColorLok® logo provide higher quality colour images, bolder black text and a faster drying time than ordinary papers.

HP recommends ColorLok® papers for best printing results

HP Papers

Choose from HP's extensive range of papers in various finishing and sizes for high-quality and longlasting prints.

HP Professional Inkiet Paper 120, Matte¹

Ideal for presentations, proposals, reports and newsletters

- Impressive image quality for vibrant colours and graphics
- Coated on both sides for two-sided printing
- · Professional weight heavier and more opaque

Available in the following sizes1: A4, A3

HP Premium Plus Photo Paper, High-gloss

HP's best photo paper for studio-quality photos that last beyond 100 years²

- Rich and vibrant colours for stunning studio-quality photos
- High-gloss finish with weight and thickness that matches that of lab-processed photos

Available in the following sizes1: 10x15cm (4"x6"), A4, A3

HP Advanced Photo Paper, Glossv¹

Best for instant-dry professional-quality photos

- Glossy, instant-dry prints with vivid colours
- Water⁴, smudge and scratch-resistant
- Thicker and heavier weight for a true photo feel
- Compatible with most inkjet printers

Available in the following sizes1: 10x15cm (4"x6"). 10x17cm (4"x6" with tab), A4

HP Everyday Photo Paper, Semi-aloss¹

An affordable glossy alternative to plain paper printing

- Semi-aloss finish for sharper and more vivid colours. compared to photos printed on plain paper
- Fast dry time, perfect for easy handling of everyday photo printina

Available in the following sizes1: 10x17cm (4"x6" with tab), A4

HP Glossy Photo Paper¹

Affordable alternative to plain paper for everyday photo printing

- Vibrant photos at an ultra low cost
- · Features a gloss finish for crisp, bright images
- · Photos dry quickly and are smudge- and smear-resistant
- · Compatible with all inkjet printers

Available in the following sizes: 10x15cm (4"x6"), A4

HP Photo Packs1

- Affordable and easy lab-quality photo printing at home.
- Convenient ink and paper bundled in a single pack
- Save up to 20% versus purchasing the ink and paper separately5

HP Officeiet Value Pack1

For desigining and printing professional looking corporate materials at ease.

- · Convenient and affordable pack with ink, paper and templates to create quality brochures and flyers.
- Reduce cost by as much as 20% with the XL-size cartridges and 100 sheets of A4 HP Professional Inkjet Paper.

- Availability may vary by country and/or store. Please check with your retailer.
- Display-permanence rating by Wilhelm Imaging Research, Inc., or HP Image Permanence Lab using select HP Vivera inks. For details visit www.hp.com/go/printpermanence Based on WIR light-fade testing under glass using HP Premium Plus Photo Papers and HP Vivera Inks.
- When used with selected inks.
- Savings based on cost of ink and paper if purchased individually.
- Actual prices and savings may vary per country and retailer.

DID YOU KNOW?

HP cartridges returned through HP Planet Partners are recycled responsibly. HP never refills them, resells them or sends them to a landfill.

HP's environmental commitment

Recycle

HP is leading the way in its continuous efforts to provide you with high quality, innovative products that are designed with the environment in mind.

Product

Lifecycle

By embracing an industry-leading lifecycle approach, HP is conducting its operations in an environmentally responsible manner in every step of the way; from product design and manufacturing, to usage and end-of-life management.

HP is committed to providing you with a responsible printing experience. To find out more on

HP's environmental commitment and programmes, please visit www.hp.com/environment

HP tops NEWSWEEK GREEN RANKINGS 2009 of the 500 largest U.S. companies, based on actual environmental performance, policies and reputation.

Find out more from http://greenrankings.newsweek.com

HP Planet Partners Programme

Available in more than 50 countries and territories, HP Planet Partners is a free programme designed to make it easy for you to return and recycle print cartridges and hardware. The cumulative volume of cartridges returned and recycled through HP Planet Partners Programme reached 320 million at the end of 2009.

- All returned Original HP print cartridges go through a multiphase recycling process where they are reduced to raw materials.
- No Original HP print cartridges returned through this programme are sent to landfills.
- HP does not refill its cartridges or sell empties to refillers.

For more information, please visit www.hp.com/recycle

Convenient support and services

Print confidently with HP toners and papers

The combination of toner and paper determines the quality of printouts. With your printing needs in mind, HP has designed a range of toners and papers that work together seamlessly to give you exceptional prints that make an impact.

Original HP Toners

You can reliably expect unsurpassed print quality at an affordable cost-per-page with HP's portfolio of Original HP toner cartridges.

Standard Cartridge (A)

Reliable results with low total cost of ownership.

High-yield Cartridge (X)

Reduced printer intervention time with up to 25% savings on costper-page over standard cartridges.1

Dual Pack (X)

Ideal for high-volume printing, with twice the printing power and up to 10% savings over their standalone counterparts.

HP Laser Papers

Produce professional-quality documents and impressive marketing collateral with HP's range of laser papers.

HP Photo Laser Paper²

Designed to produce professionalquality in-house marketing collateral

HP Professional Laser Paper²

Achieve impressive and impactful results on important documents. presentations and marketing materials

Availability may vary by country and/or store. Please check with your retailer.

Cost-per-page calculations based on ISO/IEC 19752 yield and web-based SRP for HP's (X) cartridges versus their standard (A) cartridge counterparts. Does not cover (X) cartridges that do not have an (A) equivalent.

Beware of counterfeits!

Counterfeit cartridges are illegal. Although they may be packaged to look like HP cartridges, it offers none of the quality and reliability that only an Original HP toner cartridge can offer.

To protect you against fraudulent practices, HP has introduced a new security seal that is found on every Original HP toner cartridge packaging.

For more information, visit www.hp.com/apac/nofakes

HOW TO SPOT A COUNTERFEIT?

- Missing HP logo on product or packaging
- Missing security seal on packaging
- Missing colour switch feature on security seal
- Signs of repackaging
- Questionable price
- Better prices than those offered by recognised HP distributors
- Product has no usual outer wrappings, subpacks or pallets
- Frequent cartridge failure, poor or inconsistent print quality
- Suspicious price claims based on the products' country of origin

Existing seal still in use

Some Original HP ink cartridge packaging still carry the previous colour shifting security seal.

The ink cartridges within these packaging are genuine HP products and should not be mistaken as fakes.

To check if these cartridges are genuine HP products:

- Look for the colour shifting security seal.
- Turn the box from side to side and see the colour switch.
- When the background is dark, half of the lettering "ORIGINAL TONER" will be light and vice versa.

Improved HP ColorSphere toner technology

HP's continuous research and stringent tests have resulted in an innovative toner technology that reliably gives you impressive printouts.

HP ColorSphere Toner

Produce brilliant, photo-realistic images with HP ColorSphere toner. Its chemically-grown toner particles deliver a broader range of vibrant colours to translate your documents into impactful colour printouts.

30% higher gloss levels ¹ For more vibrant and

17% wider colour gamut¹

For truer flesh tones, shadow details and smoother aradations.

Professional colour

For true-to-life photos and images even on plain paper.

Shake-free cartridge design

Distributes liquid-like toner evenly for smoother print quality.

Impressive colours with higher gloss

The improved HP ColorSphere toner features a 30% higher gloss level for deeper and richer colours.\(^1\) Your printouts get a more uniform light reflection, resulting in true-to-life images.

Previous Generation New Generation

Wider colour gamut for sharper pictures

Dull coloured pictures are a thing of the past! The new generation HP ColorSphere toner delivers a 17% wider colour gamut to give you vibrant graphics with realistic natural tones.\(^1\)

Previous generation

Gloss based on a comparison of images printed with HP Color LaserJet 3800 Printer series and HP Color LaserJet CP3525 Printer (2008) printed on HP Color Laser Glossy Brochure Paper 160gsm.

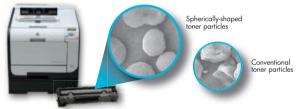

Gamut based on a comparison of images printed with HP Color LaserJet 3800 Printer series and HP Color LaserJet CP3525 Printer (2008) printed on HP Color Laser Glossy Presentation Paper 130gsm.

HP Monochrome toner cartridges

Enjoy even more substantial cost savings with HP Monochrome toner cartridges that work perfectly with HP LaserJet printers to give you professional quality printouts.

Get sharper images and crisp text

HP Monochrome toner particles are spherically-shaped and uniform in size to enable greater control during printing. With precise toner placements, you can expect high-quality printouts with crisp lines and sharp text.

New HP Monochrome toner cartridges are available with HP LaserJet 1022 and HP LaserJet P1505 Printers.

Enjoy maximum results at minimum cost

Though smaller in size, the new HP Monochrome toner cartridge is big on performance. Technology improvements has resulted in a compact cartridge design that uses 10% less plastic and 15% less energy to fuse onto paper.

"Smart" chip intelligence in a cartridge

Enjoy a hassle-free printing experience with each Original HP toner cartridge. The built-in cartridge intelligence enables interactive communication between cartridge and printer to optimise print quality. Boost productivity by monitoring print jobs and supplies levels easily, with less user intervention.

Print black at no extra cost

With no cost-per-page penalty, you can print black at the same cost as HP black-and-white LaserJet printers, and still enjoy the advantages of colour printing when you need it.

Enjoy even greater savings

Enjoy up to 35% energy savings on every page you print when you use Original HP LaserJet Monochrome print cartridges with energy efficient toner.¹

Get more high-quality printouts at substantial savings with HP dual cartridges and HP high-capacity cartridges.

Enjoy up to 48% savings when you use dual cartridges (CC530AD) with the HP Color Laserlet CP2020 Printer series. Get up to 32% savings when you use high-capacity cartridges (CE250X) with the HP Color LaserJet CP3520 Printer series.

¹ Energy savings calculation based on comparing similar class devices and comparing conventional HP toner to new energy efficient HP toner during printing. The stated energy consumption is divided by pages per minute based on printing a standard test page. Actual savings may vary.

Reliable quality prints with no hidden costs

Compared to remanufactured cartridges, Original HP LaserJet print cartridges are trusted worldwide for their reliability, superior output quality and ease of use.

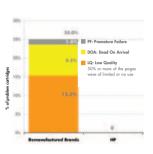

Beware of the hidden cost of remanufactured cartridges

Based on HP calculations which leverage the findings from a QualityLogic study, businesses who use remanufactured cartridges may incur up to 2x¹ more in total costs (for mature markets; 31%² for emerging markets) than if they were to use Original HP Monochrome LaserJet cartridges due to reprinting pages, fixing problem cartridges and time wasted.

Reliability issues

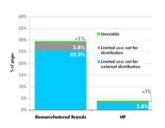

Remanufactured cartridges are not always as reliable as they claim to be when compared with Original HP LaserJet print cartridges. In fact, 1 in 4 remanufactured cartridges tested exhibited some kind of failure³ such as dead on arrival and premature failure. Also, remanufacturers often reuse critical cartridge components that may be damaged or near the end of their usable life. This can often cause print quality issues such as hue shift, banding and streaking.

Print quality issues

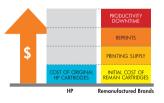

Unlike Original HP LaserJet print cartridges, almost 1 in 3 printouts using remanufactured cartridges were of limited or no use.³ While the print quality may seem acceptable, it can degrade and exhibit common substandard results such as mystery dots, unwanted streaks and uneven tones.

As a result, sometimes, pages are not fit for distribution inside or outside the company, not to mention the printing supplies that are wasted.

Productivity issues

With Original HP LaserJet print cartridge, you can look forward to unimpaired productivity with minimal downtime, as compared to remanufactured cartridges.

¹ HP cost calculation based on the average results of the 2008 QualityLogic Monochrome Toner Reliability Comparison Study (www.qualitylogic.com/tonertestAP.pdf). Calculation includes paper, cartridge replacement and labour for reprints. Assumes equal number of pages for external, internal and individual use. Labour rate from a Mercer 2007/08 Global Ray Study (average for: KR, SG, AU and HK). Assumes purchase price for HP cartridge is US\$115 and 50 percent lower purchase price for a remanufactured cartridge. Usage based on 123,101 pages per year. Actual prices, costs and sovings may vary.

² HP cost calculation based on the average results of the 2008 QualityLogic Monochrome Toner Reliability Comparison Study (www.qualitylogic.com/tonertestAP.pdf). Calculation includes paper, cartridge replacement and labour for reprints. Assumes equal number of pages for external, internal and individual use. Labour rate from a Mercer 2007/08 Global Pay Study (average for: China and India). Assumes purchase price for HP cartridge is US\$70 and 57 percent lower purchase price for a remanufactured cartridge. Usage based on 160,118 pages per year. Actual prices, costs and sovings may vary.

³ A QualityLogic 2008 study compared Original HP LaserJet print cartridges with remanufactured toner cartridges sold in Asia Pacific for the HP LaserJet 2300 and HP LaserJet 4350 printers only. For details, see www.qualitylogic.com/tonertestAP.pdf.

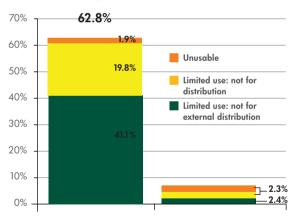

Cartridge reliability and Toner Adhesion

Compared to refilled cartridges, Original HP LaserJet print cartridges clearly outperforms.

Cartridge Reliability

60% of refilled toner cartridges tested had reliability issues and 60% of the pages printed by refills were of limited use¹.

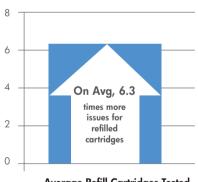

Comparing Print Quality

Toner Adhesion

Study also showed that sample pages from refills tested exhibited over 6.3 times more issues with toner adhesion than HP¹. Toner that is not well–adhered may come off when the document is handled, mailed or shared. With HP Original LaserJet print cartridges, documents will look impressive when they reach your client.

Toner Adhesion Performance

Average Refill Cartridges Tested

¹ A QualityLogic 2010 study commissioned by HP compared Original HP LaserJet cartridges with refilled cartridges in Shanghai, CN and New Delhi, IN for the HP LaserJet M1319f and HP LaserJet P1008 printers (12A & 88A cartridges). For details, see www.qualitylogic.com/refilltestAP/pdf.

Choose HP Paper for professional-quality prints¹

HP's broad range of papers enable you to print impactful documents in-house. You can save time and money, while enjoying the flexibility of printing only what you need.

Designed for superior print results

HP has produced a selection of heavyweight, two-sided coated paper with an increased opacity – ideal for image-intensive laser printing. With a wider choice of professional paper to choose from, you can easily create impressive printouts to wow your audience.

HP Professional Laser Paper 120

Get impressive image quality for marketing materials, presentations and important documents

- · Heavyweight with high opacity for impressive twosided printing
- Exceptional reliability (no jams, mis- or multi-feeds) for hassle-free printing

HP Professional Laser Photo Paper 200

Delivers high-quality in-house marketing collateral

- · Five-layer coating and better gloss uniformity give you vibrant colours, vivid contrast and eye-catching images
- · Two-sided, glossy coating for exceptional image quality and photo-auality results

Available in the following size2: A4/A3 Available in the following size2: A4 Available in the following size2: A4

HP Photo Laser Paper 200² Matte

Matte-finish paper for eve-catchina images and photo-quality results

- · Ultra-smooth finish for rich, vibrant colours and true-tolife images
- · High opacity for two-sided printing

Available in the following size2: A4

HP Professional Laser

Ideal for image-intensive

contrast and vibrancy

two-sided printing

Paper 150

Glossy

collateral

HP Professional Laser Paper 120

Produce outstanding laser printing of brochures. presentations and proposals in rich, vibrant colours flyers, photos, and marketing

- Two-sided coated soft gloss · Higher brightness for improved finish for printing rich, vivid colours and graphics on both sides · High opacity for impressive
 - Professional-weight paper that looks and feels impressive

Available in the following size2: A4

HP Professional Photo Paper 200

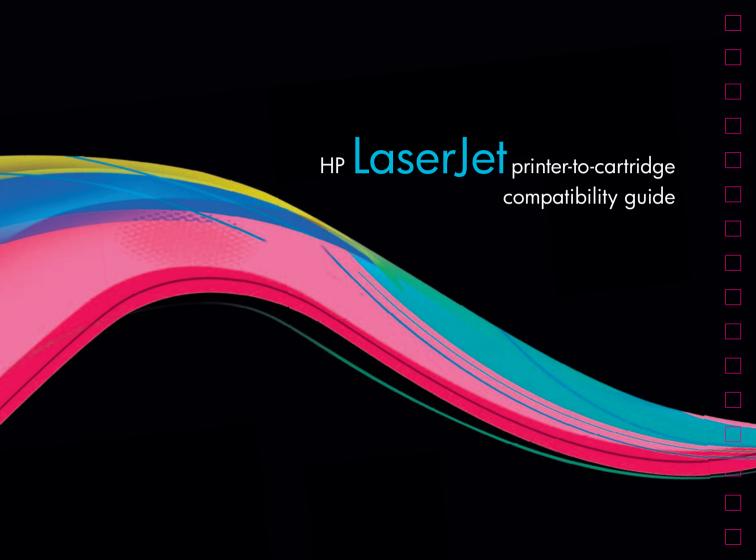

Great for printing business photos, everyday photos, photo proofs, marketing materials, and more

- Photos dry instantly and resist smudging, smearing and scratches
- Get richer, more vivid colours and a broader colour range than with plain paper

Available in the following size2: 4"x6"

Available in selected Asia Pacific countries only.

Availability may vary by country and/or store. Please check with your retailer.
