Samsonite

SAMSONITE 2008: A BRAND ON THE MOVE

When Jesse Shwayder founded Samsonite in 1910, early travel was once reserved for only an exclusive few, those who had the means to see the world. Given this exclusiveness, travel was a high quality experience from the transportation, to the attention to service, to even the accessories used to carry one's belongings.

As one of the original brands in travel, Samsonite has continued to leverage its craftsmanship and heritage as an innovator, to create unique solutions for the sophisticated traveller. By identifying trends and interpreting travellers' needs, Samsonite continues to infuse innovation and new ideas into travel re-igniting the sophisticated and special experience of the past.

Today, Samsonite continues to lead the luggage category with those same core principles, further expanding Shwayder's vision globally with design and innovation into product categories and consumer targets.

Samsonite's tagline - 'Life's a Journey' - embodies the brand's transformation and future, symbolising the role Samsonite has in the multi-faceted lives of travellers. The 'Life's a Journey' philosophy, coupled with the latest in modern creativity from creative director Quentin Mackay, means that Samsonite has a totally fresh approach to design and innovation.

Life's a Journey

SAMSONITE MILESTONES

Ever since its earliest days, Samsonite has been the most innovative luggage manufacturer in the world. It has led the industry in using new materials and creating new designs.

Here are just a few of the Luggage Landmarks that Samsonite has created over the years, as part of its tradition of innovation.

1910	The Shwayder Brothers, the company's original founders, manufacture robust wooden trunks.
1941	Introduction of a new type of luggage: Streamlite.
1956	Introduction of breakthrough products including Ultralite, the first suitcase made of lightweight magnesium and ABS.
1958	Launch of Silhouette, the most advanced luggage made up to that time, included a new, modern shape and recessed hardware to protect it from wear and tear.
1962	The first ABS attaché case is created for a new generation of executives.
1967	Introduction of the first polypropylene suitcase with recessed locks for more streamlined appearance and function.
1969	Launch of the new Saturn suitcase, the first polypropylene case whose structure was fully supported by injection-moulded shells. This revolutionary design becomes the most widely accepted way to produce modern hardside luggage.
1973	Samsonite introduces an attaché case with 'right-side-up' feature, preventing it from being opened when the case is upside down.
1974	The first suitcase on wheels is created - a true revolution in travel comfort and convenience.
1975	Samsonite launches a range of soft suitcases with a vinyl frame.
1978	The first polypropylene attaché case.
1986	The first suitcase with a three-point latching system.
1990	The first suitcase with 'piggyback' system.
1991	Introduction of a revolutionary brake-equipped suitcase.
1994	Introduction of a range of polypropylene suitcases with zipper closure, hard and soft combination.
1995	The first Samsonite shop opens in Europe.
1997	The Ultra Transporter: the first Upright case which can be pushed or pulled, and which has an organised interior.
1998	The first Big Wheel Upright case, offering perfect manoeuvrability and silent rolling.
1999	Launch of the PC attaché case.
2000	Introduction of Samsonite's first aluminium product. Samsonite introduces a luggage range designed by Philippe Starck.
2002	Xylem wide handle case launched, and Hardlite (F'lite Lite in 2004), the first product in the luggage and bags industry with a rigid, though lightweight, shell structure due to over-injected thermoformed panels.
2004	Samsonite markets the four-wheel Spinner, making travellers' lives easier.
2005	Samsonite Black Label redefines fine travel goods. Marc Newson designs Scope blending futuristic technology with lush bold colours.
2006	The first new Samsonite store concept opens at London's upscale Bluewater mall.
2007	Samsonite begins the roll out of the new concept stores throughout Europe. Graviton - Samsonite's first case with shock absorption wheels.
2008	Launch of the luxurious Weekend Collections (Resort Originals, Waifer & Concertine).

GRAVITON

A striking design featuring state-of-the-art polycarbonate makes the Graviton range stand out visually and practically. Inspired by the form follows function principle of modernist and industrial design, the Graviton has a unique ridged pattern which combined with special side ridges adds strength without thickness - in a style inspired by the iconic diamond plate pattern. A distinctive and unique looking range.

Graviton

FEATURES:

- Equipped with a special combination lock with TSA function that helps ensure worry free travel to and from the USA.
- Spinner cases have a unique double wheel system with built-in shock absorbers for smoother mobility.
- Full zipper protection on all Upright cases. Spinner cases are expandable (except ref. 155).
- Soft touch interior features a zippered top compartment, cross ribbons and a packing frame.

AERIS COMFORT

The Aeris Comfort range is a new generation of lightweight polypropylene cases that offer flexible packing organisation. They have a modern aerodynamic design with an exclusive Samsonite patterned texture (design protected) and are available in a fabulous contemporary palette of colours.

FEATURES:

- Multistage monotube wheel handle (not on model O55), combination lock and two side locks.
- Functional interior with two pairs of elastic straps and a large pocket. The interior offers a number of additional features: a zippered compartment in the top shell, a side pocket, a shoe bag, a laundry bag and a packing frame.
- A sliding rail system allows you to adjust the height of the elastic straps according to the packed contents.
- Spinners and Uprights (except ref. O55) have a TSA locking system for worry free travel to and from the USA.

FREEMINDER

FEATURES:

- All wheeled items have a reinforced back panel, a curved monotube wheel handle and a padlock with TSA function. There is an organised interior including a separate packing compartment with two shoe pockets.
- The travel items offer a practical ID-tag and organisation in the front pocket.
 - Upright cases have a side handle (not on ref. 150).
- The backpacks feature an anti-theft solution: all zipper pullers meet at the reverse of the bag and are held securely under a Velcro® flap (not on ref. 045).
- Most daily styles include a pocket for your CD/MP3 player and a cable gate.

AERIS

The fashionable Aeris range combines a modern aerodynamic design with an exclusive Samsonite patterned texture (design protected). This new generation of lightweight polypropylene cases are available in an outstanding range of fresh and vibrant colour shades.

FEATURES:

- The cases have a multistage monotube wheel handle (not on model O55), combination lock and two side locks.
- Aeris cases can be closed either by means of a combination lock or a cable padlock with TSA function (not included) (except ref. O55).
- The interior offers an extra divider pad with zipper pocket for easy and organised packing.
- Packing kit available separately: Kit 15 for Upright 55 cm, Upright 64 cm and Spinner 68 cm.

F'LITE COMFORT

This lightweight polypropylene range features high-class styling, contemporary colours and first-rate functionality. What more could you want? Rounded corners and styling add an air of subtle distinction.

F'Lite Comfort

FEATURES:

- Combination lock and side key locks are in a stylish metallic finish.
 - Innovative internal zipper compartment for easy packing.
- Spinner and Upright cases have a multistage pull handle and aluminium wheel handle tubes for extra lightness. The Upright cases have a 'quick-hook' (except ref. 055).
- Packing kit available separately: Kit 15 for Upright 55 cm, Upright 64 cm and Spinner 67 cm.

Pro-DLX Business

new

-
- A black rolling suitcase with a telescopic handle and a top handle. The suitcase is shown from a side-on perspective, highlighting its rectangular shape and the texture of the fabric. It has a main compartment with a flap closure and a smaller front pocket. The telescopic handle is extended, and the suitcase appears to be on wheels, though the wheels themselves are not clearly visible.

A black rolling suitcase with a telescopic handle and a front pocket. The suitcase is shown from a three-quarter view, highlighting its rectangular shape and the texture of the fabric. The handle is extended upwards.

An open rolling suitcase is shown, lying flat. The left side is orange with a black top section and a small black bag inside. The right side is black. In front of the suitcase, a black bag and a laptop are visible.

CABIN LUGGAGE

Cabin baggage - can be taken on board an aircraft (this item meets the IATA recommendations): cabin baggage should have a maximum length of 56 cm, width of 45 cm and depth of 25 cm. These dimensions include wheels, handles, side pockets, etc.

Note: due to capacity limitations some airlines do apply further restrictions on size and/or weight. Samsonite cannot be held responsible if an airline applies other check-in standards.

PRODUCT CODES

All Samsonite product codes appear as follows:
For example: X'ion² Beauty Case - Black:

DIMENSIONS.

The dimensions shown in the tables are the outside dimensions including handles, wheels, bottom glides, side pockets, and other external components.

All volumes are measured in litres. These measurements are carried out in Samsonite laboratories using Samsonite measuring procedures.

QUALITY TESTS

We deliver the quality. You conduct the test. Each journey. Each day.
You might not have given it any thought, but each Samsonite product undergoes the most stringent controls and tests before it goes on the market.
Of course, the ultimate test is conducted by you, the customer.

www.samsonite.com

The Samsonite website will give you information about the company and its latest product developments.
We look forward to seeing you at www.samsonite.com
