## VIZAIR™

VizAir provides superior laptop protection by using three air bumpers at the bottom and corners of the bag. The technology is highly visible on the outside through bold use of color. Your laptop can now receive the same shock absorption protection that runners have enjoyed in their footwear for years.

## SOLAR

Solar combines the strength of Samsonite with the power of the sun. Road warriors can literally recharge their batteries – of small electronic devices – by just exposing these bags to about four hours of direct sunlight. All the power you need comes from the 12v adapter stored neatly inside the front panel. This fusion with nature is reinforced by the bag's construction out of 450 Denier recycled PET fabric.

## TECTONIC™

Carry all of your gear in style and comfort. This line of laptop backpacks is designed to keep you organized on the go. Constructed of durable ballistic fabric, each bag features comfortable padded handles and shoulder straps, co-molded zipper pulls, wide base for stability, and lots of pockets for organization.
