INFANT CAR SEATS

Keeping baby safe is Evenflo's most important goal. Evenflo is committed to providing parents with new product innovations and education tools that make our products safer for baby and easier for Mom to use. But we know that safe products work best when used correctly. That's why we take extra steps throughout our rigorous safety testing and engineering design. We've introduced first-to-market features on car seats that focus on safety while enhancing ease of installation and use. We support our products with simplified instructions, online guides, how-to videos and our ParentLink consumer resource center.

ACTIVITY CENTERS

Evenflo ExerSaucer®. Entertainment for baby. Peace of mind for Mom. In 2006, a national study performed in conjunction with the American Academy of Pediatrics identified stationary activity centers like the ExerSaucer as a "safer alternative to walkers." With the ExerSaucer, baby can exercise body and mind while achieving important developmental milestones with age-appropriate toys in a secure environment. Evenflo ExerSaucer activity centers combine safety, child development and exercise to create stimulating and wholesome entertainment for children. ExerSaucer is everything that is "Best for Baby."

ExerSaucer® Triple Fun™ Active Learning Center

- Playmat, ExerSaucer and Activity Table in one for extended usage as child grows
- Variety of age-appropriate toys and fun music help baby achieve 10 developmental milestones such as fine motor skills, object exploration, tactile development and more
- Patented folding technology makes travel and storage easy
- Baby can rock, spin or bounce
- Fun jungle theme
- For newborns to 24 months; maximum height 30"
- Requires 9 AAA alkaline batteries (not included) for globe, chameleon and alligator

BREAST PUMPS

For more than 30 years, Evenflo has worked to earn the trust of generations of moms as a company committed to product excellence and innovative breastfeeding solutions. In 2008, we worked with our network of lactation consultants and professional breastfeeding advisors to become the first baby bottle manufacturer in the United States to achieve compliance with the World Health Organization (WHO) International Code. Evenflo has championed the mission to enable every mom to breastfeed longer and provide healthy, natural nourishment for their babies.

Comfort Select Performance[™] Without BPA Auto-Cycling Breast Pump

- A single nipple can also be cleaned

#6370311 1 pack

Evenflo has created a new and innovative toddler feeding line. The SmartSteps™ products are smart for child and smart for mom. These products will facilitate happy, healthy mealtimes by providing methods for 1) Knowing Portions 2) Exploring Food and 3) Serving Themselves.

Serving Myself

The American Medical Association recommends allowing children ages 3-5 to serve themselves so they can self-regulate their meals.

Exploring Food

Is your child a picky eater? Allow children to taste and experience new foods without being overwhelmed.

Knowing Portions

Did you know that portion sizes have TRIPLED in the last generation? Take the guesswork out of serving sizes.

Portion Plate

- Proper portion sizes identified on plates with color and graphics
- 2-pack plates with 2 dipping cups that can be placed in many locations on the plate
- Cups hold the child's favorite dip or sauce. Cups can also be used to encourage picky eaters to try new foods. Either use, dipping or sampling, will allow the child to explore new foods
- Second plate conveniently becomes a lid when turned over to allow storage of leftovers
- Plates easily stack for storage
- Slip-resistant base for fewer spills

#6444311 2 pack

Infant Feeding Bowl

- Two compartments hold two different correctly portioned foods
- 2 oz. and 5 oz. section bowl
- Comfortable, easy-grip handle for the parents to hold bowl while feeding their infant
- Non-skid bottom for fewer spills

#6441211

Portion Scoop

- 1 oz. scoop teaches parents the proper portion size for their child
- Scoop designed for a child to easily hold and serve own portion
- Soft bottom allows child to easily serve hard-to-remove food by gently pressing the back of scoop
- Child learns motor skills while serving themselves

#6444411

Transition Cup

- Infants can easily transition from breast or bottle to sippy cup with the soft spout
- Teething-friendly soft spout is gentle on baby's tender gums
- Soft, spill-resistant spout. Simply squeeze and suck spout to release fluid
- Angled cup so child does not have to strain their neck to drink
- Hygienic spout cover included for traveling
- No separate valve to clean or lose

#6449811 8 oz 1 pack

#6449211 8 oz 2 pack

Insulated Cup

- Soft, spill-resistant spout. Simply squeeze and suck spout to release fluid
- Innovative neoprene sleeve keeps drinks cool or warm longer. Easy-grip handles are incorporated into the sleeve
- Hygienic spout cover included for traveling
- Removable, machine-washable insulated cover
- Larger 14oz cup designed for an older toddler
- No separate valve to clean or lose

#6449511 14 oz 1 pack

Insulated Straw Cup

- Insulated cup with flexible straw teaches child to drink from straw and promotes healthy oral development
- Sliding straw cover keeps straw clean when not in use
- Innovative neoprene sleeve keeps drinks cool or warm longer
- Easy-grip handles are incorporated into the sleeve
- Removable, machine-washable insulated cover
- Larger 14 oz cup designed for an older toddler

#6441511 14 oz 1 pack

Soft Touch Feeding Spoon

- Soft-tip spoon is gentle on baby's gums
- Temperature sensitive spoon changes color when food is hot
- Shallow spoon ergonomically designed for easy removal of food
- Long handle for parent to comfortably feed child
- Flat spoon makes feeding easier

#6440211 3 pack

Discovery Spoon™

- Spoon is ergonomically designed for children learning to feed themselves
- Shallow spoon designed for easy removal of food
- Soft-sided spoon is gentle on baby's tender gums and allows child to easily scoop food

#6440111 2 pack

Kid-Tensils™

- Children learn to eat with spoon and fork. Then the fork and spoon can be placed in the attachment to create "kid-friendly" serving tongs
- Serving tongs teach children to serve themselves and allow children to determine their own portions of food
- Fork designed to easily pierce food
- Shallow spoon designed for easy removal of food
- Tongs allow child to further develop and utilize their pincher motor skill

#6440311 2 pack

Snack Stackers™

- Designed for small portion meals or snacks
- Secure-fit lids for non-spill containers
- Bowls easily stack for storage
- Lid attaches to base of bowl for stability
- Vented lid allows for a microwave safe container
- Try with Magic Label™ to easily identify food

#6442111 3 pack

Portion Freezer Tray

- Fresh pureed food can be frozen in proper portion sizes
- Tray cups expand from 1.5 to 3 ounce portions
- Soft tray cups allow one cube to easily “pop” from the tray to remove what is needed
- Food is embossed with letters and numbers for fun and education for children
- Freezer trays easily stack for storage or in freezer
- Cover included

#6444711 1 pack

Magic Label™

- Write. Stick. Dissolve.
- Labels easily dissolve in water
- Label everything from fresh frozen food to leftovers
- Any pen or marker can be used to write on label
- Great for notes to daycare, babysitter, grandparents, etc.
- Inspirational notes can be left for your child while they are away from home or at school
- Easy-to-remove label with dispenser box
- FDA-approved material
