**KORCHMAR**<sup>™</sup>  
A Case for the Professional

## Over 90 years of combining Craftsmanship and Style!

In 1917, Max Korchmar began what is now a strong family tradition — crafting some of the finest leather business cases and leather goods in the industry.

Originally sold in the automotive, medical and travel industries, Korchmar identified a market need and expanded toward success. Markets such as the U.S. government and military, airline industry and major corporations welcomed Korchmar's quality offerings.

Today, Korchmar briefcases, luggage, and leather goods continue to combine superior quality, performance and style.

With a respectful nod to my grandfather and father, it is with the greatest pride that I present our Korchmar brand of creations on the following pages. We sincerely hope you will enjoy carrying them as much as we have enjoyed creating them.

# Schlesinger<sup>®</sup>

by KORCHMAR<sup>™</sup>

**Schlesinger, since 1919 is synonymous with luxury, performance and style.**

Korchmar has preserved the classic Schlesinger styles with discriminating standards and only the finest materials assembled the traditional way, with the most time-tested tools of mankind — the hands.

Only premium unaltered full-grain leather qualifies to have the Schlesinger name. The leather's natural markings, which are enhanced during production, make each item one-of-a-kind. For the purist, Schlesinger's full grain cowhide character is enhanced by a process of vegetable re-tanning and impregnation with wax and oils producing a case with greater strength as well as luster and character that improves with age.

The Schlesinger Brand is Luxurious! Our patented Case-Setter frame<sup>™</sup>, adds strength to edges and corners. In brief bags and most top-zip styles, a reinforced drop bottom helps prevent stretching. Stain-resistant, brushed Cordura, selected for its strength, light weight, durability and clean appearance, is meticulously stitched to line all cases. Hardware includes solid brass locks, combining beauty and durability.

Classic Korchmar<sup>™</sup> Collection
