

Tactical Performance, Practical Design

Each year, more individuals and agencies are taking advantage of the rugged, reliable performance and value-packed TacStar line of tactical equipment. The TacStar Weapons Light System, the original SideSaddle®, Shotgun Accessory Grips, the handy TacSling and a full line of Tactical Lights are all some excellent reasons.

Rely on TacStar, the originator of the SideSaddle Shotgun carrier, to deliver the tactical accessories to upgrade any popular shotgun. Combine an array of TacStar accessories and convert any shotgun into an awesome tactical tool. Don't forget to carry the TacStar line of tactical flashlights - Tactical Tough, Practical Price.

Front Grip folds forward or backward for versatility.

AR-15 Tactical Front & Rear Grips

Techno-ergonomic design and aggressive styling upgrade any AR-15.

Now, AR-15 owners can enjoy the advantages of Pachmayr's decades of grip design expertise combined with premium Decelerator recoil absorbing material. Used individually or as a set, these grips deliver a new level of comfort and control.

- Finger groove design of the rear grip provides secure handling.
- Rear grip easily replaces factory grip with no gunsmithing.
- Folding design and Picatinney rail mounting make the front grip unique and ultra-versatile.
- Great control in any condition
- Police and military applications
- Improves appearance

Pressure Switch End Caps (PSEC)

TacStar pressure switch end caps (PSEC) allow you to convert a traditional hand held flashlight to a weapons mounted version. The pressure switch attaches to the tail end of the flashlight by simply screwing off the end cap and screwing on the PSEC. It has a remote on/off switch that activates by simply touching the activation pad. The curly cord expands up to 10 inches for convenient placement on a rifle, handgun or shotgun. Velcro Tape is included for the activation pad.

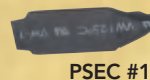

PSEC #1 – Fits Mini-Mag, Streamlite JR. and other models with 11/16 diameter tube.
Part #1081196\$19.50

PSEC #2 – Fits TacStar T6 and Surefire models 6P, C2, C3, G2 and all Nitrolon models.*
Part #1081206\$31.98

*Check with manufacturer for recommended applications.

The Original SideSaddle® Shotshell Carrier

The unique TacStar SideSaddle mounts 6 extra rounds on your shotgun in a convenient and accessible location for fast reloading. The Hytrel® polymer shell carrier is attached to an aluminum mounting plate that installs directly on the shotgun receiver. All mounting screws are included, no gunsmithing required. Installation is easy, and in most cases requires no alterations to the shotgun. Note: some field grade shotguns may require a modification to the shotgun's forend. Shotguns using the TacStar pistol grip forend do not require modification. The 4-round sidesaddle will also work smoothly with all models without modification. Works great as a separate Shotshell Storage Caddy for Duck Blind, Boat or Hunting Cabin!

Benelli M4 6-Round Side Saddle

A handy six extra rounds when needed.

When combined with the TacStar M-4 magazine extension, this 6-round delivers an awesome 13 round capacity that travels with the shotgun.

Benelli M-4 6-Shot Side Saddle #1081164\$36.98

Exposed Serial Number 4-Round Side Saddle for the Remington 870 & 11-87

Requested by Law Enforcement Professionals.

Armors and law enforcement agencies use serial numbers to track their firearms for maintenance, inventory and record keeping. The SideSaddle's convenient serial number port is the perfect answer.

Rem. 4-Shot Side Saddle #1081166\$34.50

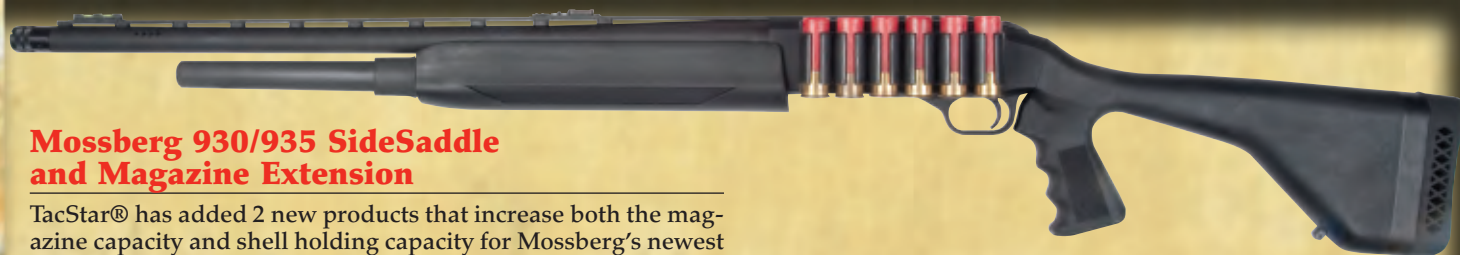

TacStar 4-Shot SideSaddle

TacStars 4 round SideSaddle Shotshell Carrier is the perfect accessory for all your hunting shotguns. The 4 round SideSaddle mounts easily to the side of the receiver and requires no modifications to the shotgun. Each SideSaddle is designed to provide clearance for long forends, such as the Benelli Nova model, and come with all mounting hardware. SideSaddles keep extra shells securely in place and in the perfect location for reloading. No more digging in pockets for extra shells.

Mossberg 930/935 SideSaddle and Magazine Extension

TacStar® has added 2 new products that increase both the magazine capacity and shell holding capacity for Mossberg's newest autoloading shotguns. Both the new Magazine Extension and new SideSaddle Shellholder offer fast, easy, no-gunsmithing mounting.

The 930/935 Magazine Extension features rugged, all-steel construction and increases magazine capacity by 3 shells. The extension simply replaces the screw-off magazine cap and includes an extended magazine spring to retain factory function and reliability.

TacStar's 930/935 SideSaddle quickly gives the shooter an extra 6 shells securely held to the side of the shotgun's receiver. Made of virtually indestructible, weatherproof Hytrel® polymer, the new shell carrier requires no alteration of the shotgun and can be installed in minutes.

Mossberg 930/935 8-Shot Mag. Ext. (#1081201)\$62.50

Mossberg 930/935 6-Shot SideSaddle (# 1081158)\$36.98

Benelli M4 Magazine Extension (7-Shot)

Now the M-4 gets an extra 2 shot advantage.

Like the other popular TacStar Magazine Extensions, the M-4 version is easy to install. No gunsmithing is needed and it can be removed to return the gun to the original configuration.

Benelli M-4 7-Shot Mag. Ext. (#1081185)\$62.50

TacStar Magazine Extensions

Machined from super-strong chrome moly steel tubing, popular TacStar Magazine Extensions are easy to install. No gunsmithing is needed and most can be removed to return the gun to the original configuration. The seven-shot extension allows for two extra rounds, the eight-shot adds three and the ten-shot adds five more rounds to the shotgun's capacity. Ten-shot extensions include a Barrel/Magazine Clamp. All extensions include a specially calibrated new spring.

Parkerized Extensions available for Remington 7 & 8 Shot Models

Weapons Light System (WLS) 2000

New style Weapons Light System features the Powerful T6 Flashlight which puts out 75 lumens (15,000 candle power). (See below). A pressure sensitive on/off switch is located at the end of an expandable curly cord for convenient placement on the firearm allowing for light activation without moving your grip. Velcro® tape is supplied for switch attachment. Two precision machined mounts are included that fit firearms from .22 caliber to 12 gauge. The larger diameter mount also fits extended magazines and scopes.

Made from 6061 T6 aircraft aluminum, the WLS 2000 is shock resistant under recoil, water resistant with O ring seals and corrosion resistant with a quality black anodized finish.

NEW High Intensity LED Light!

SideSaddle Light Mount

The SideSaddle Light Mount System is designed to be used in 12ga. TacStar SideSaddles. This unique mount clamps securely into one shell holder and leaves the others available for shotshells. This rugged light mount will hold the 1" diameter TacStar WLS 2000, or with the use of the supplied nylon bushing; any 11/16" diameter mini AA flashlight. The machined aluminum mount will stand up to the heaviest recoiling 12ga. loads, and is a perfect addition to a home defense or tactical shotgun. (Note: Does not include flashlight or SideSaddle.)

SideSaddle Light Mount Part # 1081144 \$31.98

TacSling

Our Tactical Shotgun Sling is made from heavy black one-inch nylon webbing with high strength buckles and loops and a Velcro® brand fastener. It was originally developed for pistol gripped shotguns, but it fits a variety of firearms as well. The forward sling loop is adjustable to fit any attachment point on the firearm. This unique design incorporates a slip-loop for a closer fit to the body and allows the shotgun to be carried in a variety of positions. (Mounting brackets and swivels not included).

TacSling Part # 1081175\$26.98

Barrel/Magazine Clamp

Stabilizes the Magazine Extension by clamping it to the barrel. The QD Swivel attaches to the swivel base for sling attachment.

#1081113\$22.50

UBM-4 Mount for 3/4" to 1" barrel x 1" light
#1081114\$22.50

Universal Barrel Shroud

Our Universal Barrel Shroud fits most 12 gauge pump shotguns. It is machined from all-steel with a black oxide finish. It is 13 3/4" in length and designed with a circular friction-fit bracket at the rear and a locking clamp at the front for a recoil resistant fit on the barrel.

Universal Barrel Shroud (UBS) - Part # 1081171\$35.98

Pistol Grip Shotgun Case

Our Shotgun Case was designed to carry pistol gripped shotguns but accepts a variety of firearms as well. Crafted from heavy Cordura® with thick foam padding and a quality lining inside. The wraparound handle is made from 1 1/2" wide nylon webbing. The case measures 32" x 10" and will accept pistol gripped shotgun with up to a 21" barrel.

Pistol Grip Shotgun Case Black - Part # 1081145\$38.98

Nylon Bushing Adapters

Our Nylon Bushing Adapters are designed to adapt to smaller diameter flashlights and lasers to any 1" diameter mount ring. NB-1 fits mini AA flashlights, NB-2 fits 3/4" diameter flashlights and lasers, NB-3 fits inside NB-2 to hold 1/2" diameter lasers.

NB-1 Outside diameter 1", inside diameter 11/16"
#1081192\$7.98
