* **Images Per Minute (IPM)** - In March 2009, the International Standards Organization implemented a print standard for inkjet printer document print speeds, which is a universal measure utilizing three types of standardized test documents in "real world" conditions - one, 4-page Excel document, one 4-page Word document and one 4-page PDF document. This new standard will allow you to easily compare the print speeds of printers manufactured by different companies.

** **ePrint** - This feature allows you to e-mail a document or attachment to the printer from any device (such as a computer or smart phone) and have it automatically print.

*** **AirPrint** - AirPrint on your iOS Device makes it simple to print your email, photos, web pages, and documents. There's no software to download, no drivers to install, and no cables to connect.
