IMPORTANT: Please read all instructions and warnings before using this product to ensure safe and proper use.

Just like you, each one of the Primos® Team members have their own personal preferences as to what they want out of their favorite mouth call. Our Team Primos® 2-Pak offers you a variety of custom hand-made mouth calls that are sensitive and easy to blow. You won't believe how versatile these calls are until you try them.

INSTRUCTIONS & EXERCISES

1. Powder is placed on the reeds during the manufacturing process. Rinse the call off before using for the best results.
2. Place the call in the middle of your mouth with the Team Primos® Logo facing up and the front of the call facing out ensuring that the short reed is down when using a multiple reed call.
3. Tongue should be 1/4" to 1/2" past the reeds. Try different tongue positions for different sounds.
4. Press your tongue against the call to seal it in the middle of the roof of your mouth.

EXERCISES: Force air between your tongue and the reeds when exhaling. You should make a squeaking sound.

Cluck - Say, "plock" sharply. Note the "p" is formed with your lips when you do this.

Yelp - Say, "cholk, cholk, cholk" while trying different mouth positions and rhythms.

Cutting - Say, "pot, pot, pot". The lips come together for each cut.

Purr - Vibrate your vocal cords similar to gargling, vibrate your lips or flutter your tongue. The air comes across the reeds producing a very soft, controlled vibration.

Cackling - Say, "kit kit, cat cat cat, cholk cholk cholk". This call is easily achieved when the jaw is used to set the tempo and rhythm.

Kee Kee - Say, "pee pee pee". Make a high note and start and stop the flow of air with your lips.

Kee Kee Run - Say, "pee pee, cholk".

REED SEPARATORS

EXTRA VALUE: Each Team call comes with two reed separators so your reeds do not stick together between hunts.

NOTCH
WILL PRIMOS-1
