the elements of danish design

Skagen Inspired.

Inspiration resides throughout the Skagen Denmark product collections, from watches to jewelry to sunglasses and clocks, and comes to life through form, color and function. What has inspired the creation of Skagen Denmark products now takes place in a life of contemporary styling, quality design, subtle color combinations, comfortable fit and more. The northern coastal town of Skagen, Denmark, continually serves as a muse in the development of each piece in our collections, offering motivational components that build our products. From the shimmer of the Skagen coast, to the smooth shift of the beach sand in the breeze, to the crisp blue skies of summer, all that lives in Skagen comes to life for you.
