KITCHENAID®

Stand Mixers

**ADD SOME DASH WITH
A SPLASH OF COLOUR**

THE KITCHENAID®
ARTISAN® SERIES STAND
MIXER IS AVAILABLE IN
A DAZZLING ARRAY OF
COLOURS.

A KitchenAid® Stand Mixer does a lot more than bring ingredients together – it brings people together. Like when you make chocolate chip cookies and discover that they're more fun to make with a friend.

Bring home a KitchenAid® Stand Mixer and whip up a quiche, or make the day with a chocolate mousse. Go healthy when you cook from scratch and add ingredients you trust. (And don't forget that even making meat loaf, mashed potatoes, and gravy is easier with a KitchenAid® Stand Mixer – comfort food is allowed.)

There's just no substitute for the meals you make or the time you share. And there is just no substitute for the KitchenAid® Stand Mixer.

STAND MIXERS

TIME-HONoured DESIGN AND PERFORMANCE FOR YOUR KITCHEN

Easy access to the beaters and bowl highlight a tilt-head stand mixer. Tilt the head back for access, tilt down and lock for mixing.

The Flour Power™

Index is a simple-to-use guide to help choose the mixer size that is right for you. It is based on a calculation of mixer power, motor strength, and bowl capacity. The larger the index number, the more the mixer can handle.

4½ (4.26L)- or 5 (4.73L)-Quart Stainless Steel Bowl

Choose a model with either a 4½ (4.26L)- or 5 (4.73L)-quart mixing bowl.

Standard Accessories include a flat beater for general mixing, dough hook and wire whip. A pouring shield, which is standard on most models, minimizes splash-out and flour-puff. Protective nylon coating on dough hook and flat beater is dishwasher safe.

67-Point Planetary Mixing Action

The beater spirals to 67 different touch-points within the bowl for quick, complete mixing and the highest beater-to-bowl coverage in the industry.

Direct-Drive Transmission

KitchenAid® Tilt-Head Stand Mixers have a direct-drive transmission for reliable delivery of power.

Metal Construction assures long-lasting, stable operation.

STAND MIXERS

KITCHENAID®

Hand Mixers

**KITCHENAID® HAND
MIXER IS TOP-RATED**

...“THE TOTAL PACKAGE...
POWERFUL, QUIET,
...CONTROLLED...”

NATIONAL CULINARY
TESTING PUBLICATION

It's top-drawer fun in the kitchen.

Even if you don't store it in a top drawer, a KitchenAid® Hand Mixer is so convenient and easy to use that you will want to keep it near. Make Chocolate Chip Cookie dough in minutes – after all, homemade cookies are a lot more fun than store bought.

You can also quickly beat a sauce for Chicken Florentine mix a Salmon Mousse, and whip cream and egg whites.

The hand mixer is a great companion to the KitchenAid® Stand Mixer too. While your stand mixer is kneading dough, you can reach for your hand mixer and whip up a filling, topping, or flavoured butter.

Everyone likes to have a little fun in the kitchen, and you'll add to that fun with a powerful yet nimble KitchenAid® Hand Mixer.

HAND MIXERS

EXCEPTIONAL POWER, CONVENIENCE, AND RELIABILITY

Durable Motor has the power to beat heavy mixtures batch after batch. After all, it is from KitchenAid, so you can depend on it.

Direct Current Motor KitchenAid® Hand Mixers use a DC (direct current) motor, which is lighter and quieter than AC motors. This motor is also more energy efficient.

Soft Start® Speed, Electronic Mixing Sensor, and Clean Touch™

Control are standard features on 7- speed KitchenAid® Hand Mixers. The Soft Start® speed starts slow to minimize flour-puff and splatter. The electronic mixing sensor ensures steady mixing speed when mixing thick or heavy ingredients. The Clean Touch™ Control with digital display has a smooth surface that does not trap food. Touch the up arrow to increase mixing speed and the down arrow to decrease it.

Dough Hooks and Blending Rod

These essential blending and bread-making accessories are included with the 5-speed KitchenAid® Hand Mixers. The Dough Hooks are ideal for preparing quick morning rolls. The blender rod reaches deep into glasses and pitchers.

The Pro Whisk is a standard accessory with the 9-speed mixer – it's the secret behind extra-silky icings, fluffy whipped cream, and egg whites whipped to stiff peaks.

HAND MIXERS

ULTRA POWER™ HAND MIXER – 5-SPEED

- Easy-to-Use 5-Speed Control
- Convenient Ejector Button and Comfort Designed Handle

KITCHENAID®

Food Processors

DID YOU KNOW?

KITCHENAID® FOOD
PROCESSORS ARE RATED
#1, #2 AND #3 BY A
LEADING CONSUMER
MAGAZINE.

FOOD PROCESSORS

Why settle for salads or shredded cheese from a bag?

With a KitchenAid® Food Processor, you can choose your favourite fresh vegetables, fruits, and cheeses and prepare them the way you want, when you want.

You can also prepare fresh gazpacho, spinach and artichoke dip, omelettes, lemon pesto, fruit salads, even the toppings and dough for that perfect homemade pizza – all with the speed and control that seems like pure magic in the kitchen.

Whether you're preparing an intimate dinner for two or a large banquet for family and friends, you can always rely on your KitchenAid® Food Processor to help you make the meal and make your day.

KITCHENAID®

Blender & Hand Blender

**THE MOST POWERFUL
PREMIUM BLENDER
AVAILABLE**

THIS POWER PROVIDES
EXCEPTIONAL
BLENDING
PERFORMANCE AND
ICE-CRUSHING
CAPABILITIES.

Why take a large pot of soup to your blender when you can take your blender to the pot?

Use your countertop blender for large pitchers of smoothies and mixed drinks or use your KitchenAid® Immersion Blender to set your imagination free and share a whole new culinary experience with friends and family.

BLENDER & HAND BLENDER

POWER, PERFORMANCE AND RUGGED GOOD LOOKS

Shatter-Resistant Pitchers

Glass is a thing of the past. These pitchers can take a tumble. Made from tough, lightweight, high-tech polycarbonate, these 48- and 56-ounce (1.42L and 1.75L) pitchers are ideal for carefree entertaining.

Contours, or ribbing, molded into the pitchers help force food into the blenders' sharp stainless steel blades.

Performance-Enhancing Features

The KitchenAid® 5-speed blenders have features that add convenience and enhance performance. An electronic sensor adjusts power to compensate for thicker mixes. The Soft Start® feature starts the blender slowly, pulling food or ice into the blade, then increases speed to the chosen setting. The "Crush Ice" mode on the 5-speed blender pulses automatically at staggered intervals to improve ice-crushing efficiency.

Durable, Steel-Reinforced Coupler

The commercial-quality drive with 12 interlocking teeth is reinforced for extra strength and added durability.

Easy To Clean One-Piece Pitcher

There is no need to take apart the pitcher for cleaning – the blade and collar are built into the pitcher.

Soft, Non-Slip Grip

A soft material is built into the pitcher handle for a positive feel and comfortable grip.

KITCHENAID®

Countertop Cooking

**A SOLID,
POWERFUL OVEN
IN A COMPACT SIZE**

THE COUNTERTOP
OVEN'S STEEL CASE AND
METAL-FRAMED DOOR
HAVE A STURDY FEEL.

COUNTERTOP COOKING

We all have room in our hearts for the host who always has room for us. And now, you can easily make an extra place at your dinner table with these KitchenAid® countertop cooking appliances. The extra capacity and convenience will create new opportunities for your cooking and entertaining.

With a KitchenAid® Slow Cooker simmering in the kitchen, the inviting aroma of a delicious meal fills your home with anticipation. Prepare a Chocolate Chunk Bread Pudding, Orange-Glazed Cornish Hens, or a classic Beef Bourguignon. With the power, control, capacity and exceptional sensitivity of this slow cooker, you can create a variety of dishes.

The KitchenAid® Countertop Oven is convenient, easy to use and exceptionally rugged. It's ideal for entrées like a broiled salmon, where there is no need to heat up a full-sized oven. It's perfect as well for baking a dessert while you bake a banquet in your oven.

KITCHENAID®

Beverages

**GRIND YOUR
OWN BEANS**

COFFEE BEGINS LOSING
FLAVOUR THE MOMENT
IT IS GROUND. THE BEST
FLAVOURS ARE LOST
WITHIN AN HOUR OF
GRINDING.

Coffee's aroma has the unique ability to call people together and kindle fond memories of great times and good friends. To enjoy the first burst of coffee's aroma, grind your beans in either the KitchenAid® Blade Coffee Grinder or Pro Line® Series Burr Coffee Mill. Then capture that aroma and brew it into rich, flavourful coffee in a KitchenAid® Coffee Maker.

Grind fresh and brew richly – with KitchenAid® coffee products.

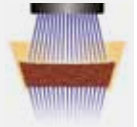

BEVERAGES

A COMPLETE BREWING SYSTEM

Full-Dispersion Showerhead and Flat-Bottom Brew Basket

On all KitchenAid® Coffee Makers, a full-dispersion showerhead sprays the entire flat-bottom filter basket with hot water, ensuring even extraction of flavour.

Great Tasting Coffee Starts with Fresh Water

The removable water tank is easy to fill with water to give you great tasting coffee every time. It's also easy to clean so you can always make your coffee with the freshest water.

1- to 4-Cup (0.2L to 0.9L) Brew Cycle

Automatically adjusts the brewing process to optimize the saturation time for maximum flavour when brewing small quantities.

Gold Tone Permanent Filter

The permanent filter eliminates the need to purchase paper filters.

24-Hour Programmable

Coffee makers can be programmed to brew up to 24 hours in advance.

Variable Brew Strength Selector

Provides a Bold setting when a stronger cup is desired.

COFFEE MAKERS

12-CUP (2.8 L) GLASS CARAFE COFFEE MAKER

- Removable Water Tank
- Refined Brew Process
