

VERO VELLINI

Tradition. Performance. Style.

Handcrafted Workmanship Superior Comfort

VERO VELLINI. The world's most comfortable gun sling.™

Have you ever experienced the discomfort of a thin leather sling that digs into your shoulder on a long hunt? Or the sling (and rifle) that constantly slips off? These annoyances are even more uncomfortable when you've got gear or equipment in your hands. About 15 years ago, we set out to offer you the most comfortable sling that will absolutely stay put on your shoulder in all climates and temperatures. At the same time, we wanted to give superior durability, an exceptionally clean design and beautifully detailed styling. In short, a sling that works for you and looks great on your rifle or shotgun.

Vero Vellini Air Cushion Rifle Slings (see page 3)
One inch width to fit on any 1" swivels. Available in black, forest green, brown or safety orange. All are handsomely accented with brown leather end panels.

Vero Vellini "High Climbing Double Sling"

When you're hunting and want both arms free for climbing hills, trees, mountains or carrying gear, you need a rifle sling system that keeps both hands free.

The new "Double Sling" from Vero Vellini helps support one or both arms, by looping the sling behind the elbows, to more firmly hold the rifle stock for better support when taking an off-hand shot when no rest is available.

Carry your firearm in comfort while:

- Climbing • Hiking • Keeping Your Hands Free
- Moving Game • Fits 20mm, 1" & Extra Wide Swivels

Classic Rifle Sling (item # V18026) has same features as the V17026 with brown side edging for a classic finished look. Leather end panels match edging on the slings and feature embossed Vero Vellini logo.

Tactical Rifle Sling (item # V18022) features attractive black webbing w/black side edging.

Vero Vellini Wide-Top Rifle Slings (see pages 4,5 & 6)

Our Wide-Top slings extend to a width of 3½" at the shoulder area for even more comfort and sure grip. All of our Realtree® and Advantage® pattern slings are made with DuPont® Cordura® backing. The Cordura® backing is thornproof and moisture resistant. Edging on the sides of the sling adds styling and prevent excessive stretch and fraying.

We have researched and developed several flexible materials that are constructed of tiny, closed-cell air cushions. These materials are designed to stretch slightly with every step and help to absorb shock caused by motion. Different layers of these materials constructed together create the ultimate in balance, comfort, flexibility and dampening. Our triple layering will also keep your rifle from bouncing up and down.

Rifle/Shotgun Slings

Vero Vellini®

Air Cushion slings are the most flexible in the Vero Vellini range and offer the highest level of shock absorption due to the fact that the edge piping has been deleted. With the open side cut, you can see the sandwiched layers of neoprene which offer stretch but also plenty of support.

Just a few of the Vero Vellini slings leading features:

- Unique high density neoprene with slip proof rubber backing
- Triple balanced by creating a neoprene “sandwich” of three layers (this offers plenty of flexibility, but stops the sling from being “bouncy”)
- Shotgun slings offer loop ends that grip to your stock and barrel, these can be used on rifles without swivel studs
- Non corrosive, coated and anodized steel hardware and buckles
- Attractive leather end panels that are superbly detailed
- Vero Vellini “Quick Attach” swivel slings use only the highest performance Uncle Mike’s QD Super Swivels

Shotgun slings feature slip-proof loops on both ends.

Vero Vellini Shotgun Slings

Large slip-proof loops that loop around any shotgun or older and unswiveled rifles. Also fits many bows and can be used for fishing rods or rod tubes. All other features are the same as our rifle slings.

V17126

with loop ends.

Rifle/Shotgun Slings

V17022 Black Rifle Sling

V17122 Black Shotgun Sling

V17026 Forest Green Rifle Sling

V17126 Forest Green Shotgun Sling

V17010 Safety Orange Rifle Sling

V17030 Brown Rifle Sling

V17130 Brown Shotgun Sling

All Vero Vellini slings feature leather end panels for that classic look with great styling.
(V17026 shown)

Our three-layer Air-Cushion neoprene sandwiching makes a sling that's comfortable but not excessively bouncy (like those cheap imitations!) Now you can carry your shotgun or rifle securely and comfortably with classic styling.

Classic Slings

Vero Vellini® Classic

Air Cushion slings

If you're carrying a heavier rifle, or simply want more support, the Classic Air Cushion slings feature edge piping around the entire neoprene pad. These slings will offer more durability and a stylish finished look. They're available in Forest green with brown piping and leather accents, or black on black tactical finish. Available in standard and wide-top widths.

Camouflage Slings

Vero Vellini® Camo

Air Cushion slings

Vero Vellini Camo Slings offer the firmest level of support, while giving you an unparalleled slip proof finish on the contact patch of the sling. Available in the most popular camouflage patterns, the slings use durable Dupont® Cordura® nylon for maximum wear and durability. All edges are piped to prevent fraying and the Cordura® is laminated to the neoprene surface for a smooth even finish.

Standard width: For 1" Swivels.

- A V17049 Advantage® AP-HD™ with 2 QD Swivels
- V17038 Advantage® Timber™ (not shown)
- B V17042 Advantage® AP-HD™

Wide-Top: For 1" Swivels.

- C V19042 Advantage® AP-HD™
- D V19049 Advantage® AP-HD™ with 2 QD Swivels
- E V19034 Realtree® X-TRA® Brown
- F V19036 Realtree® Hardwoods®
- G V19038 Advantage® Timber™
- H V19040 Advantage® Max4®

Camouflage rifle slings with durable Cordura® backing are both thornproof and moisture resistant.

QD Swivel and Safari Slings

Vero Vellini®

Quick Attach Swivel slings

Built like the Classic and Camo slings with the addition of two Uncle Mike's QD Super Swivels that are ready to attach to your rifle's swivel studs. Swivels feature unique Swivelock® locking feature and are permanently sewn into the sling so they can't be lost. Sling length is still adjustable. Available in Classic Black, Forest Green, AP-HD™ and Advantage® Timber® Camo.

V17231 Standard-Walnut Safari Sling

Vero Vellini®

Leather Safari slings

We recently developed our first leather slings. We wanted to offer superior comfort and the finest styling for the world's best rifles. For comfort we developed a unique internal padding which makes the sling as comfortable as our Neoprene sling. For slip-proofing, we coated the back of the sling with a textured suede material that will stay put on your shoulder. And for looks, as well as durability, the Safari slings use the finest cow hide that is naturally processed and tanned.

V19233 Cobra-style Chestnut Safari Sling

Binocular, Camera Straps and Harnesses

Vero Vellini® Straps Carry your camera or binocular for hours with a weightless feeling of comfort. We used our same triple layered approach on Vero Vellini straps offering great comfort but also support to prevent excessive “bounce” of your camera or binocular.

Vero Vellini Outdoor Binocular/Camera Strap

The first thing you'll notice is the attention to detail to these handcrafted straps for your camera, binocular or camcorder. The comfort and stretch feels amazing and makes your equipment seem weightless. The non-slip gripping surface is unrivaled because it simply won't slip off your shoulder. 30 mm wide. Recommended static weight limit 10 lbs.

V16022 Black, V16030 Brown, V16026 Forest Green.

Vero Vellini Bino-Pal™ Harness

Carry your binocular with the greatest of ease! The new Vero Vellini Bino-Pal™ Harness allows for hands free carrying of your binocular – ideal for the hunter or wildlife observer on the go. Simply raise your binocular to your eyes for quick viewing and return it to your chest when you're done. Your binocular is securely attached to the adjustable harness and can be removed with a press of the quick release buckles.

V20024 – Black.

All materials used in Vero Vellini products are UV and IR light resistant, weather and temperature proof and engineered to survive the roughest hunting conditions.

Cartridge Cases and Scope Covers

Vero Vellini® has developed a multi-purpose cartridge and shell holder designed for fast easy access, comfort and convenience. The Vero Vellini cartridge case is available in 1000 Denier Dupont® Cordura® or in soft naturally tanned suede leather. Both are created by old world craftsmen and completely assembled by hand.

Designed for fast access, the cartridge case allows for quick one-handed operation by use of a unique magnetic locking clasp on the case cover that keeps your cartridges clean. The standard case includes a 12 cartridge insert sized for most big game cartridges. Other inserts are available in various combinations. For added security, the elastic inner cartridge insert locks in so it cannot be pulled out when reaching for a cartridge. This inner shell holder can be entirely removed and the outer case can also serve as a belt attachable camera or tool case.

V20030 Cartridge Case includes 12 ct. cartridge insert. Cordura® Forest Green

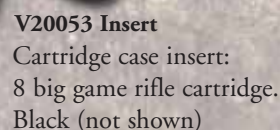

V20040 Cartridge Case includes 12 ct. cartridge insert. Suede Natural Brown

V20051 Insert
Cartridge case insert: 6 rifle cartridge + 4 shot shells. Black

V20052 Insert
Cartridge case insert: 12 rifle cartridge. Black (as shown left in V20030)

V20053 Insert
Cartridge case insert: 8 big game rifle cartridge. Black (not shown)

Vero Vellini® Scope Cover protects your valuable and important optic while making it easy and fast to remove the cover for a quick shot. This is especially important in cold, wet weather or in the dark. The Vero Vellini scope cover features a unique pull release at the back of the cover that allows for instant one handed removal from the scope. Much the same way, the scope cover goes on easy and fast.

Made using 1/4 inch thick high density neoprene and available in three sizes:

- V20061** Small for objective lenses up to 36mm
- V20062** Medium for objective lenses up to 44mm
- V20063** Large for objectives to 60mm.
