RETURN POLICY

- There is absolutely no return of bulk, loam, aggregates, or bark mulch; stone by the pound and special orders.
- All returns must be made within 45 days of purchase, and must be accompanied by original sales receipt.
- We do not accept partial or opened pallets of natural stone.
- If we pick up product at your location, there is a standard 20% restocking fee.
- Refunds will be issued in the same manner payment was originally made. Cash will be refunded for payments made by check after 10 days.
- Any returns made without a receipt will be refunded by store credit.

DELIVERY FACTS YOU SHOULD KNOW

- Our delivery fees are based on mileage, directness of routes, and our own personal driving experiences.
- Scheduling is never easy! We regret that we cannot commit to a time of day; however, we will do our best to indicate AM or PM, you can also request a call when the truck is leaving our yard with your delivery.
- **It is not necessary that you be present for your delivery.** Provide us with instructions at the time of purchase, mark the area with a designated item or a Landscaper Depot stake provided by your sales associate, and we will do everything in our power to see that your needs are met. Please note we cannot be responsible for product delivered in the wrong area if the area was not properly marked.
- When deciding where you would like your materials dumped, please check the area for overhead wires, low tree limbs, etc. Also take into consideration the height clearance required by our trucks while dumping.
- Unless a particular truck size is specified, for scheduling purposes, Landscapers Depot reserves the right to send a truck that may be larger than necessary to complete your order.
- Sorry, we cannot deliver ½ yard increments.
- Class 1 or 2=15' ht clearance, Class 3=20' ht clearance, Class 4=25'–30' ht clearance. Forklift width is approx. 9 ft.
- We require 24 hours notice for any cancellations or changes. Less than 24 hrs. notice of cancellation will result in a \$25.00 cancellation fee.
- When considering cancellations due to weather, keep in mind our materials are not stored indoors.
- Last but not least, in the wet weather the ground is very soft. Our heavy trucks cannot always go where your car, pickup truck or garden tractor can go. It is very important that you have an alternate delivery area planned.

Did you know we make our own mulch?

Pickup Customer Information - **Strictly Enforced**

1/2 ton pick-up trucks can take 1/2 yard of heavy material. (*loam, stone, etc.*)
3/4 ton pick-up trucks can take 1 yard of heavy material.
1-ton pick-up trucks can take 1 to 1 1/2 yards of heavy material.
All trucks can carry more bark due to the lighter weight per yard.
1 yard of stone, sand or loam weighs approximately 1 1/2 tons.
1 yard of bark mulch weighs approximately 500-600 lbs.
1 yard of any product will cover a 10'x10' area (100sq. ft) 3" deep.

At Landscapers Depot we learned early on that if you want the best bark mulch around you have to make it yourself. Since 1995 we have ground and colored our mulch from the finest virgin bark the North East has to offer. Whether you need 1 yard or 100 yards, we can deliver our quality mulch to you. We never use wood demolition waste or ground pallets in our mulch.

Trailer load discounts are available.

BULK MATERIAL

Aggregates are natural products, coloration and size can vary slightly from load to load, we reccomended viewing the product in our bin before making your purchase.

Clay Pavers

Pine Hall Brick Pathway

Clay paving brick differs from the brick used on walls and chimneys, in that paving brick are solid, without holes. In addition, paving brick are fired to a different standard than face brick to insure long-term durability.

Clay pavers come in a "flushed" color which means there are a variety of reds, browns and black on a pallet.

Travertine Pavers

Travertine pavers are a natural material. They are real stone and are available in various patterns and colors. Natural stone paving materials have a special look and feel and are very different from man made pavers. Like any natural product it can have variations in color and texture, but creates a truly unique vibe.

Travertine is one of the best material choices for pool paving. One of the best features is that it stays cool underfoot in hot conditions. When you walk barefoot, as usually is the case in a pool area, they will not be hot on your feet.

Sold by pallet (160 sq ft- 2560 lbs) or the layer (8 sq. ft) in a "french" pattern which consists of the following sizes:

- 2) 16" x 16"

Permeable Pavers

Permeable surfaces help to preserve our environment and the most precious resource of all, water. We can't live without water, and permeable pavers help protect the quality of our water supplies. They reduce the amount of storm water runoff entering our natural waterways that carry with it contaminants and pollutants. The water is allowed to naturally drain into the surface through the voids in the permeable pavers. This promotes the infiltration of rainwater and also helps to recharge the groundwater.

Eco- Enviro

Eco-Enviro

\$3.35/sq ft.

Eco-Enviro Stone™ is produced with an interlocking joint and a micro-chamfered top edge profile. Eco-Enviro Stone can assist in meeting current EPA storm water regulations and LEED certification. This ingenuity, combined with the size of the paver, is singular to Pavestone's permeable pavers and insures optimum pavement performance unequaled in the permeable paver industry.

Permeable Paver Installation

Installation: In order for Permeable Pavers to function as they are meant to, it is important for them to be installed properly. Permeable pavers are not installed in the same method regular pavers are installed and proper installation is vital to ensure they do their job correctly. Depending on what type of Permeable Pavers you are installing, make sure that you have all the necessary installation information needed, or hire an experienced ICPI certified contractor.

LANDSCAPE DESIGN SERVICE

A well planned landscape design is the essential first step in creating a beautiful and functional landscape. Through the design process we strive to understand your ideas and desires to achieve a landscape that provides for enjoyment of your unique outdoor living space. We can assist with creative solutions to challenging situations including lake side properties, pool patios, water features, barbecue areas, wetland buffers and low maintenance yards. Integration of plantings and hardscape features enable us to aesthetically enhance your property while creating everlasting value.

**YOU CAN REACH OUR DESIGNER AT 603-642-6677 EXT. 213
TO DISCUSS YOUR DESIGN NEEDS AND TO SCHEDULE AN APPOINTMENT**

We provide professional landscape designs to scale, detailed and readable for the contractor and the homeowner to follow. Visually stunning enhanced photo images show before and after views of proposed landscape improvements. Landscapers Depot's designer will meet you at your home and conduct a comprehensive site assessment and analysis. An interview will help our designer work cooperatively with you to focus on priorities and potentials for the site.

The design/consultation fee is \$90.00 per hour, that includes a 50% return benefit. Half (50%) of the design/consultation fee is credited back to you in a non-transferable gift certificate that may be applied to the purchase of any products from Landscapers Depot. We require a retainer of 50% of the estimated design quote at the initial meeting. The quote will include travel time, meetings, conceptual design review, finished landscape plan, specifications and photo images.
