An all-purpose sporty watch that's especially helpful for watersports, thanks to its water resistance to 100 meters (330 feet), the Timex T77517 Atlantis features a silver watch polyurethane case with black resin top ring and silver stainless steel strap with black highlights. Timekeeping features include a 100-hour chronograph with lap or split option, 99-lap counter, 100-hour countdown timer, alarm, and second time zone display with date. It also offers a 5-year battery life. The Indiglo night-light uniformly lights the surface of the watch dial using patented blue electroluminescent lighting technology. It uses less battery power than most other watch illumination systems, enabling your watch battery to last longer. The Night Mode feature allows you to illuminate the Indiglo night-light for 3 seconds with any button press, regardless of the mode or function.
