SATELLITE RADIO ANTENNAS

The Metra Roof-Mount Satellite Radio Antenna specifically for Sirius and XM Satellite Radio reception. They have dual-mode functionality, receiving simultaneous signals from satellites and terrestrial repeaters to ensure continuous reception. The result is antennas that offer all the benefits of

satellite radio and complement the appearance of any vehicle. They are easy to install on most vehicles. The package includes all the necessary mounting hardware, as well as color-coded cable connectors to ensure complete compatibility with Sirius and XM receivers.

FEATURES:

1. Low-profile mounted design.
2. Mounts to roof of vehicle via special acrylic foam adhesive pads that provide years of worry-free enjoyment, yet are removable if necessary. Attached micro cable is designed to wrap around the rear window for an invisible wiring solution.
3. Tested and proven to Automotive Environmental Standards shock- and vibration-proof design.
4. Safe for low-clearance conditions, including car washes.

FEATURES:

- When fully retracted, mast is flush with top of base.
- All parts and installation instructions are included for most installations.
- Can mount on front or rear fender location.
- One year limited warranty provides protection from manufacturing defects.
- Motor assembly can be mounted in a remote location allowing installation in vehicles with limited space available. (44-PW6)

Mounts in most domestic and import cars. Less than 11 1/2"/29cm is required below the fender. (More compact than most factory automatic antennas.)

Two antenna bottom mounting points are provided for easy support strap attachment. Drain tube included for trunk installation.

Combination male/female spade terminal for "no solder" fuse block connection.

Easy 2-wire hookup connects directly to car audio switched antenna wire and unswitched power wire with bullet terminals.

All wires and cables connect at the antenna for easy replacement of factory antenna.

Silent running eight pole high-torque motor for all-weather operation. Individually hand balanced for smooth, quiet operation and checked to verify maximum torque force.

Limit switch and special clutch design protects motor from overheating due to obstructions, freezing or external interference.

Special design allows mast to be operated by hand. Mast can be raised or lowered without motor running. (44-PW6 not applicable.)

Mast is replaceable from the top without removing antenna from the car.

44-PW20

Fully-Automatic 6/BX

- Fully-Automatic with (5) 1"/25mm custom mounting bases
- 31"/79cm 4-section replaceable mast
- 55"/140cm detachable cable
- Needs 11 1/2"/29cm under fender
- Custom mounting bases

AMPLIFIED

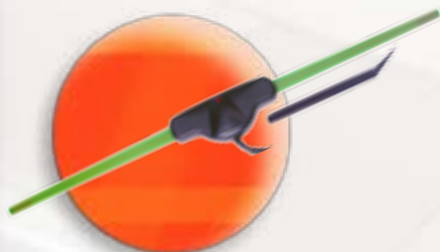

44-UA46

Amplified roof Mount Antenna

- Electronic roof mount AM/FM antenna, 3db gain
- 7"/17mm 1-section detachable black conductive rubber mast
- 195"/15m Signal/power detachable cable
- Requires 9/16" hole

0 86429 08219 3

44-UA205

Amplified Glass Mount Antenna

- AM/FM slim style windshield or glass mount amplified antenna
- Gain FM - 10db/12db, AM - 5db/2db

0 86429 08222 3

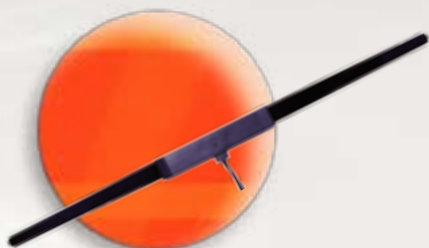

44-UA20

Amplified Hide-Away Antenna

- High gain "Hide-away" amplified antenna or AM/FM bands
- Active magnetic-type antenna, working on the magnetic field associated with a conductor excited by a microwave
- Voltage pickup is Nanovolts, but with the magnetic type circuitry it extracts a signal with a superior signal-to-noise ratio
- 102"/260cm coaxial cable and power supply wire

0 86429 01662 4

44-UA200

Amplified Glass Mount Antenna

- Deluxe high performance windshield or glass mount amplified antenna
- Separate AM and FM amplifiers for greatest performance
- Separate ground wire for noise canceling and a red LED to confirm amplifier operation
- Mount on windshield behind mirror or on fixed side/back windows, 14-1/2"(37cm) width
- 93"/236cm cable length

44-UA25

On-Glass Micro Screen AM/FM Antenna

- Hide-away, omni-directional antenna with a 54 inch cable

44-UA30

Amplified Roof Mount Antenna

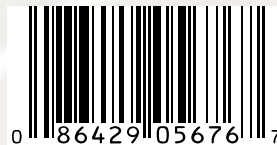

- European amplified roof antenna for AM/FM bands
- 15"/38cm black helical wind removable fiberglass mast
- 6"/15cm coaxial cable and power supply wire

44-UA40

Amplified Roof Mount Antenna

- European amplified roof antenna for AM/FM bands
- 15"/38cm black helical wind removable fiberglass mast
- 6"/15cm coaxial cable. (Power through cable)

44-UA50

Universal Amplified Antenna

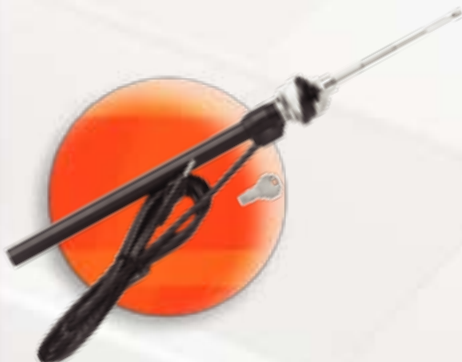

- European amplified antenna for AM/FM bands
- 15"/38cm 6-section black retractable mast
- 59"/150cm coaxial cable and power supply wire

44-UA60

Antenna Amplifier

- Amplifier for AM/FM bands with bypass switch, in-dash or under dash mounting
- 3 1/4"/20mmH x 1 9/16"/40mmW x 3 3/4"/95mmD
- 21"/53cm coaxial cable and power supply wire

KEY LOCK

44-UL09

Universal Retractable Antenna

- Retractable top mount for 3/4"/19mm hole
- 31"/79cm 4-section retractable mast
- 48"/122cm cable, requires 9 1/2"/23cm under fender

REPLACE YOUR MITSUBISHI OEM RADIO AND STILL RETAIN ALL YOUR FEATURES!

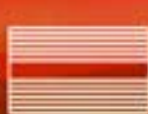

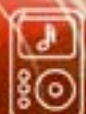

MITO-01

The MITO-01 is designed to integrate the installation of an aftermarket radio in vehicles equipped with the premium Rockford Fosgate soundsystems. The factory amplifier is controlled through the cars data bus system and requires communication from the MITO-01 interface to continue working with aftermarket radios. Also provides an adjustable input gain to adapt to the variety of aftermarket radio outputs. This interface is also USB updatable to combat application and technology changes.

FEATURES:

- For 2006-2008 Mitsubishi Eclipse and 2007-2008 Endeavor with Rockford Fosgate audio system
- Adjustable input gain
- USB update interface compatible
