KX-TG4012N

Expandable Digital Cordless Phone with 2 Handsets

EXCLUSIVE FEATURES!

DECT 6.0 PLUS Technology

DECT 6.0 PLUS takes the superb sound quality and outstanding range of DECT 6.0 phones to a whole new level. By increasing the frequency of error correction up to 80x, the transmission quality is improved and the phone's range is extended. Whether you use them in the bedroom, the basement or the backyard, our cordless phones with DECT 6.0 PLUS Technology truly go the distance!

Intelligent Eco Mode

This clever new feature automatically lowers the power consumption when you're using the handset close to the base unit. Not only does it extend the available talk time, it's good for the environment. When less power is used by the handset to communicate with the base unit, battery life is prolonged which results in less frequent charging and can result in fewer batteries in landfills.

Up to 6 Handsets with Just One Phone Jack

Expand your phone system by adding additional handsets to any room where a phone would come in handy. With our DECT 6.0 expandable phone systems, you don't need a phone jack for each additional handset—just one for the base unit. So there's no messy wiring or complicated setup.

Up to 4-Way Conference Capability²

Allows up to 3 handsets to join in a conversation with 1 outside caller. Perfect for business situations or when the entire family wants to speak with a friend or grandparent as a group.

Call Waiting Caller ID¹

The LCD displays the name and number of incoming callers even when you're on another call. It also saves up to 50 incoming calls for easy retrieval and direct callback.

Specifications

Color	Champagne Gold
Frequency	1.9 GHz
System	DECT 6.0
Number of Channels	60CH
Number of Handsets (Capability)	2 (Up to 6-H/S)
